of Valuable and Worthless Securities
VOLUME VIII — 1941

INCLUDING

ROBERT D. FISHER MINING MANUAL
VOLUME II — 1941

SECTION ONE
VALUABLE AND WORTHLESS SECURITIES

Showing little-known dormant and inactive companies, and those which have been reorganized, merged, liquidated or dissolved; corporations that have revived their charters, and information establishing the year securities became worthless. In addition the book contains the actual liquidating or decree values of supposedly worthless securities, companies in liquidation and securities that have matured or were called, but which have not been presented for collection, and/or information showing that the securities may have some equity or exchange value.

SECTION TWO
MINING MANUAL

Showing the names and addresses of the companies and their officers, capital stock, earnings and dividends, companies acquired whose outstanding securities have a cash or exchange value, location of properties, development, equipment, products mined, production, and reports on worthless mining securities.

Preface

THE purpose in the preparation of this work is to provide an efficient service on Valuable and Worthless Securities and to continue the traditions of Marvyn Scudder & Company, Inc.

The first edition was published in 1926 by the late Marvyn Scudder. Because of the enthusiastic reception given the book, another edition, Volume II, was published in 1928, Volume III in 1930, Volume IV in 1934, Volume V in 1937, and Volume VI in 1938. There are approximately 100,000 different corporations in each of the first three volumes; and 250,000 additional corporations in Volume IV, together with an Index to the first three volumes; and 200,000 additional corporations in Volume VI, which, when issued in 1938, also included a reprint of Volume V in its entirety.

The six volumes, listing approximately 750,000 different corporations, none of which is duplicated in any of the various volumes, represent the most extensive and voluminous record of its kind ever published.

It has been my desire to improve and make each edition the foremost of its kind in the field. With this in mind I added to Volume VII the most complete Mining Directory of its kind ever published.

The 1941 Edition, like the 1940 Volume, contains two sections.

Section I contains primarily information on securities that have liquidating values and their sources of collection. The book also lists reports on securities that are worthless.

Section II contains the most complete mining book ever published. The products mined are arranged in alphabetical order. After each product, the states are listed in alphabetical order where that particular product is mined. After each state the mining companies are listed in alphabetical order that mine that particular product. In addition, there is an alphabetical index.

The Mining Manual, Section II, was conceived because of a long felt need for information of this character. Over a period of years I found that most of the inquiries received concerned stocks and bonds of mining companies. To determine the real value of these securities considerable research is necessary in each case in order to ascertain whether or not the companies hold any mining claims. To facilitate this work I compiled a record of practically every type of mining property in the United States, Alaska and Canada containing minerals ranging from Alabaster to Zircon. The information is based on current official records obtained from County Treasurers, showing companies listed on the Tax Rolls, State and Territorial Reports, University Surveys, Records from the Secretaries of various States, and Canadian Mining Reports. The State and University Surveys contain primarily information on active mining companies, while the records obtained from the County Treasurers list only the companies that own property. By checking these records one against the other a more complete list has resulted, because companies that are actively operating mining claims may only lease the property and therefore do not appear on the Tax Rolls.

Grateful acknowledgment is made to the Staff of the Marvyn Scudder Financial Library, Columbia University, for their assistance and cooperation.

The 5% bonds dated Jan. 1, 1908, and due 1958, were paid by the Bankers Trust Co., New York City.

Ad Strap Company. N. Y., 1926.

Adams-McGill Co., Ely, Nev. First 7½% Bonds due 1925-1937 received four payments in liquidation totaling 30%. Collect on unstamped bonds from Bank of California, San Francisco, Cal.

Addograph Company. Incorporated in California on April 17, 1911, and the principal office of the company is located at 702 Ferguson Bldg., Los Angeles, Cal., according to the Dept. of State of California's letter to us, dated March 26, 1940. We were also informed that the corporation is in good standing to date with respect to payment of the state taxes. The incorporators were: A. R. Jones, R. J. Stephenson, C. V. Gardner, Geo. P. Merritt, all of Santa Maria, Cal.; M. C. Crawley, San Francisco. We found no market for the stock. We suggest that you write to one of the above officers or the Better Business Bureau of Los Angeles.

Adirondack Investors, Inc. It was reported that the company paid a liquidating dividend of $5.00 per share. The stock should be sent to the company, whose last address was 120 Broadway, New York City.

Advance-Rumley Company. See Bankers Trust Co., New York City.

Advance-Rumley Corp. A final liquidating distribution of $2.78 was declared today on the common stock of the Advance-Rumley Corp., once a prominent Midwestern manufacturer of farm machinery whose dissolution was decided in Oct., 1935. The payment is payable at the New York Trust Co. on July 20, 1938, upon surrender of certificates of stock for cancelation. Advance-Rumley Corp. and predecessors manufactured farm machinery since Civil War days in La Porte, Ind. After a period of lean years, its fate really was determined in 1931 when the Allis-Chalmers Manufacturing Co.

bought nearly all the assets except certain real estate, stock and the plant at Battle Creek, Mich. The final liquidating payment was forecast in the 1937 annual report and is made possible by the conversion of remaining Advance-Rumley Corp. assets into cash. At the end of 1935 a liquidating dividend of $1.00 in cash and one-half share of Allis-Chalmers stock was paid.

Aero Alarm Co. Approximately $600,000 in cash was available for distribution to the holders of the company's Coll. Trust 7% Bonds Series "A", "B", and "C", it was reported by Smith, Camp & Riley, Ltd. The properties were sold to the National District Telegraph Company, a subsidiary of the Western Union Telegraph Company.

Aero Underwriters Corporation, Room 1802, 150 William St., New York City. Liquidating dividends paid by company: March 7, 1932, $11 per share; July 12, 1932, $2.50 per share; June 5, 1934, $4.00 per share; July 9, 1936, $1.50 per share; Oct., 1936 (final), 31c per share.

Aetna Explosive Co. Stock believed to have a liquidating value. Company merged with Hercules Powder Co. Holders of Certificates of Deposit for stock issued by J. S. Bache & Co., 36 Wall St., New York City, should present them to Bache for their pro rata distribution due thereon.

Affiliated Products, Inc. Assets sold to American Home Products Corp. One share of new stock for each 5 shares of old stock.

Agawam Canal Company. The Commonwealth of Massachusetts, Co. of Hampden, Office of Clerk of the Courts, Springfield, Mass., informed us as follows on March 24, 1941: "The case 72-Henry K. Baker, et als., Petrs., for dissolution of 'The Agawam Canal Co.' was entered in the Supreme Judicial Court of Hampden Co. on June 6, 1888, and the decree of dissolution entered on April 28, 1891. No mention was made, or provision, for the stockholders in this decree."

Agfa Ansco Corporation. See City Bank Farmers Trust Company, New York City.

Agricultural & Mechanical Association of Washington County, Md. The E. C. Hook Corporation of Hagerstown, Md., informed us as follows on May 21, 1940: "The above Association operates a local County Fair annually in Hagerstown. The stock has never paid a dividend, and inasmuch if the Association were ever to declare and pay a dividend, they would forfeit the State aid which they have been receiving, we do not believe a dividend will ever be paid. At the present time we will pay $25 a share for a very limited amount of stock."

Aiken Tow Boat & Barge Co., Pensacola, Fla. First 6's received $34.91 per $1,000 bond, payable at Trustee named in bond. Property sold 1932.

Air Devices Corp., Meriden, Conn. Changed name to Connecticut Telephone & Electric Corp.

Airline Feeder System, Inc. (New Jersey). Went under 77B in April, 1938. Adjudicated a bankrupt on June 17, 1940. Abraham K. Weber, attorney, at 84 William St., New York City, we believe, was attorney for the Trustee.

Airstocks, Inc. Final liquidating dividend of $47.176 per share payable on and after March 3, 1930, to holders of record Feb. 28, 1930, upon surrender for cancelation at the National City Bank, New York City, attention, at organization department.

Ajax Rubber Co., New York City. First 8% unstamped bonds due 1936, have a liquidating value of $84.7817 per $1,000 bond, Collect from the Chase National Bank, New York City.

Akron, Canton & Youngstown Railway. The reorganization plan as reported by the Interstate Commerce Commission and recommended by the Special Master was approved by Judge Jones in the Federal Court, Cleveland, Ohio, according to reports published on Oct. 29, 1936.

Akron Glass & Machinery Company. Value of capital stock dated 1902. Incorporated in Ohio on Jan. 11, 1901, and was located at Akron, Ohio. The corporation was legally dissolved on Oct. 3, 1911. No records are now available regarding the subject corporation. We searched our files back to 1901 and found no record of this company's operations nor any value to the stock. The shares in our opinion are without value.

Akron Glass and Machinery Company. Supplementing our previous report on this company, the First-Central Trust Company of Akron, Ohio, informed us on Oct. 29, 1940, that they finally located a party who advised them that according to his memory the company was dissolved about 1911, and there was nothing left for the stockholders. This party stated that he was one of the stockholders and should be well informed.

The Fidelity-Philadelphia Trust Company of Philadelphia, Pa., holds unclaimed funds in the amount of $1,000 per each $1,000 First Mortgage 5% Bond which matured on July 1, 1930, that have not been presented for collection. The funds unclaimed have been or will be paid in the near future to the Treasurer of the State of Pennsylvania, Harrisburg, Pa., under the escheat laws of said state.

Allentown Trust Company, Allentown, Pa. The Allentown Trust Company was closed on June 17, 1932, and is now in liquidation for the benefit of depositors and shareholders after depositors have been paid in full. To date distributions to depositors have been made to the extent of 36% of the total deposits and, while it is impossible for us at this time to know how much will be realized in the future on unliquidated assets, we question whether any distributions will ever be made to shareholders, since only 36% of 100% has been made to date to depositors. (8/5/1940)

W. Latimer for M. S. Altemose, dated Oct. 12, 1937. The First Mortgage 7% Bonds due 1937 have a decree value of $178.085 per $1,000. The funds were paid by Charles F. Lynch, Special Master, Prudential Bldg., Newark, N. J. The unclaimed funds were probably paid into the U. S. District Court at Newark. We received the following letter from the Protective Committee for the Holders of American Bolt Corp., First Mortgage Sinking Fund Gold Bonds 7% due Dec. 1, 1937, Lewis Bldg., Philadelphia, Pa., signed by Richard M. Newnham, Secretary, and dated Dec. 2, 1937: "This Committee is attempting to liquidate the affairs of the American Bolt Corp. At the present time the assets consist of a small amount of cash and a waterfront property located in Detroit, Mich. Every effort has been made to dispose of this property, but as yet no fair offer has been received. When the property can be sold it is the Committee's intention to pay out the proceeds to holders of certificates of deposit, thereby winding up the affairs of the corporation."

American Bolt Corporation. The Protective Committee reported on April 25, 1941, as follows: "To the Holders of Certificates of Deposit of American Bolt Corporation First Mortgage 15-Yr. 7% Sinking Fund Gold Bonds: The Bondholders' Protective Committee for American Bolt Corporation First Mortgage 7% Sinking Fund Gold Bonds has authorized the Depositary to distribute to the holders of all Certificates of Deposit of said bonds a final liquidating cash payment of 7.385% on the principal amount of all outstanding Certificates of Deposit. This distribution represents the net cash proceeds from the sale of the Detroit property, together with other cash held by this Committee, and after this final distribution this Committee will hold no more assets and will dissolve. A statement of the receipts and disbursements of this Committee has been filed with the Depositary. The holders of the Certificates of Deposit, in order to receive this payment, are requested to mail their certificates to the Fidelity-Philadelphia Trust Company, 135 South Broad Street, Philadelphia, Pa., Depositary, which will cancel said certificates and return its check for the amount of said final payment. There is enclosed herewith letter of transmittal to be used in forwarding your certificates to the Depositary. Kindly follow the instructions printed on this transmittal letter. This payment should not be returned as taxable income."

American Bond & Mortgage Company. See City Bank Farmers Trust Company, New York City.

American Brass Co. Acquired by Anaconda Copper Mining Co. At last accounts the Trustees held $750 in cash and certificates representing 3 shares of Anaconda stock for each share of American Brass. The exchange could be made at the Chase National Bank in New York or the Colonial Trust Company of Waterbury, Conn.

Stock should be sent to J. P. Morgan & Co., New York City, for exchange.

American Bronze Corporation. The American Non-Gran Bronze Corporation, located at Berwyn, Pa., informed us as follows on Dec. 24, 1940: "We have your favor of Dec. 20th, and in reply regret to advise you that to the best of our knowledge the stock of the American Bronze Corporation has no value whatsoever. All assets of the organization were sold under bankruptcy proceedings at sheriff sale in 1925 and since that date the officers of the company have entirely dispersed and their whereabouts are unknown. The present organization, aside from having purchased the property, trade names, patent rights, good will, etc., has not nor ever has had any connection with the American Bronze Corporation."

American Business Corporation. Incorporated in Delaware on Nov. 1, 1919, and lost its charter in 1923. Mr. George A. Burnell, former V.-Pres. of the company, located at 1 Exchange Pl., Jersey City, N. J., informed us on April 3, 1941, as follows: "In reply to your letter of the 1st, from the information contained therein, the writer recalls that there was a corporation such as the above but at that time I was performing some auditing work on another corporation. I have no recollection of having been elected a vice-president of the Corporation and as I was there only a short time do not know what became of the Corporation nor the people who formed it. I cannot say whether there is any value to the stock for the reasons stated." We found no value to the stock.

American-Canadian Properties Corporation. The Bankers Trust Company of New York City, as dividend disbursing agent for the corporation, distributed a further liquidating dividend of 80c per share, payable Sept. 20, 1939, to holders of record of Sept. 11, 1939. A dividend of 50c was paid Feb. 9, 1939; 15c, Dec. 23, 1938; and 25c, Feb. 15, 1937.

American Candy Co. On July 29, 1939, it was reported the company paid a liquidating dividend of $7.00 per share on June 20, 1939, to holders of record of June 5, 1939.

American Carmel Co. See Industrial Trust Company, Providence, R. I.

American Central Railway Company (Illinois). Mr. C. I. Sturgis, care of the Chicago, Burlington & Quincy Railroad Company, located at 547 West Jackson Blvd., Chicago, Ill., informed us some time ago that his company would pay some nuisance value for the stock in order to get it out of the market.

American Cities Company. The 5-6% Coll. Trust Gold Bonds, issue of July 1, 1911, have a liquidating value of $450.20 per $1,000 bond. Unstamped bonds should be sent to the Whitney National Bank, New Orleans, La., for collection.

American Colonial Bank of Porto Rico. See City Bank Farmers Trust Company, New York City.

American Commercial Alcohol Corporation. See City Bank Farmers Trust Company, New York City.

American Commonwealth Power Corp. Incorporated in Delaware on Jan. 18, 1927, as a holding company. On Dec. 31, 1931, the Chancery Court at Dover, Del., appointed receivers for the corporation. The receivers took possession as of Jan. 2, 1932. In June, 1934, the court approved the plan for distribution of the company's assets whereby they were transferred to a new company, Commonwealths Distribution, Inc. The creditors, including debenture holders, received 1 share of new stock for each $100 of claims. There was no provision made for the capital stock which is without value. Therefore, we submit the $6.50 1st Preferred Stock as worthless. Exchange made by Delaware Trust Company, Wilmington, Del.

American Commonwealth Power Corp. In June, 1938, funds were available at the Farmers Bank, Wilmington, Del., to make a distribution of $3.623 per $1,000 5½% Debenture Bond due 1953. Debenture 6's of 1940 received $3.659 per $1,000 bond. The Series A 6's of 1952 received $3.677 per $1,000 bond.

American Community Power Co. 5½% Gold Debenture Bonds due 1953. Undeposited bonds should be presented to the City Bank Farmers Trust Co., New York City, and receive $159.78 per $1,000 bond. See City Bank Farmers Trust Company.

American Community Power Co. The 5½% bonds due 1931 received the following payments in liquidation: $198.11, $70, $1.10 and 2½ shares of common stock of General Public Utilities, Inc., for each $1,000 bond. Exchange made at Central Hanover Bank & Trust Company, New York City.

American Controlled Oilfields, Inc. Incorporated in Maryland and lost its charter in 1931. The former resident agent of the corporation was J. Bannister Hall, Jr., Calvert Bldg., Baltimore, Md. The last known address of the corporation was 150 Broadway, New York City. Letters addressed to Mr. Hall were returned. Our records indicate that the corporation held leases in Anderson Co., Kans., in 1925 and 1926. We found no record of the company after that date. Apparently the company could not operate profitably and went out of business. We found no value to the stock and therefore believe the shares are without value.

American Cotton Co. The 6% Debenture Bonds due 1905 have a liquidating value of $20.40 per $1,000 bond. Unstamped bonds should be sent to the Central Hanover Bank & Trust Company, New York City, for collection.

American Cotton Fabric Corp. The preferred stock has a liquidating value of $101.75 per share. Collect from the Guaranty Trust Company, New York City.

American Cotton Oil Co. Stock should have been deposited with the First National Bank of New York City, before Nov. 26, 1923, for exchange for stock of the Gold Dust Corp. We suggest your consulting the company or ourselves regarding any outstanding shares.

American & Dominion Corporation. Purchased the American Utilities & General Corporation in April, 1932. The American & Dominion Corporation went bankrupt in 1933. Therefore the shares of both companies are worthless.

American Druggists Syndicate. Merged into Vadsco Sales Corporation in 1928. American Druggists Syndicate received 1/25th of a share of preferred and 6/10th of a share of common of Vadsco for each share held. Vadsco is listed in New York. American Druggists is quoted at 1⅛ bid.

American Electric Power Corporation. Stock worthless. The bonds received 1 share of stock of Penn-Western Gas & Electric Company for each $100 bond.

American Enameled Brick Corp. See American Enameled Brick & Tile Company.

American Enameled Brick & Tile Company. Wright, Long & Company, accountants, located at 11 Broadway, New York City, informed us on April 9, 1940, that the American Enameled Brick Corporation, successor to the above, ceased to do business during the year 1934 as a result of foreclosure proceedings instituted against it. The property was taken over by the mortgagees. No assets were left for unsecured creditors or stockholders in the final liquidation of the company. The company was dissolved early in 1935. The mortgagees formed a company known as the South River Factory Corporation to which company they transferred the property acquired. The insurance money received was short of meeting the debt owing to the mortgagees.

American Equitable Assurance Company of New York. See City Bank Farmers Trust Company, New York City.

American Exchange National Bank, Detroit, Mich. Merged in 1911 with the Old Detroit National Bank, and on Oct. 1, 1917, the Security Trust Co. of Detroit, agent of the liquidating committee paid $6.00 per share in liquidation. Three other payments of $25 each were made. It was expected at the time the last payment was made that a further dividend would be paid.

American Fiduciary Corporation. It was reported on Sept. 2, 1939, that the claim of the corporation for $1,950,000 against the Bankers Capital Corporation was allowed in full. The claim was pressed by the First National Bank of Bridgeport, Conn., as Receiver for the American Fiduciary Corporation in the bankruptcy proceedings of the Bankers Capital Corporation.

American Forge & Machine Co. The 7% Deposited Bonds due 1937 received $46 per $1,000 bond in liquidation. The undeposited, unstamped bonds received $50.49 per $1,000 bond. Unstamped certificates of deposit and bonds should be sent to the Union Trust Company, Cleveland, Ohio, for collection.

American Gyro Company. Incorporated in Colorado and is not in good standing. The last annual report filed on May 3, 1937, named M. C. Homer, Secy., 218 Denham Bldg., Denver, Col.

American Hominy Co. First Mortgage 7% Bonds due 1923-1929 have a decree value of $594.33 per $1,000 bond. Unstamped bonds should be presented to the Bankers Trust Company, New York City, for collection.

American I. G. Chemical Corp. Changed name to General Aniline & Film Corp.

American International Corporation. See City Bank Farmers Trust Company, New York City.

American Malt Co. The reorganization department of the Guaranty Trust Co., New York City, will deliver common and preferred stock of American Malting Co. for Certificates of Deposit of American Malt Co.

American Malt & Grain Co. Stock has a liquidating value of $13 per share. Collect from the Guaranty Trust Company, New York City.

American Malting Co. Acquired by American Malt & Grain Co. The first preferred stock received a dividend of $30 per share on June 5, 1919. A second dividend was paid on June 23, 1919. Non-subscribing certificates of deposit received about $55.20 per share. Mr. H. S. Webster of the Guaranty Trust Co. of N. Y., informed us on March 24, 1937, as follows: "It would appear from our records and the information given in your letter that the certificates are all dated subsequent to Dec. 13, 1915, and it is our understanding that certificates for common stock of American Malting Co. issued subsequent to that date are without value. For your information we advise that during the year 1919 the American Malting Co. was placed in dissolution and its assets in the form of cash were distributed by us, as Agent for the liquidating trustees, to the First Preferred, Second Preferred and Third Preferred stockholders and holders of old preferred and common stock issued prior to the amendment of the company's certificate of incorporation (on or about Dec. 13, 1915). The preferred stock had priority over the common stock as to assets and dividends. As the assets of the American Malting Co. at the time of distribution were not sufficient to pay the preferred stockholders in full there was no distribution made to the common stockholders.

American Manganese Manufacturing Co. The Second General Dunbar 6% Mortgage Bonds, due July 1, 1924, received $37.83 per $1,000 bond from the sale of the company's property at Receiver's sale. Unstamped bonds should be presented to the Fidelity-Philadelphia Trust Company, 135 S. Broad St., Philadelphia, Pa., for collection.

American National Bank of Atlanta. Stockholders netted $210 per share in merger with Atlanta National Bank.

American National Bank, Dayton, Ohio. Paid about $50 per share in liquidation. We refer you to the City National Trust & Savings Bank of Dayton, Ohio, regarding any unpaid stock.

American Oil Engineering Corporation. Incorporated in Delaware on Aug. 28, 1919, and lost its charter on March 16, 1927. Mr. H. Hobart Porter, formerly Pres. of the company, located at 50 Broad St., New York City, informed us on Oct. 3, 1940, that to the best of his recollection the company went out of business many years ago. Mr. Porter could not give us any further information. Chadbourne, Babbitt & Wallace of 14 Wall St., New York City, were the company's counsel. It would appear that the Subscription Receipt is without value.

American Oriental Company (Maine.) At last accounts there were 249 shares of preferred stock outstanding that have a liquidating value of $18.44 per share. Collect from Charles D. Booth, 57 Exchange St., Portland, Me., or the Supreme Judicial Court of Maine, Portland, Me.

American Overseas Mining Investment Corporation (Delaware). See Chosen Corporation, Limited.

American Paper Products Co., St. Louis, Mo. It was reported that the assets of this company were sold to Dixon Broad Mills, Inc., in May, 1926, and that holders of the First 7% Bonds due 1937 would be paid in full either in cash or new securities. The St. Louis Union Trust Company, of St. Louis, Mo., was Trustee.

American Patent Protection Corporation News York.) Went out of business about 1933 or 1934.

American Patents Development Corporation. Incorporated in Delaware and we were informed by Mr. Lester Burdette, located at 551 Fifth Ave., New York City, that the company paid a first and final liquidating dividend of 85c per share in 1935 and went out of business.

American Publishers Corp. Property foreclosed 1899. First mortgage bondholders received $61.63 per $1,000. First 5% Bond due 1946. Unstamped bonds should be presented to the Bankers Trust Co. of New York City for collection.

American Railways Company. The National Gas Coll. Trust 5% Bonds due 1927 were called on Mar. 1, 1925, at 102½ and interest at the Bank of North America & Trust Company, Philadelphia, Pa.

American Rapid Telegraph Co. Bondholders received $265.55 per $100 bond in liquidation. The company's property was sold to the Western Union Telegraph Co.

American Real Estate Company. Incorporated in Rhode Island and liquidated many years ago under the supervision of the United States District Court for the Southern District of New York. The bondholders received eight payments of 5% each, totaling 40% in liquidation, said payments were endorsed on each bond. About 1930 or 1931 the Court ordered the unclaimed 40% to be distributed pro rata among the holders that made claim. A final distribution of 2½% representing the unclaimed funds, was mailed to bondholders of record, leaving the bonds without further value. Unstamped bonds are now worthless.

American Road Machinery Co. The common stock of this company is without value as the bonds were not paid in full. Unstamped bonds should be presented to the Chase National Bank, New York City, for collection.

American Round Bale Press Co. The First 6% Bonds received $22.4699 per $100 bond in liquidation. Unstamped bonds should be presented to the Manufacturers Trust Company, New York City, for collection.

American & Scottish Investment Co. (Del.) The 5½% Series A Bonds due 1939 received 7% in liquidation. Unstamped bonds should be presented to the First National Bank of Chicago, Ill., for collection.

American Securities Investment Trust. See National Shawmut Bank, Boston, Mass.

American Security & Trust Company, Washington, D. C. Reported on May 5, 1941, that they, as substitute Trustee, are holding unclaimed funds for the following: **Hamilton Hotel.** First Mortgage 6½% Bonds due 1942.

We are making distribution on these bonds with funds obtained as a result of the foreclosure sale at the rate of $38.90 per $100 bond. This sum includes the interest due Jan. 6, 1931 and it is, therefore, necessary that the coupon due on this date be attached to the bonds. In your letter you stated that the July, 1931, and subsequent coupons were attached to the bonds in question. Therefore, it will be necessary that we deduct from the distribution the face value of the missing Jan. 6, 1931 coupons. Kindly forward the bonds direct to the Trust Department of this company.

American Seeding Machine Co. We received the following letter from John M. Cole, of Cole and Hodge, Attorneys, located at Springfield, Ohio, dated Feb. 17, 1939: "Answering yours of Feb. 14th, we have to advise that exchanges of American Seeding Machine Company stock for shares of the Oliver Farm Equipment Company, on the occasion of the 1929 merger, were handled by Central Trust Co. of Cincinnati, Ohio. However, with regard to American Seeding Machine Company preferred stock, it was all duly exchanged by consent of holders for an equivalent amount of the then Oliver Convertible Participating Stock, except as to shares of certain dissenting stockholders, who litigated throughout all the Courts, including the Supreme Court of Ohio, to get part cash and accruals for their shares; and they won. The result of this litigation is that the Ohio Supreme Court made an order upon our Company to sell all the remaining Oliver shares in our treasury, and theretofore held as allocable to exchange with American Seeding Machine Company common shares, for the purpose of paying off the dissenting preferred shareholders under this order. The result of this is that because of such court order there will be no transfer or distribution on account of the outstanding common shares of our company."

American Snuff Company. See City Bank Farmers Trust Company, New York City.

American Solvents & Chemical Corp. The 6½% Debendure Bonds due 1936 received $220.0125 per $1,000 bond in liquidation. Unstamped bonds should be presented to the Chase National Bank of New York City for collection. The 6% Debenture Bonds received $218.587 per $1,000 bond. Collect from the National City Bank, New York City.

American Speaking Telephone Co. The stock has a liquidating value of $267.54 per share. Collect from the Western Union Telegraph Company, New York City.

American Star Line Co. We understand that this company guaranteed the First Mortgage 7% Bonds due 1922 of the Newfoundland Maritime Co., Ltd. The Royal Trust Company, of Montreal, Que., was Trustee. The Trustee apparently holds funds for the unstamped bonds.

American Strawboard Co. It was reported that $1,000 was paid on each $1,000 bond by the Fidelity Trust Company of Baltimore, Md., and that other payments would be made in the future. The other payments were probably on account of interest.

American Sumatra Tobacco Co. Some time ago it was reported that payments totaling 75% had been paid on the 7½% note issue. Probably other payments were made. Unstamped bonds should be sent to the Chase National Bank of New York City for collection. We also suggest you consult Chase regarding other payments. Each 100 shares of old common received 45 shares of common stock of the American Sumatra Tobacco Corporation, plus dividends. The Chemical Bank & Trust Company of New York City acted as transfer agent for the stock.

American Telegraph & Cable Co. The property of the company was sold to the Western Union Telegraph Company in March, 1931, at which time the company was dissolved. The stockholders received a final liquidating dividend of $14.75 per share, and agreed to pay dissenting stockholders quarterly dividends of $1.25 per share up to the termination of its lease on June 1, 1932

American Telegraphone Company. Millan & Smith, Attorneys, located at 900 F. St., N. W., Washington, D. C., informed us as follows on May 4, 1940: "Mr. W. W. Millan, the former receiver, died on Sept. 23, 1937. When he took over the assets of the company, it was in debt. Its assets consisted of a small factory in Springfield, Mass., opened originally, the writer supposes, to manufacture telegraphones. That business was not successful and the plant took up the manufacture of universal joints. Mr. Millan got the company out of debt and at the time of his death he had some cash on deposit in one of the banks in this city. The plant in Springfield was sold something like three years ago under Court order. The assets of the bankrupt corporation now consist of approximately $55,000 in cash. On Dec. 7, 1938, Arthur C. Elgin of this firm was appointed substitute receiver. It is my opinion that the stock has no value. There are over 17,000 stockholders. The case has been in Court for many years and the expenses will probably absorb most of the cash."

American Terminals & Transit Co. It was reported on Dec. 16, 1939, that the promoters of the company received jail sentences in connection with sale of the company's stock.

American Transportation Co. The company, at last accounts, was located at 17 State St., New York City, and has paid 71% in liquidation on the stock. It was reported that probably more would be paid.

American Trust & Savings Bank, Chicago, Ill. Changed its name on Aug. 1, 1910 to Continental and Commercial Trust and Savings Bank. The latter bank is now part of the Continental Illinois National Bank and Trust Company of Chicago, Ill.

American Tube & Stamping Company. There are about 50 shares of common and preferred stock outstanding that can be liquidated at $14.34 per share. Present to the First National Bank & Trust Co. of Bridgeport, Conn., for collection. It was also reported that The Stanley Works of New Britain, Conn., assumed payment of the company's 5% and 8% bonds. We also understand that the above bank made a payment of $642.91 on each $1,000 Note with April 1, 1926 coupon attached; and $620.36 on each $1,000 Note with Oct. 1, 1926, coupon attached.

American Type Founders, Inc. See City Bank Farmers Trust Company, New York City.

American Uniform Co. (Del.) Succeeded by Burton Uniform Co., located at 65 Madison Ave., New York City. We understand that the common stock of the American Uniform Co., if presented to the successor company, will receive a liquidating dividend of 23c per share.

American Union Fire Insurance Company. According to our records this company was dissolved as insolvent in March, 1913. The Commonwealth of Pennsylvania, Liquidation Division, Insurance Dept., 10th floor, Otis Bldg., Philadelphia, Pa., informed us on Oct. 16, 1940, that the Liquidator of the American Union Fire Insurance Company made a distribution of 74¼% and on Dec. 3, 1928, escheated to the Commonwealth of Pennsylvania the balance of the money remaining in his possession, namely, $5,934.38. We have been unable to this date to find out if the distributions were made to stockholders. Apparently they were made to policyholders, but suggest that you contact the Escheat Division for this confirmation.

American Utilities Co. On June 18, 1936, the District Court of Delaware at Wilmington, approved the plan of reorganization for the company, and on June 25th confirmed the plan. It was reported that preferred stockholders would receive $2.00 per share and common $1.00 per share.

American Veterinary Hospital. See City Bank Farmers Trust Company, New York City.

American Water Works Co. (Illinois.) Mr. T. C. Woodbury, former Pres. of the Omaha Water Co., who resides at South Orange, N. J., informed us on March 27, 1930, that when the City of Omaha purchased the Omaha Water Co., the bonds were paid at $105, the first preferred stock at par, and the second preferred stock received about 66⅔%, leaving no equity for the common stock which is without value. Therefore, it would appear that the certificates of deposit pertaining to common stock of Omaha Water Company are without value.

Americus, Preston & Lumpkin R. R. It was reported that the bonds of this company dated Feb. 16, 1885, and Aug. 25, 1886, were paid by Hambleton & Co., of Baltimore, Md.

Avoca, Incorporated. Incorporated in Louisiana on Oct. 24, 1931, and is located at P. O. Box 1260, New Orleans, La. Mr. Charles W. Fox, President of the company, informed us as follows on Dec. 16, 1940: "We have for acknowledgment your letter of the 12th, and in reply would say that the company is still in existence and for your information I would advise that the company was formed some years ago and is a holding company for certain real estate in St. Mary Parish, near Morgan City, La., which is about 100 miles west of New Orleans. At the time the company was formed, there was an outstanding Drainage Bond Issue which had defaulted and the real estate had been transferred through a receiver sale. Some time after the sale, the land owners and the Committee for the Drainage Bond Issue conferred and it was decided that the Committee would surrender the land, and form Avoca, Incorporated. The bondholders received for their holdings one share of Mineral Liquidation Stock with a par value of not more than $500 and one share of common stock with no par value, land owners accepting common stock for their holdings. In addition to the Mineral Liquidation and Common Stock, there is a small issue of Preference Liquidation Stock of 225 shares with a par value of $100. This stock was issued to the Bondholders Committee in return for certain expenses they had incurred and as the stock indicates the first returns from Minerals will be given to the Preference Liquidation Stock for the amount of the issue, viz. $22,500. Then the ex-Drainage bondholders will next participate until all of the Mineral Liquidation Stock is paid in full and the common stockholders will participate after the Mineral Liquidation Stock has been liquidated. The holdings of the company comprise about 16,000 acres of land, the greater part of which is overflow land. Up to the present time there has been very little agricultural pursuits carried on. The present land in cultivation comprises about 500 acres planted in rice. In addition there is a mineral lease outstanding, held by one of the major oil companies, and they have until the early part of the coming year to make a geophysical survey and to decide whether they will renew the lease, or commence drilling. There is also a hunting and shooting lease outstanding, the returns from which are a little more than enough to take care of taxes. Our principal hope for the future is from oil production. The company is operated without any expense other than attorneys' fees and taxes, the officers and directors serving without any remuneration whatsoever. The stock is not listed and, as far as I know, there is no market for it."

B

Bachelor Mining Co. (Colorado). Mining properties were sold for $50,000 which was paid and distributed to stockholders with the exception of a very small amount of cash which was held for the purpose of paying fees. There are 100,000 shares outstanding and if anything is left after paying expenses the amount will be a small fraction of one cent per share. Dines, Dines & Holme, of Denver, Col., will make the final payment, if any.

Bankers Loan and Investment Association. Value of Class "C" Stock, No. 2783 in the Name of Ben Kennan. Mr. Thomas J. Supple, Liquidation Bureau, 366 Broadway, New York City, informed us on Oct. 22, 1940, that 8 dividends amounting to 48% have been paid in liquidation on the above certificate. The company's only remaining assets consists of real estate, and Mr. Supple has no idea whether the real estate will be sold for 50% of its value or less. On this basis it is almost impossible to determine the value of the stock at this time. Mr. Supple stated that for estate tax purposes a value of $10 per share would be a fair value for the stock at this time.

Bateman & Companies, Inc. The Chase National Bank of New York City informed us as follows on March 20, 1940, regarding the First Mortgage Bonds dated March 18, 1921. Assuming that the bonds in question are First Mortgage 8% Sinking Fund Gold Bonds of Bateman and Companies, Inc., issued under the above mortgage, we advise that funds were deposited with The Equitable Trust Company of New York, Trustee under the said mortgage, to make a first distribution at the rate of $.3029318 per dollar of principal amount of said bonds, which funds represented a pro rata distribution of the proceeds of mortgaged properties. All of the funds of this first distribution have been dispersed. We advise that we hold funds to make a payment on said bonds at the rate of $.247 per dollar of principal amount which payment is made upon presentation to us for appropriate endorsement of the bonds with the March 18, 1922, and subsequent coupons attached. This second and final distribution represents the pro rata distributive share due thereon out of moneys received by The Equitable Trust Company of New York, Trustee under the above mortgage, as a final dividend paid by the Receivers of Bateman and Companies, Inc., in the receivership cause in the Court of Chancery of Delaware.

Bates Valve Bag Corp. Stockholders voted to dissolve company in March, 1929. Belle Mead Development Company, a Delaware corporation, located at 162-09 7th Ave., Whitestone, N. Y. Jersey City, June 25—The Borough of Rutherford yesterday was granted permission by Vice Chancellor Charles M. Egan to deposit $4,600 in Chancery Court to be distributed to claimants in connection with the borough's acquisition of an ash dumping site. Last year the Mayor and Council by ordinance voted to acquire unimproved low lands from the Belle Mead Development Company, a Delaware corporation, with an office at 162-09 7th Ave., Whitestone, N. Y. Condemnation commissioners were appointed in the State Supreme Court upon application of the borough and the commissioners eventually decided the land sought was worth $4,600. The borough was prepared to pay the money but it is uncertain as to whom it should be paid because the corporation is outside New Jersey and the property involved is encumbered by two mortgages and a right of way agreement. The court was asked to take over the money and pay it out when claims to the money are properly established in Chancery Court. Vice Chancellor Egan directed the borough to notify claimants or any other interested parties that the money has been deposited in court for distribution. Oliver T. Somerville appeared as attorney for the borough. The Chancery Court referred to is located at Trenton, N. J.

Birmingham, Ensley & Bessemer Railway Company. We received the following letter from the First National Bank of Boston, Mass., signed by L. W. Parker, Transfer Department, and dated March 16th, 1938: "Replying to your letter of March 14, we hold as successor to American Trust Company bonds and scrip representing First Mortgage 5% Thirty-Year Gold Notes of Birmingham-Tidewater Railway Company for delivery against the surrender of Birmingham, Ensley & Bessemer Railway Company Certificates of Deposit. The new bonds deliverable are at the rate of 50% of the amount of Birmingham, Ensley & Bessemer Railway Company First Mortgage 5% deposited under the Plan of Reorganization of September 15, 1915. There is also a cash payment representing interest July 1, 1916, and Jan. 1, 1917, at the rate of $5.00 for each $100 face amount of the Birmingham-Tidewater Railway Company bonds. It would appear that if your client holds a certificate of deposit in good standing that it should be surrendered to us in accordance with the information above given. As the securities held are in limited denominations it may be necessary that an effort be made to have the securities split, in which event it would appear necessary that Empire Trust Company, the Trustee of Birmingham-Tidewater Railway Company Bonds, be asked if this could be done. We are unable to report as to the present value of Birmingham-Tidewater Bonds. Information to hand indicates that these bonds were paid off and cancelled and it would appear that Empire Trust Company, New York City, the original Trustee, may have handled the payment and could furnish you with information in this respect."

Birmingham, Sheffield & Tennessee River Railway Company. The property of this company was foreclosed in 1895 and was reorganized as the Northern Alabama Railway Company. Black Gold Petroleum Co. The State of Montana informed us as follows on April 10, 1940: "According to the records of this office, Black Gold Petroleum Co. is still in existence as a corporation of the State of Montana. The report filed in this office by this corporation for the year ended Dec. 31, 1939, lists the following officers: President, Paul W. Smith, Vice Pres., R. A. Davidson; Vice Pres., David R. Smith; Sec.-Treas., J. Miller Smith, all of Helena, Mont."

Black Gold Petroleum Company, Helena, Mont. Incorporated in Montana. The company informed us as follows on April 24, 1940: "We are in receipt of your recent letter making inquiry as to the present status of the Black Gold Petroleum Co. and Liquid Gold Oil Company. The Black Gold Petroleum Co. is still a going concern. It has a small oil well and a gas well for drilling, water, camp, rig, etc., and land under lease. The taxes are paid, and the company is in good condition. This spring it leased some of the property for drilling activity. We are watching the developments to see if the lessee gets any action. The oil well has always had small production and to date has never paid a dividend, but in that the little well has produced since it was drilled in around 1928, we draw from that that we must be on oil structure. Only drilling of wells can prove what we have there. The enterprise is, of course, a speculation. The Liquid Gold Company went by the boards. It drilled a dry hole, had a fire and a lot of bad luck, has never done anything since, and the prospects for it are very poor. These properties are located in Northern Montana, in the Sweet Grass Hills Oil Field, just South of West Butte, about 6 miles South of the Canadian Border. You can find this Butte on any well defined Montana map. First find Shelby, on the Great Northern Railway, where Dempsey fought Gibbons, then run your finger northeast toward the Canadian Border on the map, and you will find West Butte. The oil district is known as the Sunburst-Kevin Oil Fields."

Black Steel & Wire Company. The Marine Midland Trust Company of New York City holds $600 to retire $600 of First Ref. Mortgage 6½% Serial Bonds dated June 1, 1926, and due Dec. 1, 1936, at par. The same bank also holds $2,100 to retire the entire issue with maturities through 1941 at 105% of their face value. The issue was called on June 1, 1937.

Blaisdell Coscotitlan Syndicate. 8% Gold Coupon Notes dated April 8, 1912, due April 8, 1922. Final payment under decree Suffolk Superior Court Dec. 20, 1929, of $167.463 on bonds and notes. (Bonds with coupons due April 8, 1915, and subsequent attached; Notes with coupons due April 8. 1914, and subsequent attached.) Payable at the First National Bank of Boston, Mass.

Bleecker Street & Fulton Ferry R. R. Co. See Guaranty Trust Company, New York City.

Bloomington City Railway Co. The First, Second and Third Mortgage Bonds have a decree value of par, 90% and 60% respectively. Collection from the Illinois Trust & Savings Bank, Chicago, Ill., now Continental Illinois Bank & Trust Co.

Blossburg & Corning R. R. This company was consolidated with the Wellsboro & Lawrenceville Railroad Company to form the Corning, Cowanesque & Antrim Railway Company under agreement dated 1872. The agreement contains provisions for exchanging the stock of the old companies for that of the new. We refer you to the New York Central R.R. for further information.

Blue Mountain Iron & Steel Co. Value of First Mortgage 5% Bonds due 1929. We received the following letter from the Chase National Bank, 11 Broad St., New York City, dated March 10, 1938, and signed by Douglas P. Stewart, Asst. Trust Officer: "After Produce Exchange Company (succeeded by this bank through consolidation) as Trustee under a mortgage made by the Blue Mountain Iron & Steel Company, dated Sept. 4, 1899, and a confirmatory mortgage dated Oct. 23, 1899, had taken proceedings in Maryland to foreclose the mortgage, bankruptcy proceedings were started against the Blue Mountain Iron & Steel Company in the United States District Court for the District of Maryland, and that court took upon itself under the federal statutes, to sell all the property of the bankrupt, including that covered by the lien of the said mortgage, to Produce Exchange Trust Company as Trustee and to distribute to bondholders and others the proceeds of the sale of the bankrupt property by the Trustees in Bankruptcy." Any unclaimed funds are probably held by the above court.

Blue Mountain Mining Company. The Provident Savings Bank & Trust Company, of Cincinnati, Ohio, has on deposit unclaimed funds to pay interest on bonds of this company that have not been presented for collection.

Blue Ridge Traction Company (Pa.). The E. P. Wilbur Trust Company, Bethlehem, Pa., informed us on Aug. 9, 1940, that this company is non-existent and the securities have no value.

Boeing Airplane Company. See City Bank Farmers Trust Company, New York City.

Bohemia Mining Co. Paid stockholders a liquidating dividend of $2.10 per share. Company was last located at 85 Devonshire St., Boston, Mass.

Bolivia-Brazil Rubber & Timber Company. Incorporated under the laws of the State of Arizona on Feb. 7, 1916, and has failed to file reports since 1919. The company's charter was revoked on Sept. 20, 1927. I found no value to the stock and therefore believe the shares are worthless.

Mr. Brander informed us on April 5, 1940, that the company is doing about $200 worth of business per month, but it is not sufficient to show a profit. Until sufficient financing is received the stock will only have a problematical value. The shares have no value at this time, nor on Dec. 10, 1939.

Brazos Oil Corporation (Del.). Acquired by Darby Petroleum Co. Stock is exchangeable at the Bankers Trust Company, New York City, on the basis of 2 shares of Brazos for 1 share of Darby.

Brazos River Channel & Dock Company. The 6% Mortgage Bonds due April 1, 1909, have a decree value of $9.122 per each $1,000 unstamped bond, payable at the First National Bank of Boston, Mass.

Breakers Hotel, Long Beach, Cal. Reorganized as 200 East Ocean Boulevard Co. Bonds should be presented to the American National Bank & Trust Co. of Chicago, Ill., in order to receive a cash distribution of about $70 per $1,000 bond and 10 shares of new stock for each $1,000 bond. The bonds must have Nov. 1, 1931, and subsequent coupons attached.

Brewster Color Pictures Corp. Incorporated in Delaware and is located at Dover, Del. According to our records Mr. P. D. Brewster tried to purchase all of the stock or controlling stock of the company in his offer of April 8, 1937, for $15 per share for the preferred and $1.00 per share for the common. This plan having been unsuccessful, the company on May 26, 1939, attempted to get the stockholders to agree to join with the Brewster Color Film Corp. and the Spectro-Photo, Inc., both New Jersey corporations, on the following basis: a new company is to be formed and its capital stock would be distributed to the three companies on the following basis: Spectro-Photo, Inc., 75 credits; Brewster Color Film Corp., 17½ credits; Brewster Color Pictures Corp., 17½ credits; Expenses, 10 credits. The company does not tell the stockholders anything about the financial status of these companies but asks them to agree blindly to something they know nothing about. According to a letter we hold from the Brewster Color Film Corp., dated Sept. 8, 1930, signed by P. D. Brewster, the "Brewster Color Pictures Corp. is now a patent-holding corporation and will this year receive royalties on film manufactured under their patents. In the writer's opinion, dividends will be paid on the preferred stock." We have written the company and called Mr. Arthur J. McBride on the telephone and cannot get any information regarding the company. Under the circumstances we suggest your ascertaining whether the other corporations have any assets at all and what royalties have been received to date. Brewster Color Pictures Corp., 58 First St., Newark, N. J.; also c/o N. S. Corp. Co., 19 Dover Green, Dover, Del.; Charles W. Fletcher, John F. Evans, Percy L. Proctor, 500 Frelinghuysen Ave., Newark, N. J.; Arthur J. McBride, 60 E. 42nd St., New York City.

Bricken Properties Corp. (New York). Plan operative on Feb. 1, 1937. Property transferred to Intercounty Properties Corp. New bonds are exchangeable for old bonds at Empire Trust Co. of N. Y. par for par and a cash payment of $10 on each $1,000 bond. In addition 50% of stock of new corporation was deposited with Trustee for distribution to bondholders.

British Type Investors, Inc. (Press report, April 10, 1941.) (By Associated Press.) Newark, April 10.—Two stockholders applied today in Chancery Court for appointment of a Receiver for the British Type Investors, Inc., charging that assets of the firm have dropped to $268,710, 10% of what they were 4 years ago. Vice Chancellor John O. Bigelow directed the company, which has main offices in Jersey City, to show cause April 22 why a Receiver should not be appointed, and enjoined the directors from moving assets except in the ordinary course of business. The complainants, Isidore Stein of Newark, and Francis T. White of Boston, each holder of 100 shares, said they paid $23 a share for which the bid price today was 8 cents. They contended in their petition that the firm officials paid themselves excessive salaries, bonuses and other compensation and charged the directors with "diversion of corporate funds for improper uses, purchase of property for non-corporate uses, and maintenance of personal services for corporate officers as well as payments of dividends out of capital and making unlawful investments." The complaints asserted that the directors caused British Type to purchase control of Scottish Type Investors, Inc., Empire American Securities Corp., and Allied Investing Corp., three investment concerns; and Majestic Radio and Television Corp., for the purpose of having themselves elected officers and directors of the four companies at "grossly excessive salaries."

Bristol Land Co. A payment of $12.10 will be made upon each of the outstanding First Mortgage 4% Bonds dated March 1, 1890. Collect from the Central Hanover Bank & Trust Company, New York City.

Broad River Granite Corp. Incorporated in Georgia and according to Mr. Samuel Nesbitt Evins, attorney, located at Atlanta, Ga., the bond issue of the company was foreclosed and the property passed into other hands. We found no funds for the coupons with the Citizens & Southern National Bank at Atlanta, Ga., successors to the Hillyer Trust Co. and the Atlanta Trust Co. and also the Central Bank & Trust Co. According to the Citizens & Southern National Bank, only $200 was deposited with them for the purpose of paying at par Bonds No. 118 and No. 119 for $100 each in 1924. We notice that your coupons were taken from Bonds No. 117 and No. 118. Apparently no provision was made for your coupons when the property was sold under foreclosure. In view of the above we believe the stock and coupons are without value.

Broadway & Plaza Trust Co. Liquidators Charles Cohen, A. J. Walter, George Miller and S. Sargeant Volck. Order by Justice Samuel I. Bromo-Lithia Company. Incorporated in Delaware on Nov. 16, 1911, and lost its charter on March 20, 1918. George W. B. Fletcher, Pres., Ardmore, Pa.; George B. McLeod, V.-Pres., Syracuse, N. Y.; George C. Holden, Treas., Wayne, Pa.; Elwood Hubbs, Secy., Philadelphia, Pa.

Bronxville Commodore, Inc. (Bronxville Commodore Apts.). The Manufacturers Trust Company of New York City holds funds to make certain payments on the 6½% First Mortgage Bonds with Jan. 10, 1930 and subsequent coupons attached.

Brookhold Construction Co., Inc. (Leverich Towers). The Manufacturers Trust Co. of New York City holds funds to make certain payments on the 6½% First Mortgage Bonds.

Brooklyn, Bushwick & Queens County Railroad Company. The Brooklyn-Manhattan Transit Corporation, Brooklyn, N. Y., informed us as follows on Dec. 23, 1940: We have your letter of Dec. 20, 1940, with reference to the bonds of Brooklyn, Bushwick & Queens County Railroad Company. We are unable to give you any information relative to these bonds but we believe they are of no value as the assets of the Brooklyn, Bushwick & Queens County Railroad Company were sold at public auction on Dec. 23, 1891.

Brooklyn Daily Eagle Properties Corporation. Peter B. Hanson of Brooklyn, N. Y., was appointed Receiver for the properties of the corporation under an order signed Aug. 28, 1939, by Supreme Court Justice Dodd of Brooklyn, N. Y.

Brooklyn Edison Selling Co. Stock exchanged at par for 99-Year 6% Purchase Money Mortgage Bonds of the Kings County Electric Light & Power Co. We understand that three other payments were made and a final payment when the company was wound up. These payments may be obtained at the Central Hanover Bank & Trust Co., New York City.

Brooklyn Ferry Company. The Irving Trust Company of New York City informed us as follows on Nov. 12, 1937: "Your letter of Nov. 9th concerns a Certificate of Deposit issued by Knickerbocker Trust Co. (one of our former names) for First Consolidated Mortgage 5% Bonds of the Brooklyn Ferry Co. Our recent records show that the Consolidated Mortgage was foreclosed and the property purchased by depositing Consolidated Mortgage bondholders, subject to a First Mortgage of $1,000,000. Title of the property was taken in the name of the New York Terminal Co. In 1917 the First Mortgage became due and was foreclosed. The proceeds derived from the sale were sufficient only to pay a small amount on the First Mortgage Bonds. It therefore appears that the Certificates of Deposit representing First Consolidated Mortgage 5% Gold Bonds are without value."

Brooklyn & Montauk R. R. It was reported that the common stock of this company was exchanged at par for stock of the Long Island R. R. Company. The preferred stock received $130 par value of Long Island stock for each $100 par share. The 5% bonds due 1938 were paid probably at par at the Central Hanover Bank & Trust Company, New York City.

Brooklyn Post Offices, Inc. (First Mortgage Coll. Lien 5½% S. F. Bonds Series "C" due March 1, 1936). The Safe Deposit & Trust Company of Baltimore, Md., informed us that there are $4,000 of bonds outstanding that have not been presented for endorsement extending bonds to 1949, and collection of interest payable to date amounting to 19%.

Brooklyn Post Offices, Inc. (First Mortgage Coll. Lien 5½% S. F. Bonds Series "D" due Sept. 1, 1937). The Safe Deposit & Trust Company of Baltimore, Md., informed us that there are $1,500 of bonds outstanding that have not been presented for endorsement extending bonds to 1949 and collection of interest payable to Feb. 16, 1940, amounting to 20%. The same bank also holds $27.50 for payment on outstanding coupons.

Brooklyn Properties Corporation. The Marine Midland Trust Company of New York City, made the following payments representing the First Distribution on the First Mortgage 6½% Serial Gold Loan Certificates dated Oct. 1, 1924, due Oct. 1, 1925, through 1939:

Brotherhood Investment Co. (Ohio). The Central National Bank of Cleveland, Ohio, informed us as follows on June 22, 1937: "As we understand it, all of the collateral pledged to secure the collateral trust bonds of the Brotherhood Investment Company were sold at the direction of the Bondholders' Protective Committee and substantially all the proceeds were paid to the bondholders. The only remaining assets apparently consist of a deficiency judgment against the issuing Company, of very doubtful value, and a certificate of claim in the Standard Trust Bank of this city, in liquidation. 'We have been informed that as and when sufficient funds are realized from the liquidation of this Certificate of Claim, there may be a purely nominal distribution to the bondholders.' If you have not received any payments on the above bonds, we suggest your contacting the above bank. There was no equity left for the stock which is without value."

Brotherhood of Locomotive Engineers Securities Corporation of Pennsylvania. The Class A Stock has a liquidation value of $16 per share. Collect from the United States District Court, Southern District of New York, New York City.

Brotherhood of Locomotive Engineers Securities Corporation of Pennsylvania. Certificates of Deposit for Class "A" Stock should be presented for payment to the Fidelity-Philadelphia Trust Company, Philadelphia, Pa., for the following payments: First Payment, $8.00 per share; Second Payment, $4.93 per share; Third and Final Payment, $2.00 per share; total, $14.93.

Browne-Morse Company. We received the following letter from the Hackley Union National Bank of Muskegon, Michigan, dated July 11, 1938, and signed by Mr. R. F. Lingelbach, Trust Officer: "As Trustee for the Browne-Morse Company 7% First Mortgage Real Estate Gold Bonds due Oct. 15, 1936, may we advise you that this entire issue has been paid off under a refinancing by the Reconstruction Finance Corp. Bond No. C-30 representing $100 par value is the only remaining bond outstanding. The proceeds of the payment of this bond have been deposited with the United States District Court, Grand Rapids, Mich., in accordance with an order of said Court under 77b proceedings. Interest on this bond in the sum of $36.18 is also deposited with the Court. The last information we had regarding the holder of this bond is that the Bank of the Manhattan Company presented a coupon under their collection item No. 152946 in 1931. This was during the period of reorganization of the issue and the coupon was not paid but returned. We have written the Bank of the Manhattan Company several times to inquire as to the individual or corporation presenting the coupon to them for collection but failed to receive any information. It is very possible one of your representatives can personally get the information from the Bank of the Manhattan Company that we have failed to get by letter. At any rate we give you the above information for compilation of your list of unclaimed funds."

Brunswick Construction Co. The First Consolidated Mortgage 4½% Bonds due 1923 have a decree value of $323.99 per $1,000 bond representing two payments. Collect on unstamped bonds from the Irving Trust Company, New York City.

Brunswick Terminal & Railway Securities Company. Reese, Scarlett, Bennet & Gilbert, attorneys, located at Brunswick, Ga., informed us on Feb. 10, 1941, the company filed its petition in bankruptcy on Sept. 13, 1933. Four dividends have been declared to unsecured creditors amounting to about 50% of the claims. There will in all probability be another small dividend declared and then the company will be finally liquidated. The stock is worthless.

Brush Petroleum Company. The term of existence of this company expired by the limitation of its charter in 1923. We found no value to the stock.

Bryant Park Bank, N. Y. This bank is in liquidation and has paid liquidating dividends amounting to $15 per share. These payments were made before Mar. 5, 1934 and we understand that Louis Marcus has received his pro rata share. Mr. Ruben of Ruben & Brown, 291 Broadway, New York City, informed us that the bank expects to pay about $1.00 per share as a final liquidating dividend. Therefore, we submit $1.00 per share as fair as of Mar. 5, 1934.

Buddy Buds, Inc. Succeeded by Candy Products Corp., a Virginia Corporation, in Nov., 1923, by exchange of stock share for share at Bankers Trust Co., New York City. The latter company went into receivers hands in 1924 and is out of existence. It is our opinion that the shares of both companies are without value.

Bull Bayou Homer Developing Company, Inc. Incorporated in Louisiana on Jan. 15, 1921, and was located at Shreveport, La. The last known officers were: Pres., P. F. Cummings, Shreveport, La.; V.-Pres., Herbert Atkins, Shreveport, La.; Treas., W. J. Sullivan, New York City; Dir., M. R. Stevens, Pittsburgh, Pa. Letters addressed to the company at Shreveport, La., were returned. We searched our records back to 1921 and found no record of the company's operations, nor any value to the stock. The shares in our opinion have no value.

Burgemeister Brewing Company. We received the following letter from Wm. R. Stuart & Company, 135 S. La Salle St., Chicago, Ill., dated Feb. 9, 1939: "Your letter of Feb. 3rd addressed to the Warsaw Brewing Corporation, Warsaw, Ill., has been referred to us. At the time the Federal District Court authorized the sale of the unexchanged Burgemeister Brewing Company stock, the price named in such authorization was 50 cents per share, and the stock was sold at this price. The Court further authorized the following deductions: Tax, $.04; expenses of depositary, $.06; depositary fee, $.20; total, $.30. This leaves a balance of 20 cents per share available to stockholders who did not exchange their stock within the time limit which was sometime during March, 1936. Therefore, upon the surrender of the certificate for 200 shares of Burgemeister Brewing Company stock held by the Boswell Estate, together with the proper certificates showing authorization of the proper indorsement of the certificate, there will be available the sum of 20 cents per share. If you will forward the certificate with the proper papers attached to us, we will be glad to remit at the rate of 20 cents per share."

Cady Lumber Corporation. The First Mortgage 6½% Bonds due 1937 have a decree value of $75 per $1,000 unstamped bond, with May 1, 1930 and subsequent coupons attached, payable at the Manufacturers Trust Company, New York City. The non-depositing bondholders were given the option of exchanging their bonds for stock of the Southwest Lumber Mills, Inc., on the basis that the depositing bondholders received, being 60 shares of the Southwest Lumber Mills, Inc., for each $1,000 Bond. The original option expired on Mar. 19, 1936, and was extended to Sept. 12, 1936, and is no longer in effect.

Cairo & St. Louis R. R. Property foreclosed in 1881. Our records indicate the bonds and stock of this company were exchangeable for bonds and stock of the succeeding company. The Central Hanover Bank & Trust Co. of New York City was trustee for the bonds.

Cairo, Vincennes & Chicago Railroad Company. This company was reorganized about 1889, and its property was transferred to the Cleveland, Cincinnati, Chicago & St. Louis Railway Company. The property was paid for in new 4% Bonds of the successor company due 1939, which were exchanged for Reorganization Committee Receipts of the Cairo Divisional Bonds of the Wabash Railroad. These receipts were exchangeable at J. P. Morgan & Co.

Cairo & Vincennes Railroad. Property foreclosed and was bought by the Trustees of the First Mortgage for $2,000,000. The sale price of the road, being less than the amount of the first mortgage, did not afford any payment or recognition of subsequent claims. In 1880 it was reported by J. S. Morgan & Co., now J. P. Morgan & Co., that the first Mortgage bondholders could claim their pro rata share of the sale price upon surrender of their bonds. Those that deposited their bonds received dollar for dollar in common stock of a new company, which was subsequently exchanged for common stock of the Wabash, St. Louis & Pacific Railway Company. This latter road was subsequently consolidated into the Wabash Railroad.

Shareholders on the Canadian Register should send their cretificates to I. C. Hall, 411-416 Dominion Bank Bldg., Toronto, Can., or to the Canadian Bank of Commerce, Toronto. Certificates, when deposited, will not be returned, but a receipt for same will be issued, along with the check for the cash payment.

Canadian Puget Sound Lumber Company. The Bank of Nova Scotia, Victoria, B. C., reported on Dec. 28, 1940, that the above company has never been liquidated. An arrangement was entered into with the bondholders in 1932 or 1933 whereby they would exchange their bonds for preferred shares of the company on the basis of $129 in stock for each $100 bond held. There is no change in the status of the preferred and common stock of the company outstanding at that time. The bond should be sent to the company at Victoria, B. C., to be exchanged for preferred stock. The stock of this company was not quoted in 1913. The company reported that the stock had no intrinsic value in Dec., 1915. We found no quoted price for the stock in 1924.

Canadian Puget Sound Lumber Company, Victoria, B. C. The Canadian Puget Sound Lumber & Timber Co., Ltd., located at Box 635, Victoria, B. C., informed us as follows on Jan. 9, 1941: "Answering your letter of the 4th, we are sorry we are unable to give you any information as to the value of the shares of this company. Very few have been changing hands, and wherever they have, understand it is at a very low figure. This company, as you know, has not been operating its mill since 1930. In fact, the mill has been dismantled. Besides, we have lost some of our timber, due to inability to pay the taxes. However, we have been able to hang onto some of the timber, some of which is being logged now. With reference to the 6% bond, we wish to state that in 1932 the bondholders, at a meeting called for that purpose, agreed to exchange the bonds for preference shares, so that the bond referred to should be forwarded, either to us or to the Montreal Trust Co., Vancouver, to be exchanged. There will be no cost for this exchange. Before the share certificates can be transferred, however, the following will be required: 1. Certified copy of Will. 2. Probate Certificate. 3. Resolution showing authority of signing officers. 4. Statement showing that Succession Duties in this Province have been paid or security given to the Minister of Finance for their payment. The necessary forms can be procured from the Assessor and Collector of Probate and Succession Duties, Parliament Buildings, Victoria, B. C. There will also be a charge of 50c for transfer of each certificate."

Cape Breton Coal, Iron & Railway Co., Ltd. First Mortgage 6% Bonds due July 1, 1941. Burchell, Smith, Parker & Fogo, Barristers, Chronicle Bldg., Halifax, Nova Scotia, reported as follows on May 2, 1941: "The Mortgage or Trust Deed securing the bonds of the above company was foreclosed and all the assets of the company covered thereby were sold under the Order of the Supreme Court of Nova Scotia in the year 1929. The purchase price was $25,000. The purchaser at the Sheriff's Sale was Mr. William Hanson, who nominated Broughton Collieries, Limited, to receive the conveyance of the property. The purchase price was paid partly in cash and partly by delivery of bonds. The Trustee had substantial disbursements, costs and outlays and the amount for distribution among the bondholders whose bonds had not been used in payment of the purchase price only amount to the sum of $284.19. Accordingly, each holder of bonds not used in payment of which, according to our records, there were 165 bonds of £100 each, was entitled to receive for his bond and all unpaid coupons, the sum of approximately $1.70 for each bond and unpaid coupons, which we think comprised July 1st, 1915, and all subsequent coupons. The Electric and General Investment Company, Limited, of Falcon House, Aldergate St., London, E. C. 1, was the Trustee under the Mortgage or Trust Deed of the above company and no doubt if you will write to them they will advise you as to the sum, if any, which would be payable upon surrender of the bonds in question."

Capital Freehold Land Trust. Capital Freehold Land & Investment Co., Ltd. Release by Federal Trade Commission in 1933. Capital Freehold Land Trust: (2-495), Chicago (Arthur L. Farwell, Robert G. McGann, and Albert D. Farwell, Trustees), proposing to issue shares of beneficial interest in a common law Trust or Massachusetts Trust pursuant to a plan of readjustment or reorganization of a trust created by Trust Deed dated June 4, 1915, between Capital Freehold Land & Investment Co., Ltd., and Francis C. Farwell, Hobart C. Chatfield-Taylor, and George Findlay. The reorganization is being supervised by a court and the date of the proposed issuance and distribution of shares is dependent upon court action. The number of shares to be issued will depend upon the decision of the court supervising the reorganization. If the court decides that the Trustees have the right to transfer all assets of the Trust Estate to the issuer for all shares to be issued by the issuer, 176,793 shares will be issued. If, however, the court determines that holders of certificates issued under the deed of 1915, who do not consent to take shares of the issuer are entitled to cash, the number of shares to be issued will be equal to the number of parts evidenced by participation certificates issued under the trust deed of 1915. The Trustees, whose address is 208 S. La Salle St., Chicago, Ill., are authorized to receive notices. The Better Business Bureau of Chicago called Mr. Robert G. McGann on the telephone and Mr. McGann prefers not to divulge any information unless he knows who requests it. The Better Business Bureau will consult the reorganization plan and notify us of the results. In the meantime we suggest the registered holder to write to Mr. McGann, and then notify us if he does not receive an answer.

Capital National Bank, St. Paul, Minn. The Capital National Bank reported in 1925 that the deposits were assumed by the Merchants National Bank of St. Paul. No liquidating dividends had been paid on the stock up to 1925, but it was estimated at that time that the stockholders would eventually receive between $70 to $80 per share in liquidation over a period of years.

Capitol Bldg. Co. The First 5½% Bonds due 1926-36 have a decree value of $24.80 per $1,000 bond. Collect on unstamped bonds from the Detroit Trust Co., Detroit, Mich.

Carbo-Oxygen Co., Pittsburgh, Pa. On Aug. 31, 1937, the stockholders approved merger with National Cylinder Gas Co.

Carbon Steel Co. Mr. J. B. Orr, of Fownes & Orr, Clark Bldg., Pittsburgh, Pa., informed us that the 8% and 6% Second Preferred Stock received $12 and $10 per share respectively in liquidation. There was also a possibility of a tax recovery from the United States. However, if no recovery is made, a final dividend of 1% or 2% may be made. Collect from the Monongahela National Bank, Pittsburgh, Pa.

Carbon Steel Company. Incorporated in West Virginia. Mr. Ralph V. Hukill, Secretary of the company, c/o Peoples-Pittsburgh Trust Company, Pittsburgh, Pa., informed us on Oct. 25, 1940, that by a decision of the United States Court in West Virginia, liquidating dividends of the Carbon Steel Company had to be paid equally on the First and Second Preferred Stocks up to the par value of these stocks before anything could be paid on the common stock. The preferred stocks were liquidated to only 50% of their par value, so that nothing was paid on the common stock, and it has no present or future value. In view of the above, we submit the common shares as worthless.

Carson Hill Gold Mining Company. The Treasurer of the Central Mother Lode Mines Company, located at 1 State St., Boston, Mass., informed us in 1928 that the shares of Carson Hill Gold Mining Company could still be exchanged for shares of Central Mother Lode, by surrender of the shares at the First National Bank of Boston. To protect its interest the First National Bank of Boston foreclosed on the property and although the company had the privilege of redemption in 1928, the stock had no intrinsic value at that time. The 7% Conv. Gold Notes due March 1, 1927, received a distribution of $12.75 on each $1,000 unstamped note, having March 1, 1925, and subsequent coupons attached, payable at the First National Bank, Boston, Mass.

Carwen Steel Tool Company. Incorporated in Delaware on Dec. 10, 1915, and is no longer in existence, having become void on March 17, 1920. Y., has funds on deposit to pay the Income Mortgage 6% Bonds due Apr. 15, 1934 as follows: Coupons in full to and including Oct. 15, 1924, and $31.81 on principal per each $1,000 Bond with Apr. 15, 1925 and subsequent coupons attached.

Case, J. I., Plow Works, Inc. Acquired by Massey Harris Co., Ltd., in Feb., 1928. Holders of preferred stock received $60 per share and common $1.60 per share.

Casino Company (The). Incorporated under the laws of the State of Maine, on May 16, 1901, and filed its last return in 1909. The company was excused on May 20, 1911, having ceased to transact business. The President was C. A. Hodgkins, Bar Harbor, Maine. We found no record of the company's operations nor any value to the stock. The shares in our opinion are without value.

Catskill and New York Steamboat Co., Ltd. The Brooklyn Trust Company of New York City holds funds to pay outstanding coupons due July 1, 1918 of the 6% First Mortgage Gold Bonds due Jan. 1, 1930.

Cayey-Cacuas Tobacco Company. Incorporated in New York and was located at 152 Water St., New York City. The company dissolved in 1917. Mr. Haydock a partner of Parker, McElroy & Company states that the stockholders received the amount they put into the company. Mr. Ludlow Chrystie liquidated the company. If the stock is stamped it is worthless.

Cellufoam Corp. of New Jersey. Assets acquired by Masonite Corp. in 1939.

Celotex Company. See City Bank Farmers Trust Company, New York City.

Centennial Board of Finance. The Commonwealth of Pennsylvania, Securities Commission, Harrisburg, Pa., informed us that the commission has no information in its files on this board, but since it was intended to handle the finances for the Centennial Exposition of 1876, it is fair to presume that the organization has long since gone out of existence and that the stock has no value.

Centennial Oil & Gas Company. Incorporated in Texas on July 23, 1931 and lost its charter on July 2, 1937.

Central Arkansas & Eastern Railroad Company. Pro rata distribution of $152,768 was ordered to owners of first mortgage bonds, secured by Central Arkansas & Eastern Railroad Company on a basis of approximately $140.80 per $1,000 Bond. The railroad was abandoned in 1937 and the fund represents proceeds from the sale of certain assets. Bonds will be stamped on payment of the distribution stating their face value has been reduced to $859.20. Company was a subsidiary of the St. Louis Southwestern Railway (Sept. 19, 1939.) Federal Court at St. Louis, Mo., approved payment of $140.80 on each $1,000 First Mortgage Bond on or about Sept. 23, 1939.

Central Atlantic States Service Corporation. See City Bank Farmers Trust Company, New York City.

Central Bank of Bingham. We received the following letter from the Utah State National Bank, Salt Lake City, Utah, signed by A. C. Strong, Asst. Cashier, and dated Oct. 20, 1938. "The Central Bank of Bingham has liquidated, and there are funds to pay final liquidation dividends on this stock. We are not in a position to tell you the amount per share being paid, due to the fact that there have been several dividends paid prior to this final one, but we do have in our possession a list of stockholders and the amount now due on each and every certificate that is outstanding. If you would care to send us your customer's name and the number of shares he now holds, we can tell you the amount he would receive for the surrender of his stock certificate."

Central Bank of Commerce, Jerusalem, Palestine. This bank is listed in "Polk's Bankers Encyclopedia", for Mar., 1939, as a going bank. The bank is not listed in the Sept. 1939 issue. The Public National Bank and Trust Company, 76 William St., New York City, formerly the New York correspondent for this bank, informed us on Oct. 22, 1940, that they have a letter from the Government of Palestine, Office of the Receiver, dated May, 1939, that 25% would be paid to creditors. The stock, therefore, is worthless. Due to the fact that the bank was listed as a going bank in March, 1939, and that the bank liquidated in May, 1939, the shares first became worthless in 1939.

Central Branch Union Pacific R. R. Certificates of Deposit for Funded Coupon 7% Bonds upon surrender of their certificates to the Central Hanover Bank & Trust Company, New York City, received a final payment of 7½%. Acquired by Missouri Pacific.

Central Utilities Securities Corporation (Maine.) Olwell & Brady, Attorneys, located at Railway Exchange Bldg., Milwaukee, Wis., informed me on June 16, 1937 as follows: "I acknowledge receipt of your June 14 letter addressed to Mr. Olwell, inquiring about the status of the Central Utilities Securities Corporation and the present value of its stock. Mr. Olwell is presently in Great Britain and will not return until September. From his files, however, I am able to give you the following information. The Central Utilities Securities Corporation was incorporated under the laws of the State of Maine. Liquidation proceedings pursuant to the provisions of the laws of that State, were started in 1928. Three liquidating dividends (the final in June of 1929) aggregating $39.61 a share were paid on the outstanding preferred stock out of the proceeds from the sale of all the company's assets. Under the articles of organization of the company, the preferred stock, which was cumulative, had preference upon liquidation to the extent of its par and accrued interest. The par value of the preferred stock was $100 per share. The common stock accordingly has no value."

Central Vermont Railway Co. Ref. 5% Guar. Bonds were paid at par in 1928 by Dillon, Read & Co., New York City. These bonds were guaranteed by the Grand Trunk Ry. of Canada.

Any unclaimed funds are probably held by the United States District Court at Columbia or Charleston, S. C.

Chesapeake & Albemarle Canal Co. The Trust Certificates have a liquidating value of $85 per share. Secretary of the company, William Byrd, 59 Wall St., New York City.

Chesapeake & Ohio Canal Company. The Baltimore & Ohio R. R. informed us in 1933 that these bonds are commonly known as Bonds of 1844, secured by mortgage of 1848. The bonds are a lien only on the tolls and revenue of the Canal as decided in the Canal Case in 83 Md. Report and the Canal has not been in operation for 7 or 8 years and is now in the hands of the Trustees for the bondholders of 1844, who have never been able to earn sufficient revenue to pay interest on these bonds. It is very unlikely that these bonds will have any value; there is no market for them at all and while there is a possibility that some day there may be some small payment made if the Canal is liquidated it is so remote that we cannot say that the bonds have any value but are worth retaining for the possibility that there may be some day a payment made upon them.

Chesapeake & Ohio Coal & Lumber Company (New York). In 1903 it was reported that the company had failed in 1883 and that its bonds and stocks were worthless.

Chester Knitting Mills, St. Louis. Property foreclosed. The St. Louis Union Trust Company, St. Louis, Mo., was Trustee for the First 6% Bonds due 1926.

Chestnut and Smith Corp. Incorporated in Delaware in 1919 and liquidated in 1931, at which time the preferred stockholders received $119.25 per share. The remaining assets were sold and the preferred stockholders received a final dividend of 35 cents per share in 1935. There were no assets available for the common stockholders.

Chicago & Alton Railroad Co. The New York Trust Company of New York City, holds unclaimed funds that are payable on the Certificates of Deposit for 3% Refunding 50 Year Gold Bonds fully registered representing various interest payments on various dates as follows:

$15.43	per	$1,000	on	19/1/1922

Chicago Subway Company. Succeeded by the Chicago Utilities Company in 1912. The property of the Chicago Subway Company was sold under foreclosure on April 3, 1912, for $5,030,000, and was bid in by the bondholders. The stock of the Chicago Subway Company was assessed $5.00 per share. Unassessed stock at this time is worthless. Bonds dated June 1, 1908, upon presentation at the Chemical Bank & Trust Co., New York City, will receive a pro rata share of the proceeds received from the sale of the company's assets.

Chicago Terminal Transfer Railroad Company. Incorporated in Illinois and on April 16, 1906, the president of the company was appointed receiver. A decree of foreclosure was entered Feb. 20, 1907. On Jan. 8, 1910, the property was sold for $16,000,000 to the Baltimore & Ohio R. R. The above, together with cash and other receivables, were sufficient to pay off the bonds at par and interest (Collect from the United States Trust Co., New York City). Certificates of Property Interest received new securities at the above bank. Mr. J. J. Jenkins, Assistant Treasurer of the Baltimore & Ohio Railroad Company, located at Baltimore, Md., informed us on July 8, 1937, that his company has from time to time made purchases of the preferred stock of the Chicago Terminal Transfer Railroad Company.

Chicago Utilities Company. The Chemical Bank & Trust Company, New York City, informed us in 1935 that the assets were sold several years ago and the proceeds deposited with them to be distributed to the First Mortgage Series A 5% Bonds with April 1, 1915, and subsequent coupons attached and Fractional Scrip Certificates, at the rate of $131.67 per $1,000 bond.

Chicago, Wisconsin & Minnesota R. R. First 6% Bonds are worth $1,100 per $1,000 bond. Income 5% Bonds received $925 per $1,000 bond. 8% Imp. Notes received par. Preferred stock liquidated at $78 and common at $18 per share.

Chosen Corporation, Limited. Press report, New York Times, April 22, 1941. Looting of big British concern laid to international financier. Serge Rubinstein, his associates and 25 companies named in suit here charging loss of $5,900,000 by chosen corporation.

By Burton Crane

Financial legerdemain that has cost the Chosen Corporation, Ltd., more than $5,900,000 is alleged in a suit filed yesterday in the State Supreme Court against Serge Rubinstein, colorful international financier, his associates and twenty-five companies that he controls or controlled.

Chosen Corporation is a British concern that once owned gold-mining subsidiaries in Korea. According to the complaint, the properties of these subsidiaries have been sold and most of the proceeds and other assets have disappeared. The suit asks recovery of this money, a receivership and an accounting for the benefit of Chosen Corporation shareholders.

Revealed in the complaint, which was filed by Harry T. Zucker of the New York and London law firm of Hollander & Bernheimer on behalf of Francis E. Banbury and Francis A. Kelly, stockholders of Chosen Corporation, is a drama of light-fingered magic that played on the stages of France, England, Korea, Japan, Manchuria and the United States and that is now reportedly moving into the Latin-American scene.

Methods Charged in Suit

The Rubinstein method, the complaint declared, has been to get control of a company, force it to exchange its assets for shares of a worthless dummy corporation and then dissolve the latter, eliminating evidence of the fraud. This technique, the complaint alleges, has all but stymied the investigation by the British Board of Trade, begun at Mr. Banbury's instigation almost three years ago.

Serge Rubinstein, according to the complaint, which describes him as claiming Portuguese citizenship although he entered this country under the Russian quota, is also known as Serge Manuel Rubinstein de Rovello and by various contractions of that name.

Named in the complaint with him are the Chosen Corporaiton, Ltd., and its two remaining Korean subsidiaries, the Nurupi Kozan Kabushiki Kaisha and the Kapam Kozan K. K.; four French banks that he controlled, the Banque des Fils d'Henry duPont, Banque Franco-Asiatique, Banque Franco-Mandchoue and Societe Financiere Internationale, and a string of corporations formed, according to the complaint, to further the looting of Chosen.

These are listed as Stock and Share Realization Corporation, American Overseas Mining Investment Corporation, Pan Pacific Company, Inc., and Midway Victory Oil Corporation of Delaware, all Delaware corporations; Franco Asiatic Holding Company, Ltd., Entesee Trust, Ltd., Far Eastern Holdings, Ltd., and Commercial Amalgamations Trust, Ltd., all British corporations; Mountbreak Corporation, British-American Equities, Inc., Bid-City Properties, Inc., Carolin Properties, Inc., Jackson Heights Properties, Inc., and Norfolk Equities, Inc., all New York corporations; Techeland Oil Corporation and Midway Victory Oil Company, Inc., Texas corporations, and Chosen Union (Godo) of Mines, Ltd., a Korean (Japanese) corporation.

The Individuals Named

Most of the individuals named are described as dummies or "straw men" for Rubinstein. These are Baron Joseph de Gotch, Gustave Fort, Andre Rubinstein, brother of Serge; Paul Klopstock, New York promoter who once headed the Austin Silver Mining Company; Alfred Massenet, nephew of the composer, who acted as mining engineer for the Korean subsidiaries after Rubinstein assumed control; the Duc de la Chatre, Victor de Reinbott, Jean Paul Guilbert, Prince Eugene Gagarine, Hubert K. Sachsel, Frederick T. Gade, Daniel Katz, Konrad Sztykgold, who gained a brief notoriety in early 1939 because of his spectacular feat of smuggling 3,000,000 yen out of Japan; Robert I. Wyner, Berthe Donteelaere Ragain, Gerald W. B. Portman and Rose Brown.

Reinald Louis Cooper and William B. Calder are named because they are employees of Chosen Corporation. Marcel Flury-Herard, Camille Bouard, Norman G. Thwaites and Frederick Miller are directors of Chosen Corporation. Martin Coles Harman, predecessor of Rubinstein as managing director of Chosen Corporation, and his brother, Sargent Terry Harman, are the other defendants.

The story of Serge Rubinstein and the Chosen Corporation commences where that of Harman. "the King of Lundy Island," ended in 1933. That colorful London stock promoter, it may be recalled, bought little Lundy Island and asserted that its ancient charter made him a feudal lord with the right to coin his own currency. When the first "Harman pennies," bearing the profile of the promoter, appeared the British Government stepped in. It stepped in again a couple of years later on complaints that Harman had been looting the Chosen Corporation. Harmon went to jail.

Trouble Revealed at Harman Trial

That trial revealed that several of Harman's companies had been in trouble in 1932. To rescue them, he had them buy Chosen Corporation shares in the open market and then ordered Chosen's three Korean subsidiaries, Nurupi, Kapam and Tong Chang to buy the parent company's shares from them at much higher prices.

When he was indicted, according to the Banbury-Kelly complaint, Harman turned control of the company over to Rubinstein, who clinched that control in 1934 by having the company issue and sell to him 150,000 partly paid £1 par value shares with full voting rights.

Because of the Harman manipulations, the three Korean subsidiaries owned 173-029 fully paid Chosen shares, worth then about $776,000. According to the complaint, Rubinstein set out to get hold of them, which he accomplished by "sales" in which no money was paid.

The subsidiaries exchanged their valuable Chosen Corporation shares for the shares of two companies that had no assets, it is charged. When Stock and Share was liquidated in 1937 no sums were paid to Chosen or its subsidiaries and there never has been an accounting, the complaint says. However, Chosen had three valuable operating mining subsidiaries in Korea and, according to the complaint, the next Rubinstein move concerned these assets.

In 1935 Nurupi, the biggest of the subsidiaries and one of the best gold mining properties in the Far East, absorbed Tong Chang. At about the same time, according to the complaint, Rubinstein negotiated various stock sales that enriched only himself or his dummy companies.

Meanwhile an actual Japanese company, the Nippon Kogyo K. K. of Japan Mining Company, Ltd., was trying to buy Nurupi and Kapam, and in May, 1937, the deal went through for 13,000,000 yen, of which 6,000,000 yen, or £350,000 was to be paid in sterling. After taxes and payments to minority stockholders, 10,919,688 yen was the net.

Demands for Liquidation

In spite of demands by Mr. Banbury for liquidation of what was left of Chosen Corporation and a distribution of some of this money, the cash was switched into British-American Equities, Inc., a Chosen Corporation subsidiary that Rubinstein operates at 63 Wall St., the complaint says.

Meanwhile, 3,000,000 yen in yen balances remained in Japan, plus a draft for 1,192,647 yen on the Hongkong and Shanghai Banking Corporation, paid by Nippon Kogyo for Kapam. When Konrad Sztykgold smuggled out the 3,000,000 yen in 100-yen notes, the Japanese Government impounded the draft.

According to the complaint, Rubinstein's subsequent operations followed the pattern of the earlier ones. He had Chosen Corporation lend British-American Equities the £305,000, or $1,323,166, plus the impounded draft, and then erected a string of new corporations, Jackson Heights Properties, Carolin Properties, Mid-City Properties, Midway Victory Oil Company of Texas, Midway Victory Oil Corporation of Delaware, Techeland Oil Corporation, Norfolk Equities, Inc., and Pan Pacific Company, Inc. Some have been buying and operating New York real estate, some have been developing oil royalties and some have been playing the commercial bill market and dabbling in BMT and Postal Telegraph deals. Assets have been switched about from one to another, according to the old Rubinstein pattern, it is charged. The suit brought by Messrs. Banbury and Kelly hopes for an accounting, to discover how much is left of the assets of Chosen Corporation in this country and what form they are in.

Liabilities as Listed

Theoretically, Rubinstein is liable for $727,200, the unpaid balance of the subscription price on the 150,000 partly paid shares that Chosen Corporation delivered to him in 1934 on his theoretical payment of £45,000. According to the complaint, even that money was not really paid, being arranged by a book entry through the Banque Franco-Asiatique. Taking advantage of his control, the complaint says, Rubinstein has obtained the agreement of Chosen Corporation not to call in the capital he has pledged until 1945 and, taking advantage of loopholes in the British Companies Act, he has attempted to shift liability for paying up the stock to a dummy corporation that now has no assets.

Rubinstein is represented by Goldwater & Flynn, Paul Klopstock, Konrad Sztykgold and Robert I. Wyner by Frank L. Miller and Daniel Katz; Rose Brown and the Mountbreak Corporation by Barron, Rice & Rockmore, the law firm of which Mr. Katz is a member. Goldwater & Flynn also represent British-American Equities, Inc., and its subsidiaries.

For more than three years Rubinstein has been living in the city and has attracted the attention of the gossip columnists by his frequent appearances in "cafe society" and his lavish parties. He was elected recently to the board and to the executive committee of the American Foreign Investing Corporation, an investment trust.

Ciego De Avila Compania Azucarera. Value of 6% bonds due 1931. The property underlying this bond issue has been sold under foreclosure and the proceeds of this sale were distributed to the outstanding bonds at the rate of $140.64 for each $1,000 bond. In connection with this distribution there are only three bonds left: Nos. 2, 26 and 270 that have not received their pro rata share. As there is no more property underlying these bonds to be disposed of and the deficiency right being worthless, we submit the bonds stamped $140.64 paid as worthless. Collect on unstamped bonds from the Trust Co. of Cuba, Havana, Cuba.

Cincinnati Abattoir Company. Value of 7% notes due 1929 stamped showing liquidating payment of 23.92% paid. Incorporated April 22, 1893, in Ohio to do a general slaughtering and meat packing business. On May

5, 1922, a receiver was appointed. The property was sold at foreclosure sale in 1924 and the bondholders received the following: $100, $50, $82, and $7.20 or a total of $239.20. If the bonds are stamped showing that payments of 23.92% have been paid, they are without value. There are no further assets to be distributed, leaving no further equity for the bonds which are without value. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City.

Cincinnati Business Women's Club Co. The Provident Savings & Trust Co. of Cincinnati, Ohio, has funds on deposit to pay on certain bonds and coupons that have not been presented for collection.

Cincinnati, Hamilton & Indianapolis Railroad. Value of Preferred Stock dated 1872. Organized in Ohio on Dec. 24, 1872, and was controlled by the Cincinnati, Indianapolis & Western Railway Co. In 1903 it was reported that $11,200 of stock of this company was reserved for the retirement of $8,953 of preferred stock of the C. H. & I. Railroad which was outstanding. The property of the C. I. & W. was foreclosed and the First Refunding Bonds received $409.01 per thousand dollar bond in liquidation, leaving no equity for the stock. Therefore the stock of the Cincinnati, Hamilton & Indianapolis Railway is worthless.

Cincinnati & Indiana Western R. R. Certain bonds of this company have a decree value of $1,100.67 per $1,000 bond. Collect on any outstanding bonds from the Old Colony Trust Company, Boston, Mass.

Cincinnati, Indianapolis & Western Ry. The First Ref. Bonds have a decree value of $401 per $1,000 bond and $8.01 for each $20 coupon due July 1, 1914. Collect from the Chase National Bank, New York City, on unstamped bonds.

Cincinnati, Jackson & Mackinaw Railway Co. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City. Property foreclosed in 1897. The First Mortgage Bonds of this company due June 1, 1991, with December 1, 1894, subsequent coupons attached received only $145 on each $1,000 bond, leaving no equity for the stockholders. Therefore, we submit the capital stock as worthless.

Cincinnati & Lake Erie Railroad Company (Ohio). The Receiver, Thomas Conway, Jr., located at Fidelity-Philadelphia Bldg., Philadelphia, Pa., informed us as follows on Aug. 13, 1940: In answer to your letter of Aug. 6, I beg to advise you that the United States District Court for the Southern District of Ohio on June 14 last promulgated findings of fact and conclusions of law and entered a decree approving the Plan of Reorganization for Cincinnati & Lake Erie Railroad Company, filed April 27, 1940, and directed the Receivers to institute such proceedings as they deemed necessary or desirable before the Ohio Public Utilities Commission and the Interstate Commerce Commission, respectively, for approval of said Plan of Reorganization or such portion thereof as may be within the jurisdiction of such Commissions. The Court found the Plan of Reorganization in all respects fair, equitable and feasible. The 17th Finding of Fact reads as follows: "The assets of Cincinnati & Lake Erie Railroad Company and of its receivership estate are not sufficient to discharge in full the claims of creditors entitled to participate under the Plan of Reorganization, in accordance with the priorities determined by the Court in its Decree Marshalling Liens entered herein and made final May 16, 1939, and there are no assets available for the payment of any claims of creditors or stockholders other than the claims entitled to participate under the Plan of Reorganization."

The 7th paragraph of said Decree reads as follows: "All parties to this cause, and all creditors and stockholders of and claimants against the assets of Cincinnati & Lake Erie Railroad Company, and of its receivership estate, are hereby permanently enjoined against attempting to enforce any right, lien or charge arising out of the ownership of any such claim or security against Cincinnati & Lake Erie Railroad Company, or its receivership estate, or against the merged bus company to be formed pursuant to the Plan of Reorganization, or against Lima City Lines, Inc., Hamilton City Lines, Inc., or the company to be formed to operate the Dayton-Moraine Street and Suburban Electric Railway Line, the successors or assigns of each of the said corporations, except, such rights as may exist under this Decree." The practical effect of the aforesaid provisions of the Findings of Fact and of the Decree is to make the stock of Cincinnati & Lake Erie Railroad Company valueless.

Cincinnati & Lake Erie Railroad Company. Official notice from the Philadelphia Inquirer: To the Holders of Stock, Adjustment Income Bonds and Prior Debenture Bonds of Cincinnati, Hamilton & Dayton Corporation: Cincinnati, Hamilton & Dayton Corporation is the owner of all the common stock and of substantial portions of the preferred stock of Cincinnati & Lake Erie Railroad Company, now in receivership in the United District Court for the Southern District of Ohio, Western Division. Notice is hereby given that a Plan of Reorganization of said Cincinnati & Lake Erie Railroad Company has been filed in said Court by creditors of said Railroad Company and that a hearing before said Court with respect to said Plan has been fixed for June 4, 1940, at 10 o'clock A. M., at which hearing all creditors and stockholders of said Railroad Company may appear and be heard. Said Plan of Reorganization makes no provision for the holders of any stock of said Railroad Company, Cincinnati, Hamilton & Dayton Corporation does not, however, plan to be represented at said hearing or to take any action designed to secure a participation for the Railroad Company's shareholders in said reorganization since it has been advised that all of the stock of the Railroad Company, both common and preferred, is valueless. Cleveland & Canton Railroad Company. The United States District Court, Northern District of Ohio, Cleveland, Ohio, informed us that the Treasurer of the United States holds $494.46 for two 5% Equipment Trust & Improvement Bonds due 1917, with April 1, 1912, and subsequent coupons attached. This money was on deposit in the Registry of the above Court and was later turned over to the Treasurer of the United States on March 28, 1911. A petition should be presented to the above Court accompanied by an Order. If the petition is accepted, the Order will be signed and returned to you. Send the Petition and Order, together with the bonds, to the United States Treasurer for collection. Certificates of Deposit for the above bonds received $932.27 on each $1,000 certificate from the Bankers Trust Company, New York City.

Cleveland & Chagrin Falls Railway. The First 6% Bonds due 1930, with Jan. 1, 1924, and subsequent coupons attached have a decree value of $14.12 per $100 bond. Collect on unstamped bonds from the Guardian Trust Company, Cleveland, Ohio.

Cleveland Discount Co. (Del.) Common stock of this company is entirely worthless, having been entirely wiped out through the receivership of that company. The preferred stock of the company may be exchanged in accordance with a plan of reorganization for the Cleveland Securities Corp. Cleveland Securities Corporation purchased the assets of the Cleveland Discount Co. at Receivers' sale.

Cleveland & Erie Railway Company. Certificates of Deposit for unpaid interest due Jan. and July 1, 1915, and 1916, from Certificates of Deposit for First Mortgage 5% Bonds dated July 1, 1909, at face amount except coupons due July 1, 1916, should be presented to the Fidelity-Philadelphia Trust Company, Philadelphia, Pa., for the following payments: $12.50 coupon, $8.1222; $6.25 coupon, $4.061. The funds unclaimed have been or will be paid in the near future to the Treasurer of the State of Pennsylvania, Harrisburg, Pa., under the escheat laws of said state.

Cleveland & Mahoning Valley Railway Company. An order signed by Judge Robert N. Wilkin of Federal Court at Cleveland, Ohio, approved the petition of Erie Railroad Trustees to acquire control by purchase of the entire capital stock of the Cleveland & Mahoning Valley Railway Company, by means of an R.F.C. loan of $7,500.000.

Cleveland, Painsville & Ashtabula Railroad. Our records indicate that this road was sold at receiver's sale for $75,000 on April 30, 1926. The Cleveland Trust Company, Cleveland, Ohio, informed us on Oct. 29, 1940, that the property mortgaged to secure the First Mortgage 5% Bonds due 1923 were foreclosed and from the proceeds of the foreclosure sale $84.48 per $1,000 bond were realized. It would therefore appear that as the bonds were not paid in full capital stock has no value.

Cleveland, Southwestern Railway & Light Co. The Gen. Cons. 5% Bonds due 1954 have a decree value of 2%, according to C. J. Mayers, Union Trust Bldg., Cleveland, Ohio.

Clinton Hall Association of New York. Succeeded by Mercantile Library, New York City. Succeeding company will pay $15 per share for the old stock.

The Marine Midland Trust Company of New York City holds $528 representing unclaimed liquidating dividends due on the capital stock as a first distribution of $4.00 per share; $39.60 of unclaimed funds to pay a second distribution of $.30 per share, and $171.60 of unclaimed funds to pay a third and final distribution of $1.30 per share. The three payments were stamped on the back of the certificate. Upon payment of the third dividend the stock was cancelled and retired.

Coal Lands Securities Company. Incorporated in West Virginia on July 5, 1912.

The main assets of the company consisted of bonds and stock of the Lackawanna Coal & Lumber Company, which are worthless. The other assets were sold and there is on deposit at the Scranton National Bank, Scranton, Pa., the first and final dividend of 4c per share. The dividend was mailed to stockholders of record and although stock may be outstanding it may have been paid.

Coastal Minerals Development, Inc. On Sept. 16, 1939, it was reported that promoters of the company were indicted for making false representations in the sale of the company's stock.

Cohoes-Waterford Corporation Dissolved July 27, 1939. There are funds available to distribute to stockholders amounting to $1,324.

Coldak Corporation. The Coll. Trust 6½% S. F. Conv. Notes due Sept. 15, 1933, with Sept. 15, 1938, and subsequent coupons attached, have a decree value of $81 per $1,000 bond. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City.

Colombia Syndicate. Remaining lease in Venezuela abandoned in July, 1933. On Feb. 17, 1934, it was reported that the company's assets consisted of $38,000 cash. On June 16, 1934, a liquidating dividend of $1.21 per 100 shares was paid to the common stockholders, payable at the New York Trust Co., New York City.

Colonial Hall Apt. Bldg. The First 6½% Bonds due 1928-34 have a decree value of $659.24 per $1,000 bond. Collect on unstamped bonds from the Continental Bank & Trust Company, New York City.

Colonial National Bank, Hartford, Conn. In liquidation 1920. Dividends totaling 95% had been paid up to 1925. It was estimated at that time that the stock was worth about $2.50 per share. We refer you to the Phoenix National Bank & Trust Company, Hartford, Conn., for further information.

Colonial Oil Co. of New Jersey. This company, which was formerly located at 17 Battery Place, New York City, paid liquidating dividends on their capital stock as follows: 1916 First, $100 per share; 1917 Second, $50 per share; 1918 Final, $31 per share. Any unclaimed funds apparently would be paid into the Chancery Court at Trenton, N. J.

Colony Holding Corporation. Name changed to Atascadero Estates, Inc. On Dec. 2, 1925, the Anglo-California Trust Company, Trustee, sold all the property for the benefit of the bondholders. We refere you to the above bank for the amount of distribution on the bonds.

Colony Management Corporation. A New York corporation, and was dissolved on July 19, 1940.

Color Pictures, Inc. A final liquidating dividend of 52c per share was paid on the no par common stock, payable at the Bank of Manhattan Company, 40 Wall St., New York City. A partial liquidating dividend of two shares of Technicolor, Inc., for each five shares of Color Pictures and 60c in cash for each one share was paid May 16, 1934.

Colorado Midland Railway Company. Unstamped bonds have a decree value of $85.55 per $1,000 bond. Collect from the United States District Court, Denver, Col. We understand that the V. T. C. for common and preferred stock, if presented to the Central Hanover Bank & Trust Company, New York City, will receive $12.50 and $30 per share respectively.

Colorado National Bank, Denver, Col. This bank informed us on April 26, 1941, that they hold funds for liquidating payments for the following securities:

Hotel Cosmopolitan & Theater Building 6½% Bonds; distributions totaling 75.731% of face amount on all undeposited bonds, 12/1/31 coupons, 12/1/32 coupons and undeposited Certificates of Indebtedness issued for 12/1/31 coupons or bonds.

Park Lane Properties 6½% Bonds; distribution totaling 28.342% of face amount of undeposited bonds and all unpaid coupons plus 8% interest to 5/1/39. Both of these distributions come from foreclosure sales of the properties.

Colorado Railway Light and Power Co. 5's of 1950. Bonds were stamped "The sum of $486.36 was paid on this bond in foreclosure proceedings in the U. S. District Court, District of Colorado. Charles W. Bishop, Clerk."

Colorado Springs & Cripple Creek District Railway. The property of this company was foreclosed and sold in 1922 for $375,000. Any funds that may be available for unstamped bonds or certificates are probably held by the New York Trust Company, Trustee. It was reported in 1923 that the committee had paid $650 on each $1,000 bond.

Colorado Springs Electric Company, Colorado Springs, Col. Under the reorganization plan of May 29, 1925, the First 5% Bonds due 1920, received $900 per $1,000 bond. According to a letter received from the United States District Court, Denver, Col., dated 1931, funds for the above bonds are on deposit at that court, or may now be in the hands of the U. S. Treasury. These funds are always obtainable upon making proper claim to the court.

Colorado Springs Light Heat & Power Company. Funds for the bonds of this company are on deposit with the United States District Court, Denver, Col.

Colorado-Yule Marble Company. The First 6% Bonds dated 1905 and due April 1, 1920, have a decree value of $1,180.98 per $1,000 bond. Collect from Chas. R. Enos, 319 Colorado Bldg., Agent for Pat Hanlon, Sheriff of Gunnison Co., Col.

Columbia Construction Company. Stockholders, by sending their shares to the Continental-Illinois National Trust & Savings Bank, Chicago, Ill., with due bills attached, received certificates representing Northwestern Elevated preferred and common stock in 1900.

Columbia Country Club. The property was foreclosed. The First Mortgage & Coll. Trust 7% Bonds should be presented to the Portland Trust & Savings Bank, Portland, Ore., for their share of the proceeds of the sale.

Columbia Graphophone Manufacturing Co. See Guaranty Trust Company, New York City.

Columbia National Fire Insurance Company, Lansing, Mich. Stock has a liquidating value of $42 per share, payable at the Central Trust Company, Lansing, Mich.

Columbia Textile Company. Incorporated under the laws of the State of Massachusetts and was dissolved in 1930. Its last certificate of condition filed March 25, 1930, gave the location of its principal office in Massachusetts at Lowell and at 65 Worth St., New York City. The following were officers: President, Edward J. Quintel, 11 Broad St., New York City; Treasurer, Samuel C. Worthen, 165 Broadway, New York City; Clerk, Willard Haff, 65 Worth St., New York City; George E. Pierce, 40 Water St., Boston, Mass., William D. Judson, 78 Leonard St., New York City. First 7% Bonds due 1942 have a decree value of $760.07 per $1,000 bond. Collect on unstamped bonds from the Bankers Trust Company, New York City.

Columbia Troy Corp., Newark, N. J. Liquidated. Received stock of American Machine & Metals, Inc., as a liquidating dividend.

Columbus Country Club, Bangor, Maine. The 5% First Mortgage Bonds due July 1, 1925, with No. 1 Coupon attached, received a final payment of $16 per $100 bond, payable at the Eastern Trust & Banking Company, Trustee, Bangor, Me.

Columbus, Delaware & Marion Railway Company. First Consolidated Mortgage Bonds due 1944. The Bankers Trust Company of New York City informed us as follows on Feb. 17, 1941: "Referring further to your letter of Jan. 14, our counsel have obtained for us a copy of an order entered Dec. 6, 1921, in foreclosure proceedings involving the above mortgage, which makes it clear that the Clerk of the Courts of Franklin Co., Ohio, Columbus, Ohio, should be prepared to make a distribution on the undeposited bonds at the rate of $153.89 on each $1,000 bond. Our local counsel in Columbus advised that their information is to the effect that the Clerk still has $925.30 to be paid out in accordance with the order. The terms of the order would seem to confirm our previous advise to you that a distribution of approximately 15% of the principal was ordered paid."

Columbus, Delaware & Marion Railway Company. Value of First Consolidated 5% Mortgage Bonds due Aug. 1, 1944. The Clerk of Courts, Franklin Co., Columbus, Ohio, informed us as follows on Jan. 24, 1941: "In answer to your letter of Jan. 21, inst., there seems to have been some difficulty in gathering the information that you desire, but we have found that there has been some distribution made on the bonds of the old Columbus, Delaware & Marion Railway Company, Case No. 57412, in the amount of $76.94 on each $500 bond. If you will send the bonds to us through your banking connections here or mail them direct to us by registered mail we will have the court approve the distributions and mail to you a check due you on the bonds."

Columbus, Delaware & Marion Railway Company. The Bankers Trust Company, New York City, holds certain funds to pay on the Aug. 1, 1909, to Feb. 1, 1916, coupons of the First Consolidated Mortgage 5% Bonds due Aug. 1, 1944.

Columbus, Marion & Bucyrus Railway Co. The Irving Trust Company, New York City, informed us on Nov. 12, 1937, that no interest had been paid on the General & Refunding Mortgage 5% Bonds due 1944 after Jan. 1, 1921. The Trust Company holds a small balance on their books to pay any outstanding coupons of Series Nos. 2-14. All the property was sold by the receiver at public auction in 1930. From the proceeds derived from the sale, after paying costs, taxes, preferred labor and material claims, there remained a sufficient amount to pay 50c on the $1.00 to the holders of the First Mortgage Bonds. The General & Refunding Mortgage Bonds, being subordinate to the lien of the First Mortgage Bonds, realized nothing. First Mortgage 6% Bonds with July 1, 1930, and subsequent coupons attached, have a decree value of $567.72 per $1,000 bond. Collect on unstamped bonds from the Guardian Trust Company, Cleveland, Ohio.

Columbus, New Albany & Johnstown Traction Co. Practically all of the stock of this company has been acquired by the Columbus Railway, Power & Light Company, Columbus, Ohio, with the exception of 14 4/5ths shares of preferred and 29 3/5ths shares of common stock that were outstanding on Aug. 24, 1923. These shares, according to a letter addressed to us in 1923, could have been sold to the Columbus Railway, Power & Light Company, at $66.15 for one share of preferred and one share of common.

Columbus & Ninth Avenue R. R. The First 5% Bonds due 1933 received securities of the New York City Omnibus Corp. and cash held by the Irving Trust Company, New York City. Each $1,000 bond with March 1, 1920, and subsequent coupons attached, received 4½ shares of stock of the New York City Omnibus Corporation and $91.57 in cash.

Columbus Packing Co. On Jan. 4, 1938, this company was sold to Armour & Co. of Chicago. Under the terms of the sale the shareholders will receive $98 for each $100 of preferred stock.

Columbus Railway Company. The Fifth Third Union Trust Co. of Cincinnati, Ohio, holds funds to retire the First Consolidated Forty Year 4% Gold Bonds dated Oct. 1, 1899, due Oct. 1, 1939, which were called for redemption on Dec. 16, 1935, at 105.

Columbus & Rome Railroad. The First Mortgage Bonds may have value with the City Bank Farmers Trust Company, New York City.

Columbus & Zenia R. R. The Pennsylvania Railroad Company offered $115 per share for the $50 par stock of this company in 1928, if presented to the Huntington National Bank, Columbus, Ohio.

Comeau Navigation Company. See City Bank Farmers Trust Company, New York City.

Commercial Amalgamated Trust, Ltd. (England). See Chosen Corporation, Limited.

Commercial & Industrial Development Co. Recorded in Cook Co., Ill., in 1919. We found no value to the stock nor any trace of the company.

Commercial National Corporation. Stock has a liquidating value of $6.35 per share. Present to the Commercial National Bank & Trust Company, New York City, for payment.

Commercial State Bank, Dallas, Texas. The Mercantile National Bank, Dallas, Texas, successors to the above bank, reported in 1925 that the final payment to stockholders would hardly exceed 25%.

Commercial Trust Company, Hagerstown, Md. Absorbed by Farmers & Merchants Bank, Hagerstown, Md.

Commonwealth Hotel Construction Corporation. The preferred and common stocks have a liquidating value of $100 and $19.43 per share., respectively. Notice—Under size stock certificates, that is, smaller than the usual certificates, were illegally issued and have no value. The good certificates are larger than the ordinary certificates. C/D for stock issued by the Mount Vernon Trust Company, of Mounty Vernon, N. Y., should be presented to the Mount Vernon Trust Company for payment, and will receive 55% in cash; 33¾% in Certificates of Beneficial Interest Cfts. of the bank, and 11¼% in the bank's stock. The actual stock certificates should be presented for payment to the Court of Chancery, Wilmington, Del.

Commonwealth Power Company of Nebr. Certificates of Deposit, issued by the New York Trust Company, New York City, for the First 6% Bonds of this company, have a decree value of $200 per $1,000 cft.

Commonwealth Trust Company. The Commonwealth Trust Company of St. Louis was incorporated under the laws of the State of Missouri and is located at St. Louis, Mo. The Trust Company is in liquidation and its affairs are being handled by W. V. Delahunt, Secy., St. Louis, Mo. A total of $136 was paid in liquidation; the last payment of $6.00 was paid in July of 1931. It is problematical whether any further payments will be made.

Community National Corporation. Stock liquidated at 6c per share. Incorporated under the laws of the State of New York and according to Morey & Schlenker, attorneys, located at Liberty Bank Bldg., Buffalo, N. Y., this corporation is still in existence (Jan., 1936), as they have forwarded our letter to the company. Mr. Edward A. Duerr of West Falls, N. Y., is listed as Pres., and Victor B. Hylegala, of 906 Broadway, Buffalo, N. Y., as Secy. Mr. Irving D. Brott, who was listed as a director, is a broker in Buffalo, in the firm of Brott & Templeton, Inc.

Community Trading Corporation. Value of Capital Stock. Incorporated in Delaware on November 22, 1927, and is located at 25 Broad St., New York City, in care of Edward Wellington, Treas. The Treas. informed me on Jan. 22, 1941, that the assets of the company have practically no value. The Treas., again informed me on Feb. 8, 1941, that the corporation owns all of the stock of a real estate company that owns about 40 unimproved lots in Yonkers. There are tax liens of $25,000 on the lots. Although the assessed value of the property is high, the company has been unable to get a bid of $500 per lot. At this rate the tax liens are worth more than the property. The corporation has no funds to meet the taxes and if the liens are foreclosed the company will be unable to protect the property. Therefore, it is my opinion that the shares had only a nominal value as of April 2, 1940, the date of the decedent's death.

Compania Metalurgica Mexicana. See Guaranty Trust Company, New York City.

Compania Minera de Penoles. Acquired by American Metal Co., Ltd. Stock was exchanged on basis of 10 pesos and 1 share of American Metal common for each 2 shares of Penoles. The offer was good until Dec. 5, 1923.

Compressed Air Co. See Guaranty Trust Company, New York City.

Compressed Steel Corporation of Nevada. Incorporated in Nevada and is located at 207 Byington Bldg., Reno, Nev. Roy H. Nevis, Pres., 1500 17th St., San Francisco, Cal.; Eugene McAteer, V.-Pres., 235 Hartford St., San Francisco, Cal.; Eugene Rogers, Secy., 191 Frederick St., San Francisco, Cal.; Lawrence C. Ames, Treas., 20 Hillwood Rd., Oakland, Cal. Letters addressed to the company have not been answered nor returned.

Compressed Steel Corporation. Incorporated in Nevada on Feb. 14, 1935. Mr. Lawrence C. Ames, Treas., of the company, located at 20 Hillwood Rd., Oakland, Cal., and Carroll Arms Hotel, Washington, D. C., informed us on Jan. 30, 1941, that the 7% Notes due 1940 were retired Oct., 1940.

Compressed Steel Corporation. We were informed that some notes of this company may have been illegally issued and have no value.

Concord Axle Co., Penacock, N. H. It was reported that liquidating dividends totaling 70% were paid to stockholders up to 1925. We understand that more were paid. We refer you to Howard N. Perley, Penacock, N. H., for further information.

Concord Maynard & Hudson Street Railway Co. The First Mortgage 5% Bonds, due July 1, 1922, with July 1, 1920 and subsequent coupons attached, have a decree value of $80.45 per $1,000 unstamped bond, payable at the First National Bank of Boston, Mass.

Concord & Montreal Railroad Company. The Boston & Maine Railroad Company, located at Boston, Mass., informed us as follows on April 8, 1940: This will acknowledge receipt of your inquiry of April 5, 1940, concerning Concord and Montreal Railroad stock. Holders of the Concord and Montreal stock, upon surrender of the certificates duly endorsed in blank, at this office, will receive certificate for like number of shares of Boston and Maine Railroad First Preferred Stock, Class C, as provided in the Agreement for the Consolidation of this road with the Boston and Maine Railroad, dated Nov. 26, 1918, concluded Dec. 1, 1919, and retroactive to Jan. 1, 1919. They will also receive dividends held in reserve, which amount to $77 per share. The entire property belonging to the Concord and Montreal Railroad was conveyed to the Boston and Maine Railroad by deed of sale dated Dec. 1, 1919. The lease of this road was cancelled, and all of its obligations were assumed by the Boston and Maine Railroad. This road has no assets, and its stockholders cannot therefore secure any income on the old stock. No transfer of its stock can be made, and the only means by which anything can be realized on it is by endorsing the stock certificates and exchanging them for Boston and Maine Railroad stock in accordance with the provisions of the consolidation agreement referred to. There are only three shares of Concord and Montreal Railroad stock outstanding, and I am led to wonder if this is some of the stock about which you have written. The First Mortgage 4% Bonds, due June 1, 1920, are worth par. Collect from the Boston Safe Deposit & Trust Company, Boston, Mass.

Concord Real Estate Co., Concord, N. H. Company paid a liquidating dividend of $23.50 per share in 1924. The stock then had a value of $27 per share. Mr. F. M. Knowles, of Concord, was Treas.

Condon Auto Stop Co. Stock has a liquidating value of $4.77 per share. Collect from F. M. Condon, 60 Park Pl., Newark, N. J.

Conduit Co., Ltd., Toronto, Can. Stock, if presented to the National Trust Co., Ltd., Toronto, Ont., Can., will receive $2.50 per share in cash; 1 share of new common and 1/24th share of new preferred for each common share held.

Conduit Threading Device Company. California, 1915.

Coney Island Bobs Coaster Co., Inc. Incorporated in New York on Aug. 29, 1925, and was dissolved Dec. 14, 1934.

Congress Cigar Company. Dissolution of Congress Cigar Co. was approved at a special meeting of stockholders today with no dissenting votes. The Porto Rican-American Tobacco Co.'s holdings of 240,000 shares were voted for dissolution. After the meeting it was stated that a substantial distribution to Congress Cigar holders would be made within four weeks. This distribution, it was said, would probably be about $6.77 a share in notes of Consolidated Cigar Corp., or $6.09 if the stockholder elected to take cash. This would permit an almost simultaneous distribution of $540 of Consolidated Notes or $486 of cash Porto Rican-American tobacco bondholders. (8/9/1940.)

Conley Tin Foil Company. See City Bank Farmers Trust Company, New York City.

Conley Tin Foil Corp. This company has been completely liquidated and have paid the following payments to the stockholders: First, $14 per share; Second, $2.50 per share; Third, 60c per share; Fourth, 58½c per share. The fourth payment was the last and final payment and the stock was then retired. Collect liquidating dividends from the Chase National Bank, New York City.

Connecticut Indemnity Association of Waterbury, Conn. The State of Connecticut, office of The Insurance Commissioner, State Office Bldg., Hartford, Conn., informed us as follows on Mar. 14, 1941: "Your letter of Mar. 12th is received. The Connecticut Indemnity Association of Waterbury, Conn., was chartered by the General Assembly of the State of Connecticut as an assessment life insurance company on Apr. 7, 1887. The name of this Association was changed to 'Connecticut Life Insurance Company of Waterbury' Dec. 2, 1898. The Company was placed in receivership Mar. 29, 1899, the New Haven Trust Company being appointed as liquidator. A final report was made and the receiver discharged on Oct. 19, 1906. Any stock in this Association would therefore have no value at the present time."

Continental Candy Corp. Incorporated in New York on May 27, 1919, and was dissolved by proclamation on Dec. 16, 1929. We cannot understand how any certificate can be dated 1927. It must be an error. The following letter from the Guaranty Trust Co. of New York, dated Feb. 20, 1939, confirms our opinion that no equity remained for the stock. "We refer to your letter of Jan. 5, 1939 with respect to the above notes and wish to advise that according to our records, the Corporation defaulted in the payment of interest due Jan. 1, 1921, and on Feb. 9, 1921, a Receiver was appointed. Under date of Apr. 15, 1921, we as Trustee served notice on the Corporation declaring the principal and interest on the outstanding notes due and payable and subsequently proof of claim for these notes was filed with the Trustee in Bankruptcy of the Corporation by the owner of the notes. We understand the Trustee in Bankruptcy made three payments of dividends directly to the noteholders as follows: First and Second Liquidation Dividend of 5% each and a Third and Final Dividend of 1.67%. This latter dividend was paid on Oct. 26, 1923."

Continental Oil Co. (Maine). Liquidating Trustee, Charles D. Booth, Portland, Me.

Continental Oil Corporation. Incorporated under the laws of the State of Delaware on Sept. 16, 1920, and lost its charter on March 19, 1924. As shown by its annual report filed in 1921, the last filed, the company had an office at 605 Schweiter Bldg., Wichita, Kans. C. E. Cooper, Pres.; C. C. Whittaker, V.-Pres.; J. W. Parkinson, Secy., all of Wichita, Kans. Letters addressed to the officers have not been answered nor returned. Our records indicate that the assets of this company consisted of ⅜ interest in the Anchor Petroleum Corporation, Red Ball Oil Company and Brush Oil Syndicate. These subsidiaries apparently failed to strike oil and went out of business. Therefore, the shares of the Continental Oil Corporation are without value.

Continental Shares, Inc. The New York Times of Sept. 30, 1939, carried the following notice: "Cleveland, Sept. 29—A State Court overruled today a motion to revive the charter of Cyrus S. Eaton's defunct investment trust, Continental Shares, Inc., and ordered the release of assets impounded since May, 1933 to a liquidating concern in Baltimore. By the order, approximately $3,500,000 will be transferred to the Liquidator and $3,000,000 will be distributed to stockholders of the old corporation. Judge Lee Skeel said that under the liquidation plan 381,000 preferred stockholders would receive 1 share of stock in the liquidating company to each share held in the old concern. Holders of about 2,500,000 shares of common stock would receive 1 share of new stock for 200 old shares. The committee for the preferred stockholders reported on Feb. 11, 1939, that the court at Baltimore found no material equity for the common stockholders, and that a plan would be formulated to liquidate the assets of the corporation."

Continental Terminals, Inc. The New York Trust Company of New York City, Mr. R.

P. Merrick, Asst. Secy., informed us on May 5, 1937, as follows ". . . regarding further distributions on 6½% Conv. Debentures, Series A of Continental Terminals, Inc., advise that as Trustee we hold a small amount in cash constituting a remaining balance of funds paid to us in liquidation of our claims against various subsidiaries of Continental Terminals, Inc. One of these claims (against Grand Trunk Railway Terminal & Cold Storage Co. of Detroit, Mich.) remains unliquidated. "If and when this claim is liquidated, we expect to distribute the proceeds of such liquidation, together with any balance remaining in our hands after the deduction of expenses pro rata among the debenture holders as a 4th and probably final distribution. Based upon information now at hand, it is our belief that the amount of such distribution will be in the neighborhood of $12.50 per $1,000 Debenture, more or less. Previous distributions amounted to $53.31 per $1,000 bond and C/D." There may have been other payments.

Coral Gables, Inc. Series "A" 7% Bonds, due 1931-32. The following was reported on Jan. 6, 1941, by L. H. Coombes, Trustee, Box 4633, Coral Gables, Fla.: "These bonds are secured by a mortgage covering a number of Coral Gables building lots, but as the market for such lots is highly competitive the liquidation is slow, and at the same time the carrying charges, in the form of taxes, are high. Although these bonds have all matured there has been no reduction in principal, and they are in default as to interest for over 8 years. Most of these bonds are held by the original subscribers, and although there have been one or two sales in the past, there is, so far as I know, no market for them at the present time."

Crown Central Petroleum Corp. We received the following letter to stockholders from the Marine Midland Trust Company of New York, 120 Broadway, New York City, dated June 15, 1938: "A recent examination of the stock records of the Crown Central Petroleum Corporation, a Maryland corporation, which is the successor to the White Oil Corporation, the United Central Oil Corporation, and the Crown Central Petroleum Corporation, a Delaware corporation, indicate that certain holders of the stock certificates of the White Oil Corporation, the United Central Oil Corporation, and the Crown Central Petroleum Corporation, a Delaware corporation, have not exchanged their stock certificates for the stock of the Crown Central Petroleum Corporation, a Maryland corporation, as they are entitled to do. The Crown Central Petroleum Corporation have requested us to advise you that until this transfer is made the holders of certificates of the old stock will not receive dividends which have been heretofore declared and deposited with us as Dividend Disbursing Agent. The records indicate that you are entitled to dividends if you exchange your stock certificates for the stock of the new Maryland corporation. Unless you do so exchange, you will not receive the dividends. If you will, therefore, send the certificates which you hold to our Stock Transfer Department, a properly registered certificate of the Crown Petroleum Corporation, a Maryland corporation, will be issued in your name and the dividends held for your account sent to you. For your convenience, a letter of transmittal is enclosed." White Oil Corporation Common Stock and Certificates of Deposit are exchangeable for the $5.00 par value common stock of Crown Central Petroleum Corporation of Maryland, at the rate of 2/75ths of a share of new stock for one share of old stock. Dayton, Springfield & Zenia Southern Railway Company. The First Wisconsin Trust Company of Milwaukee, Wis., informed us as follows on Aug. 17, 1940: We acknowledged your letter of Aug. 5, 1940, in reference to First Mortgage 5% Bonds of Dayton, Springfield & Zenia Southern Railway Company. The payment of 36.83% of principal endorsed on the bonds by the State Trust and Savings Bank, Dayton, Ohio, represents the pro rata share of the complete liquidation of the property securing the bonds in question. We do not understand that any further payments will be made, and we would regard the bonds as having no value.

Dayton & Xenia Transit Company (Ohio.) The Dayton-Xenia Railway Company, located at Dayton, Ohio, informed us as follows on Aug. 9, 1940: Your letter of Aug. 6, addressed to The Dayton & Xenia Transit Company, Dayton, Ohio, has been delivered to us. In your letter you refer to one of your clients holding 25 shares preferred and 25 shares common stock of The Dayton & Xenia Transit Company and 92 shares of stock and $1,000 First Mortgage 5% Bond of The Dayton, Springfield and Xenia Southern Railway Company and that he wishes to sell and you would like to know what he could obtain for these securities. The Dayton & Xenia Transit Company was the predecessor to the Dayton, Springfield and Xenia Southern Railway Company and went through foreclosure a number of years ago, and the Dayton, Springfield and Xenia Southern Railway Company went through receivership in 1923 and was succeeded in 1925 by The Dayton-Xenia Railway Company. All of the stocks and bonds of the two companies referred to were cleaned up and I believe the bondholders of the Dayton, Springfield and Xenia Southern Railway received a small amount on each bond, but to my knowledge all of the bonds were presented and settled by the Master Commissioner who was appointed by the United States Court, to sell the road. I can understand how your client might have some of the stock but do not understand how anyone still holds any of the bonds of the Dayton, Springfield and Xenia Southern Railway, since they were all supposed to have been deposited with the Master Commissioner.

Depositaries for the Reorganization Committee: The First National Bank and Trust Company of Tulsa, Tulsa, Okla., and The National Bank of Tulsa, Tulsa, Okla. By order of the United States District Court for the Northern District of Oklahoma. H. N. Greis, as Trustee for Deep Rock Oil Corporation. Dated: May 10, 1940.

Deep Rock Oil Corporation. Press report, May 26, 1941: To the Holders of Six Per Cent Convertible Gold Notes (originally due March 1, 1933, in part extended to March 1, 1937, at 7%), shares of $7.00 Cumulative Convertible Preferred Stock of Deep Rock Oil Corporation. (Security holders who have deposited with Reorganization Committee see Committe's Notice on this page.)

Notice is hereby given by H. N. Greis, Trustee of Deep Rock Oil Corporation, Debtor, in Bankruptcy Proceeding No. 2318, consolidated, in the District Court of the United States for the Northern District of Oklahoma, that the Twelve Year 6% Sinking Fund Debentures and certificates representing shares of new Common Stock of Deep Rock Oil Corporation, issued pursuant to the Second Amended Plan of Reorganization, as modified, together with cash provided for by said plan, are now available for distribution.

Holders of Convertible Gold Notes who have not deposited the same with the Reorganization Committee upon surrender of such notes to The First National Bank of Chicago, 38 South Dearborn St., Chicago, Ill., as agent for the undersigned with, in the case of extended notes, interest coupons appertaining thereto maturing on or after Sept. 1, 1933, and accompanied in case such notes are in registered form by proper instruments of transfer executed in blank, with signatures guaranteed by a bank or trust company located in Chicago or having a Chicago correspondent, will be entitled to receive for each $500 principal amount thereof

(i) $275 principal amount of new Debentures, dated Jan. 1, 1940, with interest coupons due July 1, 1940, and subsequently attached.

(ii) Certificates representing 15 shares of new Common Stock, and

(iii) $145 in cash, except that in the case of notes with respect to which one or both of the two interim distributions of $60 each have heretofore been made, the amount of cash distributable shall be reduced by the amount already received.

Installments of interest due July 1, 1940, and Jan. 1, 1941, on the new Debentures will be paid upon presentation of the coupons to The First National Bank of Chicago or The Chase National Bank of the City of New York, Paying Agents.

In case distribution is to be made to other than the holders of Convertible Gold Notes, proper transfer stamps should be furnished.

Holders of shares of $7.00 Cumulative Convertible Preferred Stock who have not deposited the same with the Reorganization Committee, upon surrender of certificates therefor to The First National Bank of Chicago, Ill., as Agent, will be entitled to receive for each such share of old stock certificates representing 2 shares of new Common Stock. In case distribution is to be made to other than the registered holders of shares of old Preferred Stock, certificates should be accompanied by duly executed instruments of transfer with signatures guaranteed by a bank or trust company located in Chicago or having a Chicago correspondent, together with proper transfer stamps.

Very truly yours,

H. N. GREIS,

as Trustee in the Matter of Deep Rock Oil Corporation, a corporation, Debtor, in Bankruptcy No. 2318, Consolidated, in the District Court of the United States for the Northern District of Oklahoma.

Dated: May 26, 1941.

To the holders of Certificates of Deposit for Six Per Cent Convertible Gold Notes (originally due March 1, 1933, in part extended to March 1, 1937, at 7%), and shares of $7.00 Cumulative Convertible Preferred Stock of Deep Rock Oil Corporation. (Security holders who have not deposited with Reorganization Committee see Trustee's Notice on this page.)

Notice is hereby given by the Reorganization Committee for Deep Rock Oil Corporation that the Twelve Year 6% Sinking Fund Debentures and certificates representing shares of new Common Stock of Deep Rock Oil Corporation, issued pursuant to the Second Amended Plan of Reorganization, as modified, together with cash provided for by said plan, are now available for distribution.

Holders of Certificates of Deposit for Convertible Gold Notes are entitled to receive for each $500 principal amount thereof with, in the case of extended notes, interest coupons appertaining thereto maturing on or after Sept. 1, 1933,

(i) $275 principal amount of new Debentures, dated Jan. 1, 1940, with interest coupons due July 1, 1940, and subsequently attached.

(ii) Certificates representing 15 shares of new Common Stock, and

(iii) $145 in cash, except that in the case of of notes with respect to which one or both of the two interim distributions of $60 each have heretofore been made, the amount of cash distributable shall be reduced by the amount already received as evidenced by endorsements stamped on the Certificates of Deposit.

Installments of interest due July 1, 1940, and Jan. 1, 1941, on the new debentures will be paid upon presentation of the coupons to The First National Bank of Chicago or The Chase National Bank of the City of New York, Paying Agents.

Holders of Certificates of Deposits for shares of $7.00 Cumulative Convertible Preferred Stock are entitled to receive for each share thereof certificate representing 2 shares of new Common Stock.

Upon surrender for cancellation of Certificates of Deposit for Convertible Gold Notes and Cumulative Convertible Preferred Stock to The First National Bank of Chicago, Depositary, 38 South Dearborn St., Chicago, Ill., in the case of Certificates of Deposit issued by the Depositary, or to The Chase National Bank of the City of New York, Sub-depositary, 11 Broad St., New York, New York, in the case of Certificates of Deposit issued by it, holders will be entitled to receive new securities and cash on the basis set forth herein. Certificates of Deposit for Convertible Gold Notes must be endorsed in blank (or accompanied by proper instruments of transfer executed in blank) in all cases. Certificates of Deposit for Cumulative Convertible Preferred Stock must be likewise endorsed if request is made for the issuance and delivery of new securities to persons other than the registered holders of Certificates of Deposit.

Where endorsement or instruments of transfer are required as above provided, signatures must be guaranteed, in the case of Certificates of Deposit surrendered to the Chicago Depositary, by a bank or trust company located in the City of Chicago, Ill., or having a Chicago correspondent or by a member of the New York or Chicago Stock Exchange, and in the case of Certificates of Deposit surrendered to the New York Sub-depositary, by a bank or trust company located in the City of New York, New York, or having a New York correspondent or by a member of the New York Stock Exchange.

In case request is made for the issuance and delivery of new securities to persons other than the registered holders of Certificates of Deposit, appropriate transfer stamps or funds sufficient to cover the cost of such stamps must be furnished.

Very truly yours,
JOHN J. SHINNER,
NEWTON P. FRYE,

as a Reorganization Committee constituted by and acting under a Deposit Agreement dated as of Aug. 9, 1934, as amended from time to time.

Dated: May 26, 1941.

Deep Sea Fisheries, Inc. The Canal National Bank of Portland, Me., informed us as follows on Feb. 5, 1938: "The First Mortgage 8% Bonds dated Nov. 1, 1921, and due 1931, were issued in $10, $100 and $1,000 denominations. This bank still holds on deposit some cash for the payment of the remaining bonds still outstanding under a decree of the District Court of the United States, District of Maine, dated June 15, 1927, as follows: 'Ordered, Adjudged and Decreed that said The Canal National Bank of Portland, Trustee as aforesaid, be and it hereby is authorized and directed to distribute the sum of $25,951.56 to the holders of bonds not surrendered as a part of the purchase price of the mortgaged property of said defendant at the rate of $132.6428 on each $1,000 bond, endorsing on each such bond the amount paid..........'."

Delancey-Clinton Realty Co. The First 6½ Bonds due 1940 have a decree value of $53.82 per $1,000 bond. Collect on unstamped bonds from the Irving Trust Company, New York City.

Delendo Corporation. See City Bank Farmers Trust Company, New York City.

Delsim Corporation (The). Incorporated in New York on April 29, 1918, and was located at Brooklyn, N. Y. The corporation was dissolved on Dec. 15, 1938.

Denison City (Texas) Water Co. Property was sold at auction by the Farmers Loan & Trust Company of New York, as Trustees under the mortgage of Feb. 15, 1886, securing $200,000 of bonds to the City of Denison for $110,000.

Denver City Cable Ry. Co. Reorganized as Denver City R. R. Old First Mortgage Bonds with Jan., 1894, and subsequent coupons attached were exchanged for First Mortgage Bonds of the successor company, at the Central Trust Company, New York City, now Central Hanover Bank & Trust Company.

Denver City Tramway Co. The First & Ref. 5% Bonds due 1933 have a decree value of $398.20 per $1,000 bond. Collect on unstamped bonds from the International Trust Company, Denver, Col.

Denver & Northwestern Railway. The First Coll. 5% Bonds due 1932, have a decree value of $40 per $100 bond. Unstamped bonds should be presented to the United States District Court, Denver, Col., for collection. The certificates of deposit for these bonds received $500 in bonds and 7.5833 shares of preferred stock of the Denver Tramway Corporation for each $1,000 certificate.

Denver Reservoir Irrigation Co. Value of 6% Coll. Notes, Depositary No. 3955. We received the following letter dated Aug. 2, 1937, from Mr. B. P. Miller for Mr. Charles H. Albers, Receiver of the Central Republic Trust Co., Chicago, Ill.: "In response to your inquiry of July 29th, I wish to advise you that four liquidating dividends aggregating 40% have been paid on Certificates of Deposit for the above notes and that the certificates should now be surrendered to the Colorado National Bank in Denver to be exchanged for stock of Consolidated Farms Company, the corporation which is continuing the liquidation of the corporate assets."

Denver & Rio Grande Railroad Company. Reorganized as Denver & Rio Grande Western Railroad Company. No provision was made for the stockholders in the plan. The First Mortgage Unstamped Bonds we believe have a decree value of $717.06 per $1,000 bond.

Denver Rock Drill Mfg. Co. Acquired by Gardner-Denver Co. Stockholders of the above company received stock in the new company plus a cash distribution.

Denver & Southwestern Railway Co. The General Mortgage 5% Bonds have a decree value of $187.50 per $1,000 bond. Collect on unstamped bonds from the New York Trust Co., New York City.

Denver Union Water Company. See City Bank Farmers Trust Company, New York City.

Denver Union Water Company. The unstamped preferred and common stock of this company has a liquidating value of $28 per share (representing three distributions), payable at the International Trust Company, Denver, Col., or E. S. Kassler, Pres., Denver, Col.

Denver Union Water Co. The New York Trust Company of New York City, holds unclaimed funds that are payable on the Scrip for First Mortgage Bonds at the rate of $11.15 per $5.00 face amount of Scrip, which payment became effective in 1919. The same bank also holds funds representing various payments on the Certificates of Deposit for First Mortgage 5%

Bonds, which payments became effective about 1914.

Depollier Watch Company. Incorporated in New York and was located at 316 Herkimer St., Brooklyn, N. Y. This company, apparently, is an outgrowth of J. Depollier & Sons, who were engaged in the novelty business at the above address in 1922. We searched our stock records back to 1922 and found no market for the stock at any price. Mr. Francis C. Depollier, a cousin of the Charles Depollier, former owner of Depollier Watch Company, now located at 108 E. 56th St., Brooklyn, N. Y., informed us on Sept. 17, 1940, that the son took over the business when the father died. The son failed, and lost his home with it. The shares are absolutely worthless.

Deposited Bond Ceritficate. Conv. Deb. Series 1938. The Manufacturers Trust Company, New York City, will pay a dividend of $7.5101 on these certificates plus a coupon payment of 10.897c on Coupon No. 4.

Derby Oil Co. The common stock can be exchanged for stock of the Derby Oil & Refining Co. at the Guaranty Trust Company, New York City, on the basis of 20 shares of Derby Oil Co. for one share of Derby Oil & Ref. Co. Stock.

Dery, D. G., Corp., Allentown, Pa. The First Mortgage 7% Bonds due 1942 have a decree value of $122.57 (representing three payments) per $1,000 bond. Collect from the New York Trust Company, New York City, on unstamped bonds. The Certificates of Deposit for these bonds received four payments totaling $116.32 from the Central Hanover Bank & Trust Company, New York City.

Detroit Aircraft Corporation. Incorporated in Michigan on Nov. 23, 1933, and according to the 1940 annual report, the following are the officers: Wm. B. Mayo, 2272 National Bank Bldg., Detroit, Mich.; John Getz, 700 Seward Ave., Detroit, Mich.; Chas. Berkmeyer, 10 Ferris, Highland Park, Mich.

Detroit Aircraft Corporation. The Balance sheet for the year ending Dec. 31st, 1939, shows total assets of $150,690.50, of which $112,100.39 represents notes receivable from Processed Materials Corporation and accrued interest. After looking at the balance sheet of the latter company for the same period it is our opinion that the notes of that company have no value whatsoever. As far as the stock of the Detroit Aircraft Corporation is concerned, it has only a problematical value.

Detroit, Almont & Northern R. R. The First 6% Bonds due 1940 have a decree value of $39 per $1,000 bond. Collect from the Union Guardian Trust Company, Detroit, Mich.

Detroit & Canada Tunnel Co. The Union Guardian Trust Co. of Detroit, Mich., will hold new securities of the Detroit & Canada Tunnel Corp. until Feb. 7, 1944, at which time the unclaimed securities will be returned to the new company.

Detroit City Service Co. The First 6½% Bonds due 1937 have a decree value of $534.71 per $1,000 bond. Collect on unstamped bonds from the Union Guardian Trust Company, Detroit, Mich.

Detroit-Cleveland Warehouse & Realty Co. The First 6½% Bonds due 1935 received a decree payment. The 7% bonds due 1935 received $35 per $100 bond. Collect on unstamped bonds from the Michigan Trust Company, Grand Rapids, Mich.

Detroit Masonic Country Club. The First 6% Bonds due 1929-38 have a decree value of 75%, which was paid in 1932. Collect from the Detroit Trust Company, Detroit, Mich.

Detroit Reduction Co. The First 6% Bonds due 1934 represented by C/D have a decree value of 45%. Collect from the Detroit Trust Co., Detroit, Mich.

Detroit United Railway Co. Incorporated in Michigan in 1900 and was located at Highland Park, Mich. On March 10, 1925, receivers were appointed. The property was subsequently foreclosed and the First Mortgage 6% Bonds due 1929 and First Mortgage Coll. Tr. 5½% Bonds bearing 31% paid on account of principal received $151.715032 per $1,000 bond. One hundred and eleven coupons maturing Jan. 1, 1925, received $5.40053 each; 8,275 coupons maturing July 1, 1925, received $5.4053 per coupon. Equipment Trust Series A 6% Bonds due 1925-34 received $146 per $1,000 bond. Collect from Central Hanover Bank & Trust Company, New York City. There was no equity left for any stock.

Dexter Helium Company of America. Value of Trustee Certificate for 2,000 shares of capital stock, dated at Jackson City, Mo., on July 3, 1922. This corporation was reported incorporated at Jackson City, Mo., on July 3, 1922. The Secretary of State of Missouri, located at Jefferson City, Mo., informed me on March 21, 1940, that they found no record of this corporation either as a corporation or fictitious name registration. I found no record of the company's operations nor any value to the stock at any time near the date of death. The stock was last offered at 4c per share in 1926 with no bids. It is my opinion that the company is out of existence and the shares were worthless as of June 9, 1939, the date of the decedent's death.

Diamond Ice Company. The Paterson Savings Institution of Paterson, N. J., holds $156.24 for distribution on the First Mortgage 6% Bonds due Jan. 1, 1903.

Diamond Spiral Manufacturing Company. Incorporated in Illinois on April 24, 1902, and was dissolved by action of the Attorney General in the Superior Court of Cook Co., Ill., on April 9, 1926. The number in Chancery was 19707. The last report filed in 1911 showed the following: Vice President, Arthur E. Edever, 6347 Kenmore Ave., Chicago, Ill.; Secretary, Carl Stroever, 5462 Higgins Ave., Chicago, Ill. We found no value to the stock.

Dime Savings and Trust Company, Allentown, Pa. The Lehigh Valley Trust Company of Allentown, Pa., informed us as follows on Aug. 7, 1940: "Replying to your inquiry of March 2nd, regarding the Dime Savings and Trust Company, we wish to say that there is still a considerable amount of Dime assets unliquidated and until they can be converted into cash and the balance of the obligations of the Dime Bank paid, there can be no value fixed on the stock. At the present time it appears that the assets will not be sufficient to fully liquidate the liabilities. There is no market whatsoever for the stock at this time."

Dirigo Manufacturing Co. This company was located at 1203 Times Bldg., New York City, in 1914. In 1915 the company was inoperative. We found no value to the stock.

Discount Corporation of New York. Press report dated Oct. 30, 1940. Stockholders of the Discount Corporation of New York ratified yesterday at a special meeting the management's plan calling for a reduction of $6,000,000 in the corporation's capital funds by means of a distribution to stockholders of $120 a share. This figure was the original price of each share in 1919, when the corporation was formed. The corporation, which was formed by Wall Street banking interests to buy and sell bankers' acceptances and related banking "paper" and to deal in United States Government securities, now finds that the acceptance market has dwindled to such an extent that the corporation's present capital funds are too large for the present business. Of the 50,000 shares of stock of the corporation outstanding, 46,735 were represented at the meeting. The vote was 46,600 in favor of the plan and 135 shares were voted against. The plan, which was presented to stockholders several weeks ago, calls for a reduction in the par value of each share from $100 to $40, thus cutting the capital from $5,000,000 to $2,000,000. The $3,000,000 is then transferred to surplus, increasing that item to $8,000,000 from $5,000,000, from which is deducted the $6,000,000 to be distributed to stockholders. In addition, the corporation has undivided profits of approximately $1,500,000. Eight Wall Street banks hold 40,700 of the 50,000 shares. These institutions are the International Banking Corporation, an affiliate of the National City Bank; the American Express Company, affiliate of the Chase National Bank; the Bankers Trust Company, Central Hanover Bank and Trust Company, Guaranty Trust Company, J. P. Morgan & Co., Inc., Corn Exchange Bank Trust Company and the New York Trust Company. Officers of the Chemical Bank and Trust Company are also stockholders, and the balance of the stock is owned in small lots by various investors. Stockholders also approved a proposal to grant extra compensation annually to employees without annual ratification by stockholders, as has been the practice in the past.

Distillers Corp.-Seagrams, Ltd. Distillers Corp-Seagrams, Ltd., which in its last fiscal year had sales in excess of $100,000,000, announced the purchase of three additional firms, along with their assets and trade marks: Browne Vintners Co., Hunter Baltimore Rye Distillery, and Wilson Distilling Co. This adds to the Distillers-Seagrams line not only Wilson's and Hunter's whisky but also such well-known products as White Horse Scotch, Cointreau, Peiper Heidsieck champagne, and Remy Martin cognac.

Distillers Securities Corp. The First Mortgage 5% Bonds have a decree value of $246.24 per $1,000 bond. Collect on unstamped bonds from the Bankers Trust Company, New York City.

Dixie Land Mortgage and Investment Corporation. Incorporated in Florida and was dissolved on Nov. 23, 1936. Its directors were: N. R. S. Yewdall, A. H. Sickler, Godfrey Shmidheiser and J. S. Blain, all of Miami, Fla. No report of officers was ever filed. We found no value to the stock.

Dixie Land Mortgage & Investment Company. Supplementing our previous report, Mr. J. S. Blain, a former director of the company, located at 600 Ingraham Bldg., Miami, Fla., in care of the Sewell Realty, Inc., informed us as follows on Nov. 6, 1940: ". . . This corporation was dissolved many years ago. They owned a large tract of land which had a mortgage which was foreclosed. The State of Florida passed a law some years ago dissolving all corporations who did not pay their State taxes. I am sorry that this is the only report that I can send you in respect to your inquiry." In view of the above we assume that the shares are without value.

Durant Motors of Canada, Limited. Stock exchanged for stock of Dominion Motors, Limited, and also received two back dividends on new stock paid in Oct., 1931 and May, 1932. Exchange made at Chartered Trust & Executor Co., Canada.

Durham Coal & Iron Company (N. Y.) Value of First Mortgage 5% Bonds due 1936. Value of 6% Bearer Scrip Cfts., dated 1914, and due 1918. Value of common stock, par $100. The property of this company was foreclosed and sold in 1930 to satisfy the first mortgage indebtedness. The amount received from the sale was sufficient to pay $150.49 on each $1,000 bond leaving no equity for the junior securities. Bonds stamped as having received this first and final payment are worthless. Therefore we submit the scrip and capital stock as worthless as of Mar. 16, 1936. Collect on bonds from the Central Hanover Bank & Trust Company, New York City.

Easton Dollar Savings and Trust Company, Easton, Pa. The Easton Trust Company of Easton, Pa., informed us as follows on Aug. 7, 1940: "We have your inquiry of Aug. 6th, regarding 75 shares common stock of the Easton Dollar Savings and Trust Company. On Jan. 25, 1932, this institution took over the assets of the Dollar Company as Liquidating Trustee. The liquidation was completed several years later with a heavy loss to this bank, and the Easton Dollar Savings and Trust Company was dissolved. There were no funds from the liquidation for the stockholders, and the stock is therefore valueless."

Electric Outlet Co. of New York. Incorporated in New York and lost its charter in 1935. The last known address was 12 East 41st St., New York City. Mr. E. Cantelo White, former Pres. of the company, now associated with the Ansonia Clock Company, located at 9 East 46th St., New York City, informed us on June 20, 1940, that this company has been defunct for many years. There are a number of patents standing in the name of the company, but none of them are in use so far as Mr. White knows. He sees no basis for placing any value on the stock. In view of the above we do not believe the shares have any value.

Electric Power Associates, Inc. The company distributed the major part of its holdings of American Water Works & Electric Co. stock to its stockholders. In 1939 it was the intention of the company to liquidate the remainder of its assets and distribute same to its stockholders. It was reported in the New York Times, June 7, 1939, as follows: "Notice is hereby given that the transfer books of Electric Power Associates, Inc., a Maryland corporation, which has been dissolved and is now in the process of liquidation, will be closed permanently on June 20, 1939, and that after the close of business on that date no further transfers of Class A Stock and Common Stock will be made on the books of said corporation. The New York Curb Exchange has advised that no trading in said stocks on that Exchange will be permitted after June 17, 1939. Prior to the final distribution, it will be necessary for all holders of certificates for the Class A Stock and Common Stock of Electric Power Associates, Inc., to forward the same to Chemical Bank & Trust Co., 165 Broadway, New York City, for cancellation against the final payment, when made. Said certificates must be accompanied by a Letter of Transmittal properly executed, copies of which may be obtained from the bank or the corporation, 15 Exchange Pl., Jersey City, N. J. By order of the Trustees, C. F. Blanchard, Secy." On Dec. 28, 1939, it was reported that the company paid a liquidating dividend of $1.35 per share on the Class A and Common Stocks, payable at the Chemical Bank & Trust Company, New York City.

Eureka Smelting & Mining Co. Incorporated in Nevada in July, 1922, and changed its name to Eureka Smelting Co. on May 12, 1923. The office of the company was located at 37 Wall St., New York City, in care of Allan S. Locke. The property of the subject company was sold at foreclosure June 18, 1930, on account of the First Mortgage Bonds at 40c on the dollar, leaving a deficiency judgment against the company of approximately $600,000. There was a year to redeem which might stretch the loss to June, 1931. The only other assets not covered by the mortgage were two lots of land in the town of Eureka and a vague claim to certain unpatented mining claims which lapsed because of non-payment of assessment. The two lots of land were attached for bills and I believe were sold under sheriff's sale.

European-Dieterich Company. Incorporated in New York and had an office at 61

Evansville & Indianapolis Railroad Co. First Mortgage 7% Bonds dated 1872 and due 1902. The New York Central Railroad Co. informed us as follows on Feb. 17, 1941: "Referring to your recent inquiry in regard to the status of Bond No. 258 issued in 1872 of the First Mortgage 7% Issue of the Evansville & Indianapolis Railroad, the principal of which was payable in 1902: According to Poor's Manual for the years 1877-8, there was a company projected under the name of the Evansville & Indianapolis Railroad, which authorized the issue of First Mortgage 7% Bonds due Jan. 1, 1902. We have no information, however, that these bonds were actually issued, or if so, what disposition was made of them, and it is not likely that they are of any value. There was a company known as the Evansville & Indianapolis Railroad which was incorporated June 14, 1884, and was later consolidated with other companies, and subsequently reorganized as the Evansville, Indianapolis & Terre Haute Railway. So far as we know there was no connection between the latter company and the Evansville & Indianapolis Railroad referred to above."

Farmers & Shippers Tobacco Warehouse Co. The Central Trust Co., Cincinnati, Ohio, informed us on May 8, 1939, that the 2nd preferred and common stock have no value as the first preferred only received between July 15, 1924, and Nov. 12, 1928, $90.50 in liquidating dividends. The Farmer's and Shipper's Leaf Tobacco Warehouse Co. acted as Liquidating Trustee and the address was 1007 Provident Bank Bldg., Cincinnati, Ohio. The $3.50 dividend per $100 on Nov. 12, 1928, was definitely stated as the final dividend. Company owned stock of the Burley Tobacco Growers Cooperative Association.

Farmers State Bank, Bainville, Mont. This bank was closed on July 14, 1937. There was no statutory stockholders liability assessed against the stockholders of the bank, it being insured by the Federal Deposit Insurance Corporation. We were informed on Oct. 31, 1940, that the affairs of the bank have not been terminated. The depositors who filed claim have all been paid. The Federal Deposit Insurance Corporation have been repaid by the Bainville Trust 80% of their total claim and the assets still remaining in the trust exceeds the liabilities to be paid. However, due to the fact that the value of the assets remaining is problematical, it is impossible to state what will be repaid to the stockholders. It would appear from the above that the stock cannot be declared worthless at this time, and a loss may be taken on the stock only if it has been sold.

Florida East Coast Railway Co. Press report dated Oct. 24, 1940: Reorganization Plan for Road Presented. Trade of Securities Is Proposed for the Florida East Coast. Jacksonville, Fla., Oct. 24 (A.P.)—A plan of reorganization for the Florida East Coast Railway Company calling for an exchange of securities was presented today in Federal Court here. The plan was explained by Arthur M. Anderson, vice president of J. P. Morgan & Co., and chairman of the deposit committee of First and Refunding 5% Mortgage Bonds, who said 49.7% of such bonds were represented by the committee. Holders of the $12,000,000 issue of 4½% First Mortgage Bonds would receive under the plan an equal principal amount of new First Mortgage Bonds bearing 3¾% at the start, but to increase to 4% if for two consecutive years income available for fixed charges of the new company amounted to $1,250,000 or more. Holders of the present refunding issue of 5% bonds would exchange their securities for 4½% income bonds and 450,000 shares of no-par capital stock on the basis of $200 in bonds of the new issue and ten shares of stock for each $1,000 refunding bond. Unsecured indebtedness and capital stock of the company would be eliminated.

Collect on unstamped bonds from the Central Hanover Bank & Trust Co., New York City.

Fulton Street Railroad Co. First Mortgage 100-Year 4% G. B., due Nov. 1, 1995: We received the following letter from the Guaranty Trust Company, 140 Broadway, New York City, signed by P. G. Norris—X931:71—and dated April 13, 1939. "In reply to your letter of April 11, 1939, our records indicate that the Fulton Street Railroad Company defaulted in payment of interest on the above bonds in 1908. A receiver was appointed for the Company and eventually we, as Trustee, recovered a dividend representing the proceeds of claims which were made against the Metropolitan Street Railway Company and New York City Railway Company. The above Mortgage was not foreclosed for the reason that it appeared no property of any value was covered thereby other than the proceeds of the two claims above mentioned. We, as Trustee, were authorized to distribute pro rata to the holders of bonds of the above issue the sum of $9.0969 on each bond, in accordance with a Court Order dated November 4, 1927. It would seem unlikely that any further distributions will be made on bonds of the above issue. If the bond to which you refer has not received the distributive payment, you may forward it to us." The corporation was dissolved by Proclamation of the Governor published Mar. 13, 1926. Pres., Joseph C. Baldwin; Secy., DeWitt C. Jones, Jr. We received the following letter from Ernest M. Picker, Treas. of the American Dyewood Company, 22 E. 40th St., New York City, dated April 17, 1939. "We are in receipt of your letter of the 15th inst. in connection with the stock of the General Colors Co. We note that your client is the owner of 2,250 shares of Preferred and 1,228 shares of Common stock of that company which was issued to the Point Loma Chemical Co. In reply to the query in the second paragraph of your letter, we would advise you that the process to which you refer is still the property, as far as the writer knows, of the General Colors Co. As to the great value of this process, it should be noted that after two or three years of research and experimentation the process was abandoned. As to the liquidation of the General Colors Co., no legal steps have been taken. It has been difficult to locate the owners of stock in that company, and we would appreciate your furnishing us with the name and address of your client holding the above mentioned shares of stock so that we may communicate with him in the future in connection with any steps which may be taken to liquidate the General Colors Company."

Bonds due 1962 have a decree value of $30.35 per $1,000 deposited bond, and $83.07 per $1,000 undeposited bond, payable at the Irving Trust Co., New York City. The mortgage securing the First Mortgage 5% Bonds due 1946 was foreclosed about 1919 and all but $32,000 principal amount of these bonds were located and decretal payments made thereon. The Guaranty Trust Co. of New York City informed us in 1935 that the Judge of the U. S. District Court for the Southern District of Georgia, Eastern Division, before whom the foreclosure proceedings were held, ordered the publication of the notice requiring bondholders to file their claims before a specified date or be forever barred. This notice ran for a considerable time and at the expiration of the time given, the Court ordered the funds distributed. There are now no funds available for any unstamped bonds, which are without value.

Georgia Coast & Piedmont Railroad Company. Value of 5% Income Debenture due 1932. Incorporated Georgia, July 1, 1906. On July 17, 1916, receivers were appointed for the company. On Oct. 7, 1919, the road was sold for $426,000. This sale was confirmed on Oct. 18, 1919, by United States District Court at Savannah, Ga. Funded Debts: $32,000 First Gold 5's due 1946; $1,655,000 First S. F. 5's due 1962; $106,780 Receivers Certificates. According to the above the First S. F. 5's of 1962, that were subject to the 5's of 1946, received about $170 on each $1,000 bond, leaving no equity for the 5% Income Debentures due 1935 which are now without value.

Georgia and Southern Utilities. The First Mortgage 6% Bonds due Jan. 1, 1932. Foreclosure dividend on each $1,000 bond as follows:

Gerbereux Company (The). The Gerbereux Company assumed its present name on April 24, 1909, and is located at Yonkers, N. Y. The company informed us on July 16, 1940, that their company is engaged in the real estate business. The shares have not sold for a number of years and pay no dividend. The operations of the company for the past three years have resulted in a net loss of $2,500 to $3,000 annually. Any cash available has been used in the reduction of an accumulation of arrears which was built up during the depression years. The balance sheet of the company for the year ending April 30, 1940, shows total assets of $497,608.24. Of this amount real estate assets consist of $260,379.11 which represents book value less mortgages. The assessed value of these properties amount to $436,850 while the mortgages amount to $316,719.23, or 72%. Other assets consist of $12,467.20 against which there are liabilities of $13,169.23. In view of the fact that the company's operations have resulted in a loss for the past three years, and has never paid a dividend, and because of the high percentage of mortgages to the assessed value of the property, we do not believe the capital stock has any present value.

German Lithographic Stone Company. Incorporated South Dakota about 1908, and was located at Brandenberg, Ky. The Farmers Deposit Bank of Brandenberg, Ky., informed us on June 11, 1941, that this company went broke and was wound up years ago. There was nothing left for the stockholders.

Gigante Mountain Tunnel & Railroad Company. Incorporated in Arizona on Oct. 10, 1906, and has failed to file any reports since incorporation. The corporation was reported defunct and its charter revoked on June 28, 1927. We found no record of this company's operations nor any value to the stock. The shares in our opinion have no value.

Gillette Rubber Company. Eau Claire, Wis., March 1, 1940. Dissolution of the Gillette Rubber Company and its absorption by the United States Rubber Company was voted by stockholders at a special meeting here yesterday afternoon. United States Rubber held 93% of Gillette's common stock, including purchases at $29 a share made since notice of the stockholders' meeting, issued on Feb. 12. The Gillette Company was organized in 1917, and will cease to exist as a separate corporation on March 31. It is expected that liquidation will be completed by June 1. The United States Rubber Company yesterday notified stockholders of the Gillette Rubber Company that its recent offer to purchase the minority stock of Gillette outstanding at $29 a share will be extended to March 29. Originally the offer was to have expired at the end of Feb.

Girard Oil & Gas Exploration Company. Incorporated in Delaware on July 14, 1916, and is no longer in existence, having become inoperative and void on March 22, 1922, and proclaimed by the Governor in Jan., 1923, for non-payment of taxes. As shown by its annual report filed for the year 1919, the following were the names and addresses of the officers: President, Wm. F. Conklin, E. 6th Ave.; Vice President, Peter Paschen; Treasurer, W. H. Milldollar; Secretary, J. R. Artman, R. D. 1, Box 18, all of Tarentum, Pa. Letters addressed to Mr. Conklin have not been answered nor returned. It is our opinion, however, that the shares have no value.

Girard Oil and Gas Exploration Company. The Peoples National Bank of Tarentum, Pa., informed us on Oct. 23, 1940, that an investigation on their part disclosed that the above company is no longer in existence as far as they have been able to determine. Letters addressed to the former officers have been returned unclaimed. The shares in our opinion have no value.

Grand National Films, Inc. Incorporated in Delaware on March 30, 1936, as the Premier Productions, Inc. On April 17, 1936, the name was changed to Grand National Films, Inc. We were informed that scrip was issued to purchase stock, to the stockholders of Grand National. When this scrip was not used to purchase stock, the unsold shares were sold and the cash is now held by the Bankers Trust Company, 16 Wall St., New York City. About 1938, Grand National went bankrupt, and the full shares have no present value. The scrip should be presented to the Bankers Trust Co., New York City, which see.

Grand Rapids & Indiana Railroad Company. The Pennsylvania Railroad Company informed us as follows on Feb. 13, 1940: "I have your letter dated Feb. 8th, but can find no reference to any bonds issued by the Grand Rapids and Indiana Railroad Company dated in 1859. The aforesaid company issued $8,000,000 7% bonds secured by a first mortgage dated Oct. 1, 1869; $3,000,000 6% bonds secured by a second mortgage dated Aug. 1, 1884, and $4,625,000 5% General Mortgage Bonds issued as of Sept. 1, 1884, and I assume the bonds mentioned in your letter are part of the last named issue. The mortgage securing the General Mortgage Bonds was inferior in lien to the mortgages securing the First and the Second Mortgage Bonds. Foreclosure proceedings were instituted in 1895 by the Trustees of the mortgage securing the $3,000,000 6% Bonds, and the road was sold on June 10, 1896, under foreclosure of this mortgage for the sum of $500,000 but subject to the first mortgage securing the 7% bonds, of which there remained $5,375,000 outstanding. The General Mortgage Bonds, therefore, are worthless.

Great Northern Bond & Share Company, Inc. Incorporated in New York in 1924 as the Great Northern Bond & Mortgage Co., Inc. In 1925 or 1926 the name was changed to its present title. The Securities and Exchange Commission, 120 Broadway, New York City, informed us as follows on Dec. 5, 1940: "In reply to your inquiry of Nov. 25, 1940, regarding Great Northern Bond & Share Company, Inc., I find that Carlton R. McCarthy, the president of this company, is also president of C. R. McCarthy & Company, Inc., 42 Broadway, New York City, and in addition he is said to be an officer of the Anchor Post Fence Company. C. R. McCarthy & Company, Inc., is registered with this Commission as broker-dealers. Records in this office of the Commission reveal no detailed information pertaining to securities of Great Northern Bond & Share Company, Inc. However, according to Mr. McCarthy when recently interviewed by a representative of this Commission, this company was incorporated in 1924 in New York under the name of Great Northern Bond & Mortgage Co., Inc., and in 1925 or 1926 the name was changed to its present title. Mr. McCarthy stated that the company had issued about 100,000 shares of its preferred stock, and 3,800 shares of its common stock about sixteen years ago, and has sold none of its own securities since that time. Mr. McCarthy also stated that the Company has been inactive since 1937 and its affairs are now in liquidation. Great Northern Bond & Share Company, Inc., was registered with this Commission as a broker-dealer from Jan. 1, 1936 until May 6, 1940, when its registration was withdrawn. According to information supplied by the corporation in connection with its registration, the following persons were listed as officers and directors:

Carlton R. McCarthy, Pres. & Dir., residence, Rose Ave., Patchogue, N. Y.; business, 42 Broadway, New York, N. Y. Bertram B. Tate, Treas. & Dir., residence, Babylon, N. Y. business, 42 Broadway, New York City. Frank J. Williams, Asst. Treas. & Dir., residence, 17 Coleman Ter., Tenafly, N. J.; business, 42 Broadway, New York City. Nathan N. Tiffany, Dir., residence and business, East Hampton, N. Y. Edward P. Betzig, Dir., residence, Edgewood Pl., Scarsdale, N. Y.; business, 423 E. 143rd St., New York City.

Most of the above named individuals were also associated, as officers or directors, with various other registered broker-dealers, which included Great Northern Investing Company, Inc., and MacTate Corporation. The broker-dealer registrations of the latter corporations were withdrawn on Mar. 28, 1940 and Aug. 1, 1939, respectively. On July 3, 1940, a permanent injunction was signed in New York County on application of the New York Attorney General, restraining the Great Northern Investing Company, Inc., MacTate Corporation, William B. Tate and Frank J. Williams from doing a securities business within New York State. Apparently, Carlton R. McCarthy was not individually enjoined. Should you desire further information concerning the parties named herein, you might communicate with the Bureau of Securities of the Office of the New York State Attorney General, 80 Centre St., New York, N. Y. In addition, copies of registration statements filed by broker-dealers with this Commission may be examined at this office, Room 2006, 120 Broadway, New York City."

C. R. McCarthy & Co., informed Robert D. Fisher & Co., on Dec. 10, 1940, that the preferred stockholders will realize very little in the liquidation of the company, and nothing will be paid on the common.

Great Southern Lumber Co. On Aug. 19, 1939, it was reported that the company declared a liquidating dividend of $3.00 per share in cash and one share 5½% Gaylord Container Corporation stock for each 15 shares of Great Southern Lumber stock held, both payable Aug. 15, 1939, to holders of record of July 1, 1939.

Great Western Fire Insurance Company. The Department of Insurance, Springfield, Ill., informed us as follows on Feb. 28, 1941: The Great Western Fire Insurance Company was consolidated with Marquette National Fire Insurance Company, effective July 15, 1925, under the name of Marquette National Fire Insurance Company. This latter company was placed in the hands of Receiver on Apr. 29, 1927. The Receiver was discharged on June 7, 1934 and a decree entered by Judge William J. Lindsey, in the Superior Court of Cook County on June 27, 1934, declaring the charter null and void. We are attaching hereto a report made of the Receivership as of Dec. 31, 1933, concerning the above company. Marquette National Fire Insurance Company—All assets converted to cash with three liquidating dividends of 15%, 10% and 2.9%, respectively, distributed to general creditors pursuant to orders of Court, the total amount of same being $263,181.20, plus $12,498.89 distributed to preferred creditors. The estate is being held open only for the purpose of permitting further opportunity for distributees to present dividend checks still outstanding for payment—anticipate discharge of Receiver and closing of the estate within the next few months.

Greenlawn Cemetery, Bernardsville, N. J. Press report: Operation of an alleged nation-wide swindle in cemetery lots came to light yesterday with the arraignment here of Albert J. Van Scoyoc, 50, of Troy Hills, N. J. Charged with mail fraud, Van Scoyoc waived examination. U. S. Commissioner Garrett W. Cotter ordered him held in $20,000 bail for action by the Grand Jury. The two leaders of the alleged ring, Sidney Gottlieb, alias George Arlen, and Leon Sarshaik, are now fugitives, Assistant U. S. Attorney John Burling, declared. They jumped bail totaling $25,000 after their arrest in the cities of Bangor, Me., and Chicago, he said. According to Burling, the band peddled lots in Greenlawn Cemetery, Bernardsville, N. J., which was organized in 1929 with 130 acres divided into 25,000 lots. The corporation, with offices in Newark, is bankrupt. Burling charged—only 40 bodies had been interred there up to a year ago. In Jan., 1940, Gottlieb and an associate allegedly obtained deeds to some of the 150 lots in Van Scoyoc's name. Then, it is charged, they obtained a list of Associated Gas & Electric Co. bondholders, and persuaded a number of them—mostly women—to exchange their certificates for cemetery lot deeds.

Groton Iron Works. The Travelers Bank & Trust Company of Hartford, Conn., informed us as follows on June 12, 1940: We have gone over our records of the Groton Iron Works payments and also over the list of bond holders, but have been unsuccessful in finding anything in the name of your company. In fact, the only bond we find for $26.67 is in the name of F. R. Swift, for whom we had no address. Due to the length of time which had elapsed between the issuing of the bonds and the payment to one group, there was considerable difficulty in locating a few entitled to payments, but we have the list of those who did not receive their payments and your name does not appear on that. Many bonds, too, could not be located but, in that case, we secured affidavits for the lost bonds. As you may know, the Groton Iron Works issued two sets of notes in 1920, one due in October of that year and one due in April of the next year. When the October notes became due a partial payment was offered to note holders and new notes given for the balance. When the other set of notes became due in April of the next year, however, nothing was available, and as many holders of the April notes also had October notes, bonds were issued in which both sets of notes were included together with six months interest on the October notes. There had been deposited with this bank as Trustee collateral in the form of Virginia Ship Building Corporation Bonds, but these bonds were limited to being used as security for the October note holders or to the amounts of the October notes which were included in the bonds. Later, of course, the Groton Iron Works went into bankruptcy, and the property was foreclosed by the holders of prior mortgages, leaving a large deficiency. At that time, too, the Bank retained control of the Virginia Ship Building Bonds, and it was some time later that a relatively small amount was realized from their sale and the proceeds distributed to those people who had held the October notes. Holders of the April notes received nothing on this distribution, and holders of the bonds received 4% on only that portion of the bonds which represented the October note. Our connection with the Groton Iron Works ceased after distribution of this security, and we had no information about the value of the bonds, although it seemed reasonable to assume that they would never be of any value. The Trustee in Bankruptcy was P. LeRoy Harwood, who was connected with what is now the Savings Bank of New London, Conn., but Mr. Harwood is now dead and we know of no one to whom we could refer you.

Guaranty Mortgage & Securities Corporation. Mr. Theodore von Rosenvinge, an attorney, located at 60 State St., Boston, Mass., informed us on June 11, 1940 that the Guaranty Mortgage & Securities Corporation appears to have creditors in excess of its assets. This naturally would leave nothing for the stockholders. There remains at the present time some lots of vacant land to be disposed of before the affairs of the company can be liquidated and closed up.

Guaranty Security Corporation. The stock of this company is exchangeable for 20-Year 5% Debenture Bonds due June 1, 1947 of the Finance Corporation of New England at the rate of $5.75 per share on the preferred stock when accompanied by the common, this being the book value of said preferred stock. This is the only disposition that can be made of the stock of the Guaranty Security Corporation and is arrived at after almost continuous litigation by minority stockholders since 1925 having been finally disposed of in the Supreme Judicial Court of Massachusetts. The new company is lolated at 31 Milk St., Boston, Mass. (1930.)

Guardian Fire Insurance Company of New York. Funds for any outstanding unstamped stock are probably held by the Supt. of Insurance of the State of New York.

Guardian Fire Insurance Company. Organized Feb. 2, 1865, and had an office at 153 Broadway, New York City. Capital $200,000, of which $120,000 had been returned to stockholders, leaving $80,000 outstanding. Report in 1893 states that company had retired from business, and risks reinsured in the Liverpool and London and Globe Insurance Company. Dividends, 1882, 5½%; 1884, 3%; 1885, 6%; 1886, 6%; 1887, 3%. Last financial statement in 1893 showed net assets of $22,480.29. According to the above, $60 per share was paid from capital. The net assets shown above amounted to $11 per share on the 2,000 shares outstanding. As your stock shows payments of 65½%, probably half of the $11 was paid and the remainder for expenses. We do not find any record of further payments and believe that 65½% was the total amount paid. In view of the above, we believe the shares are now worthless. We found certificates recently showing payments of 70.5%.

Guardian Trust Co. of Kansas City. Value of Cft. No. 283 for 37 shares stamped 54% paid in liquidation and issued in the name of Adolphe de Bary. The Deputy Clerk of the United States District Court of Missouri made a search of the record and did not find the above stockholder's name in the list filed by the Receiver at the time the balance in his hands was turned into the Registry of the Court. Therefore it is our opinion that your client received the pro rata share due thereon in liquidation, and that the certificate has no further value. We understand that the stock of this company has a liquidating value of 54% and that unstamped stock should be presented to the United States District Court, Western District of Missouri, Kansas City, Mo., for collection. We have been unable to confirm the above. Probably the State Banking Department of Missouri has further information regarding the liquidation of this bank.

Guardian Trust Co. of New Jersey. Value of Certificates of Participation. Incorporated in Aug., 1926, and consolidated with the New Jersey National Bank & Trust Co. on Sept. 27, 1928. Stockholders received for each share of stock held one and 3/5ths share of stock of the New Jersey National and one share (represented by trustee's certificate) out of 50,000 shares (represented by trustee's certificates) in a trust fund containing net assets of approximately $7,300,000. The trust fund represented income producing assets including the capital stock of Guardian Securities Corp. Mr. Samuel F. Leber, Trustee, located at 60 Park Place, Newark, N. J., informed us that he cannot give us the value of these certificates. J. S. Rippel & Co. of Newark, N. J., informed us that the certificates have very little value and have sold for about 10c per share. Therefore we believe that 10c per share is a fair value for each share represented by certificates of participation as of Aug. 18, 1935.

Guardian Trust Company (N. Y.). Value of Cft. of Deposit No. 15 for 40 shares of stock. In 1913 the Guardian Trust Co. pledged its assets as security for the assumption by the Empire Trust Co. of the deposit liabilities and an amount sufficient to pay a distribution of $50 per share. The actual stockholders deposited their stock with the Empire Trust Co. and received a certificate of deposit representing stock of the Guardian Trust Co., together with a check for $50 per share for each share deposited. A year or two later the Liquidating Committee of Guardian Trust Company transferred the equity in the unliquidated assets to a business corporation known as Guardian Liquidation, Inc., whose stock was exchanged share for share for stock of Guardian Trust Co. which latter stock was cancelled. A few years thereafter the stockholders of Guardian Liquidation, Inc., were notified that the liquidation of the assets had been completed and had yielded an amount barely sufficient to pay the balance of indebtedness thereon. The stock was thereupon determined to be worthless, as no funds were available to defray the expenses of a formal dissolution of Guardian Liquidation, Inc.

Gyral Gear Corporation. Incorporated in New York on Nov. 15, 1932, and was located at 52 Vanderbilt Ave., New York City. The attorneys were Platt, Taylor & Walker, now Platt & Walker, 120 Broadway, New York City. Mr. Hart of Platt & Walker, informed us on Oct. 22, 1940, that the company had a patent on a reduction gear. When the company tried to put the gear in production it did not work. Mr. Hart stated that the affairs have been wound up and the company is out of business. The shares are absolutely worthless.

Gold Bonds due June 1, 1930, at the rate of $.8092 for each coupon due June 1, 1930. The unstamped bonds should be presented to the United States District Court for the Eastern District of Pennsylvania, Philadelphia, Pa., for a payment of $26.6661 per $1,000 bond.

Hall Switch & Signal Company. Incorporated in Maine in 1912, and was acquired by the Union Switch & Signal Company of Swissvale, Pa. The latter company was acquired by the Westinghouse Air Brake Company. The Union Switch & Signal Company of Swissvale, Pa., informed us as follows on Nov. 11, 1940: "Your letter of Oct. 23rd, addressed to the Westinghouse Air Brake Company, has been referred to us. In this connection we would advise that the stock of the Hall Switch & Signal Company is not exchangeable for stock of our company. In 1925 we purchased certain assets of the Hall Switch & Signal Company, and have been advised that shortly thereafter an offer was made for the common stock, but that this offer was open for only a limited period. We have also been advised that shortly after the sale of the assets mentioned above, the Hall Switch & Signal Company was dissolved. We regret that we cannot furnish you with any other information in this matter, but trust the above will serve your purposes."

Hambleton Corporation. We received the following letter from G. E. Gorsuch of Stein Bros. & Boyce, 6 S. Calvert St., Baltimore, Md., dated Dec. 16, 1938: "In reply to your letter of Dec. 14 concerning Hambleton Corporation, we are able to report as follows: From records which we have been able to obtain, there existed in 1932 two companies of similar name, one Hambleton & Company, the other Hambleton Corporation. Receivers were appointed July 7, 1932, for both of these concerns. Upon investigation, the Internal Revenue Department determined that the common shares of Hambleton & Company were worthless in 1932. However, there seems to be some difference of opinion concerning the Hambleton Corporation which requires some explanation. Originally shares of the Hambleton Corporation were sold in units of one share of preferred stock and one share of common stock at $65 for the unit. Upon appointment of receivers as of July 7, 1932, it was stated that in their opinion based upon investigations made and presented to the court that the common stock would have no liquidating value. The preferred stock, however, has paid liquidating dividends of $24.06, the last payment being made on June 5, 1937, in the amount of $1.06. In a letter addressed to shareholders on July 7, 1937, receivers stated that upon application to the court they had been relieved of their duties since there was practically nothing left but worthless securities in the corporate estate and that unless by remote chance Hambleton & Company estate could be further liquidated, there would be no other distributions. Thus since the preferred stock did not liquidate at its full value, there was never any distribution made on the common. As for income tax purposes the preferred stock apparently was deductable in 1937 although there is some question concerning the common stock, namely whether it should have been deducted in 1932 as a part of the original unit upon the statement of the receivers that there would be no liquidation available for that class, or whether the entire unit consisting of one share of preferred and one share common, should be taken off in 1937. We were not able to get this definitely cleared up at the local office of the Internal Revenue Department. We trust the information which we have furnished may be of some assistance to you. In the event that this is not wholly satisfactory, we would suggest that you address your inquiry to Mr. Edwin W. Poe, Mortgage Guarantee Co., Baltimore, Md."

Hamilton Bermuda Hotel Company, Limited. The Bank of Bermuda, Limited, Hamilton, Bermuda, informed us as follows on May 6, 1941: "In reply to your letter of the 29th ultimo addressed to the Hamilton Bermuda Hotel Company, Limited, we beg to advise you that this corporation was dissolved on May 29th, 1939, and all of its assets were acquired by The Corporation of Hamilton (The City of Hamilton, Bermuda) as a preferred creditor. Consequently, the stock of the corporation is of no value.

Hamilton Gas & Electric Company. See Provident Savings Bank & Trust Co., Cincinnati, Ohio.

Hamilton Home Telephone Co., Hamilton, Ohio. The Provident Savings Bank & Trust Co. of Cincinnati, Ohio, has funds on deposit to pay interest on bonds of this company that have not been presented for collection.

Hamilton Hotel. See American Security & Trust Company, Washington, D. C.

Hamilton Loan & Trust Company. Incorporated Feb. 1, 1887, in Nebraska and was located at 150 Broadway, New York City, in 1893 and had its corporate office at Kearney, Neb. The company had outstanding $254,310 of first mortgage loans and $212,000 of debenture bonds. The Union Trust Company of New York was Trustee for most of the bonds. From what records we have on this case the first mortgage was foreclosed and the bonds were not paid in full. There was no equity left for the stock, which in our opinion is without value.

Hamilton Woolen Company. The stock has a liquidating value of $35 per share. Collect from the New England Trust Company, Boston, Mass. Another payment of $5.00 per share was made and a final payment of $1.53 per share.

Hammond Distilling Company, Hammond, Ind. The final settlement in liquidation was made on July 8, 1921, on the basis of $84.84 per share. Vice President, Michael Burke; Secretary, John E. Fitzgerald; Treasurer, Henry Heller, Engel-Heller Company, 492 Broome St., New York City (1917).

Hampshire & Worcester Street Railway Co. The First Mortgage 5% Bonds dated Dec. 2, 1901, due Dec. 1, 1921, with June 1, 1904, and subsequent coupons attached, have a decree value of $375.75 per $1,000 unstamped bond, payable at the First National Bank of Boston, Mass.

Hampton Shares Corporation (N. Y.). The preferred stock has a liquidating value. The common shares are worthless. Collect on preferred stock from Frank Houston, Chemical Bank & Trust Co., New York City.

Hannibal Bridge Co. On Apr. 14, 1937, company filed in the Hannibal (Mo.) Court of Common Pleas its petition for dissolution, which would net the stockholders about $80 per share. The properties were sold to the Wabash-Hannibal Bridge Co. On May 19, 1937, it was reported that the company had liquidated and sufficient was realized to pay the stockholders $82 per share. We refer you to Mr. Harold J. White, 40 Wall St., New York City, for further information.

Hannibal (Mo.) Water Company. Sold to City of Hannibal. It was reported that the stockholders would realize about $120 per share.

Hanover Canal Company. The First Mortgage 6% Bonds represented by Certificates of Deposit received 19½% in liquidation. Mr. J. P. Frantzen of Dubuque, Iowa, formerly Secretary of the Bondholders Committee, reported that the company's properties consisted of Wyoming lands, which were subject to taxes, etc. The committee having no means of meeting these charges let the land go for taxes.

Hanover Club. The Brooklyn Trust Company, 24 Broad St., New York City, holds funds to redeem five $100 First Mortgage 6% Bonds due July 1, 1920, at par, and to pay coupons up to and including Jan. 1, 1913.

Hanover & McSherrystown Water Co. The Fidelity-Philadelphia Trust Company of Philadelphia, Pa., holds unclaimed funds in the amount of $1,000 for each $1,000 First & Ref. 6% Bond due Aug. 1, 1941, which was called for redemption on Aug. 1, 1928.

Hansen, Charles E., Estate Company. Incorporated in California on July 21, 1909, and is located at 1074 Mills Bldg., San Francisco, Cal. The corporation was merged into the California Holding Company on March 22, 1940.

Hanson-Van Winkle-Munning Company. Incorporated in New Jersey, and is engaged in the Electroplating and Polishing Equipment and Supplies, with offices at Matawan, N. J. The company also has factories at Anderson, Ind., and Bridgeport, Conn. The company informed us on Oct. 11, 1940, that they assume the present value of the stock to be what can be obtained for it, which they guess to be about $10 per share.

Hardware Dealers Bldg., Inc. Was located at 91 Reade St., New York City, in 1923, and was out of existence in 1926. The following were the last known officers: Wm. H. Sterling, V. A. Whitla, E. F. DeGruchy.

Harjor Realty & Holding Corporation (Feuers Storage Warehouse), Yonkers. The First Mortgage 6½% Serial Gold Loan Certificates dated Oct. 1, 1927, due serially to Oct. 1, 1939, with April 1, 1932 coupon attached, are redeemable at the Bank of Manhattan Company of New York City at the rate of $19.90773 per $100 cft.

Hartford (Conn.) Gas Securities Co. Stockholders ratified the plan to liquidate and distribute to the shareholders pro rata its holdings of common stock of the Hartford City Gas Light Company.

Hartford Motor Machine Company. Maine charter suspended Dec. 1, 1909. We found no value to the stock.

Harvey Steel Car Company. Incorporated in Illinois and was dissolved by the Court on Jan. 19, 1901. The corporation never filed an Annual Report. Our records indicate that Metropolitan National Bank of New York City was appointed receiver for the company in 1898. The collateral securing the company's bonds was sold in 1898. The proceeds received from the sale were not sufficient to satisfy the bonds in full leaving no equity for the stock, which is without value.

Harwood Timber Co. On Dec. 9, 1939 company paid a liquidating dividend of $17.50 per share.

Hastings & Dakota Railway Co. Acquired by Chicago, Milwaukee & St. Paul Railway Co., about 1880. Only the First Mortgage Bonds of the Hastings & Dakota were exchangeable for Chicago, Milwaukee & St. Paul securities.

Hastings Minnesota & Red River R. R. Co. Succeeded by Hastings & Dakota Railway Co.

Havana Tobacco Company. Incorporated in New Jersey and was reorganized as the Cuban Tobacco Co., Inc., in Jan., 1924. Holders of certificates of deposit for bonds, preferred and common stocks of the Havana Tobacco Co. were exchangeable for stock of the Cuban Tobacco Co., Inc. In a report published in Oct., 1924 the undeposited securities would have no rights under the plan if deposits were not made by Nov. 3, 1924. The plan stated that one new share of Cuban Tobacco was exchangeable for certificate of deposit representing 10 shares of old common. The new common shares are now quoted at about $6.00 per share, giving a value of 60c for each old share if the shares are still exchangeable. The Guaranty Trust Co. acted as transfer agent. (3/10/1936.) See Guaranty Trust Company, New York City.

Havenhurst Apts. (Los Angeles.) First 6½% Bonds due 1926-39 have a decree value of $453.29 per $1,000 bond due 1932 and $455.07 per $1,000 bond for other maturities.

Hawkinsville & Florida Southern Ry. Co. The Union Trust Company of New York, now Central Hanover Bank & Trust Company, as trustee, paid the bondholders $233.90 in cash on each $1,000 bond, and the balance in bonds of the Georgia, Southern & Florida R. R.

Hawley Motor Company, Inc. Incorporated in New York and was located at Geneva, N. Y. The corporation was dissolved by Proclamation on Dec. 15, 1936. Mr. Lansing S. Hoskins, an attorney, located at Geneva, N. Y., informed us on May 23rd, 1940 that this corporation was liquidated about six or eight years ago. The assets were not sufficient to pay creditors in full, leaving no equity for the stockholders. The shares are absolutely worthless.

Haytian American Corporation. The 7% Notes have a liquidating value of 8%. The funds for unstamped notes are probably held by the Guaranty Trust Company, New York City. We also refer you to James N. Rosenberg, 165 Broadway, New York City, for further information.

Heinemann Corporation. The First 6% Bonds have a decree value of at least 27½%. Collect from the Detroit Trust Company, Detroit, Mich.

Helena Gas & Electric Co. Acquired by American Power & Light Co., who assumed all obligations. The preferred stockholders received par and accrued dividends. The common stockholders received one share of American common for each share held, and 25c per share in cash. We believe the Chase National Bank, New York City, made the exchange and payment.

Helena Power & Light Company. Succeeded by Helena Light & Traction Company. The property was sold at foreclosure sale on May 20, 1902 for $200,000. There were outstanding $600,000 of bonds that probably received about 30%, leaving no equity for the stock, which is without value.

Helena & Red Mountain R. R. Succeeded by Northern Pacific R. R. We believe cash and securities were paid for old securities.

Hellman Commercial and Savings Bank, Los Angeles, Cal. Acquired by Bank of America National Trust and Savings Association, Los Angeles, Cal.

Helme, George W., Company. See City Bank Farmers Trust Company, New York City.

Helvetia Copper Co. Dissolved 1932. Stockholders received stock of Helvetia Oil Co., on a share for share basis.

Hempstead Improvement Company. See City Bank Farmers Trust Company, New York City.

Herdic Phaeton Company. See Boston Safe Deposit & Trust Co., Boston, Mass.

Hereford Live Stock Company. This stock has a liquidating value of $2.04 per share. Collect from the Boston Safe Deposit & Trust Company, Boston, Mass., which see.

Herkimer Fire Insurance Co. (N. Y.) Dissolved 1912, at which time 17% was paid to stockholders in liquidation. Any unpaid funds are probably held by the State Insurance Dept., of New York.

Hersh Brothers Realty Corporation (Penn.) The First National Bank & Trust Company of Bethlehem, Pa., informed us on Aug. 21, 1940, that the mortgage under which the First Mortgage Bonds was issued, was foreclosed. The property was bought by the above bank, and later sold at a loss. The bonds, therefore, have no value.

Hershey Chocolate Corporation. See City Bank Farmers Trust Company, New York City.

Hibernia Mine Railroad Company. F. T. Dickerson sold this road to the Central Railroad of New Jersey for an amount which we understand netted the stockholders about $90 per share.

Hickok Producing Co. Succeeded by Hickok Oil Corp. It was reported that stock was exchanged on a share for share basis plus 100% cash dividend.

Hickok Producing & Refining Co. Name changed to Wolverine Producing & Refining Co.

Hillier, R., Sons Co., Inc. According to our records this company was acquired by United Chemical & Drug Corporation. The latter corporation was legislated out of existence on June 26, 1940. The last address was Grassmere Ave., Bridgeport, Conn. The agent was Percy Morton. Letters addressed to Mr. Morton have not been answered nor returned.

Hoboken Turtle Club. See Guaranty Trust Company, New York City.

Hocking Valley Products Company. Mr. C. W. Johnston, 516 N. Spring St., Logan, Ohio, reported on Jan. 11, 1941, that the above company is out of existence and its stock is absolutely worthless.

Hocking Valley Railroad. Two receipts, one issued to B. C. Faurot and the other to Francis Broome, are outstanding. Upon surrender to J. P. Morgan & Co., with evidence to their satisfaction of the title of the holder, there will be delivered in exchange therefore the respective distributive shares of the reorganization proceeds.

Holding Corporation of Trail Properties. Mr. Howard Reid, 63 Wall St., New York City, informed us as follows on Feb. 6, 1941. Through inadvertence I have not sooner answered the inquiry you made of the Gipsy Trail Club about one share of stock of the Holding Corporation of Trail Properties in the Estate of Frank M. Firor. In 1935 the Holding Corporation of Trail Properties was reorganized under proceedings carried on in the United States District Court for the Southern District of New York. Paragraph 9 of the plan of reorganization read as follows: "Each holder of capital stock of the Holding Corporation of Trail Properties shall be privileged, but not required, to purchase, at $75 each per share, one share of Preferred Stock of the Properties Corporation at any time within nine months after the confirmation of this plan of reorganization by the court." The share you referred to, therefore, ceased to have any value several years ago. You may be interested in knowing that no holder of such stock exercised the right provided for in Paragraph 9.

Holland Trust Company, New York City. (1888). Failed, 1906. Receiver, Samuel Bryant, New York City. About 50% was returned to the stockholders. Any unclaimed funds are probably held by the Supt. of Banks of New York State.

Holmes Automobile Company, Canton, Ohio. The Geo. D. Harter Bank of Canton, Ohio, informed us as follows on April 21, 1938: " . . . We have on hand as Trustee for old bondholders funds to make the final liquidating payment which amounts to $14.315 per $100 of original bonds held. This payment is payable upon surrender to us of Certificates of Ownership issued by this bank as of Jan. 1, 1925. Some holders of Certificates of Deposit covering the deposited bonds failed to present their Certificates of Deposit for Certificates of Ownership. Funds, of course, are available for these holders also."

Home Mortgage Company, Durham, N. C. The depositors of each $1,000. First Mortgage Coll. Trust 6% Bonds with Feb. 1, 1931 coupon attached (First Issue) received a Liquidation Certificate in the amount of $1,030 and two shares of First Series Stock. The (Second Issue) received Liquidation Certificates in the amount of $1,030 and two shares of Second Series Stock. The other issued received the same amount of Liquidation Certificates. The non-depositing bondholders received 50% in cash, their distributive share of the proceeds received from the sale of the collateral held as security for their respective bonds. Collect from the First National Bank, Durham, N. C.

Home Service Company. The First Mortgage and Coll. Trust 7% S. F. Bonds should be presented to the Portland Trust & Savings Bank, Portland, Ore., for exchange.

Home Telephone & Telegraph Co. (Cal.) Succeeded by San Diego Home Telephone Company who assumed the bonds. The property was foreclosed and sold to the Pacific Telephone & Telegraph Company. Any outstanding bonds, it has been reported, may have a decree value of about 40%. Funds may be held by trustee named in the bond.

Homewood Company. Incorporated in Maryland and was dissolved on July 16, 1924. The records of this company are stored in Annapolis for safe keeping, and therefore are not available at this time. We searched our records and files and found no value to the stock. The shares in our opinion, are without value.

Hondo Oil & Gas Company. Incorporated in Colorado and was advertised defunct and inoperative on Oct. 15, 1923, and the charter expired by limitation on Oct. 5, 1935.

Hoopes and Townsend Steel Company. The Pennsylvania Company for Insurance on Lives and Granting Annuities, Philadelphia, Pa., has funds on deposit to make a distribution on undeposited First Mortgage Bonds at the rate of $104.22 per $1,000 bond.

Hoosier Rolling Mill Company. The First Mortgage Bonds have a decree value of $6.00 per $1,000 bond. Collect from the Citizens Trust Company, Terre Haute, Indiana, on unstamped bonds.

Hopatcong Steamboat Company. We understand a small amount was paid on the stock in liquidation. The funds may be held by the transfer agent for the stock. Probably Mr. D. R. Hummer of Dover, N. J. knows where these funds are, as he informed us some years ago that he collected some money on some stock for an estate for which he was trustee.

Hopedale (Mass.), Electric Co. The company paid a final liquidating dividend of about $2.75 per share. The Trustees were: Edwin

H. Abbott; Woodward Emery, and Eben S. Draper.

Horn Silver Mines Company. The company paid a liquidating dividend of 5c per share on Aug. 5, 1930 and 4½c per share in July 1932. We understand that Mr. M. S. Hirschberg, of 475 Fifth Ave., New York City, is making the payments on the stock.

Hortonia Power Company. See City Bank Farmers Trust Company, New York City.

Hortonia Power Company. The property was sold in 1926. The 5% bonds received 35% and the secured notes 45%. Collect from the Bank of America, New York City.

Hoster-Columbus Company. The preferred stock has a liquidating value of 30% of its face value. Collect from the Union Trust Company (probably New York City, now Central Hanover Bank & Trust Co.)

Hotel Bellevue Trust. The First Mortgage 6% Bonds due Oct. 1, 1940, have a decree value of $364.66 per $1,000 unstamped bond, payable at the State Street Trust Company, Boston, Mass.

Hotel Bellevue Trust. The Fifteen-Year 7% Debenture Bonds due Oct. 1, 1940, with April 1, 1928, and subsequent coupons attached, have a decree value of $27.9134 per $1,000 unstamped bond, payable at the First National Bank, Boston, Mass.

Hotel Cosmopolitan & Theater Building. See Colorado National Bank, Denver, Colo.

Hotel Lenox Co. The bonds probably have a decree value of about 33 1/3%. Collect from the First National Bank of Boston, Mass.

Hotel Park Central, Inc. (Park Central Hotel Annex). The Manufacturers Trust Co. of New York City holds funds to make certain payments on the First Mortgage 6% Serial Gold Bonds with 6/1/1931 and subsequent coupons attached.

Hotel Taft. (Prudence Issue). The First Mortgage Participating Certificates with July 1, 1933 coupon attached, are redeemable at the Bank of Manhattan Company of New York City at the rate of $.877518395 per $1.00 face amount of bonds.

Houston Electric Street Railway Company. The First National Bank of Boston, 17 Court St., Boston, Mass., informed us as follows on July 30, 1940:

> We are in receipt of your letter of July 26, 1940 relative to a $500 6% Income Bond of Houston Electric Street Railway Company dated Jan. 1, 1898 and due 1917.
>
> In reply advises that the old records of the International Trust Company now available do not indicate that they ever acted as Trustee for the aforesaid issue. A copy of a Plan of Reorganization of said Street Railway Company formulated in 1900 indicates that there were at that time $775,000 of said Income Bonds outstanding against which amount the Plan reads as follows:
>
> "(d) Income bonds of Houston Electric Street Railway Company issued and outstanding to the amount of $775,000
> Such bonds are not secured by any lien upon the franchises and railway properties of Houston Electric Street Railway Company."
>
> The said Plan provided that the only right which the income bondholders had was to receive 10% of the face value of their then present income bond holdings in new First Mortgage Bonds of the reorganized Company (Houston Electric Company) against payment of par for said new bonds and that such purchase of bonds was also to cary with it common stock at a face value of 50% of the amount of bonds so purchased, the reference in said Plan reading as follows:
>
> "(d) Income Bonds Houston Electric Street Railway Company $775,000.
> "The holders of such income bonds will have the right to purchase, of the association mentioned below, bonds of the new Company, at the face value thereof, to the amount of ten per cent. of the face value of their present holdings of such income bonds. Such purchase of bonds of the new Company will carry with it common stock of the new Company to the amount of fifty per cent. of such purchase $116,250
>
> Any rights to make such exchange must have expired many years ago and the income bond to which you refer is without value.
>
> The Houston Electric Company was again reorganized under Section 77B of the Federal laws in 1935 and as no reference was made to the old income bonds of Houston Electric Street Railway Company in the latter reorganization it is apparent that said bonds had become worthless prior to that reorganization.

Houston & Texas Central Railway Company. Mr. J. A. Simpson, Treasurer, of the Southern Pacific Company, located at 165 Broadway, New York City, informed us on April 26, 1933, that the stock of this company is worthless. However, the Southern Pacific Company has placed a nuisance value on the stock. We collected $2.50 per share on some stock we presented about the above date. The funds for the First Mortgage Main Line and Western Division bonds are probably held by the Central Hanover Bank and Trust Company, New York City.

Howard Arms Apts. (Brooklyn, N. Y.) 7% Bonds due 1927-38 have a decree value of $2.8138 per $100 bond and interest.

Hudson County Consumers Brewing Co. (N. J.) Stock has a liquidating value of $5.80 per share. Collect from the Trust Company of New Jersey, Hoboken, N. J. We refer you to Adam Stecker, 180 68th St., Brooklyn, N. Y., for further information.

Hydraulic Steel Company. This company was incorporated in Ohio in 1919 to take over the business of the Hydraulic Pressed Steel Co., and its subsidiaries, the Cleveland Welding and Mfg. Co., Hydraulic Steel Craft Company and the Canton Sheet Steel Co. The plant at Canton, Ohio, was sold as of May 29, 1922, to the United Alloy Steel Corp. The plant of the Cleveland Welding & Mfg. Co. was sold June 19, 1926, to the Cleveland Welding Co. Company's property aggregated 13 acres in Cleveland, Ohio, of which 10 acres were built on. In Oct., 1923, the company defaulted in the indenture provisions of the 8% Notes of 1930 and subsequently on Oct. 26, 1923, upon application of officials of the company Federal Judge D. C. Westenhaver at Cleveland appointed T. P. Goodbody, vice president, receiver of the company. A reorganization committee, consisting of Walter C. Janney, Chairman, and S. C. Duncan of 113 S. 4th St., Philadelphia, Pa., as Secretary, and Dustin McKeehan, Merrick, Arter & Stewart Cleveland counsel. Creditors have been requested to deposit their claims with the Cleveland Trust Co., preferred stockholders with Guardian Trust Co., of Cleveland. Committee's address was 1529 Walnut St., Philadelphia, Pa. Company was placed in receiver's hands and an attempt to reorganize was unsuccessful and the remaining assets were sold at foreclosure on March 30, 1928. The sale on this day was approved by the court and it is estimated that the noteholders and creditors claims did receive about 70c on the dollar. Both preferred and common stock were wiped out and we believe they are of no value at the present time. Collect on unstamped bonds from the Guardian Trust Company, Cleveland, Ohio.

Idaho Irrigation Company Ltd. Adj. Mtge. 6% Bond due 1928. Regarding the above company our records indicate that under date of Dec. 31, 1927, the Idaho Irrigation Co., Ltd. advised the Equitable Trust Co. of New York, Trustees under the above mortgage, that it had no funds available with which to pay the principal or any part of the interest due on the above bonds. Interest on bonds of this issue prior to Jan. 1, 1928 was payable only as declared by the company, the last interest declared payable being that represented by coupons of Series 6 and 7 declared payable July 1, 1919. The property subject to the lien of the above mentioned mortgage was sold by The Equitable Trust Co. of New York and Lyman Rhoades, as Trustees under the said mortgage, on Sept. 14, 1928, pursuant to Section 5 (a) of Article Seven of said mortgage, to Mr. Murray Brookman for $4,000, which was merely a nominal bid, the real consideration being an agreement of the Adjustment Committee to liquidate the property purchased by Mr. Brookman in their behalf and to apply the proceeds after paying expenses toward the payment of the bonds. Mr. Brookman was acting on behalf of the Adjustment Committee, the members of which were appointed by the mortgage itself as the representatives of the bondholders. It is our understanding that the property which was subject to the lien of the mortgage can be best liquidated by carrying on the process of liquidation instituted by the mortgagor company, i. e. by making sales of lands and water rights to settlers, and by collecting the purchase price of the various lands and water rights previously sold and to be sold over a period of years. This is the plan of the Committee, and Mr. Brookman, who has had a great deal of experience with irrigation projects of this kind, will act as their agent in carrying out the proposed liquidation. In other words, the situation now is that the Committee has been substituted for the company and the Trustees as the agency by means of which the property will be liquidated for the bondholders. We are, of course, unable to say when a sufficient sum will have been collected by the Committee to warrant distribution on the bonds, but it will not be for some time, because there are expenses of the sale and counsel fees for services rendered to the Trustee over a long period of years which will have to be paid first. We are unable to advise you regarding the value of the above described bonds, due to the fact that there has been no market for these bonds for some considerable time. For any further information we suggest that you write to Mr. R. B. Marchant, 37 Wall St., N. Y. C., Treasurer of the Idaho Irrigation Co., Ltd. and one of the members of the Adjustment Committee. (1936).

Indiana Flooring Company. The New York Trust Company, New York City, sent us the following circular letter sent out by the Bondholders Committee, dated Dec. 9, 1936. Further information should be requested from Beekman, Bogue, Leake, Stephens & Black, 15 Broad St., New York City. "This letter is sent to all holders of Certificates of Deposit for the above mentioned bonds (First Mortgage 6½% Fifteen Year Sinking Fund Gold Bonds under Bondholders Agreement dated as of Jan. 2, 1929) bringing to date the information contained in a letter dated Nov. 1, 1935, similarly sent to holders of Certificates of Deposit. As you have been informed, the principal asset of the bondholders is the entire capital stock of Indiflor Realty Corporation, which corporation owns free from encumbrances the property situated at Rider Ave. and 137th St., Bronx, N. Y. This property has an assessed value of $60,000. On May 7th, of this year, your committee received from the Trustee-in-Bankruptcy of Indiana Flooring Company the sum of $6,215.61 as the final dividend of 2 18/100ths%. There are now bank deposits to the account of your Bondholder's Committee and Indiflor Realty Corp. in the sums of $13,777.17 and $647.52 respectively. The undersigned committee plans to continue holding the real estate until an advantageous offer can be secured. In the meantime, in order to take care of overhead expenses, we have leased three of the four buildings on the property under leases, with cancellation clauses, for a total of $2,700 annually. During the last year, due to the increased income from rent and the savings on the salary of a watchman, who was no longer needed after the premises had been rented, your committee realized a small profit on the property. Prior to last year overhead expenses had amounted to several thousand dollars annually in excess of any income. We understand that there have been several recent condemnation proceedings in the Rider Ave. vicinity in order to secure property for a wider approach to the new Tri-Borough Bridge. It is felt by your committee that this situation should increase the chances for a sale of your property in the future." The First 6½% Bonds due 1940 have a decree value of $148.82 per $1,000 bond. Collect on unstamped bonds from the Irving Trust Company, New York City.

Indiana Northern Traction Company. The Trenton Trust Company of Trenton, N. J., holds $150 to redeem a Certificate of Deposit No. 110 representing a First Mortgage 30 Year 5% Bond, issued by the above bank in the name of James Alden Guest. See Union Traction Co. of Indiana.

The unclaimed funds have been or will be paid in the near future to the Treasurer of the State of Pennsylvania, Harrisburg, Pa., under the escheat laws of said state. See Union Traction Co.

Indicator Corporation. Incorporated in New Jersey on June 9, 1934. Mr. William L. Carns, an attorney located at 165 Broadwey, New York City, informed us as follows on April 9, 1940: "Your letter of April 1st sent to the above named company at 900 Passaic Ave., East Newark, N. J., has been forwarded to me as attorney for the corporation for attention. The tentative contract between this company and Tru-Lite Electric Lamp Company was finally developed into a definite contract between this company and Signalite Fuse Co., after many months of negotiation, which contract was duly executed. Pursuant to said contract Signalite has proceeded with the development and sale of fuses. In due course we expect to send a full report to all stockholders. I do not believe there is any present market for the debentures recently issued in the above-entitled matter."

Industrial Alloy Products Corporation. Incorporated in Delaware on April 18, 1928, as the Alloy Products, Inc. Changed its name to above on June 5, 1929. The company lost its charter on April 1, 1932. Mr. H. O. Barker, former President of the company, located at 26 Broadway, New York City, in care of Jesup & Lamont, reported that the stock has no value.

Industrial Office Building Corporation. See Fidelity Union Trust Co., Newark, N. J.

Industrial Securities Co. Incorporated under the laws of the State of Delaware in 1914, and acquired for itself a very questionable reputation. Its various enterprises were never known to have been a financial success for its stockholders. Among the companies promoted by this company, headed by C. R. Cole, were Drymond, Smith Company, Mutual Electric Company and the Perfection Tire & Rubber Company, none of which, we understand, were a financial success. The Industrial Securities Company developed an "indemnity bond" for protection of investors against loss on purchases of securities from this concern, which was issued with each sale of stock, as a carefully drawn up guarantee which called for the repurchase of the stock at a given time at double the price at which it was sold. Thousands of such guarantees were put in the hands of the public who placed their faith in them as an assurance not only against loss of their capital but an insurance of double profit. In promoting these schemes Cole employed all the tricks of the get-rich-quick promoters. In Jan., 1920, the company was thrown into receivership. This action was taken, we understand, to forestall the collecting of more than $500,000 on indemnity bonds maturing on Dec. 31, 1919, given by the company with promotion stock which it sold. The bill set forth that on June 30 and Dec. 31, 1919, $2,000,000 more of similar bonds were to mature and it was said if these were enforced, stock of the company would be worthless. Bill also alleged that indemnity bonds were invalid. The company finally failed and C. R. Cole took himself to Texas, where he told his former stockholders, in voluminous circulars, his great expectations of recouping his fallen enterprises and restore to them the wealth he had explicitly promised as a certainty but in order to accomplish this he would need some more financial assistance. It is hoped that there were no more gullible stockholders left to respond to this appeal. There is no doubt that both the stock and indemnity bonds are without value at the present time. Company's charter was declared void on Jan. 23, 1922, on account of taxes being unpaid for two years.

Industrial Sugar Company. The Denver National Bank, Denver, Col., is the liquidating agent for the above company, the net amount distributable to stockholders being $5.63 per share.

Interborough Realty Co. We received the following letter dated Apr. 11, 1934, from the United States District Court, Southern District of New York, New York City, signed by Charles Weiser, Clerk. "In reply to your letter of Apr. 4th, with reference to the Inter Borough Co., you are advised that the amount of unclaimed dividends in said cause which remained on deposit in the registry of this Court for a period in excess of five years was deposited in the U. S. Treasury on Mar. 29, 1923. The total of these unclaimed dividends amounted to $352.39. Your client will need this information if he wishes to file a claim with the U. S. Treasurer for the amount to which he may be entitled. The funds are available only to those whose claims were allowed." We received the following letter from Charles Weiser, Clerk of the United States District Court, Southern District of New York, U. S. Court House, Foley Square, New York City., dated Dec. 15, 1938: Bankruptcy No. 18380. "Reference is made to your letter of Dec. 13, 1938. The records of the above entitled proceeding show that the claim of one Henry Diffene, Wallingford, Conn., who appears to have been the owner of Bond No. 230, was allowed in the amount of $501.25. A first and final dividend of $21.55 was declared and paid to said claimant. The dividend declared was at the rate of 4.31%. The amount of $352.06 paid over to the U. S. Treasury represented outstanding, uncollected, dividend checks, and amounts due to creditors who could not be located. The name of the owner of Bond No. 230 does not appear on the list of unpaid dividends." Although the bond does not appear to be stamped it would seem that the distributive share had been paid.

International Match Corporation. Unexchanged certificates of deposit of either protective committee for debentures entitles the bearer thereof to receive four liquidating dividends at the time such certificates are exchanged for capital stock of the International Match Realization Co., Ltd. The fourth dividend amounted to $20 per share.

International Match Realization Co., Ltd. Holders of certificates of the above company received today with a third liquidating dividend of $7.50 a share, a report from John C. Bancroft, President, on the status of the company. The monopoly the company holds for sale of matches in Turkey is operating profitably, Mr. Bancroft said, but the profit is being accumulated in Turkish money which cannot now be converted into dollars. Proceeds from the sale of 255,425 Class B Shares of the Swedish Match Co. for $1,279,144 provided funds for the dividends paid. Taken from newspapers about Nov. 1, 1938. Holders of unexchanged Certificates of Deposit of the International Match Corp. may receive this dividend upon exchange of their certificates for stock of the International Match Realization Co., Ltd. See International Match Corporation.

International Poultry Sales Co. We received the following letter from the Camden Safe Deposit & Trust Co., Camden, N. J., signed by Mr. Henry R. Fredericks, Asst. Vice President., and dated Dec. 10, 1937: "Acknowledgment is made of your letter of Dec. 8, 1937, informing us that your client is the holder of one or more International Poultry Sales Company First Mortgage 6% Gold Bonds payable Jan. 1, 1935. For your information, the mortgage under which these bonds were issued and secured was foreclosed several years ago and the property sold, the amount realized from the foreclosure sale representing only 2.8% of the face value of the bonds. At the time of the foreclosure there were three methods of paying the bondholders their proportionate shares realized. 1. The bondholders who originally filed their claims with the Receiver were to receive their proportionate share from him. 2. Others who deposited their bonds with the Bondholders' Protective Committee, the depositary for which was the Lincoln Trust Co., Scranton, Pa., were to be paid through this source. 3. There were also deposited with the Camden Safe Deposit & Trust Co. as Trustee for the bondholders 2.8% of the amount of each outstanding bond, which had not been filed with the Receiver or deposited with the Bondholders' Protective Committee. If you will give us the numbers of the bonds which your client holds it will enable us to determine which method of payment of the bonds."

International Steel Corporation. Value of 15 shares of No Par Value Capital Stock. Incorporated under the laws of the State of Delaware on April 17, 1929, and is no longer in existence, having become inoperative and void on April 1, 1932. The last report filed in 1930 states that the last known address of the company was 347 Madison Ave., New York City. I found no value to the stock and therefore believe the shares were worthless as of Jan. 22, 1940, the date of the decedent's death.

Interstate Mortgage Corporation. Incorporated in New Jersey on Jan. 28, 1928, and was located at 39 E. Palisade Ave., Englewood, N. J. The corporation lost its charter on Jan. 19, 1933. Mr. William Conklin, 24 N. Dean St., Englewood, N. J., informed us that all of the company's assets were pledged with a bank to secure a note. The bank closed. When the note was not paid, the Banking Commissioner applied for a receiver for the company. The receiver sold the assets and not enough was realized to satisfy the note in full, leaving no equity for the stock.

Interstate National Bank of Texarkana, Tex. The Texarkana National Bank of Texarkana, Tex., informed us that liquidating dividends amounting to 40% were paid to stockholders of the above bank in 1896 or 1897. Inter-Urban Coach Company. The Secretary of State of New Jersey, located at Trenton, N. J., informed us that the above company was incorporated on Feb. 28, 1924, and forfeited its charter on Jan. 13, 1931. The principal office of the company was located at 1102 Wilson Bldg., Camden, N. J., and Clifford A. Baldwin was the agent. Mr. Clifford A. Baldwin, an attorney, located at Camden, N. J., informed us on Jan. 29, 1941, as follows: "So far as I can recall the corporate affairs, however, this company died somewhat of a natural death, without any assets, and I find by reference to the statute book for the year 1931 that the corporation was dissolved by proclamation of the Governor of the State of New Jersey on Jan. 13, 1931, by reason of its corporate franchise tax for the year 1928 remaining unpaid. It is my opinion, therefore, that any stock of the company which might have been issued has no value and that so far as the status of the company is concerned, it is defunct."

Intra-State Investors Corporation. Incorporated in New York. We refer you to D. R. J. Arnold, 61 Broadway, New York City, for further information.

Investors Association, Reno, Nev. Dissolved 1934. Liquidating dividend $4.81 plus one share of Crown, Zellerbach Corp. Common paid on each share.

Investors Capitol Corp. Incorporated in New York in 1927 and was dissolved in 1936. According to reports received from Mr. Lawrence Rukeyser, President of the company, located at 1475 Broadway, New York City, the assets were liquidated, and the proceeds were distributed to the Class A Preferred $50 par stock at the rate of 25c per share, which represented the final liquidating dividend. The other shares are worthless.

Investors Equity Co., Inc. Assets sold to Tri-Continental Corp. Stockholders received ½ share of Tri-Continental and one share of Equity Shares, Inc., for each share held.

Investors Trustees Foundation of U. S., Inc. The Series A Shares with Feb. 15, 1933, coupon attached, received a final liquidating dividend of $4.85 per share. Collect from the Chase National Bank, New York City.

Invincible Oil Corp. Under plan of liquidation in Dec., 1924, stock was exchanged share for share for stock of the Louisiana Oil Ref. Corp.

Inyo Chemical Company. Incorporated in Nevada on Dec. 14, 1917, and forfeited its charter on March 1, 1939. The Vice President was Wilfred C. Leland, of Detroit, Mich. The Better Business Bureau of Detroit have been unable to locate Mr. Leland. The Assistant Secretary was E. M. Roberts, of Los Angeles, Cal. We have been unable to locate Mr. Roberts. We found no value to the stock and therefore believe the shares are without value. In 1924 the stock was last offered at 50c with no bids.

Ione & Eastern R. R. This road was sold for $225,000. The amount due for principal and interest of the company's bonds aggregated $423,217. Bonds that are unstamped apparently have a decree value.

Iowa Central Railway Company. This road was sold in 1911 to the Minneapolis & St. Louis Railroad Co., now located at Northwestern Bank Bldg., Minneapolis, Minn. One share of preferred and 9 shares of common stock of Minneapolis were exchanged for 10 shares of Iowa Preferred. One share of Minneapolis Common was exchanged for 2 shares of Iowa Common.

Iowa Land & Loan Co. Liquidated over 30 years ago. A distribution of about 90% was believed to have been made on the capital stock.

Ipswick Mills. Stock has a liquidating value of $3.50 per share.

Isbell-Porter Co. Incorporated in New York in 1892 and is located at 46 Bridge St., Newark, N. J.

Island Oil & Transport Co. 8% Notes due 1926 have a decree value of $6.23 per $1,000 bond. Certificates of Deposit for these bonds received $290 plus ½ share of stock.

Island Oil & Transport Corp. Incorporated in Virginia and lost its charter on May 31, 1928. The last annual report filed was for the year 1922. The company held control of several companies, one of which was the Cia Petrolera Capuchinas, S. America. The stock of this company, along with all the other assets, were sold to satisfy the noteholders. The actual bonds received $6.23 on each $1,000 bond and Certificates of Deposit for said notes received $290 in cash and one-half share of Antillian Corporation for each $1,000 certificate. Mr. Phillips, of Chadbourne, Hunt, Jaeckel & Brown, located at 70 Pine St., New York City, attorneys for the noteholders, confirmed the above, and informed us that the company still holds about $60,000 for contingencies. The Mexican Government informed us that the Cia Petrolera Capuchinas, S. A., has not been in operation since its inception. The company does not belong to the Island Oil & Transport Corporation, as the stock was sold some time ago. Any attempt to exchange stock of another company for stock of Island Oil plus a cash payment, is, we believe, another form of selling new stock. This same method was tried with the stockholders of the Alvarez Mining Co. and was stopped by the Security and Exchange Commission. Any attempt to lead the stockholders of Island Oil to believe that their stock has any value is, in our opinion, a misrepresentation of the facts. The shares in our opinion are absolutely worthless, because any equity that may remain out of the $60,000 will go to the noteholders. The 8% Notes due 1926 have a decree value of $6.23 per $1,000 bond. Collect from the New York Trust Company, New York City.

Island Pineapple Co., Ltd. Dissolved. Preferred stockholders received $25 per share or stock of Hawaiian Pineapple Co., Ltd. The balance went to the common stockholders.

Island Refining Company. The First 7% Bonds have a decree value of $60.20 per $1,000 bond, representing two payments. One payment was made by the Manufacturers Trust Company, New York City, and the other by Special Master Carlton Beattie, United States District Court, New Orleans, La.

Jarvis Conklin Mortgage Trust Company. Organized in Missouri and carried on an extensive business in western mortgages. On Nov. 1, 1886, the company entered into the following arrangement — The Mercantile Trust Company of New York, now the Bankers Trust Company, was made Trustee for $1,325,000 of Debenture Bonds, secured by $1,328,279 of mortgages and notes. On Jan. 1, 1899, the New England Safe Deposit Company of Missouri, was made Trustee for $1,991,212 of Debentures, secured by $2,145,200 of mortgages and notes. The Boston Safe Deposit & Trust Company of Mass., was made Trustee for $310,000 of Debenture Bonds, secured by $311,621 of notes and mortgages. The New England Safe Deposit Company was made Trustee for another issue of $886,775 of bonds, secured by $880,000 of notes and mortgages. The Law Guarantee & Trust Co., of Great Britain, was made Trustee for $896,000 of bonds. Mr. B. Alfred Tryer of Winslow, Cheshire, Eng., was made Trustee for $1,939,393 of bonds secured by $1,943,260 of notes and mortgages. When the company defaulted on the various notes and mortgages, receivers were appointed on Sept. 28, 1893. The schedule filed on May 31, 1895, showed an indebtedness of $8,383,449.64 and contingent liabilities of $10,506,895. The collateral held by the various Trustees was sold for the benefit of the Debenture Bonds and several payments were made thereon. We received the following letter from Mr. W. C. Meyers, Asst. Secy. of the Bankers Trust Company of New York City, dated Feb. 3, 1938: "Bankers Trust Company is successor by merger to The Mercantile Trust Company, Trustee for the Debentures of the above mentioned Mortgage Company. As you are no doubt aware a great part of the records of The Mercantile Trust Company was destroyed by fire in Jan., 1912, and the information which we have in our files at the present time is meager. It appears that the Debentures were originally issued against deposit of not less than the face amount of real estate mortgage and other securities. It further appears that the company defaulted on the interest payment due Sept. 1, 1893, and thereafter. On Sept. 28, 1893, Samuel M. Jarvis of Kansas City, Mo., and Roland R. Conklin, of New York, were appointed Receivers by the United States Circuit Court for the Second Judicial District, Southern District of New York. In the Commercial and Financial Chronicle for June 30, 1894, we find that The Mercantile Trust Company arranged to sell the notes pledged under Series A, B, C, D, E, F, G, I, J, K, L, N, P, and Q on July 19, 1894. The Chronicle for July 21, 1894, further states that these notes were sold for 40% of their face value to Henry W. Cannon, Chairman of the Reorganization Committee, which had 99% of the Debentures on deposit. A letter in our files dated Dec. 7, 1897, indicates that the majority of the Debentures had come into the possession of the North American Trust Co., although this letter does not state in what capacity these Debentures were held. The letter indicates that the latter mentioned company held $1,274,800 principal amount of Debentures and that $51,000 principal amount were outstanding in the hands of the public. A cancelled $500 Debenture Bond Series N, dated March 1, 1888, due March 1, 1898, with interest at 6% which is in our possession bears the following: (1) The sum of $41.75 being a dividend of .0835% has been paid hereon from the general assets of the Jarvis Conklin Mortgage Trust Co., pursuant to decree of U. S. Circuit Court of the Southern District of New York, filed March 2, 1897. Roland R. Conklin and Joseph C. Willets, Receivers. (2) Default having been made on the within Debenture and the securities therein mentioned having been sold and the proceeds of such sale together with all money in the possession of the Trustee applicable thereto having been applied to the payment of said Debenture, the owner and holder of such Debenture hereby acknowledges receipt of a dividend of 49.749% of the par value of such Debenture and releases the Trustee from all liability thereon and authorizes the cancellation of this certificate. (Signature of bondholder.) A cancelled $100 bond of Series Q, dated Sept. 1, 1888, due Sept. 1, 1898, which is in our possession bears the latter mentioned stamp, the percentage however being 47.837. At the present time, we do not hold any funds applicable either to Debentures or coupons, nor do our files contain any record of the disbursement of such funds." The Boston Safe Deposit & Trust Company of Boston, Mass., informed us on Jan. 28, 1938, that they made the following cash distributions to the bondholders in 1894 as the result of the sale of collateral held by them as Trustee, to secure the Debentures:

Series	Bonds Issued	Per. of Cash Dis.
M	$98,500	45.364%
O	92,500	42.506%
R	89,900	52.13 %
S	30,000	45.345%

We received the following letter from the Board of Trade, Companies Department, 4 Central Bldgs., Matthew Parker Street, London, S. W. 1., Eng., dated March 4, 1938: With reference to your letter of the 26th of Jan., I am directed by the Comptroller of the Companies Dept. to inform you that no reference to any Debenture bonds of the above company appears in the accounts furnished in the liquidation of the Law Guarantee Trust and Accident Society Limited which went into voluntary liquidation on the 13th Dec., 1909, and became dissolved on the 19th March, 1923. Dividends amounting to 19/6½ on the £ were paid to the creditors in that liquidation, certain unclaimed sums being paid into the Companies Liquidation Account and it is possible that the name of the Debenture bondholders in question may figure amongst those to whose credit these amounts were paid in. I am to add that the Chief Accountant of the Supreme Court Pay office states that he is unable to trace any record of the opening of an account in the books of his office in connection with the above company."

Jeannette Savings and Trust Company, Jeannette, Pa. Changed its name to First Bank and Trust Company, Jeannette, Pa., on Feb. 17, 1931. On May 14, 1934, the latter was absorbed through reorganization by the First Jeannette Bank and Trust Company.

Jersey City Water Supply Co. Controlled by New Jersey General Security Co., located at Jersey City, N. J. The First National Bank of New York City, informed us on April 13, 1917, that the company has miscellaneous securities and cash amounting to about $250,000 to $260,000 and the stock has a book value of from $25 to $26 per share. On Oct. 10, 1911, the company received $6,992,000 from the City of Jersey City representing the purchase price of the property. The First National Bank purchased the bonds at par and interest. The stock was reduced from $1,000,000 to $10,000 on Oct. 13, 1911, at which time a liquidating dividend of $99 per share was paid. In Dec., 1935, a dividend of from 35c to 55c per share was paid. The final liquidation of the company will not be consummated until certain litigation has been disposed of. According to various opinions, the company will be successful in the suit, and in the final liquidation the stockholders may receive from $18 to $22 per share. In the event of an adverse decision the stockholders will receive nothing.

The United States District Court, Cincinnati, Ohio, informed us that on June 3, 1904, there was deposited in the Treasury of the United States the sum of $4,414.44 representing unclaimed monies remaining in the registry of that court to the credit of the case of Mercantile Trust Co., vs. Kanawha & Ohio Railway Company, et al, No. 479, United States District Court, Eastern Division, Southern District of Ohio. Columbus, Ohio, for the First Mortgage 6% Bonds due 1936, with July 1, 1889, and subsequent coupons attached. A petition must be sent to the United States District Court at Columbus, Ohio, accompanied by an Order. If the Petition is accepted the Order will be signed and returned to you. Send the Petition and Order together with the bonds to the United States Treasury for collection. The decree value of each $1,000 bond is $301.59. The net amount that is recoverable from the United States Treasury, after deduction of fees is $298.57 per $1,000 bond.

Kane Oil of Canada, Limited. The Secretariat De La Province at Quebec, Que., informed us on May 4, 1940, that this company has not applied for surrender of its charter. However, Mr. Maurice Boisvert, advocate of Quebec, reported on Dec. 17, 1932, that said company had discontinued operations. The last report filed in 1929 showed the President as S. A. Hopkins, Cisco, Texas; V.-Pres., Adelard Deslauriers, 171 Blvd. Langelier, Que.; John Thomson, 20 Ave., Calipault, Que.; Maurice Boiswert, 80, rue St.-Pierre, Que. In view of the fact that Mr. Boisvert reported that the company had ceased operations, it would appear that the shares had no value. See Quebec Kane Oil Company.

Kansas City, Fort Scott & Memphis Railroad. Our records disclose that preferred and common stock of this company that was deposited with the Old Colony Trust Company, Boston, Mass., for sale to the Pierce Syndicate, received $150 and $100 per share respectively.

Kansas City, Leavenworth & Western Railway. The First Mortgage 5% Bonds due 1940 probably have a decree value. Write to the Cleveland Trust Company, Cleveland, Ohio, for further information.

Kansas City, Memphis & Birmingham Railroad. Our records disclose that stock of this company deposited with the Old Colony Trust Company of Boston, Mass., for sale to the Pierce Syndicate, received $50 per share. The holders of Income Bonds were offered 95.

Kansas City, Mexico & Orient Ry. The First Mortgage 4% Bonds due 1951 have a decree value of $130.50 per $1,000 bond, payable at the United States District Court, Topeka, Kan. There were not sufficient funds to pay these bonds in full leaving no equity for the 6% Bonds due 1916 and capital stock, which are without value.

Kansas City & Omaha Railroad Company. Our records disclose that the bonds of this company were exchangeable for stock of the Kansas City & Omaha Railway Company in 1900. This exchange apparently applied only to deposited bonds, because the Special Master made distributions of $9.11 on each $1,000 bond, probably the undeposited bonds. The Central Hanover Bank & Trust Company, New York City, was Trustee. The unclaimed funds may be held in the Court where the foreclosure proceedings were brought.

Kansas City, Outer Belt & Electric Railroad Co. The bonds have a decree value of $71 per $1,000 bond. We refer you to the United States District Court, Kansas City, Mo., for further information. Kendall Co. Has purchased all the capital stock of Pelzer Mills, a South Carolina corporation recently organized to take over properties and carry on business of Pelzer Manufacturing Co. Assets transferred to the Pelzer Mills and capital stock of latter company sold. From proceeds a third liquidating dividend of $14 a share will be paid to holders of certificates of record on Nov. 19, 1936. This makes a total of $36 paid in liquidation this year and trustees believe further distribution may possibly amount to about $4.00 per share.

Kenmore Hall (145 E. 23rd Street Corp.) The First Mortgage 6% Bonds due 1937 were paid at par, the final payment being $340 per $1,000 bond, by the Continental Bank & Trust Co., New York City, on Dec. 11, 1937.

Kennebec Gas & Fuel Company. The Trenton Trust Company, Trenton, N. J., holds certain unclaimed funds for distribution on unstamped bonds of this company.

Kennicott-Patterson Warehouse Corp. The International Trust Co., of Denver, Col., made a payment of $59 on each $1,000 First Mortgage 6% Bond due 1930-45.

Kentucky Consolidated Stone Co. Plan of reorganization confirmed on Aug. 3, 1936. Succeeded by Kentucky Stone Co. Cfts. of Dep. for bonds, received a new $300 bond and 10 shares of common stock for each $1,000 bond. Fidelity & Columbia Trust Co., of Louisville, Ky., Trustee.

Kentucky Electric Power Corporation. The Baltimore National Bank of Baltimore, Md., holds funds for the 10-Year 6½% Conv. Gold Debentures due June 1, 1936, which have not been presented for collection.

Kentucky Securities Co. On Jan. 3, 1939, as a step toward liquidation the company authorized the distribution to holders of record of Dec. 31, 1928, 5 shares of common stock of Southeastern Greyhound Lines for each share of stock held. In addition cash remained for distribution of about $13.80 per share.

Keokuk & Des Moines Railway Company. Amount realized from proceeds of sale of property secured by a first mortgage at the rate of $464 per $1,000 bond. Amount payable pursuant to order of the Court, dated Nov. 24, 1924, from cash in the hands of the receivers, at the rate of $145 per $1,000 bond. Amount payable pursuant to order of Court, dated Apr. 3, 1925, being final distributive share of balance of cash in the hands of the receivers, at the rate of $32.59 for each $1,000 bond. Total payments amounted to $641.59 per bond. Holders of 5% First Mortgage Bonds due Oct. 1, 1923, may be presented at the office of the Bankers Trust Company, Des Moines, Iowa, for payment of the above amounts.

Keokuk & Hamilton Bridge Co. Value of 2nd Mortgage 5% Bonds due 1981. Interest was defaulted on these bonds Apr. 1, 1935. There are outstanding $178,000 of First Mortgage

6% Bonds on which interest is being paid. In addition each year the company must amortize $18,000 of this issue. The company enjoys almost a stable gross income of about $123,000 per annum, net $58,362. In about nine years the First Mortgage Bonds will be paid and the Second Mortgage Bonds will become First Mortgage Bonds. As $18,000 of the First Mortgage Bonds are retired each year the earnings applicable to the Second Mortgage Bonds will increase. The earnings at the present time are only sufficient to pay about 3% interest on the Second Mortgage Bonds. At this rate the bonds should be worth about $300 per $1,000 bond. (1935.)

Keystone Aircraft Corporation. The Secy. of State of Delaware informed us as follows: "Replying to your communication of May 11, kindly be advised Huff, Daland & Company, Incorporated, incorporated under the laws of this state May 21, 1920, filed an amendment March 9, 1927, changing its name to Keystone Aircraft Corporation, by which name it was known and which is no longer in existence, having filed Consent to Dissolution Dec. 29, 1934. Kreuger & Toll Company. Value of Certificate for 400 American Certificates of the Participating Debentures. Lee, Higginson & Company, located at 70 Federal St., Boston, Mass., informed me as follows on June 10, 1940: "We have received your letter of June 6th regarding 400 Kreuger & Toll Company American Certificates No. NYC 100241 in the Estate of Frederick R. Swift. The records show that check for $9.40 in payment of the distribution at the rate of $.0235 per American Certificate on these certificates was mailed to Frederick R. Swift on June 15, 1939, and that this check was cashed through the National City Bank of New York on June 19th. The distribution made on June 15, 1939, was the first payment made since the company was adjudicated bankrupt in 1932. In regard to the status of the American Certificates, the Trustee in the American Bankruptcy of Kreuger & Toll Company in his final report issued Nov. 15, 1938, has made this statement: 'The status of the holders of participating debentures issued by the bankrupt and of American Certificates representing such participating debentures was of vital importance to the creditors. Since the Trustee's last report, the Circuit Court of Appeals has decided that these certificates are subordinate to the claims of other creditors and are not to be paid until other creditors have been paid in full. This followed a similar decision made by the highest court in Sweden and its practical effect is that the holders of these securities will not share in the assets of the estate.'" In view of the above I submit the certificates as worthless as of Jan. 22, 1940, the date of the decedent's death.

Kreuger & Toll Company. (5% Secured Debentures.) It was reported around July, 1938, that: The protective committee for Kreuger & Toll Co. debentures today made payments to holders of certificates of deposit which amounted to 433.70 Swedish kronor for each $1,000 deposited secured debenture. The kronor is worth about 25c. The committee made a prior distribution in Swedish currency in late June last year. This distribution amounts to about $110 in American money for each $1,000 debenture of the erstwhile holding company which the late Ivar Kreuger of Sweden rocketed to great size by financial manipulation during the 1920's. Altogether $520 has now been paid to each holder of a $1,000 deposited debenture. Otis A. Glazebrock, Jr., of G. M. P. Murphy & Co., is chairman. Lee, Higginson & Co. announced in May, 1939, that holders of certificates representing participating debentures would receive a distribution of 2.35c for each American Certificate.

Kreuger & Toll Co. A partial distribution of $75.43 per $1,000 principal amount was mailed on July 17, 1939, to holders of record on July 10, 1939, of uniform certificates of deposit for 5% Gold Debentures due 1959. Bearer certificates should be presented to the Guaranty Trust Company, New York City, for payment. Payments now total $640 per $1,000 deposited deb.

Kroger Grocery & Baking Co., Cincinnati, Ohio. In April, 1928, and April, 1929, this company paid a 5% stock dividend on its outstanding common stock. Where full shares were not due the stockholder, fractional scrip certificates for the amount due were issued on the basis of 1/20th of 1 share for each share held. According to the terms under which these scrip certificates were issued, the company was to sell on the New York Stock Exchange on Dec. 31, 1928, and again on Dec. 31, 1929, a sufficient number of shares as was represented by the fractional scrip certificates still outstanding, and the company was to set up a reserve to pay for the scrip certificates in cash as they were presented. These scrip certificates did not show the name of the stockholder, and could have been exchanged for full shares at any time up to Dec. 31st of the year in which they were issued. As of March 22, 1938, there were 43 certificates, representing 281 fractions outstanding of the 1928 scrip. For each 1/20th of one share there is set up on the company's records an amount of $5.733. Of the 1929 scrip there were 600 certificates outstanding as of the above date, representing 3,490 fractions. Each 1/20th of one share of this scrip is worth $2.16. The difference in the price shown between the 1928 and 1929 scrip certificates is of course due to the difference in the market price of the stock on Dec. 31, 1928 and Dec. 31, 1929. You will note by the above figures that the company has set up a reserve in excess of $9,000 to redeem these scrip certificates. The certificates are payable at the offices of the company, located at 35 East 7th St., Cincinnati, Ohio, attention of Mr. F. M. Grieme, Asst. Treas.

Lackawanna Securities Co. We received the following letter from the Lackawanna Securities Company, located at 90 West St., New York City, and signed by J. G. Enderlin, Vice President. The letter is dated Nov. 3, 1938: "In response to your communication of Oct. 28th, would advise that the final liquidating dividend of 20c a share on stock of this company was paid Jan. 31, 1934." Mr. Suszik of Standard Statistics informed us on Dec. 9, 1938, that a plan was approved in Aug., 1932, for the stockholders to accept a $1,000 bond of the Glen Alden Coal Company for every 16½ shares of Lackawanna.

Lackawanna & Southwestern R. R. The Bankers Trust Company, New York City, reports that they are holding no funds for payments on the First Mortgage 4% Bonds due 1929.

Laconia Car Company. The contention of the holders of unstamped preferred stock was that they were entitled to receive the accumulations of $70 a share on their stock before other stockholders received anything. The court decided against this contention, but the basis of their decision was that the preferred stockholders who did not waive the accumulations of $70 a share will have their shares valued for the purpose of receiving liquidating dividends at approximately $191 ($100 par plus $70 dividends not waived, plus $21 additional accrued dividends to July 1, 1931). While stockholders who waived their right to the $70 back dividends accumulated to Jan. 1, 1924, will have their stock valued on the basis of $121 a share ($100 a share, plus $21 additional accrued dividends to July 1, 1931). As the liquidation was not completed by July 1, 1931, there was added to the valuation of both stamped and unstamped preferred stock the amount of dividends accumulated from July 1, 1931, to the date of final liquidation. There were outstanding 311 shares of preferred stock on which dividends were not waived and 6,990 shares on which accumulated dividends were waived. The directors voted a fourth payment of $4.00 per share to preferred stockholders as a further partial distribution in liquidation. Three previous payments in liquidation aggregating $30 per share had already been made. There was a further payment of $19.50 per preferred share. We believe that unstamped stock may be sent to the First National Bank of Boston for collection.

Laflin Powder Manufacturing Co. E. I. du Pont de Nemours & Co. of Wilmington, Del., informed us on Oct. 25, 1934, as follows: "As of July 31, 1903, the Laflin & Rand Powder Company held 2,091 shares of the Laflin Powder Mfg. Co. stock at a par value of $27,950. Pursuant to a resolution voted at a meeting of the stockholders of the Laflin Powder Mfg. Co. Sept. 8, 1903, the directors of that company closed up the mills and made a sale of all the property of the company, the amount realized being $77,958.11. Less reserve for taxes, etc., $978.11, leaving a balance for distribution among the stockholders of $76,080 or $12.68 per share. As of April 27, 1904, the Laflin & Rand Powder Company received a check in the amount of $26,513.88 covering their portion of the amount realized on 2,091 shares at $12.68 per share. It is evident from the information at hand that each stockholder of the Laflin Powder Mfg. Co. received a check for $12.68 per share for the number of shares outstanding in his name. The records do not show that the shares were called in."

La Follette Coal, Iron & Railway Company. Incorporated, Tennessee, 1899. Its charter was surrendered Nov. 26, 1927. The company was placed in the hands of Sherman S. Pratt as Receiver. Road was sold under foreclosure on Jan. 3, 1895, for $100,000. There were outstanding $336,000 of First Mortgage Bonds that received $185 on each $1,000 bond. In view that the First Mortgage Bondholders were not paid in full, there was no equity left for the 6% Income Bonds, which are without value. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City.

Lake George Real Estate Company. Our records indicate that this company paid $12,000 for some land at Lake George, and built a club house, now called the Lake George Club, for $68,000. In 1910 the property was subject to a mortgage of $6,000. On Jan. 21, 1927, the First National Bank of Lake George reported that the stock was worth about $45.75 per share. The same bank referred us at this time to the Secretary, Mr. Martin L. C. Wilmarth, of Glens Falls, N. Y. Mr. Wilmarth, located at 15 Ridge St., Glens Falls, N. Y., informed us as follows on Oct. 23, 1940: "We have your letter of Oct. 18th, requesting information regarding the value of Founder's Stock in the Lake George Real Estate Company. Personally, I believe that the stock has absolutely no value, although the Lake George Club has recently purchased some small blocks of the stock for, I believe, $3.00 per share. I would suggest that you contact Mr. C. Everett Bacon, c/o Spencer Trask & Company, 25 Broad St., New York City. Mr. Bacon is Preisdent of the Lake George Club and will give you any information you desire."

Land & River Company (New York). Succeeded a company of same name incorporated in New Jersey. The assets of this company consisted almost entirely of unimproved lots and lands in or near the City of Superior, Wis. The New York office was located at 30 Broad St., New York City. On Oct. 31, 1910, it was decided to redeem at par on Dec. 15, 1910, all of the First Preferred Fractional Certificates and to make a distribution of 30% on the First Preferred Stock on account of the cumulative dividends on said stock on Nov. 15, 1910. A further distribution of 18% was paid on the First Preferred Stock. A final dividend of $8.00 per share was paid on the First Preferred Stock.

Land & River Company (N. Y.). Mr. Harry L. DeForest, an attorney, located at 20 Exchange Place, New York City, informed us on Dec. 7, 1937, that William K. Hopkins, c/o Attorney General's Office, 80 Center St., New York City, and Paul Bailey, Bay Shore, N. Y., were appointed Receivers of the company in 1933. Subsequently they were discharged and such funds as remained in their hands were turned over to the County Treasurer of Suffolk Co., Riverhead, N. Y. The County of Suffolk, Treasurer's Office, Riverhead, N. Y., informed us on Dec. 9, 1937, that there was deposited in their office as a part of their Court and Trust Fund, a certain amount due to various persons who failed to comply with the request of the Receivers as to deposit of stock, etc. The Court will be able to furnish the information required if you furnish them with the name of the security holder of record. They will then be able to inform you whether or not any funds have been credited to same. For the withdrawal of such funds the Court will require two certified copies of an Order issued out of the Supreme Court directing payment to the proper person. As we recall it certain securities of the New Jersey Company were exchanged for securities of the New York Company, which have a liquidating value.

Landover Holding Corporation. Value of Class "A" Stock. In liquidation. The first distribution of capital assets to stockholders was made about May 8, 1926, as follows: Each holder of Landover Class "A" Stock received for each share of said stock one share of common stock of the Willys-Overland Company. This distribution was made by the Irving Trust Company, New York City, and stamped accordingly. Second distribution: The Irving Trust Company of New York City was appointed agent about Feb. 4, 1928, to distribute $18 a share to holders of Class "A" Stock. Third distribution: By order of the Circuit Court No. 2 of Baltimore, Md., a liquidating distribution of $1.50 per share was payable Dec. 28, 1931, to Class "A" stockholders on delivery of their stock certificates to W. Ainsworth Parker, Receiver, at 1904 First National Bank Bldg., Baltimore, Md. It is our opinion that the first and second distributions are being made by the Receiver at the present time. If you have not received any of the distribution, we advise you to send your stock direct to the Receiver, and if the Irving Trust Company is making the other distributions the stock can then be presented to them.

Lane-Rincon Mines, Inc. Mr. Daniel Day Walton, an attorney and trustee for the company, located at 40 W. 40th St., New York City, informed us that the stock of this company had no value on Jan. 26, 1933, as the company owed $768,057 on ore certificates, and had assets which were valued at $250,000. The company was revived in 1934, and a reorganization was approved on Dec. 31, 1935. The ore certificates were exchanged for new stock on the basis of $3.00 of ore certificates for one share of new stock. The old stockholders received one share of new stock for each 30 shares of old stock. The company's office is located at 15 Exchange Place, Jersey City, N. J. The old shares are quoted at 3c per share bid, while the new shares are quoted at 1½ bid, 2 asked. (April 2, 1937.)

Level Club, Inc. Incorporated in Jan., 1920, as a club and owned properties at 253-267 W. 73rd St., New York City. Funded Debt: 1st Mortgage 6's 42, $2,223,800. Int. and Prin. default; 2nd Mortgage 6's 31, $550,000; Debenture 6's 44, $1,406,513. The property was sold at foreclosure sale on May 18th, 1931, and purchased by the bondholders committee. The sale was held to satisfy a judgment of $2,379,510 obtained by Marine Midland Trust Company as Trustee for the First Mortgage Bonds. Back taxes amounted to $212,000. It is reasonable to assume that there were not sufficient funds to pay off the back taxes and satisfy the first mortgage leaving no equity for the second mortgage and debenture bonds, which are without value. Mr. Alexander Rosenbaum, an attorney, at 10 E. 40th St., New York City, and former vice president of the company confirmed the above on Dec. 2, 1932, to the effect that the debenture bonds had no equity after the sale and are without value.

Level Club, Inc. The Marine Midland Trust Company of New York City, holds an unclaimed balance of $91.02 for distribution on the First Mortgage 6% Bonds dated Nov. 2, 1927 and due Nov. 1, 1942, at the rate of $22.20 per $1,000 bond. The Trustee also holds an unclaimed balance of $22.94 for distribution on these bonds at the rate of $3.70 per $1,000 certificate, representing the second payment.

Leverich Towers (Brooklyn). The First Mortgage 6½% Bonds due 1925 with Coupon No. 6 and subsequent attached, received $296.83 on each $1,000 bond from the Manufacturers Trust Company, New York City. See Brookhold Construction Co., Inc.

Lewis-American Airways, Inc. On Oct. 28, 1939, it was reported that certain individuals were indicated for defrauding stockholders. Life Underwriters Company of America. Incorporated in District of Columbia in 1904. The company's assets consisted of subscriptions to stock. The company never did any insurance business. All its activities were confined to supporting expensive offices and paying high salaries. At last accounts the company had $19 in the bank in 1908. The whole venture was a stock selling scheme, and the shares are entirely worthless.

Liggett Bldg., Inc. The First 5½% Bonds due 1952 have a decree value of $675.52 and $80.4079 per $1,000 bond. Collect on unstamped bonds from the Chase National Bank, New York City.

Likly Luggage, Incorporated. Incorporated in Delaware on May 24, 1928, to acquire Henry Likly & Co., of Rochester, N. Y. The company had offices at Fitchburg, Mass., and 522 Fifth Ave., New York City. The company did not file any further reports after 1928, and apparently went out of business in 1929 because the company lost its charter on April 1, 1931. J. Wolf Teitel, Pres., New York City; Robert F. Dunphrey, Secy., Fitchburg, Mass.; Wm. A. Zimmerman, Treas., Newton, Mass. Letters addressed to the above officers have all been returned. We found no value to the stock and therefore believe the shares are without value.

Lincoln Forty-Second Street Corp. The Chemical Bank & Trust Company of New York City holds unclaimed funds which were deposited with them to provide for the payment of the June 1, 1932, and Dec. 1, 1932, coupons on the 6½% Debentures. All moneys not claimed by Aug. 15, 1938, were returned to the corporation which deposited same.

Lincoln Hotel Properties. We received the following letter from the Continental Bank & Trust Company, 30 Broad St., New York City, signed by Mr. H. Springer, and dated Feb. 27, 1939: "Receipt is acknowledged of your letter inquiring as to the status of Bond M8013 of the above issue held by your client. Pursuant to an order of the court at the request of the holders of the majority of the outstanding bonds, the above properties were sold at foreclosure on Nov. 23, 1936, at the upset price of $700,000 fixed by the court. Bondholders are entitled to their pro rata share of the net proceeds of the sale plus their pro rata share of the funds on deposit with the Trustee. This distribution is at the rate of $256.92 per $1,000 bond. In accordance with the order of final judgment dated April 24, 1936, there is now also being distributed a pro rata share of fixed principal and interest moneys which were deposited with the fiscal agent. This is at the rate of $21.87 per $1,000 bond. Bonds with the Jan. 1, 1932, and subsequent coupons attached may be presented to this bank for payment with the request for the amount of distribution; they will be stamped and returned to you together with our check."

Lincoln Street Railway Company. There is a fund of $120 on deposit with the New York Trust Company, New York City, for certain coupons of this company that have not been presented for collection.

Liquid Gold Oil Company. The State of Montana informed us as follows on April 11, 1940: The records of this office show that Liquid Gold Oil Company is still in existence as a corporation of the State of Montana, as it was incorporated on Sept. 29, 1930, for forty years and no dissolution of the corporation has been filed in this office to date. However, the last report filed in this office by the corporation, which was for the year ended Dec. 31, 1935, contains the following statement: "This company is insolvent and has ceased to voluntarily incur financial obligations and has ceased to be a going concern. The reason more directors have not signed this statement is because their whereabouts are unknown to the within signers. There was no report filed earlier in the year 1936 because statements were filed for the two years previous thereto showing the said company was insolvent and had ceased to incur financial obligations and had ceased to transact any business. The reason said company has ceased corporate activities is because the stockholders have lost interest, the corporation has no property, and the well that was drilled was dry." The officers listed on the above-mentioned report are: Paul W. Smith, Pres.; David R. Smith, Secy.-Treas., both of Helena, Mont.

Liquidating Shares, Inc. Mr. Frank A. Scott, Union Commerce Bldg., Cleveland, Ohio, informed us as follows on Jan. 9, 1941: "In response to your inquiry of Jan. 3rd, addressed to Liquidating Shares, Inc., Baltimore Trust Bldg., Baltimore, Md., please be advised that a distribution to stockholders was declared at the rate of $1.00 per share, payable to holders of record on Nov. 15, 1940. The payment was made on Nov. 16, 1940. In accordance with the charter of the company, further distributions will naturally be made within the next six to eight months.

Livingston Realty Corporation (Pa.). Mr. John J. Shonk, former treasurer of the company, located at 96 West Broad St., Bethlehem, Pa., informed us as follows: "I have your letter of Aug. 10th, in regard to stock in Livingston Realty Corporation. I regret very much to inform you that through foreclosure proceedings by the First Mortgage Bondholders, the last of the assets of the Livingston Realty Corporation was lost. The corporation has no assets of any kind and the stock in my opinion is undoubtedly worthless."

Llewellyn Park Improvement Company. Incorporated in New Jersey and lost its charter in 1936. The following notice was sent to stockholders on Oct. 29, 1940: Oct. 29, 1940. To the Stockholders of the Llewellyn Park Improvement Company, Gentlemen: In accordance with the action taken by the stockholders of the Llewellyn Park Improvement Company authorizing the company to be dissolved, the necessary steps were taken and the Secretary of State issued his certificate, dated July 12, 1940, dissolving the company. The assets of the company have been converted into cash and after the payment of all bills, there remains for distribution to the stockholders on liquidation the sum of $13,680. That sum, when divided into the number of shares issued and outstanding, amounts to $114 per share. Arrangements have been made for the retirement of the stock, and stockholders are requested to promptly forward their certificates to the undersigned, which certificates should be endorsed and witnessed. If the certificate is held by an estate in the name of decedent, there should be forwarded, in addition to the certificate, which should be signed by the legal representatives of the estate, a Surrogate's Certificate showing the appointment of the legal representatives, a copy of the will, and inheritance tax waivers. Upon receipt of the same, checks will be forwarded.

Yours very truly,
(Signed) Douglas R. Nichols, Treas,
28th floor, 40 Wall St.,

Lockwood Manufacturing Company, South Norwalk, Conn. Hadfield, Rothwell, Soule & Coates, Stamford, Conn., informed us as follows on March 11, 1940. For your information would advise that the merchandise, machinery and equipment of The Lockwood Manufacturing Company was sold to The Independent Lock Company, who moved same to their Fitchburg, Mass., plant in 1935. Subsequent thereto The Lockwood Manufacturing Company has been in liquidation and the following liquidating dividends have been paid: 1—June 17, 1935, $1.00 per share; 2—Jan. 24, 1936, $.50 per share; 3—Feb. 2, 1937, $.60 per share; 4—Jan. 2, 1940, $1.80 per share. There will be another dividend paid this month in the amount of 10 cents per share, which leaves nothing remaining from which dividends may be paid except a few old accounts receivable upon which the collectibility is estimated to be nil. There have been no sales of stock for a number of years and trust that the above information will enable you to establish a value thereon as of the dates requested.

Lower Merion Water Company. We received the following letter from Mr. Russell J. Brownbeck, Special Master, Peoples National Bank Bldg., Norristown, Pa., dated Dec. 22, 1937. "This will acknowledge receipt of your letter of Dec. 21st, enclosing No. 228—$1,000 6% Gold Bond of the Lower Merion Water Company, due Sept. 1, 1917, with Coupons No. 4 to 60, inclusive attached, wherein you advise me that you have been requested to collect the amount due thereon by Mr. Nevin J. Loos, the original owner, whose address is 49 W. Church St., Bethlehem, Pa. I am referee in the Equity proceedings of Tradesmens' National Bank & Trust Co., successors, etc., Trustee, versus Lower Merion Water Company, et al, being No. 8 of April Term, 1927 and my duty is to determine upon the proper distribution of the balance shown by the Trustee in its account among the persons entitled thereto, who, in the main, are bondholders. On June 15, 1937, the Court of Common Pleas of Montgomery County, sitting in Equity, entered a Decree from which I quote 'that Aug. 6, 1937 is hereby fixed as a time for hearing claims against the fund for distribution, provided that if claims are not presented at that time they shall be forever barred from participating in the fund for distribution. On Aug. 2, 1937, the Court entered a further decree fixing Sept. 10, 1937 the date for proving claims and providing that those then not proved should be forever barred from participation in the fund for distribution.' I feel that it is my duty to advise you that in my opinion Mr. Nevin J. Loos cannot participate in the fund for distribution under the decrees as they now exist. Of course, I cannot change a Decree of Court. I would therefore advise that if he seeks to participate in this fund, he should employ Counsel in Montgomery County and make proper application to the Court, with the thought in mind of having the decree in some way so modified as to permit him to participate. Of course, I have no knowledge as to what action the Court would take upon such application. However, I shall consider this bond as deposited and retain the same for the present with the other bonds deposited by the bondholders." On Apr. 27, 1938, Mr. Kirke Bryan, of Norristown, informed us that $156.27 was the net amount recovered on the $1,000 bond.

Maryland Coal Company of W. Va. Mr. David Williamson, Trustee, of Wendel, W. Va., reported as follows on June 24, 1941: "The Maryland Coal Company of West Virginia was adjudicated a bankrupt May 15, 1940, and I was elected Trustee in Bankruptcy by the creditors at a general meeting in Elkins, W. Va., on June 18, 1940. The property of the Maryland Coal Company of West Virginia was sold, at a bankruptcy sale, on Sept. 1[illegible], 1940, to Mr. Gordon E. Bailey for $37,500. I was ordered by the Court to make distribution of the money and the Court costs for Mr. A. Spates Brady, Operating Trustee, amounted to $27,294.80. My court costs as trustee in bankruptcy, amounted to $5,751.28, leaving a balance of $4,453.92. There remains wage claims and some other expenses, that have been incurred since the sale of the property, and when these are taken care of, in my opinion there will be no funds available for the debenture holders or stockholders.

Memphis & Charleston R. R. Reorganized as Southern Ry Co. We believe the Guaranty Trust Company of New York City handled the exchange of securities. Certificates of Deposit for Gen. Mtge. Bonds received $650 per $1,000 certificate at the Central Hanover Bank & Trust Company, New York City.

Memphis Consolidated Gas & Electric Company. Consolidated and Ref. 5% Bonds due 1943, received $863.16 per $1,000 bond, with Jan. 1, 1920, and subsequent coupons attached, by order of the United States District Court, Memphis, Tenn. The Central Union, now Central Hanover Bank & Trust Co., of New York City, was Trustee. The Memphis Power & Light Company, located at Memphis, Tenn., informed us that the properties of this company were sold under decree of foreclosure brought in the District Court of the United States for the Western Division of the Western District of Tennessee by the Central Union Trust

Company of New York City, Trustee. The amount available for holders of bonds was $863.16 per $1,000 bond, leaving a balance due of $317.46, for which a deficiency judgment was entered against Memphis Gas & Electric Company, successor by consolidation to Memphis Consolidated Gas & Electric Company. However, since the latter and the Memphis Gas & Electric Company have no assets the deficiency judgment is uncollectible and, therefore, the holder of the Refunding Bonds due 1943 may expect no further payments.

Memphis Gas & Electric Company. Consolidated and Ref. Mortgage Bonds received $863.16 per $1,000 bond. The First Mortgage Bonds of the Merchants Power Company dated July 1, 1907, received $1,174.35 per $1,000 bond. Michigan, Lake Superior Power Company. Value of 5% bonds due 1949 as of March 1, 1913. The property of this company was foreclosed in Aug., 1913, and the company was reorganized as the Michigan Northern Power Co. In the reorganization each $1,000 bond of Michigan, Lake Superior was exchanged for a $500 bond of the new company. We found no quotations on the Michigan, Lake Superior bonds in 1913, but did find a quotation of 80 low and 95 high for the Michigan Northern Power Co. in 1913. That is the nearest we can get. On this basis the Michigan, Lake Superior $1,000 bond which was exchangeable for a $500 bond of the Michigan Northern Power Co. had a fair value of $437.50 as of the period Aug. to Dec. 31, 1913. Value Jan. 1, 1919, $400 per $1,000 bond.

Minneapolis, St. Paul & Sault Ste. Marie Ry. Co. Minneapolis, Mar. 19 (A.P.)—A plan for the reorganization of the Soo Line Railway, which would terminate the bankruptcy of the 3,224 mile road dating back to Dec. 31, 1937, was filed today with the Interstate Commerce Commission in Washington and the United States District Court here. The plan was filed by G. W. Webster and Joseph Chapman, Trus. of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company since July 1, 1938. The proposal would reduce the amount of obligations bearing the fixed interest by $120,052,033, and cut the annual fixed interest charges from $6,577,907 to $322,065. Capital structure of the new company would consist of $2,663,829 of present equipment obligations to be assumed by the new company; $8,051,631 of 4% First Mortgage Bonds; $20,129,076 of 4% General Mortgage Bonds, and 719,319 shares of no par common stock. The proposal contains a traffic agreement to assume continuance of traffic between the new company and the Canadian Pacific Railway, under which the latter would have the right to purchase 25% of the stock of the new company allotted to others at $2 per share. General creditors and stockholders of the new company are not afforded any participation in the reorganization plan. A voting trust would be created under the plan, into which all of the stock of the new company will be placed until Dec. 31, 1950. Of the five voting trustees to be selected, two will be selected by the insurance companies and savings banks included in the groups holding Soo Line bonds and three by the Canadian Pacific Railway.

Mobile & Ohio Railroad. Mobile, Ala., Aug. 1, 1940 (A.P.)—Properties of the bankrupt Mobile & Ohio Railroad were sold today at public auction for $13,411,915, with all but $15 going to the bondholders' reorganization committee of the road. The committee is to convey the property to the smaller Gulf, Mobile & Northern Railroad, after which the two roads are to be merged into a 2,007-mile major trunk line to be known as the Gulf, Mobile & Ohio. Virtually all the bidding was by E. D. Scruggs of New York, representing the bondholders' committee. The sale is subject to approval by the United States District Court. Mr. Scruggs bought in all properties with the exception of certain contracts existing between the Mobile & Ohio and the Gulf Terminal Company, operators of the Mobile Union Station and properties of the Mobile & Bay Shore Railroad, a freight line between Mobile and the Alabama coast. Nicholas Stallworth, attorney for the First National Bank of Mobile, trustee under the Bay Shore mortgages, bought the interests in the Bay Shore line in 3 sections at $5.00 each. After the hearing on Aug. 22 before Federal Judge Robert T. Ervin, what railroad men described as the first large railroad consolidation since 1934 should be completed quickly. I. B. Tigrett of Jackson, Tenn., is slated to head the new Gulf, Mobile & Ohio, which will start business with a funded debt of $31,870,000 and annual charges of $1,399,920, about half the two roads' present fixed charges. There will be an additional $6,025,800 of 5% bonds paying interest only if earned. Dividends on the 305,750 shares of $5 preferred stock are on a similar basis. Holders of 609,847 shares of common stock will be paid dividends only if earnings exceed payments on the preferred issues. The Southern Railway has owned 94% of the M. & O.'s common stock, which the merger wipes out. The Southern will get 93 cents on the dollar for $7,839,000 of M. & O. bonds. In May the G., M. & N. borrowed $7,500,000 from the Reconstruction Finance Corporation to pay off the Southern and will borrow another $2,000,000 to pay additional expenses of the merger. Last year the G., M. & N. had a net profit of $427,388 and the M. & O. lost $440,924.

Mohawk Mining Company. The stock has a liquidating value of $18.50 per share, payable at the Old Colony Trust Company, Boston, Mass., on unstamped stock. Further payments are expected.

Moline Plow Company. Incorporated in Illinois in 1870 and reorganized as the Minneapolis-Moline Implement Company. The Chancery Court of Richmond, Va., ordered the following liquidating payments to be paid on the debenture bonds and first preferred stock. First Payment 17%; Second Payment 6%; Third Payment 3%; Final Payment 1.49% plus stock of the Moline Implement Co. or the equivalent of $50 per share. The Trustees were: Frank C. Wetmore; Arthur Reynolds; Jos. E. Blunt, Jr., and C. E. Mitchell. We received the following letter from W. C. Rich, Secretary of the Minneapolis Moline Power Implement Co., Minneapolis, Minn., dated Jan. 3, 1939. "We acknowledge receipt of your letter of Dec. 29, inquiring about the former Moline Plow Company and the present value of its stock. While we are not familiar with the affairs of the former Moline Plow Company, we are reliably informed that Moline Plow Company, Inc., a Virginia corporation, was dissolved in liquidation proceedings in Virginia in the year 1925 and securities senior to the second preferred stock participations received less than 50 cents on the dollar so the second preferred stock of that company and securities junior thereto are valueless."

Monongah Glass Company, Fairmont, W. V. Mortgage foreclosed 1936. The Safe Deposit & Trust Company of Baltimore, Md., holds $192.50 of unclaimed funds to pay on certain coupons of the First Mortgage S. Motzorongo Company. Incorporated in Arizona and according to the 1940 report, Mr. A. M. Turner, Pine Tree Inn, Windemere, Fla., is Treasurer of the company. Mr. Turner informed us as follows on Nov. 11, 1940: "Your letter of the 1st inst., inquiring as to the status The Motzorongo Company and the value of its capital stock has just arrived. The said company was engaged from 1902 in operating a sugar factory and a sugar cane plantation at Motzorongo, State of Veracruz. Mexico. In 1927 the company was forced to discontinue active operations. Starting in 1923, the Government of Mexico made extensive expropriations of the arable lands of Hacienda Motzorongo, distributing said lands among hundreds of its own citizens. So-called Agrarian Bonds were offered in payment for lands expropriated. As we were advised by our own Department of State that any attempt to settle agrarian claims directly with Mexico would effectively prevent the U. S. Government from later taking such action, we made no application for such Agrarian Bonds, which in any event we regarded as of little value. In October, 1938, while I was in Washington, I learned that our State Department was then engaged in a discussion with Mexico in respect to American Agrarian Claims. The outcome was an agreement between Mexico and United States, in which Mexico undertook to pay the fair value of the lands expropriated, formerly owned by Americans and to pay not less than $1,000,000 annually until the full amount had been paid. Mexico has paid $2,000,000 to date and the next installment will become due May 31, 1941. Our claim was prepared and filed with the U. S. Department of State on Mar. 1, 1939, and thereafter transmitted to the Joint Agrarian Claims Commission at Mexico City. It was expected that the said commission would complete its work by May, 1940, but extensions of time have been granted. In the event that this company receives an award of the value set up in the claim, and thereafter Mexico pays the said amount, it is my opinion that, after payment of $215,000 First Mortgage Bonds with interest from July 1, 1927, of some $103,000 of promissory notes plus accrued interest, and some smaller indebtedness, besides expenses, legal and otherwise, of preparing and prosecuting the claim, there should still be a considerable sum for distribution on the outstanding capital stock. Conclusion of this claim matter will mean the liquidation of the company, therefore all items of debt must first be paid before any liquidating dividend may be declared. The stock had no actual market value since 1927. At best, I doubt if more than 35% recovery can be expected on the stock. I regret to feel obliged to state this view, because I am far the largest holder of the stock."

Mount Hope Bridge Company. The 7% Debenture Bonds due 1952 with June 1, 1931 and subsequent coupons attached, have a decree value of $9.83 per $1,000 bond. Mountbreak Corporation (N. Y.). See Chosen Corporation, Limited.

Mud Lake Irrigation District. Organized in Idaho to acquire a water system for irrigation, located near the lands of the American Falls Reservoir district, in Upper Snake Valley, Jefferson Co., Idaho. Owing to the granting of an injunction to land owners by the District Court enjoining officers of the district from collecting taxes July 1, 1925, interest coupons remain unpaid. The last interest was paid by the County Treasurer at Rigby, Idaho. The district is not operating and no one is living on the land. It would appear that because of the injunction the Mud Lake Irrigation District just ceased to exist. The only claim the bonds had was on taxes and that has been denied to the bondholders.

Mud Lake Irrigation District. Supplementing our previous report, the State of Idaho, Department of Reclamation, Boise, Idaho, informed us as follows on Dec. 10, 1940: "We are in receipt of your letter of Dec. 6th, in regard to the status of the Mud Lake Irrigation District in Jefferson Co., Idaho. Our records show that the Mud Lake Irrigation District was organized in 1923, and was to receive its irrigation water through the canal of the Central Idaho Irrigation District. Both of these irrigation districts are now defunct and abandoned, for the reason that the water in Mud Lake has receded to such an extent as to render the water rights of these districts of no value. This department has had no financial or other reports from this district for many years and it is very doubtful if any kind of an organization exists from which it would be able to obtain any information as to lands that it might own at this time." The only place to ascertain whether the company owns any lands is through the Tax Assessor of Jefferson Co., Idaho, at Rigby, Idaho. They have not answered our letters.

National Wall Paper Company. Trust Receipts for Debenture Stock received twelve liquidating dividends totaling 68¾%. Collect from the Chase National Bank, New York City.

National Water Supply Company. The property of this company was sold at foreclosure in September, 1909, and the amount received from the sale was sufficient to pay the noteholders $22.18 per $1,000 note, payable at the Irving Trust Company, New York City. These notes were secured by a deposit of First Mortgage 5% Gold Bonds due Feb. 1, 1932. The amount recoverable on the First Mortgage Bonds was equal to about $18.77 per $1,000 bond, payable at the United States District Court for the Eastern District of Virginia, Norfolk, Va. These funds have probably been turned over to the United States Treasury. These funds may be obtained by making proper application to the court at Norfolk, and submitting the signed Order and Petition to the Court of Claims at Washington, D. C., for collection.

National Water Works Company of New York. The stock has a liquidating value of $3.00 per share. The dividend was mailed to stockholders of record and the stock was never stamped. We suggest that you inquire of Mr. Herbert T. Spooner, 75 West St., New York City, whether dividends have been paid on your stock.

Natomas Company of California. The above company was succeeded in 1928 by Natomas Co. (Cal.). The liquidating dividend was paid on the stock of the new company. The stock of the old company was wiped out.

Natural Carbonic Gas Company. The First 5% Bonds due 1921 have a decree value of $154.27 per $500 bond, and $12.50 for each coupon dated from April 1, 1908, to Oct. 1, 1910. Paid by Chase National Bank, New York City.

Natural Carbonic Holding Corporation. Value of stock: Incorporated in Delaware on September 3, 1930, and is located at Bloomfield Ave. and Grove St., Newark, N. J. Mr. William G. Bates, Treasurer of the company, located at 43 Cedar St., New York City, informed me as follows on Jan. 22, 1941: "In answer to your letter of Jan. 21st., the Natural Carbonic Holding Corporation was formed on the dissolution of the Natural Carbonic Gas Company to take over the slow moving assets of that company. Most of the assets have been sold and the proceeds distributed to the stockholders of the Holding Corporation. There are still some frozen assets, consisting of a piece of property on Frelinghuysen Ave., Newark, and a few mortgages. There is also quite a large amount of money due the United States Government for income taxes. In my opinion the stock has no value at the present time, although there may be a small dividend paid some time in the distant future." In view of the above I submit only a nominal value for the stock as of April 2, 1940, the date of the decedent's death.

Nedick's, Inc. See City Bank Farmers Trust Company, New York City.

Nepigon Mining Lands Company (Ontario). Miller, Canfield, Paddock & Stone, Penobscot Bldg., Detroit, Mich., informed us as follows on June 27, 1941: "This is in reply to your letter of June 26, 1941, inquiring with respect to dividends on forty-seven shares of stock of Nepigon Mining Lands Company owned by a client of yours. The last dividend paid on stock in this company was on July 15, 1926, since which time no other dividends have been paid. It is impossible to advise you what future dividends, if any, will be paid on this stock. The properties of the company consist of real estate on the north shore of Lake Superior, which real estate has some standing timber and is supposed to contain minerals, mostly copper, the value of which is entirely speculative. The present income of the company, which is derived from timber cutting contracts, is not sufficient to take care of the company's current expenses which are largely for taxes, and unless some arrangement can be made with mining interests to develop the property, the company will slowly bleed to death which it has been doing for years. For your further information, I would say that the Secretary of the company is in active negotiation with several parties who appear interested in obtaining options on some of these properties with a view to determining whether or not mining operations thereon would be justified, and it is possible that some deal may be worked out to the company's advantage. Meanwhile, the closest I can come to giving you an idea of the value of this stock is to say that it was appraised in the estate of the late Sidney T. Miller, who for many years was President of the company, at $2.00 per share, and I doubt if any purchaser at that figure could be found. Consequently, I think you may safely regard the holdings of your client as being of purely nominal value."

Netherlands Tramways Company. The sum of $734,790 was distributed pro rata among the holders of preferred stock, which amounted to $48.98 per share. Preferred stockholders were also requested to forward their certificates of common stock with their preferred stock when making collection. The funds were paid by the Treas. of the company, who was located at Room 705, 60 Broadway, New York City.

Nevada Bellevue Copper Co. (Wash.). Stock was reported to have a liquidating value of from 2c to 3c per share.

Nevada Consolidated Copper Co. On Dec. 15, 1937, the Supreme Judicial Court of Maine, by decree, dissolved the company and appointed Charles D. Booth, of 57 Exchange St., Portland, Me., as Trustee to liquidate the company. Stockholders who have not exchanged their stock for Kennecott Copper Corp., shares on basis of one Kennecott for each 2 shares of Nevada Corp Cons. received $22.35 per share in cash. Cfts. had to be filed by June 1, 1938.

Neve Drug Stores. Incorporated in New York and lost its charter in 1935. Succeeded by United Retail Chemists. Certificates of Deposit for one share of common stock was exchanged for ½ share of Class A Stock and ½ share of Class B Stock of the United Retail Chemists at the Continental Illinois Bank & Trust Co., Chicago, Ill.

New Age Publishing Company. In 1924 the New Age Publishing Company which was a Socialist company although not party-owned, got into serious financial difficulties as an aftermath of party persecution during and following the war, etc. Finally the paper they published, the New Age, suspended publication May 1, 1924, and shortly afterward they were forced to sell the printing plant at a sacrifice. The creditors of the company took over what few assets there were, bills receivable, etc. However, they could not touch the proceeds of the sale of the printing plant because that was subject to a bondholders' mortgage. Bonds were issued in 1917 or 1918 at $5 each. They did not realize sufficient from the sale to pay more than $3 for every $5 bond surrendered.

New Amsterdam Co. The Irving Trust Company of New York City, made a payment of $50 on each $100 First and Ref. 6½% Bond due 1932-43.

New Bedford Investors Trust. Certificates of Beneficial Interest have a liquidating value of $31.50 per share interest. Collect from the First National Bank, New Bedford, Mass.

After payment of all expenses the Union and New Haven Trust Co. of New Haven, Conn., received $34,414.44 for distribution to the bondholders, which is equivalent to 22%. About 18% more was paid on the bonds, which money came from notes receivable over a period of two years. There was no equity left for the stock which is worthless.

New **Mexico-Colorado Coal and Mining Co.** We received the following letter from Montgomery, Peabody, Grace & Derby, 1 Cedar St., New York City, signed by Frederick H. Poor, and dated Dec. 20th, 1937. "We are returning herewith your Bond No. 532 in the amount of $1,000, of the Second Collateral Trust Series of the New Mexico-Colorado Coal and Mining Co. In our opinion this Second Collateral Trust Series of New Mexico bond is not entitled to any payment out of the funds of the Fish Protective Committee of the bondholders of the Second Collateral Trust issue of the New Mexico-Colorado Company for the following reasons: From the enclosed report of the bondholders committee, once headed by Mr. Stuyvesant Fish, you will see that at the foreclosure sale of the Second Collateral Trust two committees of bondholders cooperated as purchasers. These committees were of course acting on behalf of bondholders who had authorized them to act by depositing their bonds with the committees and receiving back certificates of deposit. At the foreclosure sale the two committees bought in the securities underlying the Second Collateral Trust issue, with the idea of foreclosing on the mortgages which these underlying securities represented. They subsequently did foreclose these underlying mortgages, got possession of the land which was the security for them, sold the last for bonds of the Atchison, Topeka & Santa Fe R. R., and then in turn sold the Atchison bonds for cash, which was distributed pro rata to the holders of certificates of deposit issued by the two committees. In all the foregoing steps the committees could not properly have represented bondholders of the Second Collateral Trust who had not deposited their bonds with them prior to the various foreclosures, and the committees could not properly have made distribution of the final fund except to those persons for whom they were authorized to act. Your Bond No. 532 is apparently one which was not presented to the Fish committee. We have gone through the records of the Fish committee which are in our possession but we cannot find that Bond No. 532 was ever deposited with the Fish committe, or that the Fish committee ever received any Kellogg Committee Certificate of Deposit representing his bond. The undersigned Committee respectfully submits the following final report: In 1916 your Committee, of which Mr. Stuyvesant Fish and Mr. Henry C. Sturges were then members (both of them having since died), took up the work of realizing if possible on your holdings. It was necessary first to foreclose the second collateral trust mortgage so as to get possession of the underlying securities and this was accomplished in 1917, the collateral being purchased by Mr. Stuyvesant Fish and Mr. L. Laflin Kellogg, as trustees representing the depositors with their respective Committees. The next step was to foreclose the Yankee Fuel Company trust mortgage and the Santa Fe Raton and Eastern Railway Company trust mortgage so as to get possession of the properties covered by said mortgages. These foreclosures were instituted by the two Committees acting jointly, and after considerable difficulty the properties were finally bought in at the sales in foreclosure by Mr. Fish and Mr. Kellogg as trustees for the depositors. It was impossible to operate either of the properties to advantage and finally after efforts to discover a purchaser continuing over a lengthy period, a contract was made between your Committee, the Kellogg Committee and the New Mexico Coal Company, as sellers, and the Santa Fe Land Improvement Company, as purchaser, for the sale of all the properties owned and controlled by the two Committees and the New Mexico Coal Company for the sum of $775,000 in face value Atchison, Topeka and Santa Fe Adjustment 4% Bonds. The delivery of title was a very difficult matter owing to conditions that had arisen during the fifteen years since this property had been originally promoted by E. D. Shepard & Co. There were mortgages to be foreclosed, liens to be adjusted, boundary line claims to be disposed of and sales for taxes to be gotten out of the way. This took a great deal of time and expense but title to the properties was finally passed as of July 1, 1922, subject to the clearing up of certain defects which have only recently been disposed of. Prior to the making of the contract of sale the sellers determined that it was to the mutual advantage of all interests to sell the properties as a whole and they agreed to divide the proceeds of sale on the basis of 8/13ths of the purchase price to the two Committees representing the Second Collateral Trust Bondholders and 5/13ths to the New Mexico Coal Company which owned the adjoining property covered by the contract. The division of the 8/13ths as between your Committee and the Kellogg Committee was on the basis of the bonds deposited with these Committees respectively, namely 741/1786ths to your Committee and 1045/1786ths to the Kellogg Committee. Pursuant to agreement a commission of 15% was paid by the sellers to the late Robert Lawrence who negotiated the sale of the properties, and in order to pay the back taxes and to clear up the question of title without further call on the Bondholders it was arranged to sell enough of the Atchison Bonds and to use the coupons from July 1, 1922, for that purpose. The face value of Atchison, Topeka and Santa Fe Adjustment 4% Bonds received on the sale was $775,000

LESS:		
Bonds paid for commission on sale	$116,250	
Bonds sold to pay taxes, etc.	40,000	156,250
		$618,750

Your Committee's share of the $618,750 par value of bonds was 741/1786ths of 8/13ths, making $157,978.72 par value. The fraction of a bond was purchased at 80, the market rate, by the payment of $17.02, and your Committee received $158,000 par value of bonds. Your Committee also received for its share of the cash remaining from the $40,000 of bonds sold to pay taxes and expenses of clearing title, the sum of $2,548.14 and it had collected from its depositing Bondholders the sum of $3,205. Your Committee then proceeded to sell the $158,000 of Atchison Adjustment 4% Bonds at 80 and accrued interest, receiving on said sale the sum of $127,857.11.

Your Committee charges itself as follows:

Amount collected from Bondholders	$ 3,205.00
Cash received from proceeds of sale	2,548.14
Sale of $158,000 par value Bonds	127,857.11
Interest to September 1, 1923	276.13
	$133,886.38

Your Committee credits itself with:

Its pro rata share of disbursements in the foreclosure actions and for taxes, clearing on titles, etc.	$ 7,932.77	
Charges and expenses of counsel	21,261.61	29,194.38
Leaving a balance for distribution of		$104,692.00

Each Bondholder depositing with the Committee will receive in cash the sum of $142 per $1,000 Bond, except that those Bondholders who failed to pay the two assessments of $5.00 each per bond will have the amount of such assessments deducted by the Committee before distribution. All the records of your Committee and the account of its receipts and disbursements are on file at the office of the Secretary and are open to your inspection. Enclosed you will find a receipt showing the amount due you. You are requested to sign and return this together with the receipt issued to you by Columbia Trust Co., when you deposited your bonds. A check will then be sent to you for the amount due you. In cases of Bondholders who have died since the deposit of their bonds, the receipt must be signed by the appropriate representative of the estate and in such cases the Committee will require the following in addition to the above before making delivery of the check: First:

The receipt issued by Columbia Trust Co. upon the deposit of the bonds should be returned with an assignment in blank endorsed thereon and duly executed by the executors, administrators, or trustees, and the signatures guaranteed by a Bank or Trust Company. Second: A certificate of the court in which the executors, administrators or trustees were appointed, showing their appointment as such, which certificate must be dated no earlier than thirty days prior to its delivery. Third: A waiver consenting to the payment to the estate signed by the appropriate state tax officer in the state in which the deceased Bondholders resided. Fourth: In cases of non-resident Bondholders, a non-resident waiver to be obtained from the New York State Tax Commissioner, State Capitol, Albany, New York, N. Y., Sept. 1, 1923. John C. O'Connor, Secy., 15 William St., New York City. Wm. D. Gaillard, Counsel, 31 Nassau St. Francis H. Bergen, Chairman, 32 Nassau St., New York City. Henry P. Sturges, Committee. The 5% Second Coll. Trust Bonds due 1961 have a decree value of $1.21 per $1,000 bond. Collect on unstamped bonds from the Chase National Bank, New York City. Certificates of Deposit for these bonds received $142 per $1,000 certificate. This payment was made by Montgomery, Peabody, Grace & Derby, attorneys, 1 Cedar St., New York City. We also suggest that you inform the above attorneys the number of your bond and the name of the original bondholder. We understand that certain bondholders assented but did not deposit their bonds. It may be possible that these particular bonds may be entitled to the $142 payment.

New Mexico Land & Irrigation Co. (N. J.). 6% Reorganization Certificates are worth $110 and interest. Nothing was paid on the principal of the bonds. Coupons numbered 1 to 6 inclusive, are worth $1.61562; $1.25930; $1.22608; $1.19285; $1.15963 and $1.12641 respectively.

New Orleans, Mobile & Chattanooga R. R.
New Orleans, Mobile & Texas Railroad Co. Successor to New Orleans, Mobile & Chattanooga Railway Company. The property was sold on Nov. 18, 1874 by Frank M. Ames, Trustee, to the Louisiana & Texas Railroad and Steamship Company. It was reported that the First Mortgage bondholders who held bonds dated Mar. 15, 1870 and Jan. 1, 1872, who did not deposit under the Plan of Reorganization, received $151.78 and $58.37 per $1,000 bond respectively, which amounts were less expenses. Those that deposited under the plan paid assessments of $103.45 per $1,000 bond. We received the following from the U. S. District Court, Eastern District of Louisiana, New Orleans, La.

No. 7357—E. D. Morgan and J. A. Raynor, Trustees Vs. N. O. Mobile & Texas R. R. Co., et als. This cause came on to be heard upon the report of the Special Master herein of the examination of the accounts and the vouchers therefor of the Trustees aforesaid, Morgan & Raynor, with a view to a final settlement until the 13 May 1880, the date of the delivery of the possession of the deed of the property, and the property itself to the purchasers, and it appearing from the report that the accounts are correct and that there remains of the money received from the sale, in their hands for the bondholders who did not join in the purchasing agreement and who have not presented their bonds to the Trustees and generally were not proven to the court the sum of $109,882.23 as the ratable share of these bondholders; the court upon consideration thereof orders the Trustees to hold the same for disbursement under the deed of trust, and they deposit the same in the United States Trust Company in New York, subject to their order for that purpose and that the said Trustees be now discharged from their Trust, except for the performance of this duty, and that they report to the court their action herein relative thereto. It further appearing from the Master's report that there remains in the hands of the said Trustees, the sum of Eight Thousand Six Hundred and seventy three 37/100 dollars, arising from the property of the trust, after the payment of charges and expenses, this sum will be paid to the purchasers the New Orleans, Mobile and Texas Railroad Company as reorganized, or into the Registry of the Court for their use. The court further orders that the Trustees retain and preserve their books of accounts and vouchers subject to any future order of the court. And the court was adjourned until tomorrow at 11 A. M. On June 24th, 1880, on petition of the New Orleans, Mobile & Texas Railroad Company reorganized the $8,673.37 referred to above, which was held in the Registry of the U. S. District Court, New Orleans, La. was paid over to the petitioner. The United States Trust Company of New York City, informed us on Mar. 17, 1938, that the only funds which have been in their hands in recent years which might pertain to these bonds was an amount of $10,887.59 which was turned over to the State of New York on Nov. 6, 1937. It would appear that if these funds are payable on the above mentioned unstamped bonds, a petition must be approved by the court at New Orleans.

New York Mining Company (Maryland). Company dates back to 1845. At last accounts there were 333 shares of stock outstanding that had a liquidating value of $57,000. The money was formerly held by the Cumberland National Bank, Cumberland, Md. The funds, we understand, have since been turned over to the Treas. of the State of Maryland.

New York Motor Cab Company, Ltd. Incorporated in 1907 and was reported in 1910 to have reorganized as the New York Taxicab Co., Ltd. The company was seriously involved by the failure of Tracy & Co. and by strike of chauffeurs. In the reorganization in 1910 preferred shareholders were allowed one new 7% Pfd. Ordinary Share of 1£ for every 3 shares then held, and also 1 Deferred Share of 1/s. for every 30 shares then held; the Deferred shareholders were allowed 1 Deferred Share of 1/s. for every share then held. The new company was located at 735 Seventh Ave., New York City, and F. Ducassee was Treas. In 1920 the company was liquidated and there was no return to shareholders. The Debenture bondholders received only 4£, 14/s. for each 20-£ Debenture. The shares are worthless.

New York Municipal Railway. The First 5% Bonds due 1936 represented by Certificates of Deposit, received $1,100 in 6% Bonds and $100 in Preferred Stock of the Brooklyn Transit Corporation and $50 in cash for each $1,000 certificate. The actual bonds probably have value with the Trustee mentioned in the bond.

New York Railways Corporation. Value of 5 shares of Preferred Stock. On June 3, 1936, the Court approved the company's plan of reorganization. Prior lien bonds were assumed by the new company and the Income Bonds received new stock. The preferred stock received 1¼ option warrants to purchase common stock of the New York City Omnibus Corporation at the rate of 1¼ shares at $17.50 per share for each 5 shares held. The exchange can be made at the Commercial National Bank & Trust Company, New York City. The common stock of the New York City Omnibus Corporation sold on the New York Stock Exchange on Sept. 1, 1938, at an average price of $33.50 per share. As the estate was entitled to option warrants to purchase 1¼ shares at $17.50 per share on Sept. 2, 1938, the 5 shares of preferred stock had a fair market value of $20 as of Sept. 2, 1938.

New York Railways Participation Corporation. Stock liquidated at about $300 per share by the Guaranty Trust Company, New York City.

New York Real Estate & Traders Exchange. Incorporated in New York. This company was sold at bankruptcy sale to the Halcyon Real Estate Corporation. In the reorganization plan bondholders received no par value stock of the new company on basis of one share of stock for each $1,000 bond. The stockholders, we understand, did not receive anything in the reorganization. Recently the entire assets of the Halcyon Real Estate Corporation were liquidated and stockholders only received 26½ per share as a first and last dividend.

New York, Rio & Buenos Aires Lines, Inc. Each 5 shares of stock of this company were exchanged for one share of stock of the Aviation Corp. of America.

New York Shipbuilding Company. Succeeded by the New York Shipbuilding Corp. The old stock was liquidated at $234.18 per share.

New York, West Shore & Buffalo Railroad. The property of this company was sold under foreclosure in 1885. In the sale we understand the stock of the company was wiped out, and believe it had no value as of Nov. 11, 1930. First Mortgage 5% Bonds of this company dated Aug. 5, 1881 due July 1, 1931 with coupon of January or July 1884 attached have, we believe, a decree value.

New York, Westchester & Boston Railway Company. Press report dated Oct. 1940. Bondholders of New York, Westchester & Boston Railway may receive a payment in partial liquidation of their claim following a decision by Federal District Court on the application of Sullivan & Cromwell, counsel for the bond trustee which will be heard Nov. 15. Amount of funds available for distribution will be determined from testimony of the road's receiver as to prior claims payable, including taxes due to various Westchester communities, and as to a reserve for contingencies. Representatives of bondholders do not expect as much as 5% to be paid initially although the net realizable liquidating value is estimated to be above that figure. The Guaranty Trust Company, 140 Broadway, New York City, as Trustee of the First Mortgage 4½% Bonds due 1946 made a payment of $37.50 on each $1,000 bond as of Feb. 24, 1941. It could not be stated definitely at that time what disposition will be made of the remaining property, whether a further payment would be made or to estimate the amount.

New York & Westchester Water Company. 5% Prior Lien Mortgage Bonds due Oct. 1, 1927. First capitalized with $500,000 in bank. Soon a Second Mortgage was issued for $500,000. Later a Prior Lien Mortgage was made to take preference over the other bonds. Only $200,000 of Prior Lien Bonds were sold, and the Court of Appeals at Albany was expected to hand down a decision as to whether the bonds were valid or not (1903). Property sold under foreclosure at the Court House at White Plains by Referee Wm. H. Ford, for the Metropolitan & Central Trust Companies, as trustees and bought by the City of New York. The property outside of the City of New York was purchased by the New York Water Company. We have definitely ascertained that the First Mortgage 6% Bondholders realized only $85.76 per $1,000 bond, and the Second Mortgage was wiped out. We do not know the title of the case that was to ascertain the legality of the 5% Prior Lien Bonds, and for this reason we were unable to get a report of the decision. According to the above distribution on the First Mortgage Bonds it is our opinion that the Court of Appeals at Albany handed down a decision to the effect that the Prior Lien Bonds were subject to a First and Second Mortgage, and received nothing from the proceeds received from the foreclosure sale.

New York & Westchester Water Co. The First Mortgage 6% Bonds dated Dec. 1, 1890, and due 1920, received $85.76 per $1,000 bond. Collect from the Central Hanover Bank & Trust Company, New York City. The 5% Prior Lien Bonds due Oct. 1, 1927, were held subject to the First Mortgage 6% Bonds and therefore are worthless.

New York & White Plains Suburban Water Company. Mr. C. Adelbert Becker, President of the company, sold the property to the City of Elmsford, New York, for $25,000. There are one or two bonds outstanding that have a value of $450 per $1,000 bond. This amount, we understand is obtainable from the United States Trust Company, New York City, the executors of Mr. Becker's Estate. Mr. Chas. Moebus, 1966 Valentine Ave., Fordham, N. Y., former Secretary of Mr. Becker, will confirm the above.

New York & Wilkes Barre Coal Co. We understand that the bonds of this company have a decree value of $220 per $500 bond. Collect on unstamped bonds from the New York Trust Company, New York City.

Newark Athletic Club, Inc., Newark, N. J. The property was foreclosed in the latter part of 1940 and was bought in by the First Mortgage holder, Prudential Insurance Company of America. No provision was made for the Second Mortgage Bonds.

Norfolk Equities, Inc. (N. Y.). See Chosen Corporation, Limited.

Norfolk Railway & Light Company. The Baltimore National Bank of Baltimore, Md., holds funds for the redemption of the First Consolidated Mortgage 5% Bonds due Nov. 1, 1949.

Norfolk Southern Railroad Company. Press report dated May 1, 1941. Norfolk, Va., Apr. 30 (AP)—The properties of the Norfolk Southern Railroad Company, in receivership since 1932, were sold for $2,000,000 today to Carrol M. Shanks, reorganization manager of the new company which will operate the line. The transfer was on the steps of the Princess Anne County Courthouse under terms of an order authorizing a foreclosure sale entered through the Federal District Court by W. B. Rodman, special master, and confirmed by Judge Luther B. Way. Morris S. Hawkins will be the president of the new company. The names of other officers have not been announced.

Mr. Shanks is vice president and general solicitor of the Prudential Insurance Company of America, one of the many fiduciary institutions which has had to take an active part in railroading because of the numerous bankruptcies and receiverships in that field in recent years. The sale to Mr. Shanks will go before the District Court in Norfolk on May 14 next for confirmation. More than 92% of Norfolk Southern Bonds have been deposited under the plan of reorganization, it was made known by Mr. Shanks. The time within which deposits may be made under the plan was extended to May 15 next. Holders of Norfolk Southern Bonds who do not deposit their bonds with the reorganization manager will receive their distributive share of the purchase price of the properties after deducting expenses. The distributive share of non-depositing bondholders will be determined by apportioning the purchase price, less expenses, among the various issues according to upset prices fixed by the District Court. The percentages of Norfolk Southern Bonds on deposit with the reorganization manager were stated by Mr. Shanks to be about as follows: Norfolk & Southern First Mortgage Bonds, 98%; Raleigh & Cape Fear Railway First Mortgage Bonds, 96.3%; Raleigh & Southport Railway First Mortgage Bonds, 93.6%; Aberdeen & Asheboro Railroad First Mortgage Bonds, 96.9%; Norfolk & Southern Railroad First General Mortgage Bonds, 95%: Norfolk Southern Railroad First and Refunding Mortgage Bonds, 91.6%, and Suffolk & Carolina Railway First Consolidated Mortgage Bonds, 96.4%.

Norfolk & Southern Ry. Each $1,000 First and Ref. Bond in the hands of the public received $570 in liquidation. Each $1,000 bond that was held as security for the Coll. Trust Gold Notes due 1910 received $516. Collect from the Trust Company of America, Trustee. Stock worthless.

Normandie Silk Mills, Inc., Gloversville, N. Y. The property of this company was sold under foreclosure. The bondholders received $23.50 per $100 bond in liquidation. The coupons to Dec. 15, 1925 are payable in full. The City National Bank & Trust Company of Gloversville, N. Y. is still holding funds for bonds that have not been presented for collection.

North American Light & Power Company. Press report week of May 12, 1941: The North American Light and Power Company, a principal subholding company in the $1,000,000,000 North American Company system, is to be dissolved in compliance with the simplification and integration provisions of the Public Utility Holding Company Act, it was announced yesterday. In announcing the decision to liquidate, Allen Van Wyck, Pres., made known that a special meeting of stockholders has been called for June 4 to act on the dissolution proposal. North American Light and Power, Mr. Van Wyck declared, would "no longer serve any useful purpose" if its investments were restricted to only one of its subsidiaries, as may be required by the Securities and Exchange Commission under terms of the Holding Company Act. "In addition," he commented, "its capital structure would have to be so materially readjusted in form and reduced in size that complete liquidation would be more advantageous." The principal operating properties controlled by North American Light and Power are: the Northern Natural Gas Company, principally a natural gas pipe line operating from Texas to Minnesota; the Kansas Power and Light Company; the Missouri Power and Light Company, and the Illinois Iowa Power and Light Company, operator of electric and gas properties in Central Illinois and controlling company for the Des Moines Electric Light Company, the Iowa Power and Light Company, the Illinois Terminal Railroad Company and the Central Terminal Company. While specific details of the proposed dissolution were not made known by Mr. Van Wyck, he declared in a special notice to security holders that "it is apparent that upon dissolution preferred stockholders will not realize their full preferential amount, which, on Mar. 31, was $152.50 a share, including dividend arrears of $52.50 a share, and that common stockholders will accordingly realize nothing." The management of North American Light already is negotiating for the sale of the company's interest in Northern Natural Gas, Mr. Van Wyck said, and an application for approval of the sale of this interest has been made to the SEC. In order to eliminate the expense and delay involved in a solicitation of proxies, they are not being asked for the special meeting. The North American Company, which owns more than two-thirds of the voting stock of North American Light, has indicated that it will vote its shares in favor of dissolution of its subholding subsidiary. North American Light's dissolution, Mr. Van Wyck said, will have no effect on continuation of business of the subsidiaries as now constituted. In a tabulation of assets values of the properties comprising the North American Light and Power Company system, Mr. Van Wyck set forth in his letter that the company's investments have an "indicated possible value" of $30,245,823. This compares with adjusted book asset figures of $51,233,245. North American Light has outstanding total capital liabilities, including preferred dividend arrears, of $51,233,245. Its common stock, including surplus, which is to be written off as valueless, is carried on the books at a stated value of $12,218,894.

North American Liquidation Company. Liquidated by the Irving Trust Company, New York City.

North American Pulp & Paper Company. Value of C/D for common stock, against which at one time there was deliverable common and preferred stock of the Saguenay Pulp & Power Company; the latter was liquidated and there are funds on deposit at the Guaranty Trust Company, New York City, for the payment of the first and final distribution of $.283 on preferred share represented by C/D for common stock of the North American Pulp & Paper Co. Undeposited stock should be presented to Eugene Trudell, Liquidator, 112 St. Jacques, Montreal, Que., for collection. The common stock of the Saguenay Pulp & Power Co. is worthless.

North American Theatres, Inc. Company had both Class A and B no par stock. Company's office was located at 19 Dover Green, Dover, Del. This stock was offered to the public by Watson & White, New York City, in Oct., 1925. A. Friedman & Co., New York City, on Nov. 9, 1925, submitted no ask and no bid. We were informed that the Class A stock has a value which may be obtained from the Central Hanover Bank & Trust Co., New York City. The Class B stock is worthless.

North American Water Works & Electric Co., Inc. See City Bank Farmers Trust Company, New York City.

North American Water Works & Electric Corporation. See City Bank Farmers Trust Company, New York City.

North American Water Works & Electric Corp. Certificates of Deposit for one share of $7.00 preferred stock received one share of Northeastern Utilities Co. Prior Pfd. stock. The C/D were exchangeable at the Continental-Illinois Bank & Trust Company, Chicago, Ill., for new securities.

North Branch Fire Insurance Co. of Sunbury, Pa. This company is no longer in existence, its affairs having been taken over by the City Insurance Company of Pennsylvania in December of 1920. The North Branch stockholders received .975% of City Insurance $25 par stock for one share of North Branch $25 par stock. The latter company merged with the Allemannia Fire Insurance Company of Pittsburgh, Pa., in December of 1930. Eight tenths of a share of the Allemannia was given for each City share held. On the above basis the North Branch stock ought to be worth about $5.00 per share today. (10/31/1932.)

North Carolina Beneficial Assocaition. The Banking Department, State of North Carolina, Raleigh, N. C., informed us as follows on Oct. 28th, 1940: "The North Carolina Beneficial Association was chartered by the General Assembly of 1869-70, Chapter 14, Private Laws, with an authorized capital of $75,000. It was authorized to begin business on Mar. 1, 1870, and the charter expired thirty years later, or in 1900. The Act did not give the location of the principal office of the corporation and the records in the office of the Secretary of State show that the charter has not been renewed. We do not think that the corporation is in existence at this time." It is our opinion that if any unclaimed funds did exist for the bondholders of this company they would be held by the Banking Department of the State of North Carolina. As they have no record of any such funds it is our opinion that the bonds are without value.

North Carolina Special Tax Bonds. The Treasurer of the State of North Carolina informed us that bonds numbered 5914 to 6253 are the only bonds that were recognized by the State of North Carolina. The other bonds are therefore worthless.

North Counties Coal & Supply Corporation. Haskins & Sells, Northern New York Trust Company Bldg., Watertown, N. Y., informed us on Dec. 17, 1926, that this company had been dissolved and partial liquidating dividends had been paid. At that time there were sufficient funds to pay a small final liquidating dividend.

North Saskatchewan Land Company, Ltd. 6% 30-Year Sterling Bonds. The National Trust Company, Limited, Toronto, Ontario, informed us on May 5, 1931, that substantially all of the assets of this company had been liquidated and distributions had been made totaling 38½%. The bank also stated that they would pay at least one further dividend, possibly two. Payment of the distributions were made at the above bank and the Canadian Bank of Commerce, London, England.

North & West Branch Railway. On Apr. 28, 1900, it was reported that the stock of this company was exchangeable for stock of the Schuylkill & Juniata R. R.

North Western Pennsylvania Traction Company. The properties and franchises of this company were purchased at judicial sale on Apr. 8, 1914 by the Butler and Grove City Railway Company. That by letter dated June 24, 1914, Thomas H. Greer, Esquire, Butler, Pa., wrote as follows: ". . . in reference to the proposed line of the street railway company now known as the Butler and Grove City Railway Company, formerly the North Western Pennsylvania Traction Company. This road has never been built nor operated, but has about four and one-half miles partly graded, and franchises . . ." That the records of the Public Service Commission of Pennsylvania, show that the project was abandoned sometime before the year 1922. It would appear that the bonds of the subject company are without value.

North Western Terminal Railway Company. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City.

Northern Aerial Minerals Exploration, Ltd., Toronto. Dissolved 1935. Each share of preferred was exchangeable for 10 shares of

Northern Ohio Railway Company. We were informed as follows by Mr. A. L. Graner, V.-Pres., and Treas., of the Akron, Canton & Youngstown Railway Company and the Northern Ohio Railway Company, Akron, Ohio: "For your information, would state that the Northern Ohio Railway Company, which was incorporated in 1895, has never paid a dividend on either the preferred or common stock, due to the fact that up until recent years the property was not self-sustaining. The Lake Erie & Western Railroad, now part of the Nickel Plate System, together with the Akron, Canton & Youngstown Railway Company, have advanced more than $5,000,000 to take care of bonded interest and other operating charges, all of which will have to be taken care of before any dividends can be paid on the preferred stock. We have purchased some of this stock at a very nominal amount. I am, therefore, making you a firm bid of $250 for the entire lot of 954 shares." The stock mentioned in the foregoing paragraph was sold. If you desire to sell the stock on this basis, send it to A. L. Graner, at the above address.

Northern Pacific Railroad Co. C/D for stock. Charles Fearon, 511 Chestnut St., Philadelphia, Pa., informed us on Dec. 7, 1936, that the affairs of this company are at present before the courts in the West. It may turn out that the Northern Pacific Ry. Co. is Trustee for the Northern Pacific R. R. Co. stockholders.

Northern Pacific R. R. Reorganization Certificates for General First Mortgage Bonds received $13.50 for each $1,000 certificate.

Northern Pacific R. R. Reorganization Certificates for General First Mortgage Bonds are payable at J. P. Morgan & Co., New York City. The Certificates of Deposit for common stock and unassented common stock are worthless, according to the Northern Pacific Railway Company.

Northern Pennsylvania Power Co. Merged with Metropolitan Edison Co. (1936). $7.00 preferred stock has a liquidating value of $100.84 per share. $6 preferred stock received $100.72 per share.

Northern Securities Co. The company reported in Oct., 1938, that a final distribution to stockholders including cash value of fractional share interests in Chicago, Burlington & Quincy RR. and Crow's Nest Pass Coal Co., stocks and of the cash remaining in the hands of the trustees after expenses was made in Aug., 1938. The cash was distributed at $2.55294 per share of Northern Securities Co., stock formerly held. The first distribution made on Nov. 26, 1937, included pro rata distribution of the two stocks as above, and cash of $2.50 per share on shares of Northern Securities stock.

Northern States Theatres Co. See First Trust Company, St. Paul, Minn.

Northern Sulphite Mills of Canada. Certain securities of this company received distribution totaling 14½% from the Metropolitan Trust Company, Ltd., Gresham House, London, Eng.

Northern Texas Electric Co. The Plan of Reorganization, dated June 15, 1937, filed in the United States District Court, Boston, Mass., states that the preferred stockholders of Northern Texas Electric Co., holding 4,000,000 shares of preferred stock, received 10,000 shares of common stock of North Texas Electric Co. No provision was made for the common stock. The balance sheet of Northern Texas Electric Co. for the year ending Dec. 31, 1936, showed an equity for the common stock in its book figures. Apparently the common stock of the Northern Texas Electric Co. first became worthless in 1937 when the plan eliminated the common stock. However. the plan was not confirmed until 1938. There is a legal question involved there, but it is our opinion that as the common stock was eliminated from the plan in 1937 it should be considered worthless for that year.

Northern Utilities Company. See City Bank Farmers Trust Company, New York City.

Northern Valley Building Corp. (Dwight Manor Apartments). The Manufacturers Trust Co., of New York City, holds certain funds to make payments on the First Mortgage 6½% Gold Bonds with 8/1/1929 and subsequent coupons attached.

Norwich Gas & Electric Company. The Chase National Bank of New York City informed us as follows on March 21, 1940, regarding the indenture dated Feb. 18, 1901: "Referring to your letter of March 19, 1940, The Equitable Trust Company of New York (to which we are successor by consolidation) succeeded the North American Trust Company as Trustee under the abovementioned Indenture. According to the records of The Equitable Trust Company of New York, First Mortgage 5% Gold Bonds due March 1, 1931, in the principal amount of $85,000 were issued under said Indenture. The records of The Equitable Trust Company further indicate that all of the abovementioned bonds were surrendered to that company for cancellation by New York State Gas & Electric Corporation (successor to the Norwich Gas & Electric Company) and that an instrument of satisfaction of the Indenture was executed and delivered on March 15, 1922."

Nova Scotia Telephone Co., Halifax. The shareholders voted to sell the property and franchise to the Maritime Telephone & Telegraph Company. The terms accepted were 135% of the par value of the stock, or $100 of Maritime 6% Bonds and $35 cash for each $100 per share.

Nova Scotia Transportation Co., Ltd. The Certificates of Deposit for First Mortgage 7% Bonds received two payments totaling $75.66 per $1,000 bond from the Chemical Bank & Trust Company, New York City.

Nyanza Mills. We received the following letter from Nathaniel F. Ayer, Treas. of the company, located at Boston, Mass., and dated Feb. 11, 1938: "I would advise that I informed the stockholders at the meeting on Feb. 3rd that all machinery, excepting a small amount which might bring $10,000 has been sold. There was in the bank on Dec. 31, 1937, $63,190.12 and we have a splendid building for sale, which is in the hands of Charles Whitier & Bro., real estate dealers. Owing to present conditions, we have not yet found a customer for the real estate, although we have had many parties who seemed interested. We paid $4.00 a share on account of liquidation Nov. 12, 1936, but since then there have been no dividends in liquidation declared as we had hoped to sell the building and balance of machinery and then make a final declaration."

Ohio Mining & Manufacturing Co. In 1913 the Commercial National Bank, Columbus, Ohio, was holding funds for the First Mortgage Bonds of this company, by order of the District Court of the Southern District of Ohio.

Ohio Oil Improvement Company. Incorporated in Ohio on March 14, 1896, and lost its charter in 1914.

Ohio Joint Stock Land Bank, Cincinnati, O. Closed in 1927. Stockholders assessed. Stock worthless.

Ohio Southern R. R. The First Mortgage 6% Bonds have a decree value of $471 per $1,000 bond. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City. This bank also handled the new securities for the C/D.

Oil Lease Development Co. The Manufacturers Trust Co. of New York City holds funds to make certain payments on the Ten-Year 8% Secured Gold Bonds with Sept. 1, 1924, and subsequent coupons attached, at the rate of $241.70 per $1,000 unstamped bond. The Chemical Bank & Trust Company, New York City, we understand, made a payment of $557.20 on each $1,000 unstamped bond.

Oklahoma Central Railroad Company. $400 of First Mortgage Bonds which matured in Aug., 1934, have not been presented for payment. Present to the Atchison, Topeka & Santa Fe Railway Company, Chicago, Ill., for payment.

Oklahoma Natural Gas Company. The Colonial Trust Company, Pittsburgh, Pa., is making the distribution on the C/D of this money, at the rate of $10.64 in cash and $21.86 in First Mortgage 6% Bonds of the Oklahoma Natural Gas Corp., represented by each share, and one share of new common stock represented by each 22 shares held.

Oklahoma Producing & Refining Company. Any unclaimed funds for stock are held by the Court of Chancery, Wilmington, Del.

Oklahoma Producing & Refining Company. We received the following letter from the Pure Oil Company, 35 East Wacker Drive, Chicago, Ill., dated Sept. 23, 1938, and signed by Arlington C. Harvey, Counsel: "In reply to your letter of Sept. 16th we wish to advise that there were two Oklahoma Producing & Refining Companies. One was Oklahoma Producing & Refining Company, a Delaware corporation, and the other was Oklahoma Producing & Refining Corporation of America, a Maryland corporation. Please note carefully the difference in names. In Feb., 1920, Oklahoma Producing & Refining Company was dissolved and for each share in the company there was distributed 1¼ shares in Oklahoma Producing & Refining Corporation, and $2.30 in cash. The Pure Oil Company had nothing whatever to do with this matter. In 1923 and 1924, ten shares of Oklahoma Producing & Refiining Corporation were exchanged for one share of Pure Oil common, but there was no cash payment in connection with this and the matter was not in court in any way. At the time of the dissolution of Oklahoma Producing & Refining Company in Feb., 1920, approximately $400,000 was retained by the liquidating directors to cover taxes, etc., and later James M. Satterfield was appointed Receiver. His attorney was J. I. Boyce, 3063 DuPont Bldg., Wilmington, Del. I understand that when the Receiver filed his final account, there was about $300,000 in the hands of the Court and that since that time about $100,000 has been distributed. I understand that there is about $200,000 on deposit with the Chancellor of the State of Delaware, Dover, Delaware, and that you should write to him with respect to obtaining further distribution. Also, please note that The Pure Oil Company had nothing whatever to do with the dissolution of Oklahoma Producing & Refining Company in Feb., 1920. In 1928, The Pure Oil Company received 9½ cents per share on all the stock that we owned in Oklahoma Producing & Refining Company, and we supposed that distribution was made to each shareholder. The Exchange of 1920 between Oklahoma Producing & Refining Company and Oklahoma Producing & Refining Corporation shares was handled by the Guaranty Trust Company, 140 Broadway, New York City. The stock of Oklahoma Producing & Refining Company which was turned in in the exchange of 1920, is either in the possession of Guaranty Trust Company or the Bankers Trust Company. We have the stock of Oklahoma Producing & Refining Corporation which was exchanged for Pure Oil common in 1923 and 1924. If I can be of further service to you, please advise."

Oklahoma Producing & Refining Corporation of America (Maryland). The following letter, dated June 20, 1940, was received from the Pure Oil Company, 35 East Wacker Drive, Chicago, Ill.: "Replying to your letter of June 18, 1940, wherein you advise that the Estate of Thomas O'Keeffe holds Certificate No. 018072 drawn for 10 shares and Certificate No. 017494, also drawn for 10 shares of the common stock of the Oklahoma Producing & Refining Corporation of America. At the present time this office is exchanging shares of the Oklahoma Producing & Refining Corporation of America common stock for The Pure Oil Company common stock on the basis of 10 shares of the former company for 1 share of the latter company, plus accumulated dividends of $9.75 per share on the number of shares of The Pure Oil Company common stock involved by reason of the exchange. However, our records do not reflect the fact that Thomas O'Keeffe is a stockholder of record owning shares of the Oklahoma Producing & Refining Corporation of America common stock. Therefore if you will advise this office as to the exact manner of registration of the two certificates of stock which the estate has in its possession we shall be very glad to advise you as to our requirements in the exchange."

Oklahoma Royalty Trust, Series "R". The Commonwealth Trust Company, Wilmington, Del., Trustee, informed us that as Trustee, they hold certain oil royalties, the income of which is based on the production of oil from these properties. The gross receipts less expenses are distributed pro rata to the certificate holders. The amounts paid on Certificate No. 1042, held by the Richard A. Relyea Estate, in the past year are as follows:

6/13/1940	$29.61
7/10/1940	10.03
10/10/1940	15.31
1/10/1941	12.92

As the estate holds a $5,600 certificate, the payments during 1940 amount to something less than 1% of the face value of the certificate. This is purely a liquidating proposition and there is no way of telling when the wells may go dry. Brokers are willing to gamble a $70 bid for the certificate, but hesitate to pay more for it. Under the circumstances we would hesitate to value the certificate for more than two years' earnings, or $109.90 for the $5,600 certificate, on the basis of the dividends paid during 1940. The certificate could be properly valued by obtaining an engineer's certificate of capacity of the land where the wells are located, and their life. However, a survey of this kind would cost more than the value of the certificate. Because of the fact that officials of the company that sold or were connected with this Trust received prison sentences, it appears to us that this well was a piece of luck that was not counted on. The value of $109.90 as a fair value for the $5,600 certificate as of Nov. 1, 1940, we do not believe is excessive.

Old Ben Coal Corporation. See City Bank Farmers Trust Company, New York City.

Old Dominion Trust. The firm of Nutter, McClennen & Fish, located at 220 Devonshire St., Boston, Mass., informed us as follows on March 24, 1941: "Our records indicate that Old Dominion Trust Certificate T1062 was for 5 shares in the name of Arthur D. Coffin, Windsor Locks, Conn. The final dividend and distribution on this certificate was at the rate of 75c, and check No. 143 for that amount was issued in 1925. If this check has not been cashed and you will send us the certificate for cancellation, we shall be pleased to have a check for $3.75 sent to you in the name of Arthur D. Coffin."

Old Dutch Realty Development Company (Delaware). Mr. Pere A. Wilmer, located at 1413 New York Ave., Washington, D. C., informed us on May 13, 1937, that it is his recollection that the company paid liquidating dividends of $16 per share on the preferred stock. There was no equity left for the common. Any unclaimed dividends are probably in the hands of the attorneys for the company. Mr. Wilmer probably knows the names of these lawyers.

Olean, Bradford & Salamanca Ry. Co. First & Ref. Bonds have a decree value of $27.89 per $1,000 bond. Certificates of Deposit for said bonds received $250 per $1,000 certificate and may receive another payment.

Olean, Bradford & Salamanca Ry. Co. The First & Ref. Mortgage Bonds represented by C/D received $25 on each $100 bond from the Guaranty Trust Company, New York City. The undeposited bonds received $27.89 per $1,000 bond. The unclaimed funds for the undeposited unstamped bonds are held by the Prothonotary of the Common Pleas Court, Smethport, Pa. We understand that the C/D may receive a further distribution.

Olean, Bradford & Salamanca Railway Co. To Holders of Certificates of Deposit for First and Refunding Mtge. Bonds Issued Sept. 1, 1921: Under date of Jan. 15, 1930, the Committee made available a cash distribution to the holders of Certificates of Deposit amounting to $25 on each $100 principal amount of bonds deposited with it. The liquidation proceedings referred to in the Committee's communication, dated Jan. 15, 1930, have now been completed and the Committee will shortly be in a position to make a final cash distribution to the holders of Certificates of Deposit amounting to $17.821449 on each $100 principal amount of bonds deposited with it, thus making a total distribution of $42.821449 on each $100 original principal amount of bonds deposited with the Committee. Nondepositing bondholders received approximately $7.29 per $100 principal amount of bonds. The transfer books for Certificates of Deposit will be closed on May 1, 1941, and no transfers will be made thereafter. On and after June 2, 1941, Guaranty Trust Company of New York, 140 Broadway, New York, N. Y., Depositary of the Committee, will mail to the depositors a check representing the final cash distribution above referred to. Holders of Certificates of Deposit, in order to obtain this final distribution, must surrender their Certificates of Deposit to the Corporate Trust Department, Guaranty Trust Company of New

York, Depositary, 140 Broadway, New York, N. Y. Certificates of Deposit, when surrendered for payment, need not be endorsed if payment is to be made to the registered holder, however, if payment is to be made to someone other than the registered holder, then the Certificates of Deposit must be endorsed by the registered holder, whose signature must be witnessed and guaranteed by a Bank or Trust Company having an office or correspondent in New York City or by a firm of brokers having membership in the New York Stock Exchange or Clearing House of the New York Curb Exchange.

Oliver Cromwell (The), New York City. Value of C/D representing $500 First Mortgage Fee 6% Bond, due 1939. Each C/D representing a $1,000 bond is exchangeable at the Continental Bank & Trust Company of New York City, for 10 shares of stock of the Olicrom Operating Corporation. Nondepositors received $246.10 per $1,000 bond for 1931 maturity, and $174.89 for later maturities from the Central Hanover Bank & Trust Company of New York City. $17.35 per $1,000 bond is being paid on account of interest. The C/D was quoted flat by brokers about the date of death at 3½ bid, 4 asked. The Olicrom Operating Corporation stock was quoted at the same price about the date of death. Therefore, I submit 3¾ flat, or $18.75 as a fair value for a C/D representing a $500 bond as of Aug. 24, 1939, the date of the decedent's death.

Oliver Farm Equipment Company. See City Bank Farmers Trust Company, New York City.

Oliver Farm Equipment Company. To the holders of Scrip Certificates: As provided in the Certificate of Incorporation of Oliver Farm Equipment Company, the period in which Scrip Certificates aggregating a full share of Common Stock may be exchanged for a certificate for a full share expires on July 1, 1940. The Company is directed by its Certificate of Incorporation to sell for cash, as soon as practicably after that date, the full shares of Common Stock reserved for, but not previously issued in exchange for, Scrip Certificates outstanding at the close of business on that date. Thereafter holders of Scrip Certificates will be entitled to receive only their proper proportion of the net proceeds of such sale. Oliver Farm Equipment Company, by T. A. Freeman, Secy.

Oliver Typewriter Company. Mr. Lawrence Williams, Secretary of the company, located at 134 S. LaSalle St., Chicago, Ill., informed us as follows: The company declared a final liquidating dividend of 35c per share. Stock certificates and Certificates of Deposit for stock should be presented to the Harris Trust & Savings Bank, Chicago, Ill., for collection.

Oliver Typewriter Company. The Harris Trust and Savings Bank, Chicago, Ill., informed us as follows on Nov. 12, 1940: "A final liquidating dividend of 35c per share was payable on this stock on Mar. 31, 1937 at which time notices were mailed to the holders of Certificates of Deposit. It will be appreciated if you will arrange to send your certificate of deposit to us to receive your final liquidating payment. If for some reason you cannot send the certificate of deposit to us promptly, please let us know when you will be in a position to forward it to us, and in the event you have sold or transferred it to someone else kindly advise us in order that our records can be noted accordingly."

Olympic Paper & Power Co. On Jan. 10, 1925, it was reported that the stock of this company was exchangeable for stock of the Zellerbach Corporation.

Ontario Wind Engine & Pump Co., Ltd. We received the following letter from Jenkins & Hardy, Licensed Trustees in Bankruptcy, 1305 Metropolitan Bldg., Victory and Adelaide Sts., Toronto, 2. Canada written on June 9, 1937. "The above Company made an authorized assignment to me in 1935 and since that time I have been liquidating the assets and disbursing the funds to the parties entitled to them. On June 2, I disposed of the remaining block of real estate in Toronto which will enable me to pay the ordinary creditors in full. After paying these claims and interest, there should be some funds available for distribution to the preferred shareholders. It is impossible to say how much will be disbursed to them at this time. There is property in Alberta and approximately $40,000 worth of outstanding accounts still to be realized, but due to conditions in Western Canada it is practically impossible to obtain any cash on these accounts. If any event there will be no monies available for the preferred shareholders within two years."

Oriental Bank (New York City). Mr. R. W. Jones, former President of the above bank, now located at 115 Broadway, New York City, informed us on Dec. 6, 1938, that the Empire Trust Company of New York City, holds a cancelled check showing that Edith B. Whyte received the total liquidating dividends due on her 20 shares of stock of the above bank, and that the shares are now worthless. The final dividend amounted to 21c per share.

Ormond Investment Co., Ltd. (Members' Voluntary Winding-up.) Notice is hereby given that the creditors of the above named Company, which is being voluntarily wound up, are required on or before the 7th July, 1939, to send their names and addresses and particulars of their debts or claims to the undersigned Russell Kettle of 5, London Wall Buildings, London, E.C.2, Chartered Accountant, the Liquidator of the said Company, and if so required in writing by the Liquidator are to come in and prove their said debts or claims at such time and place as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts are proved. Dated, this 16th day of June, 1939. R. Kettle, Liquidator. Note. —The above notice is formal. All known debts have been or will be paid in full.

Orthopedic Shoe Stores Company, Inc. (New York). See Orthopedic Shoes, Inc. (Delaware).

Orthopedic Shoes, Inc. (Delaware). The Orthopedic Shoe Company, Portsmouth, Ohio, reported as follows on Dec. 2, 1940: On Nov. 18, 1938, Orthopedic Shoes, Inc. (Delaware), a holding company for Orthopedic Shoes, Inc. (Ohio), and Orthopedic Shoe Stores Company, Inc. (New York), made an assignment of its assets for the benefit of creditors. A notice, thereof, was mailed to preferred shareholders at that time. The debentures of the company outstanding at that date amounted to $361,765.06. On Jan. 6, 1939, the assignee sold the assets for $354,900. Since there was not sufficient cash realized from the sale of the assets to pay off the debentures in full, there was nothing left for distribution to either preferred or common shareholders. The charter of the company was surrendered in 1939.

Orthopedic Shoes, Inc. (Ohio). See Orthopedic Shoes Inc. (Delaware).

Osage Oil and Refining Company. We cannot add much to the data given in our Volume III, except that the company had 31 producing wells in 1922 according to the Petroleum Register. The wells apparently went dry very fast because in Jan., 1924, the stock of the company was offered at 1c per share with no bids. It is our opinion that the shares are without value.

Osann, Frederick, Company. Incorporated in New York and was dissolved on Aug. 23, 1914. Mr. Frederick Osann, located at 95 Liberty St., New York City, informed us on Aug. 30, 1938, that the company owns some property in Brooklyn, N. Y., which the company values at $35,000. The rent from said property is sufficient to cover repairs and charges. When real estate values improve, and the company is able to dispose of the property, a liquidating dividend will be paid on the stock.

Osten Chemical Corporation. Copy of letter to the stockholders. "We are pleased to advise you that the sale of the assets of this corporation to Wm. R. Warner & Co., Inc., was duly approved at the Stockholders Meeting on Sept. 11, 1936, and has been consummated under the terms set forth in the original notice to Stockholders. The corporation is in a position to pay 48% of its outstanding obligations and the Board of Directors has authorized such payment, with the exception of loans under $100 which have been authorized to be paid in full. The balance of the obligations of the company will be paid out of the future royalties that will be received from Wm. R. Warner & Co., Inc. After the liabilities have been paid in full, arrangement will be made for the dissolution of this company and the issuance of royalty certificates to all stockholders in exchange for their stock. All subsequent royalties will then be paid directly to the stockholders."

Very truly yours,
Osten Chemical Corporation
F. E. Ostwalt,
President.

Ottawa Theatres, Ltd. Assets purchased by B. F. Keith Corp. Preferred stock has a liquidating value of $20 per share. Common stock is worthless.

Otter Tail Power Co. See First Trust Company, St. Paul, Minn.

Ounegan Woolen Co. (Maine). The bonds were purchased by the American Woolen Company for less than 50% of their face value. The stockholders received nothing. Mr. A. H. Brown, Enterprise Publishing Company, Old Town, Me., is familiar with this company.

Overman Cushion Tire Corporation. Went into bankruptcy in Sept., 1937. The company subsequently went out of business and the stock was wiped out.

Overseas Sailing Ship Corporation. Incorporated in Delaware on May 1, 1919, and is out of existence, having become inoperative on March 21, 1923. Mr. Charles Kanner, former Secretary of the company, located at 652 Broadway, New York City, informed us on July 29th, 1940, that this company failed many years ago and that the bondholders realized nothing on the bonds in the final wind-up. The bonds are therefore worthless.

Pacific Coast Aggregates, Inc. See Bank of America National Trust & Savings Association, San Francisco, Cal.

Pacific Hardware & Steel Co. Merged into Baker Hamilton & Pacific Company. The stock has a liquidating value of $25 per share. We found a record that the company paid another dividend of $10 per share in 1918.

Pacific & Idaho Northern Railway Company. See Guaranty Trust Company, New York City.

Pacific Mail Steamship Company. Incorporated in New York in 1848. According to our records a distribution of $25 per share was made in 1854. On Dec. 15, 1915, a liquidating dividend of $25 per share was paid to stockholders. Mr. A. E. Gravatt, Room 825, 112 Market St., San Francisco, Cal., is in charge of the liquidation of the company. We suggest that you ascertain from Mr. Gravatt if any dividends are due on your shares. Because this company is a very old one it is our opinion that the company may hold a considerable amount of unclaimed dividends. The payments should be stamped on the certificates.

Pacific Oil Company. The Industrial Trust Company, Wilmington, Del., informed us on May 18, 1937, that the following dividends were paid on each share of stock: Mar., 1926—⅔ share Associated Oil Co., and $3.00 cash; May, 1926—1 share Standard Oil Co., of Cal.; Aug., 1930—Final Dividend $1.28 in cash. Unclaimed funds are now held by the Court of Chancery, Wilmington, Del. The final payment was $1.28 per share.

Pacific Railroad (of Missouri). The following notation is stamped on stock dated 1875: "Paid on the within shares the sum of Six 3845/10000 Dollars per share, under and in pursuance of the decree of the United States Circuit Court for the Southern District of New York, entered on the 11th day of June, 1886, in a certain suit wherein the Pacific Railroad (of Missouri) was complainant and Robert L. Cutting, Jr., et al., were defendants. The funds are now probably held by the United States Treasury, and may be recovered by making proper application to the court.

Pacific States Lumber Co. The Central Trust Company of Chicago, Ill., we understand, made a payment on the First 8% Bonds due 1927-32-37-42.

Pacific Steamship Co. First Preferred Marine Equip. 6½% Bonds due 1926-45 have a decree value of $97.89 per $1,000 bond due 1931; 1932, $97.23 per bond; and $96.23 for others.

Packard Electric Company. An initial liquidating dividend of one share of General Motors Corporation common was given for each three shares of Packard stock held, at the Guardian Trust Company, Cleveland, Ohio.

Page Steel & Wire Co. Acquired by American Chain Co., Bridgeport, Conn. First Preferred Stock liquidated at $60 per share. Second Preferred received $40 per share. Common received $3.00 per share.

Paige-Detroit Bldg., of N. E. The First 6% Deposited Bonds due 1928-36 received $170 on each $1,000 cft., from the American Trust & Safe Deposit Co., of Chicago, Ill.

Paint Creek Collieries Co. In 1925 the 5% Bonds due 1956 received for each $1,000 bond, $31.06 in cash and $100 in Federal

Coal Company 6% Bonds due 1935. Apparently the above was paid on the deposited bonds. The undeposited bonds, we understand, have a decree value of $2.12 per $1,000 unstamped bond, payable at the Scranton Lackawanna Trust Company, Scranton, Pa. The Scranton National Bank of Scranton, Pa., informed us that this company was taken over some time ago by another corporation. In the adjustment, no provision was made for the stock, which is without value.

Palace Theatre & Commercial Bldg. We understand that the First Leasehold 6½% Bonds due 1927-37 may have value with the Midland Bank, Cleveland, Ohio.

Palmer Stendel Oil Corporation. See Palmer Union Oil Company.

Palmer Union Oil Company. Mr. Harry Corvin, an attorney, located at 220 Bush St., San Francisco, Cal., informed us as follows on April 27, 1940: "Replying to yours of the 22nd instant, all outstanding stock of the Palmer Union Oil Company is worthless. In 1931 the assets of that company were sold to the Palmer Stendel Oil Corporation in exchange for stock in the latter corporation; and the Palmer Union Oil Company distributed to its stockholders proportionately, who were willing to surrender their Palmer Union Oil stock, the Palmer Stendel Oil Corporation stock which had been received by it for its assets. Some time later an assessment was levied upon the stock of the Palmer Stendel Oil Corporation and such of its stock as was then held by the Palmer Union Oil Company was forfeited to the Palmer Stendel Oil Corporation for failure to pay the assessment. It is our recollection that a comparatively small number of stockholders of the Palmer Union Oil Company failed to accept the proportionate share of the Palmer Stendel Oil Corporation stock. The Palmer Stendel Oil Corporation is an operating company, but has only been able to meet payment of one-half of its bond interest for the past seven or eight years; and the stock is not listed on any Exchange, nor have we heard of any of same being traded in for several years. For your information, we enclose a copy of the annual statement of the Palmer Stendel Oil Corporation for the calendar year 1939."

Panama, Republic of. Press report, dated May 1, 1941: The final step in the program announced by the Republic of Panama in April, 1940, in an endeavor to adjust its defaulted external securities and place its debt structure on a sound basis, will be taken today when the Republic announces an offer to holders of its Arrears Certificates, which were issued under a service readjustment plan in 1933. The offer notifies the holders that the 1934 Series will receive payment in cash of $2.78 on the face amount of $33.33, and the 1935 Series will receive payment in cash of $2.99 on the face amount of $33.33. For the full face amount of the 1933 Series and for the unpaid balance of the face amount of the 1934 and 1935 Series, the Republic is offering to issue in exchange an equal principal amount of new 3% bonds, maturing in 1987. The offer to exchange the Arrears Certificates will expire on May 1, 1943, but the Scrip Certificates will be exchangeable for bonds until May 1, 1944. It is pointed out in the Panama announcement of this offer that the issue of bonds is not conditioned on the acceptance by the holders of any specified percentage of Arrears Certificates. Complete acceptance of the offer would involve the issuance of $986,100 of new 3% bonds and result in an aggregate external debt of $16,321,100 for the Republic, the other external issues consisting of $4,000,000 of new 3½% bonds, due in 1967, and the 3¼% issue, which constitutes the 5% bonds assented to the plan for readjustment, and the remainder of such 5% bonds as have not been assented to that plan.

Panhandle Producing & Refining Co. (Del.), Wichita Falls, Texas. The company informed us as follows on Feb. 17, 1940. Under the plan of reorganization of this company the old common stock is to be exchanged for new common stock on the basis of 1 share of new for 2 shares of old, and 35 shares of new common stock for each share of old preferred stock. Copy of our circular of July 21, 1938, is enclosed. According to the certified list furnished us by the Transfer Agents, The Marine Midland Trust Company, 120 Broadway, New York, under date of March 28, 1939, there were outstanding 47,434 shares of old common in the hands of 546 holders and 3,004 shares of old preferred stock in the hand of 84 stockholders, which had not been exchanged. That is the last report we have had. We shall have a new certified statement the latter part of March this year, preceding our annual meeting, and if it would be of interest to you will be glad to give you the figures when this certified list is received.

Peoples Oil & Gas Company. It was reported on Sept. 9, 1939, that worthless oil leases were sold under the name of the company, obtained without cost on property located in the State of Washington.

Peoples Railway of St. Louis. The Consol. 6% Bonds, due 1889, have a decree value of $941.86 per $1,000 unstamped bond. Collect from the St. Louis Union Trust Company, St. Louis, Mo.

Peoples Water Company, Oakland. Stockholders of this corporation were directed to deposit their common and preferred stock with the Savings Union Bank & Trust Company, Trustee under the reorganization plan, in order to participate in the distribution of common stock of the East Bay Water Co.

Peoria Decatur & Evansville Railway Co. The U. S. Circuit Court approved the sale of this road to the Illinois Central. The First Mortgage Bonds of both divisions and C/D for same, received $1,035 per $1,000 bond and certificate. The C/D were paid by the Central Hanover Bank & Trust Company, New York City. The Colonial Trust Company paid 14% on the Second Mortgage Bonds.

Peoria and Eastern Railway Company. District Court of the United States, for the Southern District of New York, in the Matter of the Peoria and Eastern Railway Company, Petitioner, in Proceedings for a Railroad Adjustment Under Chapter XV of the Bankruptcy Act, No. 76016.

To the Holders of the First Consolidated Mortgage Bonds of the Peoria and Eastern Railway Company, or of Certificates of Deposit in Respect of Such Bonds: The Special Court on the 29th day of July, 1940, entered its Decree in the above-entitled proceedings approving and confirming the said Plan of Adjustment, subject to a slight modification thereof relating to representation on the Board of Directors of the Peoria and Eastern Railway Company, herein called the Peoria and Eastern by the Income Mortgage Bondholders.

Such Decree provides in general that as soon as practicable following the expiration of sixty days from the date of entry of the Decree, steps shall be taken as provided in Article III of the Plan of Adjustment to carry the same into effect. The Decree also provides that in case The Cleveland, Cincinnati, Chicago and St. Louis Railway Company, herein called the Big Four, should pay the sum of $5,000,000 in satisfaction of the Purchase Money Lien upon the Springfield Division of the Big Four to the Central Hanover Bank and Trust Company, as Trustee, prior to the expiration of said period of sixty days, then the payments hereinafter in this notice provided for shall be made. The Big Four has now paid to the Central Hanover Bank and Trust Company, as Trustee, the sum of $5,000,000 in satisfaction of the Purchase Money Lien as aforesaid.

Notice is hereby given that pursuant to said Decree you are required forthwith to present to the Central Hanover Bank and Trust Company, as Trustee under the First Consolidated Mortgage, at the office of the Trustee at 70 Broadway, in the Borough of Manhattan, City and State of New York, the First Consolidated Mortgage Bonds of the Peoria and Eastern owned by you or the Certificates of Deposit representing such Bonds, for the purpose of receiving payment of $450 on account of the principal of each $1,000 Bond.

Accrued interest will be paid at the time of the principal payment on the amount of principal so paid at the rate of 4% per annum from April 1, 1940, to the date of such payment, or to Aug. 21, 1940, whichever date shall be the earlier, and pursuant to said Decree, interest will cease as to the portion of the principal so to be paid upon the date of payment or upon Aug. 21, 1940, whichever date shall be the earlier.

The Central Hanover Bank and Trust Company, as Trustee, upon making such principal payment, together with accrued interest on the amount so paid as aforesaid, will make notation of such payment upon the Certificates of Deposit for such Bonds where Certificates of Deposit shall have been presented and upon such Bonds where the Bonds shall have been presented, and will return the Certificates of Deposit or Bonds, as the case may be, to the owners thereof.

Dated, New York, N. Y., Aug. 6, 1940.

The Peoria and Eastern Railway Company,
By J. M. O'Mahoney, Secretary.

Pere Marquette Railroad Company. We received the following letter from Mr. H. F. Lohmeyer, Secy.-Treas. of the Pere Marquette Railway Company, located at Terminal Tower, Cleveland, Ohio, and dated Nov. 9th, 1937: "The Plan and Agreement for the Reorganization of Pere Marquette Railroad Company, dated Oct. 30, 1916, contemplated the deposit on or before Dec. 4, 1916, of the securities (6% Five-Year Gold Debentures, due July 1, 1912, and First Preferred, Second Preferred and Common Stock) about which you inquire with Central Trust Company of New York, Depositary, for that purpose, and the payment in respect of each $1,000 par amount deposited of $66.50 in the case of the Debentures, and $17.50 in the case of each of the three classes of stock. Holders of such securities having made the deposit referred to and secured the Certificates of Deposit of the Depositary, were entitled to purchase from the Purchase Syndicate certain new securities of Pere Marquette Railway Company. Securities of the classes scheduled not surrendered on or before Dec. 4, 1916, became void at the close of business that date and are now without value." C/D for Ref. 4% Bonds of 1905 received $12.50 per $1,000 Certificate from the Bankers Trust Company, New York City.

Perfection Tire & Rubber Corporation. The First Mortgage Bonds received 14% of their face value in liquidation. Mr. Paul S. Junkers, of Fort Madison, Iowa, was Receiver. The funds for unstamped bonds are probably held by the Trustee of the bonds.

Perpetual Self Winding Watch Corporation. Mr. Richard B. Darragh, of the firm of Hughes, Richards, Hubbard & Ewing, 1 Wall St., New York City, informed us as follows on May 16, 1941: "Perpetual Self Winding Watch Corporation filed a voluntary petition in bankruptcy on or about Feb. 8, 1939, and Mr. Zwillinger, formerly an officer of the company, was appointed Custodian and Trustee. The proceeding was given the title 'In the Matter of Perpetual Self Winding Watch Corporation, Bankrupt, United States District Court, Southern District of New York, No. 73184.' Thereafter a sale of the remaining assets of the bankrupt was held on May 15, 1939, and the sale was confirmed by order of the Referee in Bankruptcy on May 18, 1939. From the proceeds of sale there were sufficient funds to pay creditors 16.25% of their claims, which dividends were paid, exhausting the assets of the corporation. Mr. Zwillinger was discharged as Trustee on May 1, 1940, and all of the original books and records of the bankrupt's estate were abandoned by the Trustee to the syndicate (of which James F. Sandefur of this city was manager) which bid in the property at the sale. From the above it is apparent that the common stock of the corporation is of no value. If you desire any further information in this connection, please do not hesitate to call upon me."

Personal Rights Advocate Publishing Company. Incorporated in Illinois and filed a Certificate of Dissolution on Oct. 2, 1891. We found no value to the stock and therefore believe the shares are without value.

Petro Oil & Gas Company. Incorporated in Illinois and is located at Security Bldg., St. Louis, Mo. The stock is quoted about 50 cents per share bid. If your client is Aleck or Chas. R. Meston, the company is holding a dividend of 20c per share that was paid in Jan., 1936.

Petroleum Conversion Corporation. Value of common stock, par $1.00. Incorporated under the laws of the State of Delaware. These shares were quoted by brokers on Dec. 9, 1940, at 5c per share bid, 15c per share asked. Therefore, I submit 7½c per share as a fair value for the stock held by the Estate of Thomas J. Farrell.

Petroleum Grubstakes, Inc. Incorporated in Colorado and filed an annual report on Mar. 15, 1940, naming E. M. Hoche, Secretary, 431 U. S. National Bank Bldg., Denver, Col.

Philadelphia Finance Company. Incorporated in Delaware 1920 and was the outgrowth of the Commercial Finance Company which was incorporated under the laws of Pennsylvania, in 1915. In January, 1929 the Philadelphia Finance Company was merged with the Race Finance Co. into a new company, known as National Discount Co. In this merger the pfd. stockholders of the Phila. Finance Co. receive one share of National Discount Co. pfd., par value $5.00, and one-half share National Discount Co. common, no par value, for each share of Phila. Finance Co. pfd., par value $10. The Common stockholders of Phila. Finance Co. received one-half share of National Discount Co. common stock, no par value, for each share of Phila. Finance Co. common. Later on the common stock of National Discount Co. was changed from no par to $2.00 par value, one share of the new stock being given for each ten shares of the old. Recently the National Discount Co. was merged with the Finance Co. of America at Baltimore and the preferred stockholders of National Discount Co. received Finance Company of America Class A Pfd., par value $5.00 for National Discount Co. pfd. stock, par value $5.00 on a share for share basis. The common stockholders of National Discount Co. receive one share of Finance Co. at Baltimore Class A Com. stock for each three shares of National Discount Co. Com., par value $2.00.

Philadelphia & Reading Coal & Iron Corp. The Wilmington Trust Company, Wilmington, Del., informed us in 1931 that they had on deposit a total amount of $10,767.50 to secure the redemption of Certificates of Interest of this corporation.

Philip Morris Consolidated, Inc. $10 par stock has a liquidating value of $1.25 per share. No par stock received 62½c per share. A final dividend will be paid.

Philippine Plantation Co. Incorporated in Arizona on Sept. 21, 1905. The charter was cancelled on July 5, 1927. Our records indicate according to clippings dated July 30, 1907, that the company was refused permission to transact business in the Philippines, because of its excessive capitalization. The promoters were A. L. Wisner & Company, whose officials were indicted for mail fraud many years ago. The shares are without value.

Phoenix Bridge & Iron Works, Ltd. Property sold in Dec., 1923. The unpaid coupons to Nov. 1, 1923 were redeemed in full. The First 6% Bonds due 1948 received a final payment of $27.82 per $1,000 bond.

Phoenix Properties Company. See Bankers Trust Co., New York City.

Trust Notes due 1933, with Jan. 1, 1933 and subsequent coupons attached, at the rate of $48.28 per $1,000 unstamped note. The same bank also holds funds to make certain payments on the 6% Five-Year Notes, with Jan. 1, 1933 and subsequent coupons attached.

Pickering Lumber Co. Under plan dated Nov. 1, 1936, and approved Mar. 27, 1937, company reorganized as Pickering Lumber Corp. Bonds should be sent to the Commerce Trust Co., Kansas City, Mo., for new securities.

Piedmont Associates, Inc. This company has been liquidated. The Class "A" Stock was called at $30 per share, and certificates should be deposited with the National City Bank, 42nd St. and Madison Ave., New York City, for collection.

Piedmont Mt. Airy Guano Company. The Mercantile Trust Company of Baltimore, Md., informed us as follows on Dec. 26, 1937. "With reference to the Piedmont Mt. Airy Guano Company stock, this company has been in liquidation for several years and the only assets now held are two farms in Southern Maryland. The prospects of selling them are not good. I think you can consider the preferred stock practically worthless and I would estimate that at some future date, probably 25c to 50c per share would be about the maximum distribution. The common stock has no value whatsoever."

Pierce Petroleum Corporation. On March 14, 1939, the company approved a plan of dissolution. The chief asset is 125,000 shares of common stock of the Consolidated Oil Corporation. Dissolution approved in Mar., 1939. The common stockholders received in liquidation the following, for each share held:

1/5 share Consolidated Oil Corp. common paid March 9, 1937.
4/100 share Consolidated Oil Corp. common paid April 10, 1939.
1/100 share Consolidated Oil Corp. common paid October 10, 1939.

Piggly Wiggly Corporation. The Kroger Grocery & Baking Company of Cincinnati, Ohio, informed us as follows on Mar. 20, 1941. "At one time we were purchasing stock of the Piggly Wiggly Corporation, but we have not bought any recently, nor do we have any plan for exchanging Piggly Wiggly stock for the stock of The Kroger Grocery & Baking Co.

Pineapple Holding Co., Ltd. In Oct., 1935, the stockholders approved the dissolution of the company. Each 3 shares of this stock were exchanged for 2 shares of common stock of the Hawaiian Pineapple Co., Ltd.

Pioneer Gold Producers, Inc. In Feb. 1938, the stockholders approved the consolidations of Pioneer Gold Producers, Inc., LaPlata Mountains Gold Mines, Inc., and the Consolidated Gold Field of New Mexico, into a new company to be known as the Consolidated Gold Producers, Inc.

Pioneer Securities Corporation (N. Y.). Located at 900 M. & T. Trust Bldg., Buffalo, N. Y. President, Edgar H. Sackett; Helen O'Malley, Treasurer. We are advised that the stock may have some slight value, but is not traded in.

Pirelli Company of Italy. See City Bank Farmers Trust Company, New York City.

Pittsburgh Apartments, Inc. (Pa.). The only information we have been able to obtain regarding this company is that the company ceased to do business on Jan. 25, 1932, and was marked off the records on Mar. 15, 1934. We found no value to the stock.

Pittsburgh, Binghamton & Eastern Railroad Co. The United States District Court, Scranton, Pa., on March 17, 1916, paid $2,230.60 into the Registry Fund of the Court. On May 25, 1923, the unclaimed balance was paid into the Treasury of the United States. This fund is available for the First Mortgage 5% Bonds due 1956, with Oct. 1, 1908, and subsequent coupons attached, at the rate of $9.75 per $1,000 bond. In order to make claim for these dividends it is necessary to file a petition with the above Court accompanied by an Order. If the Petition is accepted, the Order will be signed and returned to you attached to your Petition. Forward the Petition and signed Order together with your bonds, and an application over your signature for the funds, to the Treasury Department, Washington, D. C., for collection.

Pittsburgh & Butler Street Ry. Co. First Mortgage Bonds received a decretal payment of $430 per $1,000 bond. Consolidated and Gen. Mortgage Bonds and Stock are worthless.

Pittsburgh-Florida Fruit Growers Assn. First & Coll. Tr. 7½% Bonds were exchanged for 7½% bonds of Avon Florida Citrus Corp.

Pittsburgh (Pa.) Hotels Co. The Union Trust Company of Pittsburgh, Pa., acting as liquidating agent, paid in liquidation $225 per share in cash, $16.25 par value of new 7% Cum. Pfd. Stock and $140.90 par value in 6% Cum. Pfd. Stock for each share held. A final dividend was probably made.

Pittsburgh Osage Drilling Co. No value found.

Pittsburgh, Painesville & Fairport R. R. The preferred stock has a liquidating value of $27.50 per share. Paid by Treasurer of the Baltimore & Ohio R. R.

Pittsburgh Silver Peak Gold Mining Co. Incorporated in 1906 and had property in California. The mine was exhausted in 1919 at which time the company ceased business. The last dividend was 2c per share paid in 1914. The total dividends amounted to 28% of the $1.00 par stock. Mr. William Flinn of Pittsburgh, Pa., was President.

Pittsburgh Tin Plate & Steel Corp. It was reported that this company was placed in receivership on May 5, 1927, Francis H. Game of Columbus, and Benjamin B. Putman of Marietta, being named as Receivers by appointment of the District Court of the United States for the Southern District of Ohio. All of the properties were sold at receiver's sale for $30,000. The entire properties were covered by a first mortgage, under which there was outstanding $260,250 of First Mortgage Bonds. There was no equity left for any junior securities. The bonds are probably payable at the First National Bank, Marietta, Ohio.

Pittsburgh, Titusville & Buffalo Railway Company. Our records indicate that the First Mortgage Bonds due 1890 have a decree value of $97.10 per $1,000 bond, payable by the Trustee named in the bond. We believe the U. S. District Court at Pittsburgh, Pa., ordered the property foreclosed.

Pittsburgh United Corp. Original decision by the lower court in Pennsylvania directed that the preferred stock should be redeemed with U. S. Steel Common Stock at $111.25 a share. Case was appealed to Pennsylvania Supreme Court at Pittsburgh. Preferred stockholders received $147.91 per stamped share on July 14, 1937. We received the following letter from the Peoples Pittsburgh Trust Company, dated Oct. 19, 1938, and signed by Gwilym A. Price, Vice President in charge of Trusts, at Pittsburgh, Pa.: "Upon presentation at our office, on and after July 11, 1938, for each share of preferred stock we are issuing one share United States Steel Common Stock. It is expected that a further distribution will be made at a later date."

Pittsburgh & Western Ry. Co. The preferred stock was liquidated at $12.37½ per share. Collect from the Knickerbocker Trust Company, New York City.

Pittsburgh, Westmoreland & Somerset R. R. The First Mortgage 5% unstamped bonds due 1935 have a decree value of $25.19½ per $1,000 bond. Present bonds for collection at the Lycoming Trust Company, Williamsport, Pa., now known as West Branch Bank & Trust Co.

Plainfield Union Water Company. See Fidelity Union Trust Company, Newark, N. J.

Plainfield-Union Water Company. On Aug. 11, 1939, the sale of this company's properties to New Orange Park Water, Heat, Light & Power Co. was approved.

Plains Petroleum Company. Mr. J. P. Tumulty, 170 Broadway, New York City, informed us that there are $700 of bonds of this company outstanding that can be redeemed for $595.

Planters Compress Company. This company was dissolved by decree of the Supreme Judicial Court of Maine on July 11, 1912. There were outstanding $996,133 of $100 par value preferred stock that received $5.00 per share in liquidation on Oct. 3, 1910. Preferred stock has a green border. In view of the fact that preferred stockholders only received 5c on the dollar, it is reasonable to assume that the common shares are without value. The Old Colony Trust Company of Boston, Mass., informed us on April 5, 1940, that in the liquidation of the Planters Compress Company the preferred stockholders received $8.41 in liquidation per share, which was less than the amount which the preferred shareholders were entitled to in liquidation. Therefore, the common stock has no value.

Platt Iron Works Company. The Central Hanover Bank & Trust Company of New York City informed us on May 2, 1938, that they are making eight liquidating payments on the preferred stock of this company, totaling $91.20 per share. To indicate the payment of these amounts separate rubber stamp endorsements were placed on the stock certificates.

Platt Music Co. Bldg., Los Angeles. Wm. K. Bowes, of San Francisco, Cal., made a payment of $191.03 on each $1,000 First 6% Bond due 1932. Bonds due 1933 received $27.66 per $1,000 bond. All other maturities up to 1943 received $27.65 per bond.

Platt Music Company Building Bonds. The American National Bank & Trust Company of Chicago, Ill., reported as follows on March 12, 1940: "We originally acted as depositary for the bondholders' committee that worked on the reorganization of the above mentioned issue. An offer was made to purchase the property, which was accepted by the majority of the depositing bondholders and a payment was made by us in connection with our outstanding certificates on the basis of $27.65 for each $1,000 bond. On referring to our files, we find that in Feb., 1935, the committee's notice of this sale stated that undeposited bonds should be forwarded to Mr. Leigh M. Battson, 541 S. Spring St., Los Angeles, Cal., who was making the payment in connection with such securities. Mr. J. E. Benton, Trustee, 607 S. Hill St., Los Angeles, Cal., reported as follows on March 22, 1940: From information made available to us, we learn that Platt Music Company Building First Mortgage Bond No. 561 was deposited with the First Mortgage Bondholders' Committee, since dissolved, and a certificate of deposit issued therefor. According to the committee's printed letter, dated March 30, 1935, copy of which is enclosed, the said certificate (the holder thereof not having accepted a certain offer relative to the property and the bonds) was entitled to receive a sum, set forth therein, upon surrender of the certificate; upon such payment, the bond would be endorsed recording the same, and the bond returned to the holder. Whether the client had received the distribution to which she was entitled could be determined by referring to the bond and the endorsement thereon, if any. If, after reviewing the matter the client still holds a certificate of deposit representing Bond No. 561, we would suggest that she proceed according to the instructions contained in the enclosed letter and she will receive the money to which she is entitled. Mr. Naida Z. Griffin of Bowes Brothers & Company, 519 California St., San Francisco, Cal., reported as follows on March 11, 1940: Replying to your letter of March 2nd, 1940, reference to $1,000 Platt Music Company Building 6% First Leasehold Bond maturing Jan. 15, 1943, we find that these bonds defaulted in 1932, the lease forfeited, and the company was reorganized Oct., 1934, as the Eight Thirty Four So. Broadway Building Corporation. However, we suggest that you write to the Eight Thirty Four So. Broadway Bldg. Corp., Union Bank Building, Los Angeles, Cal., to verify this information.

Plattsmouth Water Company. See Boston Safe Deposit & Trust Co., Boston, Mass.

Pocantico Water Works Co., No. Tarrytown, N. Y. In 1898 it was reported that the Farmers Loan & Trust Company of New York City obtained a judgment against the company for $485,000 as trustee for a mortgage held on the company's property.

Point Bldg., Pittsburgh. The Continental Bank & Trust Co. of New York City made a payment of $497.84 on each $1,000 First 6% Bond due 1932. We are not familiar with the payments made on the bonds with other maturities.

Polish National Catholic Church of the Holy Mother of the Rosary. See Marine Trust Company, Buffalo, N. Y.

Pond Creek Coal Company. The following liquidating payments were made on the stock: March 1, 1923, $35 per share; April 2, 1923, $10 per share. A further and final dividend may have been paid. In 1923, the payments were made by the First National Bank, Boston, Mass., or the Chase National Bank, New York City.

Pontiac Commercial & Savings Bank. The stockholders of the Pontiac Commercial & Savings Bank, Pontiac, Mich., were assessed 100%. The assessment was levied by the Circuit Court of Oakland Co., Mich., which has jurisdiction over the affairs of this receivership, on March 30, 1932. The fact that the stockholders were assessed 100% is sufficient evidence to establish worthlessness for the stock for the year 1932. The loss could not be claimed in any subsequent year.

Poole Engineering & Machine Company. Incorporated in Maryland and went bankrupt in 1932 at which time Receivers were appointed. The State Tax Commission of Maryland advised us that the charter of this company was forfeited on Jan. 28, 1932. We found no value to the stock and believe the shares were worthless as of 1932 when the company ceased to exist. The Fidelity Trust Company of Baltimore, Md., Trustee for the First Mortgage 6% S. F. Gold Bonds, dated July 1, 1914, and due July 1, 1944, informed us on March 11, 1938, that all bondholders received $347.10717 per $1,000 bond. The bonds were not paid in full in liquidation leaving no equity for the capital stock.

Porcupine Gold Reef Mining Company, Ltd. Affiliated with McIntyre Porcupine Mines, Ltd., located at 15 King St. W., Toronto, Ont. Part of company's property was sold to McIntyre Porcupine Mines, Ltd., for $2,000 and 450,000 shares of stock.

Port Arthur Traction Co. The First 5% Bonds due 1956 received 40% in liquidation, payable at the Dayton Savings & Trust Co., Dayton, Ohio.

Port Jervis Electric Light, Power, Gas & Railroad Company. First 6's due 1932 (stamped). The property of this company was foreclosed in 1909 and new stock was issued to depositing bondholders. As your bonds are stamped, it would appear that the holder had received his pro rata share of the proceeds of the sale and have no further value.

Port Wentworth Lumber Company. See City Bank Farmers Trust Company, New York City.

Port Wentworth Terminal Corp. The 8% Unstamped Bonds, due 1950, have a decree value of $240.54 per $1,000 bond with the Chase National Bank, New York City.

Portland Commercial Club. The First Mortgage 6% S. F. Gold Bonds were called, payable at the Portland Trust & Savings Bank, Portland, Ore. There are some bonds outstanding that have not been presented for collection.

Portland Co-Operative Labor Temple Association. The First Mortgage 6% Optional Gold Bonds were called, payable at the Portland Trust & Savings Bank, Portland, Ore. There are some bonds outstanding that have not been presented for collection.

Portland Gold Mining Co. (Wyoming). The United Gold Mines Company, who took over the property of this company, located at Colorado Springs, Col., informed us on May 13, 1937, that the Portland Gold Mining Co. has been dissolved and the outstanding shares have a cash value of $2.83 per 1,000 shares on surrender of the old certificates.

Porto Rican American Tobacco Company. See City Bank Farmers Trust Company, New York City.

Portsmouth-Solvay Coke Company. See Syracuse Trust Company, Syracuse, N. Y.

Postal Service Building Corp. New York & Chicago Series "A" First Mortgage Coll. Trust 5½% Bonds, due Oct. 1, 1934. The Safe Deposit & Trust Company of Baltimore, Md., holds $27.50 of unclaimed funds to pay on certain outstanding coupons that have not been presented for collection. The same bank also informed us that a $1,000 bond had not been presented for endorsement extending bonds to 1949, and collection of interest payable to Feb. 16, 1940, amounting to 11%.

Postal Service Building Corp. (Formerly Brooklyn Post Offices, Inc.). The Safe Deposit & Trust Company of Baltimore, Md., informed us that there is a $500 First Mortgage Coll. Lien 5½% Bond Series "E", due Sept. 1, 1943, that has not been presented for endorsement extending the bond to 1949 and collection of interest payable to Feb. 16, 1940, amounting to 22%.

Preble Corporation. See National Shawmut Bank, Boston, Mass.

Premier Shares, Inc. Company declared an initial liquidating dividend of $3.85 per share, it was reported on Feb. 19, 1940. The Pennsylvania Company for Insurance on Lives and Granting Annuities of Philadelphia, Pa., acted as Distributing Agent. A final liquidating dividend will be paid if any assets remain.

Preston Coal & Improvement Co. The stock of this company is being acquired by the Philadelphia & Reading Coal & Iron Co., Philadelphia, Pa., at $5.00 per share.

Prince Rupert Hydro-Electric Co., Ltd. The Royal Trust Company, Trustee, Montreal, Que., distributed the first and final liquidating payment of 4¾% of the face value of the First Mortgage Bonds.

Princeton Arch Club. The Princeton Bank & Trust Company, Princeton, N. J., informed us that when this club dissolved in 1918 the property was purchased by Princeton University, who assumed the payment of interest on the bonds. Tenders of sale of the bonds should be addressed to Mr. G. C. Wintringer, Comptroller, Princeton University, Princeton, N. J.

Producers Associates, Inc. On Sept. 30, 1939, it was reported that the promoters of the company were indicted for fraud.

Producers Development Co. Incorporated in West Virginia and is out of existence having liquidated several years ago. The liquidating dividends were mailed to the stockholders of record and were paid by O. J. Deegan, Huntington, W. Va.

Pro-Phy-Lac-Tic Brush Company. See Bankers Trust Co., New York City.

Protective Certificate Corporation. Incorporated in New York and was located at 256 West 38th St., New York City. In 1927, the company was out of business. The corporation lost its charter in 1929 for failure to file reports for the five previous years. Apparently since 1924 the company stopped filing reports but did not stop selling their bonds. We found no value to the bonds, and as they were only Debentures, they were not secured.

R x Company. Value of 29 Shares of Capital Stock. Incorporated under the laws of the State of New Jersey on Jan. 3, 1916, as the Rex Company, and changed its name to the above on Jan. 19, 1933. The principal office of the company was located at 503 Main St., Boonton, N. J. The following were the names and addresses of the last known officers and directors of the company and the amount of shares held by each:

Name	Address	Shares Held
Pres., H. Arbuckle	Boonton, N. J.	38
V.-P., R. S. Hitchcock	Boonton, N. J.	38
Treas., N. D. La Hart	Boonton, N. J.	10
Sec'y, B. E. Coleman	Boonton, N. J.	20
Dir., Chas. E. Estler	Boonton, N. J.	38

Mr. J. W. Heaney of 503 Main St., Boonton, N. J., informed me on April 8, 1940, that this corporation owned a drug store at 503 Main St., Boonton, N. J. Mr. Heaney stated that he purchased the store and contents for $10,000, of which $2,800 was paid in cash when title was transferred. This money was paid, I understand, to Mr. Hitchcock and Mr. Estler, the controlling stockholders. Mr. Heaney further stated that he owed about $5,200 up to June 9, 1939. The arrangement was to pay $50 per month to reduce the original amount. Mr. Heaney stated that he has made no payments since the deaths of the controlling stockholders. I have consulted Dr. H. Arbuckle of Boonton, N. J., a stockholder of the corporation, and he informed me on April 7, 1940, that when the books of the corporation were turned over to the controlling stockholders all the debts of the corporation were paid. Dr. Arbuckle further stated that he has received no part of the down payment of $2,800, nor any part of the additional $2,000 that was paid into the corporation by Mr. Heaney at $50 per month. Therefore, I am assuming that no distributions were made to the stockholders up to June 9, 1939. Therefore, as there were 144 shares of stock outstanding the shares had a fair value of $69.44 per share or a total of $2,013.76 for 29 shares, of which $33.33 per share represents cash held by the corporation, as of June 9, 1939, the date of the decedent's death.

Radio Keith Orpheum Corporation. See City Bank Farmers Trust Company, New York City.

Radio Securities Corporation. This corporation is located at 15 Exchange Place, Jersey City, N. J. The balance sheet of the company for the year ending Dec. 31, 1937, showed total assets of $32,300.99; $19,868.50 represents organization expense. On the liability side the accounts payable amount to $466.96, and unclaimed dividends on Class "A" Stock amount to $859.27. In the capital stock and surplus there is a deficit of $64,731.81. It would appear that the only value that exists at this time is the unclaimed dividends on the Class "A" Stock.

Railroad Credit Corporation. Washington, May 16.—A liquidating distribution of ½ of 1% of the fund contributed by railroads participating in the marshalling and distributing plan will be made on May 31, it was announced today by E. G. Buckland, President of Railroad Credit Corporation. The amount to be liquidated at this time totals $367,556. Of this amount $312,567 will be paid in cash and $54,988 will be credited on the indebtedness of carriers to the corporation. This will bring the total amount distributed to $58,073,998, or 79% of the original fund contributed by the carriers. Of this total, $30,591,894 will have been returned in cash and $27,482,104 in credits.

Railroad Equipment Co. Liquidated in 1899. The Series B76 and B80 Certificates were called for payment at par on Nov. 15, 1899, by the State Trust Company, New York City, which see for succeeding bank.

Randolph-Macon Coal Co. First Mortgage Bonds due 1935 have a decree value of $51.33 per $1,000 bond (two payments), with the exception of bonds called "Mackey Group," which received only $2.66 per $1,000 bond. The funds for the unstamped bonds are probably held by the Central Hanover Bank & Trust Company, New York City.

Raton Water Works Co. of New York. The United States District Court, for the District of New Mexico, at Albuquerque, N. Mex., holds $400 for the First Mortgage 5% Bonds due 1935, to be distributed at the rate of $5.92 per $1,000 bond.

Raven & Beacon Gold Mines, Inc., Cripple Creek, Col. It was reported on Nov. 28, 1936, that the directors of this company had approved the sale of its properties to the Elkton Co. for 400,000 shares of its stock.

Ray Consolidated Copper Co. Property and assets were sold to the Nevada Consolidated Copper Co. Each share of Ray stock received $15 in cash, plus $1.94 for interest. The Ray stock must be exchanged for Nevada Debentures at the Guaranty Trust Company, New York City, before receiving cash. The interest may amount to more at this time.

Rayon Industries Corporation. The National Investment Transcript, Inc., published an alleged tipster sheet known as National Investment Transcript and in its columns puffed the stock of Rayon Industries Corporation. Investors in the corporation through fraud lost $5,000,000 in 1933 or 1934 in the company. The jury returned a verdict of guilty in 1937 against the officials of the company. Some got one to seven years, and others received suspended sentences. The shares are absolutely worthless, and for income tax purposes the stock probably became worthless in 1933. However, a receiver was not appointed until 1935, and the company was ordered to liquidate in 1936. I do not believe the government would permit a loss on the stock later than 1936, and the facts may show that the stock was worthless in 1933. You could not even claim a refund for 1936, as that year is outlawed. It is a matter of sleeping on your rights.

Realty Bond Company. See Wachovia Bank & Trust Company, Winston-Salem, N. C.

Realty & Commercial Co. Platt, Field & Taylor, attorneys, located at 120 Broadway, New York City, informed us in 1924, that this company was in liquidation, and that the First Mortgage Bondholders may receive 25% on their holdings.

Realty Trust Co., Atlanta, Ga. Trust Co. of Ga., is probably paying the dividends on the Dividend Cfts. of this company.

Recreator Corporation. Value of Certificate for 100 Shares of Preferred Stock and Interest in $1,000 Trust Fund. Incorporated under the laws of the State of Delaware and lost its charter in 1931. I found no value to the stock nor of the Trust Fund and therefore believe the stock and interest in the Trust Fund were without value as of Jan. 22, 1940, the date of the decedent's death.

Recreator Phonograph Corporation. Value of a Demand Note for $4,208.34, dated Dec. 31, 1927. Incorporated in Massachusetts and lost its charter in 1931. Due to the fact that the corporation is out of existence and that the Note no longer has any value I submit it as worthless as of Jan. 22, 1940, the date of the decedent's death.

Reforma Mining Co. of Delaware. The following letter was received from S. H. Squire, Supt. of Banks, in charge of liquidation of the Guardian Trust Co. of Cleveland, Ohio, in reply to a request as to whether any further liquidating dividends would be paid on the 2nd Preferred Stock: "We advise that upon dissolution in 1930 there was lodged with us the only remaining unliquidated asset, a claim against the Mexican Government for damage to the mines by Revolutionaries. The claim has been filed with a Joint Commission created by the Governments of the United States and Mexico. It is understood that if the claim is allowed, payments will be made over a period of years. We recommend that the stock be held even though it seems doubtful if anything further will be realized."

Regal Oil & Gas Co., Tulsa, Okla. (Delaware). Stock has a liquidating value of $2.00 per share. Collect from E. C. Benedict & Co., 71 Broadway, New York City. The final dividend was 11c per share, paid in 1938.

Research Investment Corp. Common stock liquidated at $31 per share.

Reybarn Co., Inc. On Oct. 27, 1938, the stockholders approved the dissolution of this investment company which had investments of $2,549,910. In Dec., 1938, a liquidating dividend of $2.50 per share was declared.

Reynolds Investing Company, Inc. Press report, April 20, 1940: Holders of securities of the Reynolds Investing Company, Inc., must vote before May 20 on a plan for reorganization approved yesterday in Newark, N. J., by Judge Guy L. Fake of the United States District Court. The program previously had been reported as "fair and equitable and feasible" by the Securities and Exchange Commission. Votes are to be received by the referee in bankruptcy, John Grimshaw of Jersey City. According to an announcement by John Gerdes and James D. Carpenter, Jr., the Trustees, the name of the company would be changed to the Reynolds Realization Corporation. The plan proposes complete liquidation of the assets of the company in six years, with holders of the old Debentures in control. Proceeds of the liquidation would be distributed among the holders of the old Debentures, the old Preferred Stock and the old Common Stock according to strict legal priorities. The company would hold all property and assets except claims in its favor. These would be retained and enforced by the Trustees, who would pay the net proceeds to the company.

The reorganized company would have its capitalization in $3,439,900 of 5 Per Cent Debentures due on April 1, 1946; 9,915 shares of new Preferred Stock of $10 par value, entitled in liquidation to $145 a share, and 178,786 shares of new Common Stock of 50c par value. All reorganization expenses and all allowed claims of creditors (other than Debenture holders) would be paid in full in cash immediately. Each holder of an old Debenture would receive the same amount in a new Debenture. Holders of old Preferred Stock would receive Class A Liquidation Voting Trust Certificates, entitled to $145 each before any payment is made to the holders of Common Stock. Dividends on the old Preferred are $45 in arrears. Holders of the old Common Stock would receive Class B Liquidating Voting Trust Certificates at the rate of 1 for each 10 shares of old stock. The company would be dissolved in 1946 unless all Debentures and Preferred Stock should have been paid or redeemed by then and a majority of the Common stockholders should vote against dissolution.

In the first year of the plan, Directors representing the Debentures would be Dean Langmuir, G. Vernor Rogers and Samuel S. Rodman. Richardson Morris would represent the Preferred Stock, and Edwin H. Woarms, the Common. Holders of the Debentures would elect a majority of the Board until asset value of outstanding Debentures was more than 200% of principal and unpaid interest and until principal amount of outstanding Debentures was less than $750,000. Thereafter the Debentures would elect two Directors, the Preferred, two, and the Common, one. The plan provides restrictions on the power of the directors to sell certain securities, demanding that specified market prices be reached. The Directors may invest only in the company's own Debentures until they have been retired; thereafter only in its Preferred Stock. The plan showed causes of action in favor of Reynolds Investing with a face amount of more than $3,000,000, readily marketable securities with a market value of $1,048,156 on Jan. 19, and not readily marketable securities with a nominal market value of $2,031,226 on the same date.

Rice, Jerome B., Seed Company. Mr. Roscoe Irwin, an attorney, located at 11 N. Pearl St., Albany, N. Y., informed us as follows on April 16, 1941: "Replying to your letter of the 11th instant, you are advised that Jerome B. Rice Seed Company was adjudicated a bankrupt by Order of the United States District Court in and for the Northern District of New York granted March 16, 1940, dated March 21, 1940, and filed in the Clerk's Office of said Court at Utica, N. Y., March 22, 1940. The bankruptcy proceedings show that there isn't anything available for either preferred or common stockholders and nothing available to pay the balance due creditors of the Rice Company."

Rice Oil Company. Incorporated in Delaware and lost its charter in 1923. Our records indicate that this promotion was a stock selling scheme promoted by George Graham Rice. The shares are absolutely worthless.

Ridge Avenue Deposit Bank, Allentown, Pa. The Ridge Avenue Deposit Bank, of Allentown, was closed on July 19, 1932, and is now in liquidation for the benefit of depositors and shareholders. Again, while we are unable to determine at this time the value of the unliquidated assets, we question whether there will be any distributions ever made to shareholders as only 35% of the deposits have been paid to date. (8/5/1940.)

Ridgefield & New York Ry. Co. Organized 1867. There are 115 surviving stockholders of this railroad that was never built, that are entitled to 90c per share on their holdings of $50 par stock. The Ridgefield R. R., a subsidiary of the New York, New Haven & Hartford R. R., owns 3,380 shares of the total of 5,236 shares outstanding. There is a surplus of $4,712 available for the remaining stockholders, which is held by Judge William B. Boardman, Receiver, Superior Court, Bridgeport, Conn.

Rio Pluma Orchard Company. The Bank of America National Trust & Savings Association, San Francisco, Cal., has been acting as depositary for the Bondholders Committee, representing the First Mortgage 7% Serial Gold Bonds. The committee foreclosed on the property in 1925 and proceeded to operate the property, which was ranch land. The committee subsequently entered into a contract of sale and due to payments made on the contract the following liquidating dividends were paid to holders of Certificates of Deposit. During Feb., 1938, the committee having disposed of all of the property under a favorable compromise with the purchaser, the liquidating payments made were as follows:

$ 35 per $1,000 bond on Oct. 1, 1926
200 per $1,000 bond on Dec. 1, 1927
184 per $1,000 bond on Dec. 1, 1928
173 per $1,000 bond on Dec. 1, 1929
44 per $1,000 bond on Dec. 1, 1930
280 per $1,000 bond on Feb. 14, 1935
11 per $1,000 bond on Jan. 1, 1937
73 per $1,000 bond on Feb. 1, 1938

All of the holders of Certificates of Deposit have received the first four liquidating dividends. There are several who are entitled to receive subsequent payments. See Bank of America National Trust & Savings Association, San Francisco, Cal.

Riordon Co., Ltd. The bonds that were not deposited with the protective committee received only a small amount of cash from the proceeds of the sale of the property. Deposit bonds for collection with the First National Bank of Boston, or the Harris Trust & Savings Bank, Chicago.

River Club of New York, Inc. (N. Y.). Value of $1,500 Subscription Receipts for Membership. The River Club, located at 52nd St. and East Rver, New York City, informed us on July 13, 1937, that the Board of Governors of the Club have purchased membership certificates for $400. Therefore, I submit $400 as a fair value for the membership receipts as of Jan. 8, 1937.

Riverhead Bond & Mortgage Co. Stock has a liquidating value of $2.75 per share.

Riverside Forge & Machine Co. Succeeded by Pittsburgh Forgings Co. Stock exchanged share for share.

Riverside Plaza Corporation. First 6's due 1950. Secured 7's due 1940. The First Mortgage Trustee instituted proceedings to foreclose the first mortgage and was sold on April 7, 1933. The undepositing First Mortgage bondholders were entitled to $114.37 per $1,000 bond. The undepositing First Mortgage bondholders who took the above cash payment may deduct the difference as a loss for the year 1933. These second mortgage bonds that were not deposited became worthless in 1933 as they no longer had any equity. Those first and second mortgage bondholders who deposited their bonds with the reorganization committees have not as yet suffered a loss as the hearing on the reorganization plan submitted was not held until Sept. 5, 1935. This plan provided that new securities would be issued in exchange for first and second mortgage bonds. It is probably a question of law whether a depositing Second Mortgage bondholder may deduct a loss on his certificate of deposit for the year 1933. However, it is our opinion that a depositing Second Mortgage bondholder may not deduct his investment as a loss until he either sells his certificate or is wiped out entirely. In this case the depositing Second Mortgage bondholder has a chance of obtaining new securities. The First Mortgage bondholders who did not deposit their bonds may only take a loss on said bonds in the year 1933, when said property was foreclosed and they were entitled to receive only $114.73 per $1,000 bond.

Roberts, L. R., Typewriter Co. The Five-Year 8% Conv. Gold Notes received $47.44 per $1,000 note in liquidation from the New York Trust Company, New York City.

Rochester Capital Corporation. Merger with Chemical Fund, Inc.

Rochester Knights of Columbus Bldg. Assn. The First Mortgage 5% Gold Bonds due January 1, 1941 were called for redemption in July, 1928 at par, payable at the Union Trust Company, Rochester, N. Y. There are some bonds outstanding that have not been presented for collection.

Rochester Knitting Corporation. Incorporated in New York on Dec. 31, 1923, and was located at Rochester, New York. The corporation was dissolved by Proclamation of the Secretary of State published Dec. 15, 1936. We found no value to the stock.

Rochester, Syracuse & Eastern R. R. In a report filed by the Receiver with Justice Hubbs in the Supreme Court, Syracuse, N. Y., it was estimated that the bondholders would receive $305 per $1,000 bond. We understand that the Rochester & Syracuse Liquidating Co., Syracuse, N. Y. made another payment on the bonds.

Rochester & Syracuse R. R. Co., Inc. See First Trust & Deposit Company, Syracuse, N. Y.

Rochester Water Co. The 5% Bonds due 1917 received par at the Fidelity Trust Company, Portland, Me.

Rockford, Beloit & Janesville R. R. Reorganized as Rockford, Beloit & Janesville Ry., an Illinois corporation. Holders of the First Mortgage 5% Bonds received 3 shares of preferred and one share of common stock of the new company for each $1,000 bond at the Central Trust Company, Chicago, Ill.

Rockford & Freeport Electric Railway Co. We understand that Mr. T. M. Ellis of Beloit, Wis., made a payment of $105 on each $1,000 First 5% Bond due 1923 Ext. to 1930.

Rockford & Interurban Railway Company. First Mortgage 5% Bonds due October 1, 1930. Two payments have been made on the Rockford & Interurban Railway bonds, amounting to $34.20 and $34.82 per $1,000 bond. Both payments were made by Charles W. Ferguson, Master in Chancery of the Circuit Court of Winnebago Co., Rockford, Ill. On Mar. 3, 1941, we were informed that all bonds which were filed with the Master in Chancery have been paid, as above indicated. There will be no further payments. Only those bonds which were not filed are payable by application to the County Treasurer of Winnebago Co., Rockford, Ill.

Rockford & Interurban Railway. We received the following letter from Mr. J. W. Campbell, Asst. Secretary of the First Wisconsin Trust Company, Milwaukee, Wis., dated Feb. 4, 1939. "We acknowledge your letter of Feb. 2nd, inquiring as to the present status of Certificates of Deposit for Rockford and Interurban Railway Company First Mortgage 5% Gold Bond. The bonds represented by the Certificates of Deposit in question were sold by the Bondholders Protective Committee and the proceeds amounting to $235 per $1,000 bond were distributed to the certificate holders. The Certificates of Deposit were endorsed in respect of such sale and the payment referred to. We would therefore not regard the Certificates of Deposit as having any value."

Rockford, Rock Island & St. Louis R. R. The Frankfort (Germany) Committee of bondholders declared a dividend of 13% from the proceeds of the sale of the road on Jan. 19, 1878. Another record disclosed that Henry W. Bishop, Master in Chancery, United States District Court held funds for the First Mortgage Bonds as of Feb. 19, 1876.

Roerich Museum (Riverside Drive and 193rd St. Bldg.) The Manufacturers Trust Co. of New York City holds funds to make certain payments on the First Mortgage Series A 6% Guaranteed S. F. Gold Bonds due 6/15/1940 with 6/15/1932 and subsequent coupons attached.

Rossman Corporation. The 15-Year 6½% S. F. Debentures, dated May 1, 1927, due May 1, 1942, with Nov. 1, 1930, are redeemable at the Bank of Manhattan Company of New York City, at the rate of $.06509543 per $1.00 face value of bonds, representing 3 payments of First, $.0422786; Second, $.0134725; Third and Final, $.00934433.

Rossville Commercial Alcohol Corp. This corporation was reorganized as the Rossville Alcohol & Chemical Corporation. Each $1,000 Conv. 6% Debenture Bond, due 1949, of the Rossville Commercial Alcohol Corp., received from the City Bank Farmers Trust Co. of New York City, 24 shares of preferred and 10 shares of common stock of the Rossville Alcohol & Chemical Corp. and $18 in cash. The stockholders of the Rossville Commercial received the right to purchase common stock of the Rossville Alcohol & Chemical at $5.50 up to April, 1932, when this right expired. Therefore, it is our opinion that all stockholders who did not exercise this right, should have taken the loss in 1932, when the shares first became worthless.

Rutland Street Railway Co. We received the following letter from the State of Vermont: "Relative to the Rutland Street Railway Company, it would seem from the provisions of No. 303 of the Acts of 1908 that this corporation together with certain other corporations had been united and consolidated into a corporation to be known by the name of Rutland Railway Light and Power Company. On Feb. 27, 1939, there was filed in this office and in the office of the Commissioner of Taxes a Certificate of Dissolution of the Rutland Railway Light and Power Company under the provisions of Section 1008-9 of the Public Laws. This certificate was sworn to by Albert A. Cree and W. Johnston, Jr., Directors of Rutland Railway Light and Power Company of Rutland, Vt."

No. 303 of the Acts of 1908. An Act relating to uniting the Rutland Railway Light and Power Company, the Rutland Street Railway Company, the Peoples Gas Light Company, the Rutland City Electric Company, the Chittenden Power Company, and the Vermont Internal Improvement Company.

It is hereby enacted by the General Assembly of the State of Vermont:

Section 1. All acts and contracts whereby the Rutland Street Railway Company, the Peoples Gas Light Company, the Chittenden Power Company, and the Rutland City Electric Company united and consolidated with the Vermont Internal Improvement Company, under and in pursuance of the power and authority conferred by section 5 of No. 277 of the acts of 1902, and other acts relating to such consolidation, and all agreements in relation thereto made by said companies, are hereby confirmed and declared legal and binding upon all parties thereto, and all acts heretofore done under and by virtue of such consolidation or such agreements in respect thereto, and all deeds, mortgages, bonds, contracts and other obligations entered into under the name of the Rutland Railway, Light and Power Company, are hereby confirmed and declared legal and binding upon said companies.

Sec. 2. All of the charter rights, franchises, powers and privileges conferred upon the Rutland Street Railway Company under and by virtue of No. 181 of the acts of 1882, and by all existing amendments thereof, upon the Peoples Gas Light Company under and by virtue of No. 60 of the acts of 1862 and No. 12 of the acts of 1867, and all existing amendments thereof, upon the Vermont Internal Improvement Company under and by virtue of act No. 277 of the acts of 1902, and all existing amendments thereof, upon the Chittenden Power Company under and by virtue of the articles of association for the voluntary formation thereof, and upon the Rutland City Electric Company under and by virtue of the articles of association for the voluntary formation thereof, except as herein otherwise provided, are hereby continued in force and conferred upon the Rutland Railway, Light and Power Company, and said companies so united and consolidated shall hereafter be known by the name of the Rutland Railway, Light and Power Company, and have full right to sue and be sued, make and enter into contracts, and do and perform any act or thing that might or could heretofore have been done by any or either of said companies under the name and style aforesaid, and each of the aforesaid constituent companies shall cease to exist as separate and independent companies.

Sec. 3. The records of the above-named

corporation heretofore kept shall remain in the custody of the Rutland Railway, Light and Power Company, and form a part of its records, and the capital stock of said constituent companies shall be cancelled and certificates of stock issued therefor shall be in the name of the Rutland Railway, Light and Power Company; and all the property of said several companies shall belong to and may be conveyed by the Rutland Railway, Light and Power Company in its name, and it shall be liable for all debts and obligations of said several constituent companies, and the consolidation agreements filed with the Secretary of State, are hereby confirmed and shall be kept on file by the Secretary of State as required in case of articles of association by voluntary association.

Sec. 4. The Rutland Railway, Light and Power Company is hereby empowered to make and file in the clerk's office of any town or city wherein said corporation owns real estate, water powers or flowage rights, maps or plans with written descriptions of boundary lines and elevations and points designated in any and all of its deeds of conveyance, or in those of its predecessors in title, or in the companies of which it is composed, by reference to any permanent monuments, or otherwise, for the purpose of determining such boundaries or elevations. Such plans and written descriptions shall be verified by an affidavit signed by one or more civil engineers residing in this state, and the president or clerk of such corporation, stating that such boundaries and elevations are, to the best of their judgment, knowledge and belief correctly located according to the description contained in said deeds. Such maps, plans and written descriptions shall be prima facie evidence in court of the character and location of all such boundaries and elevations.

Sec. 5. This act shall take effect from its passage.

JOHN A. MEAD,
President of the Senate.
THOMAS C. CHENEY,
Speaker of the
House of Representatives.
Approved Nov. 18, -08.
GEORGE H. PROUTY,
Governor.

Safe Guard Check Writer Corporation. The following letter was received from the Safe Guard Corporation, located at Lansdale, Pa., dated Oct. 2, 1940: "Answering your letter of the 1st, inasmuch as we do not trade in stock, acting only as our own transfer agents, we would refer you to Mr. J. K. Weaver, Dresher Arcade, Lansdale, Pa., for a price on it, as Mr. Weaver has recently bought a few small blocks. Hanson & Hanson, 25 Broadway, New York City, have also sent shares in following sales. For your clients information in case of transfer it will be a saving in tax stamps to recall that in March (12), 1934, the par value of this stock was set at $1.00 a share, and as long as the certificate has not been dated for transfer prior to that time, it carries with it the same privleges as do the certificates bearing the $1.00 par."

Saginaw Union Street Railway Company. See Boston Safe Deposit & Trust Co., Boston, Mass.

Saguenay Pulp & Power Company. Company in liquidation. Larue & Trudel, Chartered Accountants, 132 St. James St., W. Montreal, Canada, sent out the following information. In June, 1927, the Saguenay Pulp & Power Company was put into voluntary liquidation. The only assets of the company were then represented by a certificate of 7,850 common shares of the Quebec Pulp & Paper Mills, Limited. Through a compromise and arrangement made by the Quebec Pulp & Paper Mills, Ltd., Saguenay Pulp & Power Co. in liquidation received $66,725 and 3,532½ non-cumulative 7% redeemable preferred shares of Quebec Pulp & Paper Corp. in exchange for the 7,850 common shares of Quebec Pulp & Paper Mills, Limited, in liquidation. In June, 1928, the shareholders of Saguenay Pulp & Power Co., in liquidation, authorized the then liquidator to sell those shares at a price of $40 per share and this authorization was ratified and confirmed by the Court. These shares were then sold under the Court's sanction. In Oct., 1930, after payment of claims against the liquidation, fees of the liquidator and incidental expenses a first and final dividend of $198,100 was declared, representing a dividend of .283c per share on the 700,000 outstanding $5.00 preferred shares of the company. This dividend was paid to the shareholders who had surrendered their certificates, but at the end of Aug., 1938, an amount of approximately $10,000 still remained to be distributed to holders of preferred stock who had not surrendered their certificates. In June, 1931, Quebec Pulp & Paper Mills, Limited, in liquidation, issued unexpectedly a second dividend sheet and Saguenay Pulp & Power Co. as original owner of 7,850 shares of Quebec Pulp & Paper Mills, Limited, in liquidation, received through this second dividend an amount of $3,925 and 337 55/100 preferred shares of Quebec Pulp & Paper Corp. In June, 1932, Mr. Maurice Chartre was appointed liquidator in replacement of Mr. Eugene Trudel, former liquidator, who died in 1931. Owing to numerous inquiries which the liquidator continued to receive from shareholders who had not yet surrendered their certificates and received the original dividend to which they were entitled, it was found advisable not to close the liquidation for some time. The Quebec Pulp & Paper Corp. shares received as part payment of a second dividend from Quebec Pulp & Paper Mills, Ltd., in liquidation, having appreciated in value in the last months of 1937, it was decided, after consulting the committee of preferred and common stockholders of Saguenay Pulp & Power Co. to realize the 337 55/100 shares of Quebec Pulp & Paper Corp. The necessary authorization was secured from the Superior Court to that effect in Feb., 1938, and the shares were finally disposed of in Aug., 1938, at a price of $8.00 per share. As all the assets of the Saguenay Pulp & Power Co. have now been realized, and as the liquidator has on hand for distribution to the preferred shareholders a sum of $7,000 as shown on the notice attached hereto, a second and final dividend of .01c per share will be payable on Nov. 9, 1938. The dividend checks will be mailed to the shareholders who have deposited their stock certificates. Shareholders who have not done so should surrender their certificates at once to the undersigned, in order that they may receive any dividend to which they may be entitled. Your attention is specially drawn to the fact that under the provisions of the Treasury Act the liquidator is bound to deposit with the Provincial Treasurer all dividends unclaimed after a period of thirty days after the expiration of the delays for contestation of the final dividend sheet.

Saint Albans & Swanton Traction Company. The First Mortgage 5% Bonds dated June 2, 1913, due June 1, 1933, with Dec. 1, 1920, and subsequent coupons attached, have a decree value of $242.05 per $1,000 unstamped bond, payable at the First National Bank of Boston, Mass.

St. Albans Land Corporation, St. Albans, N. Y. Value of $550 of 4% Debenture Bonds. There was no market for these bonds at any time about the date of death. The bonds are due and payable only when, as and if the property is sold. It appears to me that the purchase of these bonds was more of a donation to get the St. Albans Club started, who leases the land. No interest has been paid on the bonds for several years. The chances of resuming interest payments, I understand, are very remote. With a $300,000 First Mortgage ahead of the Debenture Bonds, these Debenture Bonds, as an investment, would have no public interest except to members of the club. Under the circumstances, I would hesitate to place a value in excess of 5% of the face value of the bonds or $27.50 as of Dec. 16, 1940, the date of the decedent's death.

St. Augustine & St. Johns River Bridge Company. Unstamped bonds should be presented to the Florida National Bank, Jacksonville, Fla., attention Trust Department, for a payment of $310 per $1,000 bond, with specific instructions to make this distribution as full and final payment and to cancel the bonds. (This was received from the Florida National Bank on March 3, 1941.) We understand that the State of Florida purchased the bridge.

St. Cloud Country Club. See First Trust Company, St. Paul, Minn.

St. Croix & Lake Superior Railroad. The Interstate Commerce Commission at Washington, D. C., and the Public Service Commission of Wisconsin, have no record of this company. Our records indicate that the company graded 40 miles from Hudson, Wis. A report in 1911 states that the First Mortgage 6% Land Grant Bonds were found to have no value.

St. Jean Church, Duluth, Minn. See First Trust Company, St. Paul, Minn.

St. John Railway Company. Sold to the New Brunswick Investment Co. Stockholders received $140 per share in liquidation. Now known as New Brunswick Power Co., St. Johns, N. B.

St. Joseph & Denver City Railroad Company. See City Bank Farmers Trust Company, New York City.

St. Joseph & Grand Island Railroad Co. Each outstanding bond with coupons from May 1, 1894 attached, is entitled to a payment of $421.53 per $1,000 bond, which we understand was on deposit in the First National Bank of St. Paul, Minn., to the credit of the United States Circuit Court for the District of Nebraska, Omaha, Neb. The receiver also paid about $21.12 on each bond from funds realized on unmortgaged estates.

St. Joseph & Pacific Railway Co. The First Mortgage Bonds may have value with the City Bank Farmers Trust Company, New York City. The road was succeeded by the St. Joseph & Western R. R.

St. Joseph Railway, Light, Heat & Power Co. Sold to Cities Service Company. Stockholders received $15.75 per share in liquidation.

St. Joseph Traction & Light Co. The property of this company was sold for $300,000 and there were $1,000,000 of bonds outstanding. The Central Hanover Bank & Trust Company, of New York City, was Trustee.

St. Joseph Traction & Lighting Company. The United States District Court, Western District of Missouri, reported as follows on June 26, 1940: "It appears that there were two sets of bonds issued by the St. Joseph Traction and Lighting Company; one being described as First Mortgage 5% 10-Year Gold Bonds, and the other as Consolidated First Mortgage 5% 50-Year Gold Bonds. The payment mentioned in my former letter was made on the 10-Year Bonds, and so far as the record shows, no payment was ever made on the 50-Year Bonds. It was provided in the Decree that the Master first apply the proceeds to the payment of the 10-Year Bonds and expenses of administration, and that if after the payment of these items there remained other moneys they were to be applied to the 50-Year Bonds, and the amount received being insufficient to pay in full the 10-Year Bonds nothing was left to be applied to the others."

St. Joseph Traction & Lighting Company. A first and only dividend of $322.46½ per $1,000 bond was paid by the Master on Oct. 11, 1895. This dividend apparently used all of the money received from the sale of the property, as no money was ever paid into the United States District Court at Kansas City, Mo.

St. Lawrence Pulp & Lumber Corp. Value of 6's of 1938. The properties and assets of the above corporation were sold on May 29, 1934, by public auction and the amount realized from the sale was only about sufficient to pay the claims and expenses ranking ahead of the bondholders. The Trustee in Bankruptcy was duly authorized to hold the sale pursuant to a judgment of the Superior Court. We understand that the Trustee in Bankruptcy expects to complete the final dividend next week. There were, however, other funds set aside for distribution to the bondholders. These funds and any dividends received from the Trustee in Bankuptcy will be distributed in due course. At the present time it is impossible to say what this distribution will amount to. (11/1934.) The assets of the company were sold and there is available $13,970 for distribution to bondholders at the rate of $6.35 in respect to each $1,000 bond. No payment is being made on Certificates of Deposit. (12/1936.)

St. Lawrence Pulp & Lumber Corporation. The Montreal Trust Company, Montreal, Que., holds funds for distribution on unstamped bonds of this company.

St. Louis, Alton & Terre Haute R. R. Our records indicate that the United States Trust Company, New York City, at one time held St. Louis Division Bonds to retire securities of this company.

St. Louis, Iron Mountain & Southern Railway Company. The property of this company was sold under foreclosure proceedings in 1917 subject to the Gen. Cons. Ry. & Land Grant 5% Bonds due 1931; River & Gulf Divisions First Mortgage 4% Bonds due 1933, and the Unifying & Ref. Mortgage 4% Bonds due 1929. The road is now owned by the Missouri Pacific R. R. Company. The Plan and Agreement as modified on July 25, 1916, made provision for the entire then outstanding Iron Mountain Stock liability of $45,135.

St. Louis, Kansas City & Northern R. R. The Real Estate & Railway Mortgage Bonds due Sept., 1895, were exchanged for First Mortgage Bonds of the Wabash R. R.

St. Louis, Lawrence & Denver R. R. Leased to Missouri Pacific R. R. with a guarantee of interest from Jan. 22, 1876.

St. Louis Mercantile Library Association, St. Louis, Mo. The Association buys the stock at $10 per share as a convenience to its members.

St. Louis Ore & Steel Co. 6% Chouteau Bonds with following numbers have a decree value of $45.27 per $1,000 bond: 479, 630, 631, 632, 795. The bonds are payable at the City Bank Farmers Trust Company, New York City.

St. Louis & San Francisco R. R. Cons. 4% Bonds due 1996 received par and interest. Northwestern Div. First 4% Bonds due 1930 received $35 in cash and $1,250 in St. Louis-San Francisco Ry. P. L. Series A 4% Bonds. Coll. Trust 5% Bonds due 1987 received par and interest. The Central Hanover Bank & Trust Co., of New York City, acted as distributing agent.

St. Louis San Francisco Railway Company. See Bankers Trust Co., New York City.

St. Louis & San Francisco Railway Co. New Orleans, Texas & Mexico Div. First 4½'s. Under plan of reorganization of the St. Louis & San Francisco Railroad Company dated Nov. 1, 1915, the St. Louis & San Francisco Railway Company, successor company, was liable for a certain distribution on account of the guarantee placed on the old bonds, which amounted to $7.13 per $100 bond. The Irving Trust Company, depository for these bonds, state that they have no further value. D. B. H. Chaffee, who was making the distribution, was stopped by court order. The funds were probably returned to the successor company and suggest you send your bonds to the St. Louis, San Francisco Railway Company at 120 Broadway, New York City.

St. Louis-San Francisco Railway Company. A Plan of Reorganization for the company contemplating a reduction in total capitalization from $388,700,000 to $240,000,000 and a cut in fixed interest charges from $12,613,106 to $2,999,561 annually was recommended to the Interstate Commerce Commission in a report dated Aug. 11, 1939. The report stated that the equities of both the common and preferred stock were found to have no value.

St. Louis Southwestern Ry. We refer you to the Guaranty Trust Company, New York City, regarding the value of unstamped bonds of this company.

St. Louis & Suburban Ry. The American Trust Co., of Boston, Mass., made a payment of $553.21 on each $1,000 Gen. 5% Bond due 1923. We understand that the Cons. First Ext. 8% Bonds due 1933 also received payment. We refer you to the St. Louis Public Service Co., 3869 Park Ave., St. Louis, Mo., for further information.

St. Louis Transfer Co. The stock of this company was purchased at $80 per share by the Columbia Transfer Co., through the Mercantile Trust Company, St. Louis, Mo.

St. Louis Transit Co. The Mercantile Trust Co., of St. Louis, Mo., made a payment of $515.01 on each $1,000 Ref. & Imp. 5% Bond due 1924. We refer you to the St. Louis Public Service Co., St. Louis, Mo., for further information.

St. Mary's Canal Mineral Land Co. Succeeded by the St. Mary's Mineral Land Co. Six new shares were exchanged for each old share in 1901 at the Old Colony Trust Company, Boston, Mass.

St. Nicholas Skating & Ice Co. The company was dissolved and a distribution was made to the stockholders. Write Chas. A. B. Pratt, 120 Broadway, New York City, for further information.

St. Paul City Railway Co. See First Trust Company, St. Paul, Minn.

St. Paul & Duluth R. R. The Manhattan Trust Company, New York City, distributed to the holders of the Syndicate's Certificates as their share of the proceeds of the sale of the property to the Northern Pacific, together with the installment paid by them upon said certificate a sum equal to 31% of the full amount subscribed. The amount subscribed by the Syndicate was $7,000,000, on which 25%—$1,750,000 was paid in. The Syndicate stock was acquired at 50, and with this payment of 31% on the subscriptions, the net result to the common stockholders joining in the Syndicate was about 68½% for their stock, while the common stockholders who dealt directly with the Northern Pacific received $60 per $100. Our records indicate that J. P. Morgan & Co. acted for the Northern Pacific.

St. Paul Elks Club. See First Trust Company, St. Paul, Minn.

St. Paul Mining Company. Mr. Charles C. Werner, 61 Broadway, New York City, informed us as follows on April 29, 1926: "Your letter addressed to Edmund L. Judson has been referred to the writer who looked after the legal matters of the company from its inception in 1899. The company was fully liquidated three or four years ago and its monies available for distribution among the stockholders were paid over to the Equitable Trust Company, New York City, now Chase National Bank, for distribution among the stockholders upon presentation of their stock certificates in order that the payment of the various liquidating dividends might be stamped thereon."

Salamanca Sugar Company. See City Bank Farmers Trust Company, New York City.

Salamanca Sugar Company of Cuba. Incorporated in 1923 in Cuba. The assets of the company were sold at public auction for an amount which was insufficient to pay the First Mortgage Bonds in full, leaving no equity for the capital stock. Unstamped bonds should be presented to the City Bank Farmers Trust Co., New York City, for collection.

Salisbury Iron Corporation. Incorporated in Delaware on Jan. 8, 1920, and lost its charter on Apr. 1, 1929. The last report filed in 1928 showed Horace W. Davis as Chairman of the Board. Mr. Horace W. Davis, now located at Pittsfield, Mass., informed us as follows on Nov. 27th, 1940: "* * * I would advise you that the Salisbury Iron Corporation was completely liquidated a number of years ago. After paying off the outstanding bonds of over $100,000, there was left somewhere around 25c a share for the preferred stock. There was nothing available for the common and it is, of course, worthless."

Salmon Falls Mfg. Co. Stock has a liquidating value of $42.45 per share. Liquidating dividends were paid by the State Street Trust Company, Boston, Mass.

Salt Lake & Eastern Railway Company. When the property of this company was foreclosed sufficient funds were realized from the sale to pay the bondholders 6.3% of the face value of their bonds. The Court published a notice to the bondholders to present their bonds within a certain limit of time in order to receive their small pro rata benefit accruing from the sale. An order afterward was made directing the Master who effected the sale to return to the purchasers of the property the funds in his possession. The successor company was the Rio Grande Western.

Salt Lake Terminal Co. First 6% Bonds due 1935 have a decree value of $565 and $55 per $1,000 bond.

Salt Lake & Utah Railroad Co. Incorporated in 1912 and was acquired by the Salt Lake & Utah Railroad Corporation (Delaware), in 1936. The property was foreclosed in 1938. On Apr. 6, 1938, the Trustee for the First Mortgage 6% Bonds due 1944—the Continental-Illinois National Bank & Trust Company of Chicago, Ill., stated that nothing was realized for the bonds.

Salts Textile Mfg. Co. The First 8% Bonds due 1936 and C/D for said bonds are exchangeable for securities of the Saltex Mfg. Co. The latter company liquidated and paid a liquidating dividend of 3½%. Present securities or C/D to the Guaranty Trust Company, New York City, for collection. Receipts for C/D are probably worthless as the securities were delivered together with the liquidating dividend. See Guaranty Trust Company, New York City.

Samollis Realty Corporation. The First Mortgage 7% Serial Gold Loan Certificates dated Oct. 1, 1925, with Apr. 1, 1929 coupon attached, are redeemable at the Bank of Manhattan Company of New York City at the rate of $6.75 per $100 bond.

Purchase Money Mortgage on Property originally mortgaged by Northern Alabama Coal Company. Purchase Money Mortgage on Property originally mortgaged by Pratt Fuel Corporation.

Sampers, H. P., Company. Incorporated under the laws of the State of New York, on July 29, 1908, and was dissolved by Proclamation of the Secretary of State on Dec. 15, 1937. The son of Mr. I. H. Sampers, a former officer of the company located at Yonkers, N. Y., informed us on July 18, 1940, that H. P. Sampers Company was sold to William H. Hewitt & Company in 1933, who assumed the debts of the company. The latter company failed in 1938. We understand that Mr. Hewitt has 44 judgments against him, which will have to be paid before the Debentures of H. P. Sampers Company. There is no likelihood that the preferred creditors will be paid in full, leaving no equity for the Debentures, which are without value.

San Antonio Water-Works Co. Bonds were exchanged for First & Ref. 6% Bonds of the San Antonio Water Supply Company. Holders that wanted cash were paid upon presentation of their bonds. This matter was handled exclusively by E. B. Chandler, President, and by the new company.

Seaboard Oil Company. The National Bank of Commerce, Norfolk, Va., informed us on Dec. 26, 1924, that upon inquiry learned that the company was in the hands of Receivers in the United States Court. They were in touch with one of the Receivers who informed them that owing to so many claims it was impossible to give a value for the stock at that time. The Receiver further stated that if the claims were paid the stock would be worth about 5c per share about that time. The 7% Notes should have good value.

Seaboard Portland Cement Company. The Marine Midland Trust Company of New York City, holds an unclaimed balance of $703.89 for distribution on the 20-Year 6% Bonds, dated July 1, 1907, and due July 1, 1927, at the rate of $2.57 per $1,000 bond, representing a first and final payment. When this payment was made, the bonds were cancelled and retired.

Seaboard Steel & Manganese Corporation. Two-Year 6% Coll. Trust Notes, dated April 1, 1918. The Guaranty Trust Company, New York City, informed us as follows on Feb. 18, 1941: "In reply to your letter of Feb. 8, 1941, our records indicate that property subject to the above Indenture was sold on March 7, 1921, to the Noteholders Protective Committee for $75,000. This sale was confirmed on March 14, 1921, and a Special Master was appointed to distribute the proceeds upon entry of final decree. Under decree entered June 23, 1922, the distributive share on each undeposited note having April 1, 1919, and subsequent coupons attached, is $83.292. Pursuant to an order of distribution made Oct. 9, 1922, by the District Court of the United States for the Southern District of New York, we received a further sum for distribution of which the amount due on each note is $102.9462, making a total distribution of $186.2382. We, as Trustee, have been making these distributive payments to holders of undeposited notes of the above issue."

Seaboard Utilities Shares Corp. Mr. Arthur F. Bickford, Receiver, located at 31 Milk St., Boston, Mass., informed us on May 7, 1940, that liquidation of this corporation has not as yet taken place. All stockholders will be notified.

Sealcone International Corporation, 15 Exchange Pl., Jersey City, N. J. The company informed us as follows on April 24, 1941: "This corporation has been without income since the present war in Europe started and has been forced into a dormant position. The officers, in addition to receiving no remuneration, have been meeting State Franchise taxes, statutory representation costs, office costs, etc., out of their personal funds to keep it in existence. Unless and until the present conflict terminates, we regret that it will be impossible to report any constructive change in its affairs."

Seaside Water Co., Long Beach, Cal. Dissolved 1924. The assets were distributed to the stockholders. Secretary, Samuel K. Rindge, Long Beach, Cal.

Shepaug Railroad Company. See Shepaug Valley Railroad Company.

Shepaug Valley Railroad Company. The New York, New Haven & Hartford Railroad Company, New Haven, Conn., informed us on Aug. 19, 1940 as follows: "In reply to your inquiry of Aug. 16 relative to Shepaug Valley Railroad Company stock, I have to advise that this company defaulted its interest under the second mortgage and the property went to the bondholders who in 1873 incorporated as the Shepaug Railroad Company. The latter company was unable to pay the interest on the first mortgage bonds of the Shepaug Valley, which it had assumed, and the property was foreclosed. The Trustee, the Treasurer of Connecticut, took possession in 1887 and later turned the property over to the bondholders who on May 10, 1887 were incorporated as the Shepaug, Litchfield and Northern Railroad Company. The New Haven was not interested until 1892 when it acquired a majority of the stock of the Shepaug, Litchfield and Northern, and in 1898, all of the stock having been acquired, the road was merged with the New Haven. The certificates of the Shepaug Valley Railroad Company and the Shepaug Railroad Company are, therefore, of no value.

Simon, R. H., Silk Mills, Union City, N. J. The 8 buildings of the former R. H. Simon Silk Mills in Union City, have been purchased by the Callite Products Corporation, manufacturers of tungsten and other products, 540 39th St., Union City, for $100,000, according to the deeds in the sale recorded Wednesday by State Banking Commissioner Louis H. Reilly, Receiver for the New Jersey Title Guarantee and Trust Company. The buyer paid $30,000 cash and gave back in part payment a purchase money mortgage for $70,000 due Aug. 12, 1950, at 4%, with $7,000 of the principal to be paid off yearly. The Title Company obtained the property under foreclosure of a mortgage on Oct. 27, 1938 made by the Mirmill Company, Inc., June 19, 1928, for $275,000. The Callite Corporation has been engaged on contracts for millions of dollars for the U. S. Army and Navy. Plans have been made by the company to floodlight the exterior of the buildings, and armed guards will be detailed inside to guard against sabotage.

Simpson Crawford Corporation. Liquidating payments on the stock were made by the Franklin Trust Company, New York City, now National City Bank.

Simpson Creek Coal Co. (W. V.). Preferred stock has a liquidating value of $97.65 per share. Common stock received $1.15 per share. There may have been more payments on the preferred stock.

Simpson Creek Coal Company. Mr. Ryan of the Central Hanover Bank & Trust Company of New York City, informed us on May 2, 1938, that there is now no preferred stock of this company outstanding. There also is no common stock outstanding now as certificates of deposit have been issued for same. These C/D's are a participation in a purchase money mortgage of the Simpson Creek Collieries Co. Notes have been extended to 1951-70. In 1930 the holders of the C/D entered into an agreement with the company whereby they agreed to take interest one half in cash and one half in certificates of indebtedness.

Simpson Creek Collieries Co. We were informed on Apr. 7, 1937, as follows: "Answering your inquiry, it is our understanding that based on the notes of the Simpson Creek Collieries Co., which the Trustee is holding these Participating Certificates have a value of approximately $38 per share, depending entirely upon the notes being paid out in full. Due to the condition of the coal industry it is pretty hard to fix a definite value, but it is our feeling that the above value could be substantially reduced in view of the fact that these notes have been recently refinanced, interest extended, etc. For your further information we wish to advise that the stock in the aggregate of 20,000 shares now outstanding is secured by $772,350 principal amount of 6½% Purchase Money Notes of the Simpson Creek Collieries Co. Each Feb. 1, beginning 1938 to and including 1950, principal amount of $50,000 of the above Purchase Money Notes become due and on Feb. 1, 1951, $57,350 principal amount of notes become due. The above sums are to be pro-rated to the certificate holders of Simpson Creek Coal Company as a payment account of principal on the stock, so that in Feb., 1951, providing all payments on the principal amount of notes are made by the Collieries Company, the holders of the participation certificates of stock will have received $38.6175 per share against the surrender of their stock. For further information we wish to advise that all monies heretofore received account interest on outstanding participation certificates have been disbursed semi-annually on Feb. and Aug. 10 each year.

Smith Products Company. Incorporated in South Dakota on Sept. 29, 1927, and was located at Room 101, 50 Broadway, New York City. Another report stated that the company had offices in 1927 at Room 1612, 50 Broadway. Mr. Thomas D. Smith was Pres. and A. M. Smith was Secy. We found no record of this company in 1929, and therefore believe the company went out of business.

Smith, W. F., Co. Maine charter suspended in 1913.

Snowden, Albert A., & Co., Inc. Incorporated in New York and was located at 149 Broadway, New York City. Mr. W. B. Shelton, an attorney and former officer, located at 16 Liberty St., New York City, informed us on Jan. 7, 1941, that this company was dissolved in 1929 at the time of the panic, and nothing was realized by the stockholders.

Snowden, Albert A., & Company, Inc. Mrs. John Lundie, formerly Mrs. Albert E. Snowden, located at 10 West 50th St., New York City, informed us on Jan. 24, 1941, that Dr. Snowden passed away in Oct., 1927. Later that year, his company was duly dissolved by the State of New York. The assets were nil and the shares of no value.

Solar Refining Co., Lima, Ohio. Merged with the Standard Oil Co. (Ohio). One share of Standard common stock was exchanged for each 3.6 shares of Solar stock or $17 per share in cash. Any outstanding stock should be presented to the Chase National Bank, New York City, for collection.

South Carolina Gas & Electric Co. The First Mortgage 6% Bonds due 1942 received $1,079.46 per $1,000 bond from the New York Trust Company, New York City.

South Carolina Railway Company. First Cons. Mtge. Bonds. The South Carolina Railway Company existed a great many years ago. It was absorbed by the Southern Railroad not long after it was organized. At the time the Southern Railroad took over this company, a representative of the Circuit Court here, went to New York, with an attorney from this city to look after the matter. There all bonds of this company had to be verified and proved. This was done, and all of the proved bonds were paid their pro rata share of the proceeds of the sale of this road, which we believe amounted to about $128 per $1,000. All of the proceeds were disbursed at that time.

South Carolina, State of. In Dec., 1873, the State of South Carolina passed an "Act to Reduce the Volume of the Public Debt," called the "Consolidation Act." This Act declared null and void $5,965,000 Conversion Bonds as having been illegally put on the market, and provided that bonds and stocks for $9,886,627 (being the remainder of the total debt of Oct. 31, 1873) should be funded at 50% of their face value and interest from 1872. Thereupon this $9,886,627 of debt was funded at 50% into new 6% "Green Consols," dated Jan. 1, 1874, due July 1, 1893. Over one-half of the old debt had been funded at 50% into the new 6% "Green Consols," dated Jan. 1, 1874, due July 1, 1893, when in 1877 the question was again raised concerning the validity of certain of the old securities, which resulted in funding all over again under the "Consolidation Act of 1877." Invalidity was discovered to exist to a considerable extent among the "Green Consols." All those therefore wholly valid, and the valid portion of those declared tainted, were exchanged at par with interest to July 1, 1878, for new bonds printed from the same plates as the "Green Consols," but colored "Brown" to avoid confusion with previous issues. With reference to the $13,500 (par) State of South Carolina 6% Consolidation Bonds, due 1893, which you hold, we would suggest that you write to the State Treasurer, Columbia, S. C., requesting information as to whether or not the specific bonds held by you are a part of the valid "Green Consols" or are they exchangeable for the "Brown" Bonds. In writing be sure and give full description of bonds and amounts.

Southern Corporation. The following letter was received from L. A. Peters, for the Liquidating Trustees, Shoreham Building, Wash., D. C., dated Jan. 13, 1939: "I have your letter of Jan. 4th asking for information concerning the remaining assets of Southern Corporation and the probable date of final distribution. It is hoped that the remaining assets of the company will be distributed some time within the next six months. The final distribution is awaiting determination of certain litigation in Wilmington brought by a stockholder owning 100 shares of stock, seeking the appointment of a receiver. The remaining assets of the company for distribution consist of cash which it is hoped will be sufficient to pay a dividend of approximately 20 cents per share and certain stock in The Fortinberry Company (distributors of lock-strip automobile tags) which will be distributed in kind." Example of stock presented for collection: Company made a distribution of $0.85 per share and instead of returning the stock to the original stockholder they gave a receipt for the stock. The Certificate which they returned is stamped showing that $1.15 has been paid making a total of $2.00 per share.

Southern Maryland R. R. The bonds of this company have a decree value of $140.04 per $1,000 bond. The funds were paid by the United States District Court, Baltimore, Md. We understand that the unclaimed funds have been turned over to the United States Treasury. These funds may be recovered on unstamped bonds by making proper application to the above court.

Southern Montana Oil Company (Montana). Charter expired Oct. 30, 1936.

Southern Mutual Investment Co., Inc. On Feb. 26, 1910, the Journal of Commerce stated that $1,600,000 was distributed to claimants against Southern Mutual Investment Co. of Lexington, Ky., as a result of confirmation of report of Receiver J. C. Rogers by the Circuit Court of Lexington. The company had failed in 1907. In June, 1910, $200,000 was distributed. The Fayette Circuit Court at Lexington, Ky., informed us on Oct. 30, 1940, that Mr. James C. Rogers, Receiver for the Southern Mutual Investment Company has been dead over twenty-one years, and before his death his final report was made and approved by the Court, so the court holds no funds whatsoever. The funds were apparently paid to preferred creditors and not stockholders.

Southern National Corporation. We received the following letter from the Bank of New York & Trust Company, 48 Wall St., New York City, dated May 5, 1938. "This is in answer to your letter of April 29, regarding debentures of the Southern National Corporation. The Southern National Corporation filed a certificate of dissolution in the Chancery Court in the State of Delaware on Oct. 24, 1935 and the court subsequently appointed a receiver to liquidate the corporation. Funds permitting liquidating distributions to 15-Year 6% Gold Debenture holders aggregating $393.30 per $1,000 debenture were paid to us as Trustee. Debenture holders were accordingly notified that they should surrender their debentures to us for payment of these distributions."

Southern Pacific Company. Incorporated in Kentucky prior to 1899. We have been informed by the present Southern Pacific Company as follows: "Southern Pacific Company Stock Certificate No. D410 for ten (10) shares, with dividend warrants from 1 to 20 attached have been presented to us for transfer. On account of the shares belonging to an Estate, the transfer is pending, but we have paid the dividend warrants from said certificates numbered from 1 to 20. The shares represented by this certificate are worth the current price of Southern Pacific Company Capital Stock.

Spreckels Commercial Company. We received the following letter from Mr. P. C. Kelley, Vice President of the Security Trust & Savings Bank, San Diego, Cal., dated Nov. 18, 1938. "This Bank was trustee for an issue of $500,000 principal amount Spreckels Commercial Company First Mortgage Serial 6% Gold Bonds dated Feb. 1, 1928. These bonds defaulted in the payment of principal and interest, which was due on Feb. 1, 1931, after $30,000 principal amount of bonds previously matured had been paid. Foreclosure proceedings under the issue were instituted and the properties held as security were sold on Feb. 15, 1932, the net proceeds of the Trustee's Sale resulting in a distribution of $275.88 to holders on each $1,000 bond. All of the bonds outstanding, with the exception of one $500 bond, were surrendered for stamping and payment of proportionate share of proceeds of sale. We have been unable to locate the holder of $500 Bond No. D27, and the Trustee is holding $137.96 for payment to the holder of this bond, payment to be made upon surrender of the bond with Feb. 1, 1931 and seq. coupons attached."

Swan Land & Cattle Company, Ltd. Incorporated in Scotland, and was dissolved following a Return of Final Winding-up Meeting filed on Mar. 10, 1927. The liquidator was Richard Gibson, 14 Melville St., Edinburgh, Scotland. In the Scheme of Arrangements sanctioned by the Court of Session on Mar. 3, 1926, it is stated that a corporation shall be incorporated under the laws of the State of Delaware under the name of the Swan Company. The Swan Company was incorporated in Delaware on Feb. 15, 1926, and is located at 1000 The Rookery, Chicago, Ill., in care of Frank H. Connor, President. Mr. Frank H. Connor, of John Clay & Company, The Rookery, Chicago, Ill., informed us as follows on Aug. 27, 1940: "Replying to your letter of the 23rd inst. I had taken it for granted all the stock of the Swan Land and Cattle Company had been retired as the company was reorganized or liquidated some time about 1924 and a new company known as the Swan Company was organized. If you care to write me further and give me the name of the owner of the stock, the date of its issue and the number of the certificate, I will look into it further."

Swan Land & Cattle Company, Ltd. The following letter dated Sept. 10, 1940, was received from Mr. R. Gibson, of the firm of Pringle & Clay, 7, Albyn Place, Edinburgh, 2, Scotland: "In reply to your letter of 21st August I would say that the stock certificate you apparently hold can be of no value. The Swan Land & Cattle Co., Ltd., was wound up in 1926 and I acted as liquidator. The Estate of Louer as mentioned by you I cannot recollect ever having heard of, and I have just telephoned the company's former bookkeeper who kept the registers of stockholders and he has no recollection of it either. In the early days of the company some holdings were forfeited and cancelled because of non-payment of calls. The holding you are concerned with may be one of these. Title was forthcoming of all the stock outstanding in 1926 except one small holding of a deceased Swiss shareholder whose representatives refused or delayed to complete a title after many reminders in consequence of which the proceeds of his stock was handed over by me to the King's & Lord's Treasurer's Remembrancer representing the Crown as ultimus haeres."

Texas American Syndicate. No value found.

Texas-Atlantic Oil Company. Value of Stock dated 1920. Organized in 1920 and held leases on 10,000 acres in Texas. The company did produce about 22,000 barrels every 3 months, and in 1921 it dropped to 5,000 barrels per quarter. Since May 1, 1920, until some time in 1921 the company paid dividends at the rate of 2% per month. Apparently the wells ran dry for the company was out of business the latter part of 1921. It is our opinion that the leases were forfeited and that the shares have no present value. The Petroleum Inspector of Texas, at Austin. Texas, apparently could confirm this.

Texas Co. (Texas). A final liquidating dividend of $52 per share was paid to stockholders who did not exchange their stock into that of the Texas Corp. (Del.), which was organized to take over the assets of this company.

Toledo & Ohio Central Extension R.R. Value of First Gen. Mortgage 5% Bonds due 1911. The New York Central System, located at 466 Lexington Ave., New York City, informed us as follows on Apr. 19, 1940: "Pursuant to an old agreement with the holders of The Toledo & Ohio Central Extension Railroad Company 5% First Mortgage Bonds due Nov. 1, 1938, Nos. 1 to 300, inclusive. The Toledo & Ohio Central Railway Company, whose properties were subsequently leased to The New York Central Railroad Company has (conditioned upon coupons appertaining to 256 of such bonds being presented), purchased said coupons as they became due, at the rate of $15 each, but neither the Toledo & Ohio Central nor its lessee is in any way responsible for the principal, and the said bonds are not an obligation of either company. From available information we find that the properties of the Toledo & Ohio Central Extension Railroad Company were sold under proceedings to foreclose its mortgages and in 1900 were conveyed to the Marietta, Columbus and Cleveland Railroad Company. In 1916 such properties were again sold at Judicial sale and were bid in in the interest of the Black Diamond Coal Company, which company conveyed that part of the road from Palos to the Black Diamond Mine (Lathrop, Ohio), some sixteen miles, to Federal Valley Railway Company. The rest of the road was dismantled. We are not aware of any distribution and know of no source from which the holders of the bonds described above could expect to realize anything on the principal at maturity." From our own records we found that the First Mortgage 5% Bonds due 1938 only received about 19% on the principal of their bonds as a result of foreclosure sale, leaving no equity for the 5% Bonds due 1911 which are without value. Unstamped First 5% Bonds due 1938 should be presented to the Irving Trust Company of New York City for collection.

Toledo, Peoria & Western Ry. Farmers Loan & Trust Company C/D for First Mortgage 4% Bonds deposited under bondholders agreement dated Mar. 22, 1927, were notified that a partial distribution of the proceeds of sale in foreclosure received from the Special Master pursuant to order of the U. S. District Court, for the Southern District of Illinois, amounted to $120 on each $1,000 certificate. Present C/D to the City Bank Farmers Trust Company, New York City.

Toledo, St. Louis & Kansas City, R. R. Our records indicate that the Continental Trust Company of New York City, now New York Trust Company, made the payment on the C/D for bonds of this company. The Central Trust Company of New York City, we believe, made the payments on the actual bonds. The stock was assessed, and therefore believe it has no present value. First mortgage bonds represented by Certificate of Deposit have a decree value of $1,304.04 per $1,000 certificate.

Toledo & Western R. R. First mortgage bonds have a decree value of $250 per $1,000 bond.

Tolima, Department of, Colombia. Press report dated Oct. 31, 1940. South American courts have just rendered a favorable judgment in the suit by the Marine Midland Trust Co. of New York to enforce the rights of holders of the 7% External Bonds of the Department of Tolima, Colombia, for which the bank acts as successor fiscal agent. Its ability to announce a decision in favor of the bondholders is unusual, according to a statement issued by the bank last night, since, in spite of the widespread defaults on South American dollar bonds, few suits have been instituted against the various governmental and other debtors. The Department of Tolima Dollar Bonds, now outstanding in the principal amount of $2,112,000, have been in default since Nov. 1, 1931. Each $1,000 bond has an accumulation of unpaid coupons of $603 to Nov. 1, 1940. The total outstanding includes more than $820,000 overdue sinking fund principal installments to Nov. 1 and carries $1,273,536 overdue coupons, or a total overdue for principal and interest of $3,385,536.

Reason for Default

When the Tolima Bonds were issued, the department, which has a political status in the Republic of Colombia similar to that of a State, agreed to make monthly deposits in Colombia from its taxes on liquors, slaughter houses, tobacco and consumption of foreign liquors, which deposits were to be transferred to the fiscal agent in New York to make the service payments for sinking fund and interest on the loan. It stopped making these deposits in Dec., 1931, and the department excused its failure to make deposits by invoking the moratorium on foreign debt payments of the Government of Colombia, claiming among other things that even if the deposits were made they could not be transferred to New York for the service payments.

As successor fiscal agent, Marine Midland Trust Co., after failure of all friendly negotiations, began a suit in the Colombian courts in 1938 to secure an order forcing the department to deposit pledged revenues to be held as security for the benefit of the bonds, until payment could be made on the bonds or a satisfactory settlement arranged. After an unfavorable decision in the lower courts, the Supreme Court of Justice handed down a decision Oct. 14, 1940, ordering the department to make its deposits, as from Dec., 1931 to July, 1938, when suit was begun.

The total of the deposits ordered would be $1,593,333 in United States currency, but the court converted this amount into Colombian currency at the parity rate in 1927 when the bonds were issued, for an aggregate of 1,637,150 pesos and stated that this amount of Colombian currency was to be considered in discharge of the service obligation due in dollars. Marine Midland has already filed petition for reconsideration of this latter point, and expects the department also to apply for reconsideration.

Arrangements looking toward enforcement of the judgment have not yet been worked out and ultimate collections will probably be in Colombia currency which will be blocked in Colombia and unavailable for transfer to New York for the benefit of the bondholders, except as further negotiations to this end are successfully undertaken.

The bank stated that this new decision may be considered a tribute to the high integrity of the Colombian courts and that it appears to be an outstanding step in the effort of American creditors to secure payments on Colombian dollar debts. The bank also expressed the opinion that the steps which will be taken to enforce the judgment should have a material influence in accelerating negotiations for settlement of Colombian departmental debt.

Tradesmens National Bank of The City of New York. The Comptroller of The Currency of the United States informed us as follows on Dec. 9, 1937: "Reference is made to your letter of Dec. 6, wherein request is made for information relative to certain shares of stock of The Tradesmens National Bank of the City of New York (Charter No. 905), registered in the names of DeWitt C. Falls and Georgiana F. Falls. You are advised in reply that according to the records of this office the bank referred to was placed in voluntary liquidation by its shareholders on Jan. 13, 1899. It may be stated that at the time this association was placed in voluntary liquidation no reports of any kind showing the progress made in the liquidation were required to be filed with this office, however, under date of Mar. 24, 1913, Mr. D. H. Bates, who it appears was President of the liquidating bank and a member of the Liquidating Committee, advised this office that the affairs of the bank had been finally closed and that five dividends had been paid to stockholders aggregating in all 23½%. Mr. Bates' address at that time was 658 Broadway, New York, N. Y."

Trexler Company of America (The). Incorporated in Delaware on Feb. 10, 1919, as the Trexler Rim Compressor Company. On Aug. 16, 1919, the name was changed to the Trexler Company of America. The latter company lost its charter in 1928. Mr. John F. Sinclair, former Pres. of the company, located at 4103 Walnut St., Philadelphia, Pa., informed us on Oct. 12, 1940, as follows: "* * * The Trexler Company of America formerly manufactured and sold automobile accessories. In 1924 the company got into serious financial difficulties owing to the failure of the Huhn (spelling not clear) Bank in Philadelphia. Some two years were spent in trying to save the assets of the company but without success. Consequently the affairs of the company were wound up in accordance with the laws of the Commonwealth of Pennsylvania. The stock of The Trexler Company of America has had no value since 1924."

Tri-Utilities Corporation. Incorporated in Delaware on March 4, 1929, to operate as a public utility holding company. On Aug. 31, 1931, Hugh M. Morris, of Wilmington, Del., was appointed Receiver of the corporation by the United States District Court of Delaware. On March 14, 1932, a plan of reorganization dated Sept. 1, 1931, was abandoned. All the assets were sold with the approval of the Court during 1932. The receivership was wound up early in 1933 and the Receiver was discharged on Jan. 26, 1933. In Feb., 1933, the Chase National Bank, as Trustee for the Conv. Deb. 5% Bonds due 1979, received funds from the Receiver to make a distribution of 30c on each $1,000 bond. This distribution was the first and final liquidating dividend on the remaining assets of the corporation sold Aug. 20, 1932.

Troy & North Carolina Gold Mining Company. Incorporated in New York State in 1866 and was revived in 1936 by Frank E. Tappan, Treas. of the company, located at Attleboro, Mass., in care of the Associated Attleboro Manufacturers, Inc. Mr. Tappan informed us as follows on Aug. 3, 1936: "The company was revived in order that it should be able to pass title to its property in North Carolina. The undersigned, F. E. Tappan, having paid taxes on this property for many years, personally, and having had the responsibility of seeing that no one stole the timber or gold, felt that he should have the property in his own hands to dispose of as seemed best. Therefore the Directors voted to sell the property to him for $1,200. You will realize, of course, that most of this amount was used in defraying state franchise and other taxes in arrears for upwards of 20 years, also attorney's fees so that there will be little to distribute to stockholders. However, there may be something left when the matter is finally closed. If you will furnish me with full particulars regarding the stock you mentioned including proof of ownership, I shall place the name on file for distribution of whatever amounts may be left after all expenses are paid."

Supplementing our previous report, the following letter was received from Ralph C. Estes, an attorney, located at Bronson Bldg., Attleboro, Mass., dated Aug. 13, 1936: "Your letter of the 4th instant to Mr. Frank E. Tappan has been handed to me by Mr. Tappan to answer because I am familiar with the legal affairs of the Troy and North Carolina Gold Mining Company, and he thought I might explain the legal aspect to you better than he can. This company was organized about 1866. Mr. Tappan's father became interested in the company and became the owner of 539 shares out of 707 shares issued. The company became dormant. Back around 1915, there was a lawsuit over the taking of some of the timber from the property, which was won by the company, but damages were entirely used up in legal fees. In 1924 after Mr. Tappan's father died and his stock came to Mr. Frank E. Tappan, they had the opportunity to sell some timber, and we called a meeting of the stockholders. Notice was sent to all stockholders of record to the addresses that were known. The meeting was held in Troy, N. Y., and a vote passed to sell the timber. There was something around $6,000 realized. Mr. Tappan had paid the taxes, salary of treasurer for some time, expenses of looking after the property, and legal fees, which reduced the $6,000 to $1,500. The property was sold for taxes once or twice and he redeemed it. Nothing more was done until there was some talk of the government taking over the property at a price that would realize about $1,200. We then started to have another meeting of the company last year, but found that the company had been dissolved by the State of New York. We succeeded in getting a special Act through the New York Assembly early this year to revive the company, but to do so we had to pay considerable taxes to the State of New York, and then held a meeting at which 549 shares out of 707 were represented. Again all notices were sent to all the stockholders of record to the last addresses known, including Mr. Cluto, and notice was advertised in accordance with New York laws. The meeting was held and it was deemed advisable to get the property into somebody's hands so that it could be disposed of, and Mr. Tappan offered to take it over at the price the government might pay, namely, $1,200 and the stockholders voted to sell it to him. Consequently it has been conveyed to him, and then we have had the company again dissolved. Competent New York legal advice was employed. After paying all expenses, taxes, etc., there is about $1,500 on hand to be divided among the stockholders."

Truro Realty Corporation. Incorporated in New York State in 1925 and lost its charter in 1938. Mr. Sidney B. Henshaw, an attorney, and former officer of the company, located at 14 Wall St., New York City, informed us on Oct. 15, 1940, that the company owned the Hotel Duane, located at Madison Ave., between 37th and 38th Sts., New York City. The property was appraised at $1,000,000 and was subject to a First Mortgage of $550,000, held by the Seamen's Bank for Savings. When the hotel business went bad and real estate values dropped, the hotel failed. The property was foreclosed by the Seaman's Bank in 1932. There was nothing realized for the Notes or stock, which are entirely worthless.

Tuxedo Park, Inc. The Mechanics National Bank of Trenton, N. J., now known as the First-Mechanics National Bank, informed us in 1927 that this was a land development and had paid the stockholders $60 per share in liquidation. At that time the land had practically all been disposed of and that there would probably be a further liquidating dividend of from $45 to $50 per share.

Twenty East Del. Apt. The Chicago Title & Trust Co. of Chicago, Ill., made a payment on the First Mortgage 6½% Bonds due 1928-36.

Twenty-Eighth & Twenty-Ninth Street Crosstown R. R. The 1st Mortgage 5% Bonds due 1996 have a decree value of $28.16 per $1,000 bond. Collect on unstamped bonds from the Central Hanover Bank & Trust Company, New York City. We understand that the C/D for these bonds issued by the above bank received from 20 to 21% of their face value.

Twenty-First Street & Fifth Avenue Corp. Mr. Samuel E. Jacobs, located at 80 Fifth Ave., New York City, informed us in 1926 that the stock of this company had a fair value of $100 per share as of Mar. 1, 1926. He also stated that the final distribution of the Broadway-Flushing Co. was made on Dec. 11, 1925. The final distribution of the Hudson Realty Co. was made on Jan. 23, 1926.

25 West 14th Street Corporation. The First Leasehold Mortgage 6½% Serial Gold Loan Bonds dated Feb. 1, 1928, due serially to Feb. 1, 1941, with Feb. 1, 1931 coupon attached, are redeemable at the Bank of Manhattan Company of New York City at the rate of $.0418 per $1.00 face amount of bonds.

2480 Broadway Corporation. Value of $100 First Mortgage 6½% Bond. The Continental Bank & Trust Company of New York City, Trustee for the above issue of bonds, informed me as follows on Dec. 15, 1939: "The property securing these bonds was sold at foreclosure and holders of undeposited bonds are entitled to receive their pro rata share of the net proceeds of the sale plus their pro rata share of funds on deposit with the Trustee. Distributions were made at the rate of $681.64 per $1,000 bond and $2.00 per $1,000 bond.

29th Street Towers. See Number 220 West 29th Street Realty Corporation.

2100 Walnut Street Company. Value of C/D representing $100 6½% Bond. Property was acquired by Walnut Apartments Corporation in Nov. 1936. In Nov. 1937 funds were available at the Continental Bank & Trust Company of New York City to make a distribution to depositors of $47 per $100 bond. Non-depositors received $39.09 per $100 bond. The Continental Bank & Trust Company of New York City, Trustee for the above bond issue, informed me on Dec. 15, 1939, that the decedent collected the distribution of $47 on Dec. 15, 1937. Hanson & Hanson, brokers of New York City, informed me that the stamped certificates were worth 8 flat about the date of death. Therefore, I submit 8 flat or $8.00 as a fair value for the C/D representing a $100 bond as of Aug. 24, 1939, the date of the decedent's death.

23-24 Corporation. Reorganized as London Terrace, Inc. The First & General 6% Bonds were exchanged par for par in new bonds and 10 shares of new common stock for each $1,000 bond. Holders of Junior Mortgage Bonds received one share of new preferred and one share of new common stock for each $1,000 bond. Holders of valid mechanics' liens received for each $1,500 of claims, one share of new preferred stock. We found no provisions for any securities junior to the above. The new company is located at 435 West 23rd St., New York City. We believe that Mr. Robert LeRoy, of 14 Wall St., New York City, is familiar with the reorganization.

Union Bond & Mortgage Company. Incorporated in New Jersey on May 26, 1925, and according to the State records, its principal office is located at 35 Park Pl., Morristown, N. J. A letter addressed to the company at this address was returned. The officers are as follows: Carroll W. Johnson, Pres., Madison, N. J.; Bruce Berckmans, V.-Pres., Morristown, N. J.; William J. McNish, Secy., Bernardsville, N. J. According to our findings, Mr. Carroll W. Johnson is now located at Monterey, Mass. Mr. Richard Hardie Thiele, Trustee, is located at 17 Academy St., Newark, N. J. Mr. Thiele informed us on Oct. 31, 1940, that at the time of the last audit which was made as of May 31, 1940, the book value of the outstanding stock of the company was fixed at $76.67, based upon the values shown on the balance sheet.

Union Bridge Co. of Pittsburgh, Pa. The Court of Common Pleas of Allegheny Co., Pa., instructed Howe Nimick, Trustee for Bondholders, to distribute the funds held by him to bondholders who had presented their bonds before March 11, 1933. The unclaimed funds were probably paid into the above Court.

Union Canal Company of Penna. Our records, dated 1903, state that the bonds and stock of this company are absolutely worthless.

Union Club of Troy, Inc. 5% Series "A" Bonds due 1934. The Manufacturers National Bank of Troy, N. Y., informed us as follows on March 3, 1941: "Replying to your letter of March 1 regarding bonds of the Union Club of Troy, Inc., we have made inquiry of the Treas. of the Club, who states that these bonds are Debentures having no value, but that if the inquiry is for the purpose of settling an estate, he will pay $1.00 per lot.

Union Discount Co. (New York). 25% paid in liquidation on the 3-Year Notes.

Union Dye & Chemical Corporation. We received the following letter from the Chase National Bank of the City of New York, located at 11 Broad St., dated Feb. 26, 1938, and signed by Paul C. Beardslee, Asst. Trust Officer. "Receipt is acknowledged of your letter dated Feb. 24, 1938 and from the information contained therein we assume that your client holds one of the Union Dye & Chemical Corporation Five-Year 6% Adjustment Mortgage Bonds due June 1, 1923, issued under above mortgage. According to our records as Successor Trustee, the property which had been subject to the lien of the above mortgage was sold in foreclosure proceedings on Sept. 12, 1921; the sale was confirmed by a Decree of Confirmation of Sale entered in the Chancery Court at Kingsport, Tennesee on Sept. 19, 1921; the amount received was not sufficient to pay in full the holders of the Union Dye & Chemical Corporation's Prior Lien Notes, so that nothing remained from the proceeds of the foreclosure sale for the holders of Union Dye & Chemical Corporation Adjustment Mortgage Bonds. Our records do not show that the corporation deposited any monies for the payment of coupons from its Adjustment Mortgage Bonds. In case you might be interested, enclosed for your information is a copy of the Notice of Final Distribution dated Dec. 15, 1921, addressed to the holders of the Three-Year 7% Prior Lien Notes of said corporation." To the Holders of the Three-Year 7% Prior Lien Notes of Union Dye & Chemical Corporation dated Aug. 1st, 1918, and Scrip for said Notes. Notice of Final Distribution. Pursuant to Article VII of the Decree of Confirmation of Sales, entered in the Chancery Court at Kingsport, Tenn., Sept. 19, 1921, and supplemental orders entered Nov. 19, 1921, in the cause pending in that Court entitled The Equitable Trust Company of New York and Lyman Rhoades, as Trustees, complainants, V. Union Dye & Chemical Corporation, defendant, the undersigned is ready to make final distributions of the funds arising for this suit which was brought for the foreclosure of the Mortgage of the Union Dye & Chemical Corporation, dated Aug. 1, 1911, and the collection of the debt due. By Supplemental Order entered Nov. 19, 1921, the principal amount of Three-Year 7% Prior Lien Notes found to be outstanding under the mortgage is $597,661.49 on account of which the total amount distributable including the distribution referred to in our letter of Sept. 28, 1921, is $198,374.64 or at the rate of $331.91 on account of each $1,000 principal amount of notes. You are therefore notified and requested forthwith to present the notes bearing Aug. 1, 1921 coupons, and Note Scrip held by you at the office of the undersigned, 37 Wall St., New York, N. Y., and receive the amount distributable thereon upon such Notes and Scrip, to wit: the sum of $60.49 for each $1,000 principal amount of Notes and Scrip if not already received (this being the amount we notified you by letter dated Sept. 28, 1921 that we were ready to distribute) and the further sum of $271.42 for each $1,000 principal amount of Notes and Scrip. Notes and Scrip will be stamped with a proper legend setting forth payment thereon of the proportionate share of the funds arising in this suit. Upon the presentation of any Note Scrip for appropriate notation thereon, there will also be paid thereon a sum representing interest heretofore deposited by the Union Dye & Chemical Corporation for the payment of interest on notes held against such Scrip. As this Scrip was not interest bearing, the proportionate amount of such interest has never been distributed, but as no further distribution is anticipated, the distribution of this sum will now be made. The amount of interest to be paid is 2½ years at 7% per annum upon the face amount of notes represented by each scrip certificate. Income Tax Ownership Certificate should be furnished for the 2½ years int. rate at 7% to Feb. 1, 1921, to be paid on scrip certificates. New York, Dec. 15, 1921. The Equitable Trust Company of N. Y. As Trustee under a Mortgage dated Aug. 1, 1918, made by the Union Dye & Chemical Corporation for the Equitable Trust Co. of New York and Lyman Rhoades as Trustee.

Union Ferry Company of New York & Brooklyn. The Department of Finance, City of New York, informed us as follows on Mar. 24, 1931: "On Nov. 25, 1921, the Board of Estimate and Apportionment authorized the condemnation of all the land and terminals of the Union Ferry Company of New York & Brooklyn used in connection with the operation of the Atlantic and Hamilton Ave. ferries. Under proceedings instituted title to these properties vested in the City of New York on Jan. 19, 1922, and the City of New York paid to the Union Ferry Company of New York and Brooklyn the sum of $434,833.05 under an award for the Hamilton Ave. property and $1,254,227.91 under an award for the Atlantic Ave. property. In addition there was also paid to the Ferry Company the sum of $350,000 for nine boats purchased from it, the sum total of the awards for the properties and the purchase price of the boats being $2,039,060.96. Any unclaimed funds are probably held by the company located at Brooklyn, N. Y.

Union Gold Mining Company (Colorado). William Floyd, Secretary of the company, located at Colorado Springs, Colorado, reported in 1907 the following stockholders, addresses unknown, who did not receive the final liquidating dividend: David Bachrach, Jas. Beshears, Chas. A. Brooks, W. H. Brown, S. L. Carpenter, W. T. Carrington, Mrs. Lydia G. Choate, Cohig & Fanning, Eliz. Cruise, Vicomte Chas. de Deservilles, L. Vae de Fores, Charles Farnsworth, Chas. A. Hardy, Heinrich Hauffman, H. Hirsch, J. H. Hurvey, Luther Lee Johnson, N. O. Johnson, Jennie T. Kelley, W. F. Kendrick, Mrs. M. A. Kershaw, C. F. Kjellender, Paul Knapp, Wilhelm Kreunnling, Albert Kuhus, Ed. H. Lyons, Wood F. McCorkle, Annie M. McKee, Mrs. A. M. McMillan, Curt Miller, E. M. Nesting, F. L. Pollitz, Louis Rieger, F. B. Rogers, Clark H. Smith, J. M. Smith, Leland S. Smith, Rudolph Von Albertina, Ludwig Freiherr Von Godin, Robert Wetzig.

Union Mills, Inc. (N. Y.). The liquidation of this company was approved in 1931 at which time the preferred stock was retired at $100 per share. The following payments were made to the common stockholders:

Feb, 10, 1931	$10 per share
Nov. 5, 1931	7 " "
Sept. 1, 1932	3 " "
Oct. 8, 1934	1 " "

When the remaining assets of the company are liquidated sufficient may be realized to pay a final liquidating dividend of between 50c and $5.00 per share. However, the best bid in the market for the common stock at this time is 25c per share. (6/23/1936.) The unclaimed dividends are probably held by the Treasurer, P. O. Box, 7, Boston, Mass. A final liquidating dividend of 69c per share was paid on May 11, 1939, bringing total payments to $21.69 per share.

Union National Bank, Youngstown, Ohio. Informed us on May 10, 1941, that they hold unclaimed funds for the following:

Sharon Steel Hoop Co. Series A. Bonds, $500 Interim Certificate, issued 1928; Bonds called Apr., 1936. Also coupons due 1928-36, totaling $597.82.

Union National Corp. Incorporated in Delaware. Reinhardt & Reinhardt, attorneys, located at Equitable Bldg., Wilmington, Del., informed us that this receivership was terminated several years ago after due notice to all stockholders to file their certificates with a master, who was appointed for that purpose; and after the expiration of the time set for filing, distribution was made on the basis of those certificates which had been filed. Reinhardt & Reinhardt, informed us Oct. 20, 1930 that sometime in 1925 a 40% distributive dividend was paid on the preferred stock. In Apr., 1930 a final dividend of $2.80 per share was paid on the preferred stock. We believe that the time to make claim expired about the middle of 1930. As the estate received the 40% dividend the certificates evidently were filed and the claim was approved. After the expiration of the time set for filing, a final distribution was made on the basis of those certificates which had been filed. Apparently the $2.80 dividend was mailed to the holders that filed claim and was not stamped on the stock. We understand that unclaimed dividends due on the stock of this company were turned over to the Court of Chancery, Wilmington, Del., and will be paid upon presentation of the stock.

Union Oil Company of Delaware. Stockholders voted to dissolve the company in Oct., 1922. A dividend of 1½ shares of Shell Union Oil Co. common was given for each share of Union Oil Stock held. The remaining assets were converted into cash and certificates stamped as having accepted A or B Option received .8983c per share in liquidating. The latter payment was made by the Guaranty Trust Co. of New York.

Union Pacific, Denver & Gulf R. R. C/D of Central Trust Company for 4½% bonds were exchangeable at the Central Hanover Bank & Trust Company, New York City, for the following Colorado & Southern R. R. securities for each $1,000 certificate; $650 in First 4% Bonds; $200 of Trust Certificates, for First Preferred Stock; and $150 of Trust Certificates for 2nd Preferred.

Union Pacific R. R. It was reported that the Kansas Pacific Consols with May, 1894 and subsequent coupons attached, received $717.33 per $1000 bond from the Mercantile Trust Company, New York City, now Bankers Trust Company. The other bonds of the Union Pacific Railway Company were also paid by the Bankers Trust Company, stamped on the stock.

Union Pacific Ry. Co. 8% Bonds of 1873 have a decree value. Middle Division Bonds of 1866 with Coupons Nos. 58, 59, and 60, received $1,225.98 per $1,000 bond. First Mortgage Bonds received $1,030 per $1,000 bond. Equipment bonds received $1,013.06 per $1,000 bond.

Union Paving Company. Replying to your communication of Feb. 24, kindly be advised Union Paving Company, incorporated under the laws of Delaware, June 5, 1929, is still in existence and good standing so far as the records in this department show. Following are the names and addresses of this corporation as given on their last annual report, filed Jan. 22, 1940: Pres., J. P. Mack, 2nd, 1227 N. Broad St., Philadelphia, Pa.; V.-Pres., vacancy; Secy.-Treas., Joseph Larkin, Philadelphia, Pa.; Controller, Jos. L. McGlynn, Philadelphia, Pa. The name and address of the resident agent for this corporation within the State of Delaware is The Corporation Trust Company, 100 W. Tenth St., Wilmington, Del. The principal place of business outside the State is at 1227 N. Broad St., Philadelphia, Pa.

Union Paving Company. The above named corporation, a corporation organized under the laws of the State of Delaware, domesticated in North Carolina, Jan. 5, 1922. It withdrew Dec. 12, 1924. The application for withdrawal shows the following officers: J. P. Mack, 2nd V.-Pres., Torresdale, Philadelphia, Pa.; Joseph Larkin, Jr., Secy.

Union Realty Company. $100 Bonds. The Union Realty of Atlanta, Ga., issued bonds of the Union Realty Company on the Thomas Jefferson Hotel of this city. When the Adairs got into trouble, the Thomas Jefferson Hotel, along with others, over the country, found itself in the hands of the Federal Court. We are informed that there was then formed the Jefferson Hotel Holding Company, which completed the hotel and later leased it to the Baker Hotel Corporation. We have also been informed that holders of the Union Realty Company Bonds, if they took advantage of the opportunity to work their salvation out by cooperating with the stockholders' protective committee, would receive dollar for dollar of bonds of the Jefferson Hotel Holding Company. If they failed to do this, however, it appears they will have some 20c on the dollar coming to them from the Federal Court. (12/21/1929.)

Union Safe Deposit & Trust Co. of Delaware. The Maine Casualty Co. and the above company merged in Oct., 1939, to form the Maine Bonding & Casualty Co.

Union Solvents Corporation. We understand that a liquidating dividend was paid on the preferred stock of this company by the Chase National Bank of New York City.

United States Debenture Corporation (N. Y.). Mr. Robert S. Fletcher of 21 East 40th St., New York City, informed us as follows on July 1, 1941: "The United States Debenture Corporation with which I was connected as an officer was organized under New York State law and was dissolved more than 10 years ago. The holder of all of the outstanding preferred stock received upon liquidation all the assets of the said corporation, and such distribution was sufficient to pay only a small part of the total par value of preferred stock issued and outstanding at the time of liquidation."

Union Tobacco Co. Preferred stock received 1.35 shares of Philip Morris & Co., Ltd., and .115 of a share of Tobacco Products Corp. of Del. from the Guaranty Trust Company, New York City. The common stock received 12½c per share from the Chase National Bank, New York City.

Union Tobacco Company. Dissolved 1899. Each $100 par of stock of this company received $170 par value of stock of the American Tobacco Company. Do not confuse this company with a later company of the same name.

Union Traction Co. of Indiana. The receiver deposited funds with the Indiana Trust Company, Indianapolis, Ind., for payment on the following bonds: (1) Union Traction Co. 5% (Ext. 6%), dated July 1, 1899, with Jan. 1, 1925 to July 1, 1930 coupons attached, received $230 per $1,000 bond. $5.07 was deducted for each missing coupon. (2) Indianapolis Northern Traction Co. 5% Bonds, dated July 1, 1899, with Jan. 1, 1925 to July 1, 1930 coupons attached, received $140 per $1,000 bond. $2.69 was deducted for each missing coupon. (3) Indiana Union Traction Co. 5% Bonds dated July 1, 1903 with April 1, 1925 to April 1, 1930 coupons attached, received $171.70 per $1,000 bond. $3.33 was deducted for each missing coupon. (4) Indiana Northern Traction Co. 5% Bonds, dated Oct. 1, 1907 with April 1, 1925 to April 1, 1930 coupons attached received $44 per $1,000 Bond. $0.86 was deducted for each missing coupon. (5) Muncie & Union City Co. 5% Bonds, dated June 30, 1906 with Jan. 1, 1925 to July 1, 1930 coupons attached received $44 per $1,000 bond. $0.85 was deducted for each missing coupon. (6) Indianapolis, New Castle & Eastern Traction Co. 6% Bonds, dated June 1, 1912 with June 1, 1925 to June 1, 1930 coupons attached received $290 per $1,000 bond. $6.54 was deducted for each missing coupon. (7) Muncie, Hartford & Fort Wayne Ry. Co. 5% Bonds, dated Dec. 31, 1904, with Jan. 1, 1925 to July 1, 1930 coupons attached received $290 per $1,000 bond. $5.58 was deducted for each missing coupon. Coupons payable on or before July 1, 1924, of the Union Traction Co. of Indiana on bonds dated July 1, 1899, and of the Indianapolis, Northern Traction Co. should be presented for payment to the Anderson Banking Co. of Anderson, Ind.

We received the following letter addressed to Holders of Bonds and Stocks of the above company, from J. A. Van Osdol, successor to Arthur W. Brady, Receiver of Union Traction Co. of Indiana, 603 Citizens Bank, Bldg., Anderson, Ind., dated

July 19, 1937: "This communication is in answer to numerous inquiries from time to time received from the holders of some of the securities issued by Union Traction Co. of Indiana and some of its underlying or constituent companies. All of the property of Union Traction Co. of Indiana was sold by Arthur W. Brady, its Receiver, under Judgment and decree of the Madison Circuit Court, Indiana, in the case of Westinghouse Electric and Manufacturing Co. vs. Union Traction Co. of Indiana, et al., being Consolidated Civil Cause No. 7202 in said Court. In that action said Receiver petitioned the Court for an order determining the amount, interest and priority of the mortgages and other liens upon assets and property of said Union Traction Co. of Indiana and for an order directing the sale by said Receiver of all the assets and property of said traction company.

"In that action the various underlying and/or constituent companies of said Union Traction Co. of Indiana appeared and answered as to their respective liens and claims against the property and assets of said Union Traction Co. of Indiana, among which were The Indianapolis, New Castle & Eastern Traction Co., The Muncie-Hartford & Fort Wayne Railway Co., The Indianapolis Northern Traction Co., Indiana Northern Traction Co., Muncie and Union City Traction Co. and The Muncie & Portland Traction Co. In this action, said Court, on the 6th day of June, 1930, rendered its judgment fixing the amount and priorities of the several claims therein asserted, and ordered the sale by said Receiver of all of the assets and property of said receivership and ordered the distribution of the proceeds of said sale to the payment and discharge of the obligations, as found and adjudged in said decree. Said property was on the 2nd day of July, 1930, sold by said Receiver, who proceeded to make distribution of the proceeds of said sale as in said judgment and decree provided.

"Said Receiver deposited with the Indiana Trust Co. at Indianapolis, Ind., certain of the proceeds of said sale to be applied to the payment of certain Mortgage Bonds and coupons issued by certain of said underlying or constituent companies, and which had not been before said deposit presented to said Receiver for redemption. Before completing distribution of the proceeds of said sale, certain claims known as 'tort claims' arising out of the operation of said railroad before the appointment of said Receiver and which had been filed in said receivership, were by the lower Court adjudged to be junior to the mortgage indebtedness of said Union Traction Company of Indiana and/or its underlying or constituent companies. From this judgment of the Madison Circuit Court an appeal was taken and it was by the Supreme Court of Indiana, in the case of McCullough, et al. vs. Union Traction Co. of Indiana, et al., reported in 206 Indiana, 585 (186 N. E. 300), reversed and said tort claims were held to be a superior lien to that of the General Mortgage Bonds of said Union Traction Company of Indiana and/or its constituent companies.

"After said sale, the said Arthur W. Brady departed this life and the undersigned was appointed successor Receiver for the purpose only of protecting the receivership against numerous claims and actions for damage then pending and undetermined, included in which class of claims were the so-called 'tort claims' referred to in said Supreme Court decision. After the rendition of said decision by the Supreme Court, the undersigned, as Successor Receiver, notified said Indiana Trust Company to make no further distribution of the cash remaining in its hands and previously deposited there by the said Brady, which funds, by the order and judgment of the Madison Circuit Court were by said Indiana Trust Co. turned back to this Successor Receiver to be held and administered by him in the due administration of his receivership. The aggregate of the tort claims so adjudged is greatly in excess of any funds remaining in the hands of this Successor Receiver. From the foregoing it appears quite obvious that while the judgment of the Supreme Court of Indiana in said cause remains unchanged the bonds and stock of said Union Traction Company of Indiana and its underlying and/or constituent companies, not heretofore redeemed, are of no value."

Union Traction Co. of Santa Cruz. The Wells Fargo Bank & Union Trust Co. of San Francisco, Cal., made a payment of $40 on each $1,000 First Mortgage 5% Bond due 1935.

Union & United Tobacco Co. The First Liquidating Dividend of 7c per share was paid by the company at 44 West 18th St., New York City. The final dividend of 1c per share was paid by the Maryland Trust Company, Baltimore, Md.

Union Waterworks Company. The Central Republic Trust Company, 7 South Dearborn St., Chicago, Ill., informed us as follows on April 19, 1940, regarding the First Lien 15-Year 5½% Bonds: "Replying to your letter of the 18th, please be advised that certain moneys do remain on deposit with the undersigned Receiver on behalf of Central Republic Trust Company, Trustee, applicable to bonds of the above issue. However, remittances from the trusts of Central Republic Trust Company are no longer being made pending the appointment of a successor Trustee to whom all cash balances are to be transferred. Proceedings were filed April 11th to obtain such an appointment and should be consummated in four or five months time. It is suggested that you communicate with the undersigned Receiver at the expiration of said period to determine the party to whom these moneys were transferred."

United States Electric Power Corporation. (Press report dated Apr. 10, 1941.) Victor Emanuel and the financiers in this city associated with him in 1929 in formation of the United States Electric Power Corporation to obtain control of the $1,000,000,000 Standard Gas and Electric Company system have reached a settlement with Henry J. Ripperger, receiver for the former concern, according to an order made by Judge Edwin T. Dickinson of the Circuit Court of Baltimore, Md. Under the settlement, Mr. Emanuel and his associates are to pay $650,000 cash to cover expenses of the suit and debts of United States Electric Power, the balance to be for distribution to the remaining stockholders, with the stipulation that no part of the fund is to go to holders of the company's notes or preferred stock. Mr. Emanuel's group also is to turn over to Mr. Ripperger promissary notes of United States Electric Power having an unpaid balance of $8,378,000 which aggregate more than $10,000 with interest, 90,800 shares of 6% preferred stock with a liquidating value of $9,080,000 and about 2,000,000 shares of common stock of the corporation.

Suits in Various Courts

The receiver, through Percival E. Jackson and Javits & Javits, started suits in Federal Courts in New York, Boston, Delaware and the District of Columbia against the organizers, directors, officers and bankers of United States Electric Power. These included Mr. Emanuel, W. C. Langley & Co., A. C. Allyn & Co., the Bancamerica Blair Corporation, the J. Henry Schroder Banking Corporation, the First Boston Corporation, the Hydro-Electric Securities Corporation, the American General Corporation and the Amerex Holding Corporation. It was alleged that United States Electric Power was organized solely to acquire control of the Standard Gas system so that the defendants might make personal underwriting and other management profits out of subsidiaries of Standard Gas. The receiver's suits claimed that the company never had been intended to serve as an investment trust, as had been represented to the public. He charged further that, for the purpose of retaining underwriting and management profits, the defendants caused United States Electric Power to buy Standard Gas stock at excessively high prices and to pledge all the company's assets, including the Standard Gas stock, for loans which it could not repay.

Banking Operations

The receiver's complaint alleged that a group of New York banks including the Chase National Bank, the Chemical Bank and Trust Company and the Guaranty Trust Company lent United States Electric Power $12,000,000 and took as collateral the common stock of the Standard Power and Light Corporation, which controlled the Standard Gas system. When the market price of that stock depreciated, the complaint continued, Mr. Emanuel and his associates bought in the notes held by the banks and the collateral for about $3,000,000. Mr. Ripperger asked that the notes be cancelled. Under the settlement, Mr. Emanuel and his associates retain control of the common stock of Standard Power, which owns a majority of the common stock of Standard Gas. Leo T. Crowley, President of Standard Gas, recently declared that its common stock was worthless and would be wiped out by a recapitalization plan being prepared.

United States Express Company. Mr. David A. Smith, former president of the company, now associated with the Standard Felt Corporation, located at 114 E. 25th St., New York City, informed us on June 5, 1941, that the company paid $89.50 per share in liquidation, and that all the funds have been paid. The shares are now worthless.

United States Guardian Corp. Incorporated in Delaware on Apr. 26, 1920, and is no longer in existence, having dissolved Feb. 27, 1928. The last Annual Report filed for the year 1927 shows their place of business at 19 W. 44th St., New York City. The resident agent for the corporation was Delaware Charter Guarantee & Trust Co., 900 Market St., Wilmington, Del. Pres., Walter R. Cook, 65 Whittlesey Ave., East Orange, N. J.; V.-Pres., Geo. O. Knapp, 617 Ridgewood Rd., Maplewood, N. J.; Secy, John M. Marks, 75 N. Broadway, Yonkers, N. Y.; Treas., Ignatius F. Tenca, Bay Shore, N. Y.; Directors, Jesse T. Meeker, 10 W. 44th St., New York City; Joseph Sandler, 1440 Broadway, New York City; Hiram C. Bennet, 56 Clinton Ave., Jersey City, N. J.; Henry A. Dixon, Haverstraw, N. Y. Mr. Cook of 67 Whittlesey Ave., East Orange, N. J., son of Walter R. Cook, formerly President of the company, informed us on Aug. 23, 1939, that the company was liquidated about ten years ago, at which time about $40,000 was available for distribution to the stockholders. It is his recollection that all unclaimed liquidating dividends were deposited in the Chancery Court at Wilmington, Del., where said funds may be claimed by registered holders.

United States Light & Heat Corp. Incorporated under the laws of the State of New York and merged with the Automotive Battery Corp., to form the U. S. L. Battery Corp., in Apr., 1927. The preferred shares were exchanged share for share. The U. S. L. Battery Corp. merged with the Electric Auto-Lite Co., in May, 1928. Holders of preferred stock received a certain amount of preferred stock in the Electric Auto-Lite Co.

U. S. Mex Oil Corporation. The 5-Year 8% Coll. Trust Gold Notes with June 1, 1922 and subsequent coupons attached, received $45.60 per $1,000 bond, and $37.86 on each coupon due Dec. 1, 1922, payable at the United States District Court, for the Southern District of New York, New York City.

U. S.-Mexico Oil Co. Organized in 1919 and was located at 142 N. Lawrence St., Wichita, Kans. E. J. Miller, Pres.; G. A. Morgan, V.-Pres.; E. J. Miller, Jr., Secy. The County Clerk and Assessor of Elk Co., Howard, Kans., informed us on Oct. 19, 1940, that the U. S.-Mexico Oil Co. back in 1924 leased 2,000 acres of Frank Divers, in Elk Co. The company drilled a few wells but got nothing and released the land to Mr. Divers. The company then leased some land from J. H. Thomas of Fall River and had two small oil wells on them, but were never paying wells. The wells were abandoned after pumping for a short time. We do not attach any value to the stock.

United States Petroleum Corp. The 5% Coll. S. F. Gold Bonds, due April 2, 1967, with Oct. 2, 1921, and subsequent coupons attached, have a decree value of $1.124 per

United States Reduction & Refining Co. The First Mortgage Bonds have a decree value of $225 per $1,000 bond. Any unclaimed funds are probably held by the United States District Court, at Denver, Col. The Special Master was Wm. V. Hodges, National Bank Bldg., Denver, Col.

United States Shares Corporation. We received the following letter from the Chase National Bank, 11 Broad St., New York City, and signed by William A. Ten Eick, Jr., Asst. Cashier, and dated Nov. 26, 1937: "This is in reply to your letter of Nov. 17th, in which you inquire concerning United States Shares Corporation, with particular reference to distributive payments made by us and also request that we include other information that might be useful to you. The United States Shares Corporation Agreement and Declaration of Trust, dated Jan. 10, 1928, Common Stock Shares A-1 was terminated Oct. 14, 1932. Pursuant thereto, the deposited stock were sold and the proceeds together with cash held by us as Trustee under the agreement became distributable to Certificate holders against surrender of Certificates. Under an agreement, dated May 10, 1932, between United States Shares Corporation and North & South American Corporation, 15 Exchange Pl., Jersey City, N. J., the latter assumed all rights and obligations of the former under the Agreement and Declaration of Trust, dated Jan. 10, 1928. United States Shares Corp. (Maryland Corporation), before the vote of shareholders to dissolve in 1935, acted as distributor of a number of investment trust issues. It is understood that a liquidating dividend has been made on the common shares of the corporation itself and that liquidating payments are being made on several of the relatively long list of trust shares of various series which the company sponsored. Among the issues sponsored and the Trustees of those issues were the following: Bank Stock Trust Shares—Series C 1; United New York Bank Trust Shares—Series C 3; United Insurance Trust Shares—Series F; Bank Stock Trust Shares—Series C 2; United Fixed Shares—Series Y; of which The Continental Bank & Trust Company, New York City, is the Trustee. There was some indication that Investors Sponsors Corporation was acting as successor sponsor company of Series 'F' Certificates, although an inquiry at that office reveals that that function was never assumed. Canadian Bank Stock Trust Shares—Series D, of which the Empire Trust Company, New York City, is the Trustee. United Oil Shares—Series H, of which The Continental Bank & Trust Company, New York City, was the Trustee, later succeeded by The Equitable Trust Company of Baltimore, Md., and later succeeded by the Hudson County National Bank, Jersey City, N. J., which we understand has tendered its resignation, although a successor has not been named. Argosy Associates, Inc., 25 Broadway, New York City, was reported to be successor sponsor of Series 'H' but was not located at that address. It might be noted, for your information, that a Mr. Samuel Hershenstein, 39 Broadway, New York City, is apparently counsel for the Argosy Associates, Inc., and appears to have carried on certain negotiations in connection with the trust shares recently. United Common Trust Shares—Series A, of which the City Bank Farmers Trust Company, New York City, is the Trustee. We trust that the data given will be of some help to you and assure you of our pleasure in being of service."

United States Shares Corporation. Incorporated in New York. The United States Financial Holding Corporation (in liquidation), located at 15 Exchange Pl., Jersey City, N. J., informed us as follows on Dec. 22, 1937: "In reply to your letter of recent date, addressed to Satterlee and Canfield, please be advised that the United States Financial Corporation and United States Financial Holding Corporation were one and the same. The name of United States Shares Corporation, a New York corporation, was changed to United Holding Corporation. The United States Financial Holding Corporation was dissolved on Feb. 27, 1936. At that time a liquidating dividend of $1.20 per share was sent to the stockholders. On Nov. 27, 1937, a further dividend of 2c per share was paid. The United Holding Corporation was dissolved on Sept. 10, 1936. A liquidating dividend plus unpaid accrued dividends was paid on the First Preferred Stock of $147.15 per share. A payment of $2.50 per share was paid on the Second Preferred Stock in 1936 and in 1937 a further dividend of 40c per share was paid.

United States Shares Corp. Pursuant to a final decree entered by the Court of Chancery of New Jersey on May 5, 1938, the Hudson County National Bank, Jersey City, N. J., as Trustee of United Oil Trust Shares, Series H, formerly known as United States Shares Corp.; Key Industry Trust Shares, Series H, was directed to liquidate the trust estate for distribution among the holders of the United Oil Trust Shares. Any unclaimed funds held by the above bank, apparently have been turned over to the Chancery Court at Trenton, N. J. See United Oil Trust Shares (Series H).

United States Shipbuilding Co. The United States Court at Wilmington, Del., informed us as follows on Aug. 18, 1937: "A bill in Equity was filed in the district, July 11, 1903, against U. S. Ship Building Corp. My recollection is that this company owned the old plant of Harlan & Hollingsworth. James Smith, Jr., was appointed Ancillary Receiver, the primary proceeding being in New Jersey. Aug. 8, 1903 a foreclosure bill was filed by the Mercantile Trust Company of New York, asking leave to foreclose a mortgage. Oct. 1, 1903, a like proceeding was instituted by New York Security and Trust Co. The two foreclosure suits were consolidated. A final decree was entered Dec. 3, 1906, under which I believe the bonds received $42.49 from the proceeds of the sale of the property in this district."

The Bankers Trust Co. informed us as follows on Aug. 18, 1937: "Receipt is acknowledged of your letter of Aug. 16, 1937, relative to securities of United States Shipbuilding Company. A circular dated Feb. 4, 1904, to holders of Certificates of Deposit for bonds of this company indicates that there were two classes of bonds: (1) 20-Year 5% Collateral Mortgage Bonds, known as 'Bethlehem Collateral Bonds';

(2) First Mortgage 5% Sinking Fund Gold Bonds Series 'A', dated 1902, due July 1, 1932, issued under First Mortgage of United States Shipbuilding Company, dated Aug. 11, 1902, to Mercantile Trust Company, Trustee.

"We are successor by merger to the Mercantile Trust Company. It appears from this circular that only the above bonds and general claims were entitled to participation under the terms of the Plan and Agreement of Reorganization, dated May 25, 1903. The Committee under this Plan was composed of George R. Sheldon, Chairman; Charles S. Fairchild, John E. Borne, Pliny Fish and Charles W. Wetmore; the City Trust Company of New York was Depositary. The new company formed was Bethlehem Steel Corporation (New Jersey), which was until 1936, the time of its merger with Bethlehem Steel Corp. (Delaware), the holding company for the latter mentioned operating company. In respect to the First Mortgage Bonds, a bill in foreclosure was filed in the United States Circuit Court for the District of New Jersey on July 30, 1903, to cover all properties except those in Delaware and on Aug. 8, 1903, a bill in foreclosure was filed in the United States Circuit Court for the District of Delaware asking foreclosure of Delaware assets. After these foreclosure sales, a deficiency judgment was entered on behalf of the Trustees on April 13, 1905, in the United States Circuit Court for the District of New Jersey. The proceeds were finally ordered paid on presentation of undeposited First Mortgage Bonds as follow:

I. $167.23 per $1,000 bond with July 1, 1903, and subsequent coupons attached less $3.91 per each missing coupon, by the Clerk of the United States Circuit Court for the District of New Jersey, Trenton, N. J., by order of April 22, 1907 (New Jersey foreclosure).

II. $53.35 per $1,000 bond with July 1, 1903, and subsequent coupons attached, by the Clerk of the United States Circuit Court for the District of Delaware, Wilmington, Del., by decree filed Dec. 3, 1906 (Delaware foreclosure).

III. $45.62 per $1,000 bond with July 1, 1903, and subsequent coupons attached less $1.08 per Jan. 1, 1904, or July 1, 1904, coupons missing by Mercantile Trust Company, Trustee, under orders of April 30, 1905, and April 22, 1907 (deficiency judgment).

"We hold funds for the payment of the distribution III noted above. We have no record as to the Trustee of the Collateral Bonds. These may have been junior securities and hence undeposited bonds may not be entitled to distribution. It would appear from the above that securities junior to these issues are without value at the present time."

United States Tube Company. Incorporated in West Virginia, surrendered its charter and reincorporated in New York. The company was located at Station C, Buffalo, N. Y. No trace of this company was found after 1903. It is our opinion that the shares have no value. The United States Tube Company, incorporated in New Jersey, is a subsidiary of the United States Steel Corporation, and any outstanding stock would have a substantial value.

United States Worsted Corporation. The Old Colony Trust Company of Boston, Mass., informed us on May 2, 1938, that they are making the following distributions in respect of each $100 principal amount of 15-Year 6% Debenture Bonds, due 1938: $6.75, June 13, 1930; $4.75, Nov. 1, 1930; $3.70, Dec. 7, 1931; $2.45, July 27, 1932; $2.00, Dec. 19, 1932.

United Steel Co., Canton, Ohio. Acquired by the United Alloy Steel Co., for $16,000,000. Stockholders received $1,066 per share in liquidation.

United Telegram Co. We refer you to Hayden, Stone & Co., 25 Broad St., New York City, regarding the liquidating value of the stock.

United Traction & Electric Co. Providence & Pawtucket Street Ry. issue. The First Mortgage 5% Bonds, due 1933, have a decree value of $239.77 per $1,000 bond and $5.95 for each Interest Warrant. Collect from the Central Hanover Bank & Trust Company, New York City.

United Traction Extension Street Railway Co. The Union Banking & Trust Co., of DuBois, Pa., made a payment on the 5% Bonds, due 1938.

United Water Company. See Provident Trust Company, Philadelphia, Pa.

United Wireless Telegraph Company. The Supreme Judicial and Superior Courts, County of Cumberland, Portland, Me., informed us as follows on Oct. 15, 1940: "Replying to yours of the 14th inst. will say that the only fund in the custody of this court, connected with the United Wireless Telegraph Co., was a fund deposited in 1916 to take care of dividend checks sent out by the Receiver which had not been returned to him through the clearing house. Evidently your client did not deposit his stock and prove his claim or he would have received his proportionate share of the assets when the disposition was made by the Receiver." It would appear from the above that any outstanding shares are now worthless.

United Underwriters Company. Incorporated in New York on Oct. 3, 1902, and was located in New York City. The corporation went out of business in 1907, and was dissolved by Proclamation of the Governor on March 13, 1926. We found no value to the stock and therefore believe the shares are without value.

Universal Liquidating Co., Baltimore, Md. In 1939 liquidating dividends totaled $140 per share.

Universal Mortgage Co., Asheville, N. C. The Union Trust Company of Maryland, Baltimore, Md., made a payment of $15.23 on each $1,000 First Mortgage 6% Series B Bond, due 1931, 1933 and 1938; and $10.53 on each $1,000 First Mortgage 6% Series A Bond, due 1930-47.

Universal Tube Co. Incorporated in Maine and filed its last return in 1922. The charter of the corporation was suspended on Dec. 1, 1923. The Pres. was Henry Newgard, 349 W. Washington St., Chicago, Ill. Letters addressed to Mr. Newgard have not been answered nor returned. Our records indicate that the stock of this company was worth about 1c per share in 1917. In view of the fact that the company went out of business in 1922, it is our opinion that the shares are now worthless.

Upper New York City Water Co. The Manufacturers Trust Co., of New York City, holds funds to make certain payments on the First Mortgage 6% Gold Bonds, due 5/1/1935, with May 1, 1897, and subsequent coupons attached.

Upshur County, Texas, Lease. Mr. Joe H. Jones, Trustee, located at 1120 Kirby Bldg., Dallas, Tex., informed us as follows on May 9, 1941: "This is to advise you that Mrs. A. B. Fichter's interest in the Upshur County, Texas, Lease, is of little value at this time. She purchased a 3/10,000 interest for which she paid $15, and since my appointment as Trustee for the Unitholders in this Lease, she has received 12 10% dividends on her interest. The matter will be closed this year and it is hard to say just what the balance will be that will be due her. However, it will be safe to say that another 10% dividend will be issued in the near future and then as the books are closed whatever funds are available will be issued to the unitholders, which will perhaps be less than the 10% that has been paid each time."

Urado Products Company. Incorporated in Utah, and according to the last report filed in 1938, the company is located at 25 East 2nd South, Room 601, Salt Lake City, Utah. Chester A. Vincent, Pres.; Dorothy N. Vincent, V.-Pres.; Dollie E. Vincent, Secy. Letters addressed to the company have not been answered nor returned. We found no quoted market for the stock.

Urado Products Co. Supplementing our previous report, Mr. C. A. Vincent, Pres. of the company, located at Beason Bldg., Salt Lake City, Utah, informed us as follows on Nov. 25, 1940: "We are in receipt of your recent letter requesting information, in behalf of a client, on the present status of the Urado Products Company. We regret to inform you that the stock of this company has no present value. The incorporators of the Urado Products Co., who were also holders of the voting stock of the company, expended approximately $15,000 in an endeavor to find a market for the oil. Failing in this, they gave their stock to the undersigned, who had been active in the company with them, as a measure of compensation for the time and effort given. Under the new Drug Act, the company is unable to market the oil for medicinal purposes. Due to the remoteness of the property from a railroad and the subsequent heavy transportation charges, we have been unable to market the oil at a price to meet competitive products. Neither is the supply of oil sufficient to attract local refineries. There has been practically no income from the property during the last two years and I have kept up the incorporation tax in the hope some use for the oil might yet develop. So far there has been none.

Utah Land & Copper Company. The bonds of this company received 26½% of their face value as the result of the foreclosure of their property. Unstamped bonds should be presented to the State Street Trust Company, Boston, Mass., for collection.

Utah Southern R. R. Extension Bonds. The above bonds have a decree value of $499.08 per $1,000 unstamped bond, payable at the Guaranty Trust Company, New York City.

Utica, Clinton & Binghamton Railroad Company. On Aug. 30, 1939, the Delaware & Hudson Company commenced foreclosure proceedings against the Utica, Clinton & Binghamton properties as guarantor of the company's $800,000 bonds, which the Delaware & Hudson assumed.

Utilities Power & Light Co. On Jan. 6, 1940, it was reported that on Jan. 2, 1940, the plan of reorganization was confirmed by the Federal Court at Chicago. The assets were transferred to Ogden Corporation.

Utilities Public Service Co. Holders of the Five-Year Conv. Secured Gold Bonds, 6% Series of 1928, and holders of C/D for the bonds are entitled upon surrender to the Huntington National Bank of Columbus, Ohio, to receive common stock of the Associated Public Utilities Corp. (Del.), at the rate of 25 shares for each $500 of bonds or C/D.

Utilities Service Co. See Guaranty Trust Company, New York City.

Uvalde Asphalt Company (Virginia). First Mortgage 5% Bonds, due 1919, stamped to effect that 75% has been paid on principal. Incorporated in West Virginia in 1898 and had an office at One Broadway, New York City in 1910. It was reported in Nov., 1909, that the company was not operating although interest had been paid regularly on the bonds. Mr. W. J. Browne, formerly an officer of the company, now located at 24 Monroe Pl., Brooklyn, N. Y., informed us on Feb. 10, 1937, that the property of this company was sold about 1910-12 and the proceeds divided amongst the bondholders. The Trustee and associates have all passed away. Apparently the 75% was the total amount payable on each bond, and as your bond is stamped as having received this amount, it has no further value.

Valier-Montana Land & Water Co. Value of First Mortgage 6% Series B Bonds due July 1, 1927. We understand that under plan of reorganization dated 1913, these bonds are exchangeable at the Guaranty Trust Co., New York City, for 9 shares of stock of The Valier-Montana Land & Water Co. We suggest that you contact the Guaranty Trust Co., and the company at Valier, Montana, for further information.

Valley Osage Oil Company. The Lawyers Trust Company of New York City holds capital stock of this company which is deliverable at a certain ratio to holders of certificates of deposit of the Continental & Commercial Trust & Savings Bank representing deposit with them of Meridian Petroleum Corporation First Mortgage S. F. 8% Serial Converitble Gold Bonds.

Valparaiso & Northern Railway. The United States District Court at Indianapolis, Ind., made a payment of $4.197 on each $100 First Mortgage 5% Bond due 1929.

Van Blerck Motor Company. Incorporated in Michigan in 1910 and was located at Monroe, Mich. The company was dissolved on July 14, 1923. The following were last named officers: G. W. Vaughan, Monroe, Mich.; George D. Cross, Monroe, Mich.; Hector W. Thomas, Monroe, Mich.; F. B. Adams, Monroe, Mich. The company paid a dividend of 30% of the face value of the stock in 1924. As far as we have been able to ascertain the stockholders received their pro-rata share in liquidation. We found no further value for the stock.

Van Camp Packing Co. 6% Bonds due 1948 have a decree value of $13.50 per $1,000 bond. Deposited bonds received 35c per $100 bond. 8% Bond due 1941 reported to have value. Unstamped bonds should be presented to the Indiana Trust Co., Indianapolis, Ind., for collection.

Vandalia Coal Co. Property sold in Apr., 1926 to the Vandalia Coal Corporation. All First Mortgage Bondholders with the exception of three who are unknown received their stock in the new company. The amount of cash distributable to First Mortgage 6% Bonds due 1930, was $44.71 per $1,000 bond, by the Union Trust Company, Pittsburgh, Pa.

Vanderbilt Newspapers, Inc. Incorporated in Florida, and lost its charter in 1936. Mr. Cornelius Vanderbilt, Jr., located at River side Hotel, Reno, Nev., informed us as follows on Sept. 23rd, 1940: "The company concerning which you write went out of existence in 1928 or 1927. A receiver was appointed but he was killed in an automobile accident some five or six years ago. The attorney for the receivership was John G. Mott, whose offices are in the Citizens Trust and Savings Bank Bldg., Los Angeles, Cal. I am sure he would be able to give you all of the information you desire and if your client holds an original guarantee from me, he is entitled to share in the trust fund which I established for such purpose at that time."

Vanderveer Crossings. 6% 3rd Mortgage Bonds due Apr. 15, 1919. The Title Guarantee & Trust Company, 176 Broadway, New York City, holds certain unclaimed funds for outstanding bonds of the above issue that are unstamped.

Van Noy Inter-State Company of Maine. Incorporated in Maine and filed its last return in 1939, and was dissolved by decree of court on Dec. 27, 1939. The President was L. C. Caldwell; Treas., H. M. Oliver, both of 71 E. Lake St., Chicago, Ill. A letter addressed to the company at its last address in Chicago, was answered by The Interstate Co. of 71 E. Lake St., Chicago, Ill., as follows: "Your letter of Jan. 17, directed to our Treas., Mr. H. M. Oliver, was recently passed to the writer for acknowledgment. There is no company in existence, that we know of, known as the Van Noy Interstate Company of Maine. However, several years ago we had a non-operating subsidiary company incorporated in Maine which has long since been dissolved. It is our desire to find an answer to your present question. Please send us a description of the stock held by your client, giving date of issuance, name of holder, whether Common or Preferred stock and such other particulars as may be available, either from the stock certificate itself, or from your client. It would be better, of course, if you want to trust us with the stock certificate, to send it to us and we will trace its back hsitory and give you such information as we can."

Varuna Spring Water Co. Maine, 1917.

Veeko Process Co. This company is out of existence. The National City Bank, New York City, holds an unclaimed balance of $1,741.15 in the name of this company. Mr. Marvyn Scudder was formerly Trustee. The United States Trust Company, New York City may know who these funds belong to.

Venora Oil & Development Co. (Del.). The $10 par stock has a liquidating value of $2.00 per share. Present unstamped stock to H. N. Whitney & Sons, 49 Wall St., New York City, for collection.

Vermillion Oil Company, 733 U. S. National Bank Bldg., Denver, Col. Reported on May 26, 1940, that the company has been doing all that it could do in the way of development work to make its shares of value. Its present well is being drilled under contract. The present drilling contract is for a maximum depth of 3,000 ft. The well is now more than 2,700 ft. deep with work proceeding daily. There have been several showings of oil and gas but insufficient for a commercial productive well.

Vermont Central Railroad Co. We received the following letter from the First National Bank of Boston, Boston, Mass., dated Oct. 8, 1937. ". . . from information in the files of American Trust Co., which came to us as that bank's successor it appears that the holders of First Mortgage Bonds of Vermont Central Railroad Co., were given 20% of the par value thereof in Preferred stock of Consolidated Railroad Company of Vermont and that the holders of Second Mortgage Bonds were given 10% of the par value thereof in the same stock under a Plan of Reorganization which took place in 1883. So far as we can determine from the records, this settlement was made only to those holders of Vermont Central Railroad Co. bonds who deposited their bonds at that time. It is not possible to determine whether there was a foreclosure dividend, and it appears that the only method of determining would be to search the records in the Chancery Court in Vermont. It is the impression, however, of former officers of the American Trust Co. that there is no foreclosure dividend for the reason that the receivership expenses over a period of many years had dissipated practically the entire value of the security. The American Trust Co. was not the Trustee for these bonds." There was a foreclosure dividend for those who did not take stock. We received the following letter from the Rutland County Clerk's Office, Rutland, Vt., signed by Mr. G. N. Harman, and dated Oct. 21st, 1937: "On Sept. 8, 1868, a decree of the Court of Chancery for the County of Rutland was recorded, in which decree disposition of certain bonds of 'The Rutland & Washington Railroad Co. & al.' are involved. It is a long decree and refers to certain 'lost bonds'. I do not know whether or not this is the matter about which you inquire, but can find nothing else that has to do with the disposition of any bonds. As I understand it, the Vermont Central Railroad was either forerunner or successor of the Rutland & Washington Railroad Co. Perhaps, if I knew to whom this unclaimed bond was issued, I might be able to determine whether or not it was one of the 'lost bonds' indicated in the decree. The final successors and present operator of this railroad is the Rutland Railroad Co., of which the general offices thereof, are located here at the City of Rutland. It might be well to communicate with Edwin W. Lawrence of this city, its general counsel."

Vernon, William J. The Trenton Trust Company of Trenton, N. J., holds $129 to redeem First Mortgage 6% Bonds of $50 each numbered 2428 and 2429.

Versailles Apartments (St. Louis). The American Trust & Safe Deposit Co. of Chicago, Ill., made a payment of $15.50 on each $100 First Mortgage 6½% Bond due 1937.

Vertientes Sugar Co. Under plan of reorganization proposed in 1936 Assented First Mortgage Bondholders received 50 shares of stock in the Vertientes-Camaguey Sugar Co. for each $1,000 bond. Exchange made at Manufacturers Trust Co., New York City.

Vertientes Sugar Co. First Mortgage S. F. 7% Bonds with June 1, 1932, and subsequent coupons attached, are entitled to receive for each $1,000 bond $290.08, with deductions of $7.09 for each missing coupon maturing June 1, 1932, to Dec. 1, 1937, inclusive, etc., for each $500 bond, payable at the National City Bank, New York City.

Vica Co. Common stock has a liquidating value of $8.00 per share.

Victoria Oil Company. Value of 35 Shares of Capital Stock. Incorporated in West Virginia in 1914. No further trace of the company could be found after 1921. In 1927 the company was dissolved by the State of West Virginia. I found no value to the stock and therefore believe the shares were worthless as of Feb. 4, 1940, the date of the decedent's death.

Victory Sparkler & Specialty Co. The Century Trust Co. of Baltimore, Md., made a payment of $136 on each $1,000 First Mortgage 6½% Bond due 1937.

Viking Gasoline Corporation, Kanawha Valley Bldg., Charleston, W. Va. The company informed us as follows on June 25, 1941: "On Aug. 1, 1931, Viking Gasoline Corporation leased its properties to a subsidiary of Columbia Oil & Gasoline Corporation, Viking Distributing Company, with the option to purchase the same for a price of $200,000, and since the extension of that lease on Aug. 1, 1932, has collected $1,000 per month rental for the properties. The taxes, upkeep and all costs of operating the properties are being borne by the lessee company, and Viking Gasoline Corporation has no expenses whatever except federal income tax and West Virginia gross sales tax on its net income. The directors have deemed it advisable to keep this money pending the final consummation of the present arrangement with Viking Distributing Company. Should the properties be returned to Viking Gasoline Corporation and Viking Distributing Company not decide to purchase the same, it would be necessary to have this money as operating capital. I am not prepared to say at this time what the final disposition of this arrangement will be, but suffice it to say that the directors of Viking Gasoline Corporation have deemed the present working arrangement a satisfactory one, inasmuch as the properties have been kept in good condition by the lessee company and the gallonage increased, which, together with the accumulation of the rentals, has made the transaction a favorable one for the company. There are more than 40,000 shares of stock outstanding in the company, and from the bank account referred to above and the original option price, you can get some idea as to the probable value of the stock. We trust this is the information you desire. Yours very truly, C. K. Gilchrist, Treasurer."

Viking Pump Co. (Iowa). $1,225,000 was available for distribution to stockholders.

Village Investing Co., Inc. Succeeded by Lawrence Investing Co. The preferred stock was called at $110 per share. The Bronxville Trust Co., Bronxville, N. Y., acts as paying agent. At last accounts the common stock was receiving $1.60 per share in annual dividends and was worth about $50 per share. The successor company is located at 4 Valley Rd., Bronxville, N. Y.

Vineland Light & Power Company (N. J.). Leased plant to Vineland Gas Company in 1908. The latter company merged in 1910 with the New Jersey Gas Company, which went into receivership in 1920. The property of the latter company was purchased at receivers sale by the New Jersey Gas Corporation, which was merged with the Peoples Gas Company of Glassboro, N. J. The plant of the Vineland Light & Power Company was only leased by these other companies and therefore still belongs to the company. Any outstanding bonds of the company are probably worth par.

Virginia, Commonwealth of. The following securities have not been presented for collection: Old & Unfunded Debt of the Commonwealth of Virginia dated prior to July 1, 1891. Commonwealth of Virginia 3% Bonds dated July 1, 1882 and payable July 1, 1932. Commonwealth of Virginia $2.00-$3.00 Bonds dated July 1, 1891, due July 1, 1991 which were called for payment on Jan. 1, 1937. These are direct obligations of the Commonwealth of Virginia and were subject to funding and payment at the office of the Treasurer of Virginia, Richmond, Va. Virginia Deferred (West Virginia) Certificates dated July 1, 1871, and subsequent. These certificates were exchangeable through the office of the Treasurer of the State of Virginia, Richmond, Va., with the State of West Virginia for cash in accordance with a decree of the Circuit Court of the City of Richmond, dated July, 1920, not at par. The Virginia Deferred (West Virginia) Certificates should have been presented for exchange prior to Jan. 1, 1939.

Virginia, Commonwealth of. Value of Bond No. 2236 for $100 issued 7/1/1871. This bond is fundable at 68.25% of its face value into a Virginia Century Fractional Cft. The coupons attached thereto are valueless except those due in July, 1889, and July, 1890, and Jan. and July, 1891, five coupons of $3.00 each. These coupons are fundable at 75% of their face value. The funding value of the bond and coupons together aggregate $79.90. The fractional certificates may be sold at 70% of their face value or $55.93. The law requires that a commission of 3½% be paid for the funding on the new issue. The new issue being $79.90 would make this funding fee $2.70 (1934).

Virginia, Commonwealth of. Value of Virginia Deferred (W. Virginia) Certificate. Certificate No. 703 for $333.33 is worth at this time $254.16. Certificate No. 728 for $300 is worth $225.06 (1934).

Virginia, Commonwealth of. Value of 6 Deferred Cfts. According to the figures we received, each certificate has a value of $2.07, or a total of $12.44 for the six certificates (1934).

Virginia, Commonwealth of. Deferred (W. Va.) Cft. No. 2478 for $50, dated July 1, 1871, in the name of Thomas W. Ackley. This certificate is convertible into a W. Virginia Fractional Cft. at 91.11% of its face value, $45.55. On this item the court allows a commission of 1% for making the exchange, 46c and 60c for forwarding certificate in W. Virginia for exchange (1934).

Virginia Iron, Coal & Coke Co. The stock has a liquidating value of $9.33 per share. Collect from Harry M. Kurtz, 600 Drexel Bldg., Philadelphia, Pa.

Virginia Lumber Company. Incorporated in Virginia prior to 1903, and as the company had failed to file reports in 1903, when the State Corporation Commission of Virginia was formed, it is assumed that the corporation ceased to do business before 1903. We found no value to the stock and therefore believe the shares are without value.

Vitamins Incorporated. Incorporated in Delaware on July 20, 1929, and is no longer in existence, having filed consent of dissolution on July 7, 1937. President, Frederick Osborn, 123 E. 73rd St., New York City; Treasurer, William H. Frame, Jr., c/o Schieffelin & Co., 16 Cooper Sq., New York City. Mr. Frame informed us on Oct. 24, 1940, that when the company was liquidated a dividend of about 10% was paid to the preferred stockholders. The par value of the preferred stock is $100. The company also has a claim against the government, and if successful will realize an amount that will only pay the preferred stockholders a few cents more per share. In view of the fact that there are no assets available for the common stockholders, we submit the shares as worthless. Any further dividend that may be paid to the preferred stockholders as a result of the government claim, the payments will be made by Mr. William H. Frame, Jr.

Vitebsker Credit Assn., Inc. Incorporated New York in 1923 and was dissolved on Dec. 28, 1930. The attorneys for the company were Strasbourger & Schallek. Mr. Abraham Kantor's office, located at 67 W. 44th St., New York City, informed us that a receiver was appointed for the company and that a distribution was made to the stockholders (1936).

Wabash, Pittsburgh Terminal Railway Co. The First Mortgage 4% Bonds due June 1, 1954, with 6/1/1905 and subsequent coupons attached, have a decree value of $12.65 per $1,000 unstamped bond plus $2.07 for coupons. The Bankers Trust Company, New York City, paid $4.61 per $1,000 bond, and the United States District Court at Pittsburgh, Pa., made the other payment of $8.04. The Second Mortgage 4% Bonds received $1.00 per $1,000 bond from the Chase National Bank, New York City.

Wabash, Pittsburgh Terminal Railway Company. The following letter dated Aug. 13, 1940, was received from the Central Hanover Bank & Trust Company, New York City, regarding the above company. "We acknowledge your letter dated Aug. 9th enclosing Certificates of Interest issued by the Central Trust Company of New York as depositary, Nos. 152 Series A for $280 par value First Preferred Stock; 152 Series B for $2,100 par value Second Preferred Stock, and 160 Series C for $3,900 par value Common Stock of The Wheeling and Lake Erie Railroad Company, which you sent to us for the purpose of determining their value. As you are no doubt aware, the above Certificates of Interest were issued pursuant to the Reorganization Plan and Agreement of The Wabash, Pittsburgh Terminal Railway Company dated June 25, 1915, as amended. Subsequent to this Plan and Agreement of Reorganization, The Wheeling and Lake Erie Railroad Company was itself reorganized. In order for holders of Certificates of Interest to participate in the reorganization of the Wheeling Company, they were required to make a payment at the rate of $27 for each share of stock specified in the respective Certificates. This privilege, however, terminated on Dec. 8, 1916, and we regret to inform you that Certificates of Interest which do not carry endorsements indicating that the assessment was paid are of no present value. Accordingly, we are returning herewith said Certificates of Interest, and you may dispose of them as you see fit."

Wabash R. R. First Ref. & Extension Bonds have a decree value of $33.1526 per $1,000 bond. For each $1,000 Receiver's Certificate maturing Aug. 1, 1915 received $1,016.16⅔. The First Mortgage Bonds and Receivers Certificates were paid their pro rata share of the proceeds of the sale at the Chase National Bank, New York City.

Wabash Railway Company. Norman B. Pitcairn and Frank C. Nicodemus, Jr., receivers of the Wabash Railway Company, have filed with the United States District Court at St. Louis a revised plan of reorganization which would reduce the total capitalization of the company from $325,269,911 to $160,597,835 and would cut fixed charges from $7,433,443 to $3,753,213, including an improvement fund requirement of $1,000,000 annually. Including contingent interest, sinking fund requirements and preferred dividends, annual charges would be reduced from $11,026,603 existing on Jan. 1, 1940, to $7,388,917 under the revised plan. Present holders of common stock would be permitted to exchange their stock on the basis of one share of present common for one-eighth of a share of new common and $7 in new 50-Year Income Bonds, Series B, upon the payment of an assessment of $7.00. It is estimated that full payment of this assessment would contribute $4,742,227 of new money to finance the plan. The Pennsylvania Railroad holds 362,900 shares of common stock and 312,900 shares of preferred A stock of the Wabash Railway. Reorganization expenses are estimated by the receivers to be approximately $2,000,000 and the additional $2,000,000 is needed as a first payment on new equipment. Issues which would remain undisturbed under the plan include: $9,150,000 of Equipment Trust Certificates, $2,085,000 of the Wabash-St. Charles Bridge Company First Mortgage 4% Bonds and $150,000 of Wabash-Hannibal Bridge Company First Mortgage 3½% Bonds. The Reconstruction Finance Corporation would receive in payment for equipment trust certificates now held, $16,394,583 in new 25-Year 3% First Mortgage Bonds. An additional $4,491,411 of Series B Equipment Trust Certificates held by banks would be exchanged for a like amount of Serial Collateral 2% Notes secured by the same collateral now securing the Series A and Series B Equipment Trust Certificates. Capitalization of the new company would consist of: $76,389,524 of fixed interest debt; $38,207,975 of contingent interest debt, $45,526,896 of preferred stock and $473,440 of no par common stock with a stated value of $1.00 per share.

Wachovia Bank & Trust Company, Winston-Salem, N. C. Informed us on Apr. 8, 1941, that they hold unclaimed funds for the following issue.

Realty Bond Company. First Mortgage 6% Bonds dated Mar. 1, 1926. The property securing the above bond issue was sold at public auction under authority of the Court and the funds placed in our hands as Trustees to pay the bondholders pro rata. As yet all of the bonds have not been presented. Unstamped bonds should be presented for collection.

Walker Vehicle Co. The Continental & Commercial Trust & Savings Bank of Chicago, Ill., made a payment of 45.34% on each $1,000 5½% Bond due 1927-36.

Wamsutta Club, New Bedford, Mass. Value of $300 of Second Mortgage Bonds dated 1924 and due 1964 with July 15, 1933 and subsequent coupons attached. Letters addressed to the Wamsutta Club have not been answered nor returned. Tripp & Taber, investment bankers, located at Merchants National Bank Building, New Bedford, Mass., informed me on June 10, 1940, that there is no market value to the Second Mortgage Bonds of this Club. They have been unable to get any bid on these bonds for a long time. In view of the fact that the interest is in default and that the bonds have no market value I do not believe the bonds had more than a nominal value as of the date of death. Therefore, I submit 1 flat or $3.00 as a fair value for $300 of bonds as of Jan. 22, 1940, the date of the decedent's death.

Warwick Iron & Steel Co. Stock liquidated at $1.09½ per share. The dividend was paid by the Real Estate Land Title & Trust Company, Philadelphia, Pa.

Washington, Alexandria & Mt. Vernon Ry. The Real Estate Trust Co. of Philadelphia, Pa., made payments of $113.43 and $13.65 on each $1,000 First Mortgage 5% Bond due 1955, and $52.50 on each $1,000 C/D representing these bonds.

Washington Company. The Union Trust Co., of Indianapolis, Ind., made payments on the First Mortgage 5½% Bonds, No. 2, due 1936-7-8.

Washington Farm Lands Company. Value of $1,500 of First Mortgage Series "B" Second Lien Bonds due 1923 with June 1, 1915, and subsequent coupons attached. The Guaranty Trust Company of New York City, informed me on June 4, 1940, that a default occurred in the payment of interest coupons due in Dec., 1914, on the above bonds. Subsequently, in Nov., 1915, a petition in bankruptcy was filed, and after considerable delay, pursuant to a Court Order, the mortgaged property was finally sold in 1924 for the sum of $12,000. After payment of taxes and expenses of the bankruptcy proceedings, nothing was left for the bondholders. Therefore I submit the bonds as worthless as of Jan. 22, 1940, the date of the decedent's death.

Washington, Idaho Water, Light & Power Co. The First Mortgage 6% Bonds represented by C/D have a decree value of 85% of their face value payable at the Chase National Bank, New York City.

West 43rd Street Building Corporation. Incorporated in Illinois on Nov. 21, 1932, with an authorized capitalization of 2,500 shares of no par stock. The corporation is in good standing according to the report filed on Feb. 9, 1940. Mr. A. F. Beringer, of 115 Broadway, New York City, is Pres. Mr. Beringer is also an officer of P. W. Brooks & Co., Inc. The company owns certain land on West 43rd St., Chicago, Ill. There are no bonds outstanding but the company is in arrears for taxes due on the land. At the present time the taxes amount to more than the market value of the land. The shares, therefore, have no value at this time.

West India Improvement Company. Regarding the 4% 10-Year Bonds of the above-named company, issued in 1889, the Central Trust Company of New York now the Central Union Trust Company of New York paid 3 dividends on these bonds, one, $40 per bond, a second of $163 per bond, and a last and final dividend of $132 on each bond. The distribution of this last dividend was brought about by the sale of unallotted lands. 3,677 acres in Jamaica, which sale netted the Trustee $11,502.82. Trustee also inscribed stock at 88½, producing a net sum of $100,872.39.

O. Muhlfeld, L. W. Stoddard, Thomas White, all of New York City. We received the following letter from John A. McKenna, 50 Church St., New York City, dated April 21, 1939: "I have your letter of April 17, 1939, inquiring with reference to the present status of White Oil Corporation and the value of its stock, shares of which are owned by one of your clients. Please be advised that pursuant to Plan and Agreement for the Readjustment and Reorganization of White Oil Corporation, dated Sept. 15, 1923, a new corporation was formed by the name of United Central Oil Corporation, to which latter corporation the property and assets of White Oil Corporation were conveyed. The holders of common stock of White Oil Corporation were entitled to receive one (1) share of common stock of United Central Oil Corporation in exchange for each five (5) shares of common stock of White Oil Corporation. If your client was a registered holder of common stock of White Oil Corporation on or about Sept. 15, 1923, he should have received copy of printed circular letter dated Sept. 15, 1923, which was addressed to the stockholders of White Oil Corporation, informing the said stockholders as to the provisions of the plan for readjustment and reorganization, as aforesaid. The United Central Oil Corporation was incorporated under the laws of the State of Delaware on Dec. 24, 1923. An amendment was made to the certificate of incorporation of United Central Oil Corporation on May 13, 1925, changing the corporate title from United Central Oil Corporation to Crown Central Petroleum Corporation. Shares of common stock of Crown Central Petroleum Corporation were issuable in exchange for shares of common stock of United Central Oil Corporation on a share for share basis. The present address of the Crown Central Petroleum Corporation is American Building, Baltimore, Md., and we would suggest that you communicate with Mr. James T. Bowles, Secretary, at said address, with reference to any corporate changes subsequent to May, 1925, and as to the present status of your client's stockholdings in the White Oil Corporation." See report on Crown Central Petroleum Corp. for basis of exchange of stock. The new stock is listed on the New York Curb. Send White stock to the Chase National Bank, New York City, for exchange.

Wilcox & White Company. Incorporated in Connecticut and was legislated out of existence on July 3, 1924. The Home Trust Company, of Meriden, Conn., where the Wilcox & White Company was located, informed us on Dec. 11, 1940, as follows: "From inquiries made, it would appear that the preferred stock of this company was guaranteed by The F. G. Smith Company, who subsequently became insolvent, and it is our understanding that the preferred stockholders of the Wilcox & White Company shared in the bankrupt estate as creditors. We do not know the amount of the liquidating dividend which the creditors of the Smith Company received, but it is our opinion that if no claim was entered at the time of the Smith bankruptcy, any individual now holding a certificate for preferred stock of the Wilcox & White Company would find same to be worthless."

Willys-Overland Co. Went into receivership on Feb. 15, 1933. On Sept. 5, 1936, it was reported that the reorganization plan had been approved by the court. Judge Hahn ruled that the common and preferred stockholders in the old company are to have no rights in the new company (Willys-Overland Motors, Inc.) unless they exercise their stock subscription rights provided for in the reorganization.

Willys-Overland Co. Under plan approved in 1936, assets were acquired by Willys-Overland Motors, Inc., and Willys Real Estate Realization Corp.

Willys-Overland Co. Plan dated July 25, 1936, 6½% Bonds to receive 70 shares of 6% Preferred Stock of Willys-Overland Motors, Inc., and 70 shares of common, or 210 shares of common stock for each $1,000 bond, in addition to the $700 cash offered in an agreement dated Aug. 15, 1935.

Wilmar Oil Company, Inc. Incorporated in Delaware on Dec. 4, 1924, and filed Consent of Dissolution on Dec. 21, 1925. Mr. Horace N. Taylor, former secretary of the company, and a partner of the law firm Bleakley, Platt & Walker, located at 120 Broadway, New York City, informed us on Nov. 26, 1940, that the stock of the company has no value. Mr. Livingston Platt, president of the company, is also a member of the above mentioned law firm.

Wilmington Auto Company Building. See Equitable Trust Company, Wilmington, Del.

Wilmington & Reading Railroad Co. On page 90 of the Commercial & Financial Chronicle dated Jan. 27, 1877, it states that this company was reorganized as the Wilmington & Northern Railroad. The capital stock of the new company was fixed at $1,500,000, the amount of the First Mortgage Bonds, which were exchanged on a par for par basis, according to the Circuit Court of U. S. for the Eastern District of Pennsylvania. The Wilmington and Northern was subsequently reorganized as the Philadelphia & Reading. There was no provision made for the Second Mortgage Bonds, which in our opinion are without value.

Wilmington Water & Light Co. (Ohio). The Provident Savings Bank & Trust Co., of Cincinnati, Ohio, has funds on deposit to pay interest on certain coupons or bonds that have not been presented for collection.

Wilson & Company, Inc. See City Bank Farmers Trust Company, New York City.

Wilson Distilling Co. See Distillers Corp., Seagrams, Ltd.

Wilsonite Corporation, Allenwood, N. J. Incorporated in New Jersey and went under 77B in 1938. In the reorganization each 10 shares of old stock received one share of the new company, Wilsonite Products, Inc. Leigh Chandler & Co., Inc., brokers, 100 Broadway, New York City, informed us on Jan. 25, 1941, that the new stock is quoted $1.00 bid, $2.50 asked. The company informed us on Jan. 23, 1941, that they are manufacturing a number of items for chain stores, such as decorative bells, jardinieres and Easter baskets. They are also making a number of other products at the present time and have enough business on hand to run for 60 days, and from all indications expect to be running to full capacity for the next ten months.

Winchester Repeating Arms Co. The Western Cartridge Co., acquired the properties of this company, and the First Mortgage Bondholders received $50 in cash and $28 par value of 6% Preferred Stock of The Western Cartridge Co., for each $100 bond. The Debenture Bondholders and other unsecured creditors received $38 par amount of Preferred Stock of the Western Cartridge Co., on each $100 of claims. The depository for the First 7½% Bonds due 1941 was the Chase National Bank, New York City. The Depository for the 6½% Debentures was the American Express Bank & Trust Company, New York City. There was no equity left for the stock.

Winchester, Rock & Brick Co. The First Mortgage 6% Bonds due 1927 have a decree value of 22.575% of their face value. Collect on unstamped bonds from the Old Colony Trust Company, Boston, Mass.

Winton Engine Co. Acquired by General Motors, on basis of 1⅓ shares of General Motors for each share of Winton. At last accounts there were 100 shares of Winton stock outstanding that had not received the General Motors stock. Present stock to the Continental Illinois National Bank & Trust Co., Chicago, Ill., for collection.

Wire Wheel Corporation. Merged into Kelsey-Hayes Wheel Corporation in May, 1929. Under plan effective in Jan., 1933, the assets of the latter company were transferred to Kelsey-Hayes Wheel Company.

Wisconsin Central Railroad Co. Otherwise known as Wisconsin Central Co. Record 1899 as follows: The Old Colony Trust Company of Boston, Mass., as agent, or The United States Trust Company, New York City, purchased the following securities about the above date. We believe certain securities were assessed.

Witherbee Sherman & Company. See City Bank Farmers Trust Company, New York City.

Woax, Inc. Incorporated in New Jersey on June 19, 1930, and is located at 150 East State St., Trenton, N. J. Mr. F. J. Wolff is the agent.

Wolverine Petroleum Corp. Common stock has a liquidating value of $1.00 per share.

Wolverine Power Co. The Michigan Trust Co., of Grand Rapids, Mich., made a payment of $58.041 on each $100 First Mortgage 7% Bond, due 1943.

Woman's Hotel Co., 340 Madison Ave., New York City. We understand that the stock of this company has a liquidating value of $89 per share. Possibly $20 a share more was paid. The Treas. was W. R. Wood, 660 Madison Ave., New York City.

Woodburn Oil Corporation. The stock has a liquidating value of 3⅛c per share. The stock was not stamped. The dividend was mailed to stockholders of record. Collect from the Simms Petroleum Company, 14 Wall St., New York City.

Woodstock Trust (Batterymarch Bldg.) See National Shawmut Bank, Boston, Mass.

Woodward Iron Company. See City Bank Farmers Trust Company, New York City.

Worcester Railroad. Mr. H. H. Lee, Treas. of the Pennsylvania R. R., Philadelphia, Pa., informed us that there are a few shares of stock of this company outstanding that are worth 83c per share.

Worcester Traction Company. Company liquidated. The preferred stock was retired and the common stock was exchanged for stock of the Worcester Consolidated Traction Co.

Wordsworth (New York). The Irving Trust Co., of New York City, made a payment of $700 on each $1,000 First Mortgage 6½% Bonds, due 1927-35.

World Exchange Bank, New York City. Three liquidating dividends were paid and stamped on the stock. ($5.00, $7.00, $1.00.)

Wrought Iron Company. On Sept. 24, 1938, the corporate name of the above company was changed to Lebanon Steel & Iron Co.

Wyandot Copper Company. Mr. Frederick Hoitt, an attorney, located at 89 Broad St., Boston, Mass., informed us as follows: "The Wyandot Copper Co. was dissolved and its affairs wound up in 1927 and a final liquidating dividend of 2c per share was paid to stockholders of record in Dec., 1927. During the time the corporation was in existence, certain assessments were levied from time to time and at the date of dissolution only stock showing $13.50 per share paid in was in good standing. Stock showing less than that amount had been previously sold for non-payment of assessments under the Michigan statutes. Accordingly, if your client's stock shows $13.50 per share paid in he has probably received the final liquidating dividend of 2c per share. If his shares show less than that amount paid in, they are valuless."

Wyoming Copper Co. (Wyoming). The company paid 22% of the face value of the stock in liquidation. The payments were stamped on the Certificates. Mr. Walter F. Cobb, of Chicago, Ill., officer.

Wyoming Premier Oil Company. Filed certificate of incorporation in Delaware, Oct. 13, 1917, and which is no langer in existence, having become inoperative and void March 18, 1925 and proclaimed by the Governor Jan., 1926, for non-payment of taxes. Incidentally, its certificate of incorporation was filed by The Corporation Trust Company, 100 W. 10th St., Wilmington, Del., and as shown by its annual report filed for the year 1921, this company had offices outside of Delaware at Thermopolis, Wyo., and New York City, with the following named officers and directors, and their addresses: M. Singer, Pres.; V.-Pres., R. A. Lesser; Fred Bloom, Treas.; S. R. Blackwell, Secy., all of 15 Park Row, New York City; F. Anderson, Dir., 3rd Ave. and 15th St., New York City; I. Reznick, Dir., 77 Eldredge St., New York City.

X-It Laboratories, Inc. Incorporated in New York and was dissolved on Dec. 16, 1935. The company was engaged in the dental plate business with an office at 231 E. 42nd St., New York City. Mr. A. B. Bellwood, was President. Mr. Harry L. Jones of 402 E. 156th St., New York City, was also an officer. We understand that Mr. Jones is now in Detroit. His home address in New York was 171 W. 79th St. We wrote to Mr. Jones and had the letter forwarded but have not heard from him. We have been unable to locate Mr. Bellwood. We found no value to the stock.

Yaquina Electric Company. The property of this company was foreclosed. The 5% First Mortgage Bonds should be presented to the Portland Trust & Savings Bank, Portland, Ore., for their share of the proceeds of the sale.

Yolo Water & Power Co. The California Trust & Savings Bank, Sacramento, Cal., holds $35.82 for each $1,000 unstamped bond of this company.

Yonah-Varah Corporation. The First Mortgage Bonds of this company were secured by a First Mortgage on the Sherman Square Apartments, New York City. Each $1,000 bond received $430 in cash an a V. T. C. for 60 shares of common and warrants. The Warrants expired in 1931. Present bonds to the City Bank Farmers Trust Company, New York City, for collection.

Preface

THE Robert D. Fisher Mining Manual, Volume I, 1940, was conceived because of a long felt need for information of this character. The contents consist of current official information obtained from the County Treasurers and Tax Assessors, State and Territorial Reports, University Surveys, Records from Secretaries of State, Canadian Mining Reports, and from my private files, showing mining companies that own, control or lease mining properties in the United States, Alaska and Canada. It is the most complete directory of its kind ever published.

This directory was brought up to date in 1941, and questionnaires were sent to every mining company.

Volume II, 1941, contains reports on those companies that sent in their questionnaires, and those reported by the mining bureaus of the various states and provinces, and from private investigations.

The book is arranged alphabetically according to products mined. After each particular product the states are listed in alphabetical order where that particular product is mined. After each state reports are listed on all mining companies that mine that particular product in that state. In addition, the book contains an alphabetical index. This volume is the most complete of its kind ever published.

Grateful acknowledgments are made to the public officials, officers of mining companies, staff of the Marvyn Scudder Financial Library, Columbia University, and my friends, whose whole-hearted cooperation made possible the publication of this volume.

Property: Blossom Mine, comprising 2 patented claims known as the Drifted Snow No. 4 and No. 5 and 6 claims held by location; under lease. The property is located in the Cargo Muchacho Mining District, 4 miles east of Ogilby, Imperial County, Cal. Two parallel veins occur in gneissoid granite; strike N. 20° W., dip 50° W. Width is 12 in. to 4 ft.

Development: Developed by two shafts, the Blossom Shaft was sunk on the vein to a depth of 280 ft.; now caved. About 400 ft. south of this shaft, the Velencia Shaft sunk on the vein to a depth of 240 ft. has been retimbered and the development work is being done from this shaft. On the 140 ft. level a drift was driven north 20 ft. on the Blossom Vein and a crosscut driven 23 ft. east which cut a vein in the foot wall with an average width of 4 ft. with a drift south on the vein for a distance of 40 ft.; then a winze sunk on vein to a depth of 40 ft. The vein is mineralized with free gold, associated with pyrite and chalcopyrite. Ore being extracted is reported to carry from $12 to $15 per ton in gold.

Equipment: 12 H. P. Western gas engine hoist and 120 cu. ft. Gardner-Denver Compressor. Three men are employed.

BRITISH COLUMBIA

St. James Antimony Co. This company owns an antimony property on the south shore of Stuart Lake, at a point 12 miles west of Fort St. James. The workings (as of June 12th, 1939) are on the Snowbird mineral claim. As of June 12th, 1939, the workings consisted of (1) an open-cut and an incline shaft that extends for 20 feet on a 20-degree slope, both lying 80 feet south-westward of the main stibnite body, (2) two open-cuts and an incline shaft driven for 28 feet on a 45-degree slope on the main stibnite lens, (3) a stripping 185 feet in length that extends north-westerly and south-easterly from (2). Considerable work is reported to have been done since June, 1939. Fifty tons of ore was shipped to the sampling plant.

Silver Bell Mine. This antimony property, owned by R. H. Davis, Royston, and associates, is situated on the north-west arm of Horne Lake. A good road connects the main Island Highway at a point north from Qualicum Beach to the terminus at the lake, where a boat connection is made for the remaining 6 miles up the lake to the property. Operations were begun in March, 1939, and carried on fairly steadily until November 15th, when work was suspended. During the above period an adit was driven for a distance of 100 feet.

Stock quoted: Sept. 1, 1940: Bid, 85c; Asked, $1.25.
Property: The Independence Mine, the Free Gold Mine, the Jap Mine, and contiguous claims comprising a total of 58 mining claims. Also noncontiguous, The Gold Top and Grey Eagle property. All in the Willow Creek gold lode district, Knik, Alaska.
Geology: Mineralized shears in a quartz diorite intrusive. Mezothermal. Quartz occurs in lenses with an average width of 3 ft. in the two veins now being exploited. There are a series of parallel veins with Northeast Southwest strike with varying dips. All veins pinch and swell abruptly, with ore shoots occurring parallel to and adjacent to certain premineral faults. Gold occurs in very minute particles and is well disseminated. 83% free milling with other values occluded in sulfides.
Development: About 5 miles of underground tunnels of all descriptions as of Sept. 1, 1940. Ore reserves estimated as of Sept. 1, 20,000 tons, averaging 1 oz. in gold content. No other values.

Equipment: Two mills, one of 20 tons capacity (24 hrs.), and the other of 80 tons capacity (24 hrs.). All year around operation. Ball mill in closed circuit with amalgamators, classifiers and flotation. Total engine horsepower 780. Four compressors, 3 generators, totaling 300 kw. capacity. 42 air drills, air sharpening equipment, oil forges, sorting plant, 330-ton main storage bin with other bins totaling 300 tons supplying.
Production: 1940, gold, silver negligible, 6 mo. production, $615,000; 1939, 12 mo. gold receipts, $825,000; 1938, 12 mo. gold receipts, $622,000.
Remarks: Active the year around. Heavy development program under way. 180 employees with total payroll of $350,000 annually. Future prospects very good with ore developed to take care of present capacity for 6 years, if no further ore was found. Low level development shows values similar to best previously encountered.

Black Horse Shaft, c/o R. H. Williams, Tombstone, Ariz.
Property: Cochise County, Ariz. (Silver.)

Central Copper Company of Arizona. Incorporated in Arizona and lost its charter on February 6, 1935. Mr. T. N. McCauley, 109 No. Sycamore St., Los Angeles, Calif., the last surviving officer of the company, passed away about one year ago. This company held 90 claims, 1,460 acres in the Tevis and Babezas districts, Cochise County, Arizona. The Tax Assessor of Cochise County, Tombstone, Arizona, informed us as follows on Oct. 8, 1940: "The Central Copper Company was sold to Southwestern Securities Company on November 10, 1931. The company did own some patented mines as well as unpatented mines and considerable mining equipment. The Southwestern Securities Company failed to pay taxes on the property and it was sold and deed passed at tax sale to all their property, with the exception of the Mascot & Western Railroad, to one J. B.

Cook, on July 14, 1936, who subsequently sold it to one Gladys M. Tout on August 11, 1937. The Railroad was sold at Treasurer's sale (Personal Property Tax Sale) for junk and has been removed." The shares of both companies are, in our opinion, without value.

Shannon Copper Company.
We received the following letter from Nathan L. Amster. President of Shannon Copper Company, 25 Broad St., N. Y. C., dated May 28, 1938. "Referring to your letter of the 26th, the Shannon Copper Company property was closed down about twenty years ago. The principal properties were sold years ago. The remaining small property is at Gleeson, Arizona, and efforts to sell same have been unsuccessful. There has been no sale of the stock for some time. The last sale being in the neighborhood of five cents a share and it was 'over-the-counter' in Boston. We had hoped to be able to dispose of the property and dissolve the company, but as above stated, our efforts to sell same have not met with success to date."

Product mined: Silver.

American Smelting & Refining Company, (Trench Unit), c/o T. A. Snedden, Patagonia, Ariz.
Property: Santa Cruz Co., Ariz.
Product mined: Silver, lead.

Arizona Gold & Copper Company.
Incorporated in Arizona in Feb., 1900. The main office was located at Patagonia, Santa Cruz Co., Ariz. In 1907 the company was reorganized as the Trenton Mining Company. It was reported that the company owned some claims in the Tyndall Dist. of the Santa Rita Mts. in Santa Cruz Co., Ariz. Shortly after the reorganization, the property fell into the hands of the bondholders of Trenton Mining Company. Sufficient funds, we understand, were not obtained to complete the reorganization. Our records indicate that no trace of either company could be found after 1907, and therefore believe that the bondholders only realized a fraction of their holdings, leaving no equity for the stock which is entirely worthless.

Tribune Gold Mining & Milling Company.
Incorporated in Arizona on Dec. 11, 1906, and was located at Nogales, Ariz. The company did not pay any fees or file any reports since its inception. We searched our mining records back to 1906 and found no record of the company's operations nor any value to the stock. It is our opinion that the company did not get beyond the development stage and that the shares are without value.

Mingus Mountain Copper Co., Ltd., 516 Grant Bldg., Los Angeles, Cal.
Incorporated: Arizona, about 1900, and held 5 patented claims near Jerome, Yavapai Co., Ariz. Taxes had been paid on these claims up to 1931.

Monster Chief Mining Company.
Incorporated in Delaware on October 27, 1916, and lost its charter on March 17, 1920. George Graham was Treasurer of this company. Our records indicate that the company held 22 claims, 400 acres, near Jerome, Ariz. The Tax Assessor of Yavapai Co., Prescott, Ariz., informed us on February 6, 1941, that the records of the Recorder's Office show that the Monster Chief Mining Company, did in 1916 get a deed from a Mr. J. C. Hoyt, covering 19 unpatented claims, and two other deeds covering one and four mining claims respectively, in the Verde Mining district. These claims are all unpatented, therefore, not assessable and not of record in their office. The Tax Assessor checked the records in the Recorder's Office to ascertain whether or not there had been a transfer of ownership from this company to anyone else, and found nothing of record to that effect. The claims, apparently, still belong to the company. The records may be found in Book of Deeds 108, pages 191, 195, and 199, Records of Yavapai Co., Prescott, Ariz.
These claims are undeveloped and there is no evidence that the properties are mineralized. Therefore, we do not believe the shares have any value at this time.

St. Elmo Mines, Inc.
Incorporated in Nevada on April 21, 1928, and forfeited its right to do business on March 1, 1932. The last known address was 1 Montgomery St., Jersey City, N. J. The property consisted of 26 claims and water right in the Weaver district, Yavapai Co., Ariz. These claims were acquired from the Mildred Consolidated Mining Company at foreclosure sale in July, 1929. No activity was reported in 1928. The company was short-lived, and apparently did not progress beyond the development stage. The shares in our opinion have no value.

St. John Gold & Copper Co., Cordes, Ariz. John Slak, Pres.-Mgr., Cordes, Ariz.; J. O. Power, V-Pres., Higley, Ariz.; J. T. Butler, Secy., Ellis Bldg., Phoenix, Ariz.; A. F. Slak, Treas., 75 W. Portland, Phoenix, Ariz.

Property: American Mine leased from Marcus Pluth Estate. Daggett, Cal., comprising 4 patented claims, on the north slope of the Sheep Hole Mountains, 10 miles south of Amboy, San Bernardino Co., Cal.
The country rock is rhyolite and andesite. Mineralization occurs in fine-grained rhyolitic porphyry dike. The ore occurs in fractures and seams in the rhyolite, the gold occurring free and associated with hematite; also small amounts of arsenapyrite and chalcopyrite. The orebody strikes E.-W., dips 25° N. and is from 60 ft. to 150 ft. in width and about 600 ft. in length along the strike. Development consists of a tunnel driven S. 30° E., 400 ft., then drift northeast 60 ft. to north-south fault, with drift north along fault 100 ft. At 300 ft. from portal, the tunnel intersects shaft sunk on orebody from surface. The shaft is 120 ft. in depth. There is a drift driven southwest 260 ft. from shaft. All workings on tunnel level are in trachyte. Upper tunnel is driven south 200 ft. and 150 ft. from portal, drift west 150 ft. to shaft. Mine equipment consists of 120-

h.p. Fairbanks-Morse diesel engine and Ingersoll-Rand compressor. Mill equipment consists of crusher, rolls, rod mill and sand-leaching cyanide plant, with a capacity of 50 tons. Twelve men are employed.

Property: Yellow Aster Mine at Randsburg, Kern Co., held under lease and bond from the Yellow Aster Mining & Milling Co., Los Angeles, Cal.

Discovery of gold on this property in 1895 marked the beginning of the town of Randsburg. Since that time there have been several stages of development and mill operations. The first ore mined was treated in a small mill at Garlock some nine miles northwest from the mine. Later, ore was shipped to a mill at Barstow. In the late nineties, a 30-stamp mill was erected at the property, followed by a 100-stamp mill about 1900.

The mine operated continuously from 1895 to the latter part of 1918 when it was shut down, reopening in 1921. From this time until the property was taken over by the present lessee (October, 1933), a large part of the ore was mined by lessees and treated together with company ore by fifty stamps of the 100-stamp mill. During this period (1895-1933) approximately $10,000,000 was recovered from about 2,750,000 tons. These values were recovered entirely by the use of both inside and outside amalgamation.

The mine lies in the quartz monzonite schist complex near the top of the Rand Mountains, just south of Randsburgh. The ore occurs in a triangular block of quartz monzonite which is bounded by three faults, namely, the Hanging Wall Fault on the east, the Jupiter Fault on the north and the Footwall Fault on the southwest. The first two are described by Hulin as premineral faults. The ore occurs in a network of quartz stringers traversing the quartz monzonite as well as in the rock adjacent to the veins. Early operations were largely confined to high-grade orebodies occurring in vertical fissures and beneath the two premineral faults.

The vertical fissures strike northwest and vary in width up to more than 15 ft. and in length up to 800 ft. as mined in the East and West sets. To the northeast is the Rand vertical vein; while between the two, is the Price vein. All of these veins, together with several others, were bounded by the Jupiter and Footwall faults.

The orebodies underlying the Jupiter and Hanging Wall faults have a well-defined hanging wall but an assay footwall. They were from 200 ft. to 500 ft. long and from 4 ft. to 16 ft. thick, the greater thickness occurring nearest the surface.

The value in these richer orebodies are not known but the average value of ore taken from the stope pillars by leasers was about $20 (one ounce) per ton.

The mine was developed by approximately 15 miles of workings. While there were fourteen different levels in the mine, four of them, the Rand, first, second and third levels were the most important. The Rand which is at the same elevation as the floor of the open pit was the main haulage level and the shafts were sunk from this level. The main shaft was sunk on the Foot Wall Fault, with an inclination of 45°, a distance of 250 ft. The Hercules shaft, located between the Jupiter and Hanging Wall faults, was put down 450 ft., inclined at 40°. The Rand vertical shaft, 150 ft. southwest of the Hercules shaft, is down 450 ft.

The present operators have abandoned the underground workings and are taking their ore from the glory hole or open pit (which it now is). This open pit is approximately 1250 ft. long by 800 ft. wide, at its top and varying from 100 ft. to 400 ft. in height.

Mining and hauling to the mill is done by contract; the total cost is 18¾c per ton.

Both toe-hole and coyote blasting are used in breaking down the sides of the pit. The holes are usually about 30 ft deep. The coyote tunnels are, of course, varied to suit conditions; one shot recently fired used 19 tons of low-grade powder and broke 120,000 tons.

A model 80, 2½-yd. Northwest shovel is used for loading after the bulldozer has cleaned up the floor of the pit. The material is hauled one-quarter of a mile to the mill by four 3½-ton, 6-wheel trucks. About 4000 tons per day are handled. Large boulders of granite and schist are hauled direct to waste dump. In the past, the waste thus handled has varied from 100 to 6000 tons per month.

Milling Operations: The present operators made extensive tests on the ores of the open pit and the dumps. During these tests something over 120,000 tons were put through, using both single and two-stage crushing and screening. As a result of these tests, the following plant was constructed (completed about Jan. 15, 1938).

Trucks dump onto grizzly with 30-in. sq. openings to 170-ton bin, to grizzly feeder (5 in. by 7 in. openings); oversize to 60 in. by 48-in. jaw crusher; undersize and crusher product to 30-in. conveyor, with magnetic pulley, to double deck vibrating screen 3-in. sq. openings; oversize to 24-in. conveyor (No. 3). oversize from lower deck to 4-ft. TY gyratory crusher; undersize and crusher product to 24-in, conveyor (No. 2), to 2 double deck vibrating screens, lower decks having ¼-in. by ½-in. openings; undersize to 18-in, conveyor (No. 5), to 1800-ton mill bin; all oversize to No. 3 conveyor; thence by a system of three 24-in., one 24-in. shuttle and one 24-in. stacker conveyor to the waste dump.

Dust is controlled by a system of spray nozzles placed at strategic points. Capacity of the plant is 300 tons per hour.

From the 1800-ton fine-ore bin, material is delivered onto a 16-in. conveyor through any of 8 chutes equipped with rack and pinion gates, to a 45-ton surge bin, to a Hardinge constant-weight feeder to 16-in. conveyor, automatic sampler to No. 1 Pan American placer-type jig; concentrates to sand pump to No. 6 Wilfley table; concentrates to continuous amalgamation barrel to retort; tails from jig, Wilfley table and barrel to duplex rake classifier; overflow to tails launder; sands (with added lime and cyanide) to 8 ft. by 36 in. Hardinge mill to No. 2 Pan American placer-type jig; concentrates go with No. 1 jig concentrates; No. 2 jig tails to tailings launder; automatic sampler to 30-ft. Door type thickener; overflow to two 18-ft. Dorr-type thickeners; underflow from the three thickeners to vibrating screen (6 mesh); oversize to waste screenings to 4-in. pipe to cyanide plant; overflow from 18-ft. thickeners to two 40-ft. Dorr type thickeners; underflow to cyanide plant; overflow to 2 centrifugal pumps, back to mill circuit. Capacity of classifying and concentrating plant is 1000 tons per day.

A total of nineteen men are employed on the three shifts.

Cyanide Plant: The current mill tailings are delivered to the cyanide plant through a 4-in. pipe line 2740 ft. long. Old mill tailings, of which there are some 2,000,000 tons, are sluiced with cyanide solution. The solution is pumped from cyanide plant through an 8-in. pipe line to a 21,000 gal. tank. Solution from this tank is pumped to the mill. Connections for 2-in. or 3-in. pipe are provided in the 8-in. line. To short sections of these pipes are attached 2-in. rubber covered hoses equipped with ⅝-in. or ¾-in. nozzles The pressure varies up to 90 pounds. The bank sluiced varied from a few feet to 100 or more in height.

The tailings are sluiced to a pump sump where a 6-in. Wilfley sand pump delivers them to the cyanide plant through 850 ft. of 5-in. pipe.

Both current and old mill tails are delivered to a 12-ft. by 6-ft. surge tank. Cyanide and lime are added at the pump sump.

From surge tank to two 6-ft by 23-ft. Dorr classifiers, overflow to hydro-separator (60 ft. dia. by 12 ft. depth); overflow from separator to 4-in. sand pump to 100-ft. center pier Dorr type thickener; underflow from 100-ft. thickener pumped to three 14-ft. by 14-ft. Oliver filters; overflow from 100-ft. thickener pumped back to classifiers; underflow from hydro-separator by 4-in. sand pump to two 60-ft. by 12-ft. primary thickeners; overflow pumped to sand tanks; underflow from thickeners pumped (2-in. sand pump) to three 16-ft. by 14-ft. Dorr agitators in series; from the third agitator the pulp is further diluted with barren solution and caustic starch to aid settling and flows to two 60-ft. by 10-ft. washing thickeners; overflow is pumped to storage tanks for use in mill or for sluicing old tailings; underflow from thickeners is pumped, part to filters and part to tailings pond (capacity of filters usually limits that part to about 70%); filter cake goes to blade-type repulpers, is diluted with fresh water to about 30% solids and is pumped by 3-in. sandpump either to sand tanks for sluicing or to tailings pond. Filtrate from the filters is pumped to head end of sand plant.

Sands from the two 6-ft. by 23-ft. classifiers are treated in eight 45-ft. by 12-ft. sand tanks, filled in rotation. A rubber lined launder feeds the tanks and the pulp is distributed by a revolving launder, pivoted at the center of each tank. Slimy overflow, while filling, is removed by a 6-in. pipe; tanks are drained through a 3-in. pipe and sluiced out through an 8-in. opening in the bottom. Usually one tank is filled each day. Pregnant solution from sand tanks is pumped to precipitation plant. Solution is clarified in two tanks equipped with Butters type leaves. The leaves are connected to a Crowe deaerating tower, from which the solution is drawn by 4-in. centrifugal pump and forced through 240 precipitate collecting bags which are placed in 4 tanks, 60 to each tank. Zinc dust is fed into the suction pipe of the pump. Normally about 2750 tons of solution are precipitated per day.

Capacity of cyanide plant is 1500 tons per day. Fresh water is pumped from Goler, a distance of 6.9 miles, through a 6-in. line.

Electric power is used throughout the plants, machines having individual motor drives. Power is bought from Nevada-California Power Corp. Total power requirements are about 1440 h.p.

There are 45 men on the payroll; 11 men at the crushing plant; 8 in the mill; 5 sluicing tailings; 17 men at the cyanide plant; 4 general outside work.

Costs are about as follows: Mining 0.1875 (about 60c per ton milled); crushing and milling 0.30; cyanidation 0.25; total $1.15 per ton milled. Crushing and screening plant handles 3000 tons in two 8-hour shifts. Grinding plant treats 1000 tons of ore in 24 hours. The cyanide plant has a capacity of 1500 tons in 24 hours. Total operating costs are reported to be 40 cents per ton. Forty men are employed.

Big Horn Exploration Co., Watsonville, Cal. F. H. Wagenheim, Supt., Essex, Cal.
Property: Big Horn Mine (Mabel-Contention) comprising 18 claims on the east slope of the Providence Mts., 23 miles west of Essex, San Bernardino Co., Cal. The formation is principally quartz-monzonite, diorite, quartzite and andesite. A series of parallel, intrusive dikes of andesite cut quartz-monzonite. The dikes have a north and south trend. The quartz veins occur on both walls of these dikes. The veins vary in width from a few inches to 4 ft.; strike N. 20 deg. E. and dip 40 deg. to 75 deg. W. The ore is siliceous in character and contains values in gold, silver and copper.
Development: The principal development work has been confined to the Contention and Mabel claims. On the Contention Claim a 3-compartment, vertical shaft has been sunk to a depth of 325 ft. with levels at 160 ft. and 300 ft. On the 160-ft. level, there is a drift south 440 ft. to Subway shaft on Subway vein. The Subway vein is west of the andesite dike; strike N. 20 deg. E., dip 65 deg. W.; width 8 in. to 12 in. Vein quartz is mineralized with pyrite and chalcopyrite, with values in gold. About 68 ft. south of shaft, cut E.-W. vein; dip 50 deg. S.; width 10 ft. On 300-ft. level, there is a drift south 110 ft. to E.-W. vein and crosscut from shaft is driven northeast 110 ft. with about 100 ft. additional to drive to intersect Contention vein.

On the Mabel Claim a shaft has been sunk on the vein to a depth of 140 ft., with 80 ft. of drifts on 140-ft. level. Width of vein is 4 ft. At a depth of 40 ft. from collar of shaft, they encountered sulphide ore.
Equipment: Power plant consists of 240-h.p., 4-cyl. Fairbanks-Morse diesel engine, direct connected, with 200 K.V.A. generator; Imperial Type No. 10 Ingersoll-Rand compressor, capacity 550 cu. ft., driven by 100 h.p. motor; two 55,000-gal. tanks for water storage; one 30,000-gal. tank for oil storage. Mine equipment consists of 80-ft. headframe, with ore bins; 25-h.p. hoist; complete machine shop.

Burcham Mines, Inc., Los Angeles, Cal. H. S. Kimball, Pres.; I. S. Betts, Secy.; Granville Moore, Eng. and Mgr.
Property: Leased from Rose L. Burcham of Alhambra, Cal. The Burcham Mine (Total Wreck) comprising 21 unpatented claims, consisting of 415 acres, is located in the Calico Mining Dist., on the south slope of the Calico Mts., San Bernardino Co., Cal.

The rocks of this and the adjoining Calico Dist. area, comprise a closely related series of tertiary flows, with associated tuffs, conglomerates or breccia. They are cut by numerous dikes and irregular intrusions of rhyolite and other rocks. The oldest and most important ore-bearing formation is an interbedded series of rhyolite flows, including breccias, massive tuffs, porphyritic flows, banded flows and water-laid deposits of several kinds of volcanic debris, including well laminated silts. Faulting is widespread throughout the entire district. However only two of the fractures are exposed to any extent by the underground workings in the Burcham Mine, limited to some 800 ft. along the strike of each of the two fractures. All ore bodies developed on the property are localized along these two faults and their branches. The development has been confined mainly to two veins within the two fractures known as the Burcham vein and the Mulcahy vein.

The Burcham vein strikes N. 70 deg. W. and dips 35 deg. to 55 deg. S.; width 3 ft. to 7 ft. The valuable minerals in this vein are gold, silver and lead. The gold is finely divided and disseminated throughout the quartz, with iron present as hematite and limonite. Lead occurs as lead carbonate, with occasional bunches of galena. Silver occurs as silver chloride.

The Mulcahy vein is 300 ft. to 500 ft. north of the Burcham and the principal values are in gold and silver. The Mulcahy vein strikes N. 45 deg. W. and dips 65 deg. S.; width 4 ft. to 30 ft., with high-grade streak on footwall; width 26 in., with mineralization extending into hanging wall for a width of 15 ft. to 30 ft. Ore shoot developed on this vein is 600 ft. long, average width 20 ft. and reported to have an average value of $6.50 per ton in gold and silver.
Development: Consists of crosscut tunnel N. 15 deg. E., 512 ft. in length. At 104 ft. from portal, intersected the Burcham vein, with drift on the vein 200 ft. southeast and 650 ft. northwest. The Burcham vein where intersected by crosscut tunnel, had a total width of 90 ft. A shaft, the collar of which is located at the surface directly above the southeastern side of the intersection of the vein by crosscut tunnel, is sunk to a depth of 60 ft. below tunnel level, all in ore. Total depth of shaft is 150 ft. Two raises have been put up to the surface on the Burcham vein. One is located northwest of crosscut, the other near face of northwest drift.

Three winzes have been put down on the Burcham vein to a depth of 100 ft. below tunnel level about 200 ft. apart in the northwest drift and crosscuts are being driven to determine width of ore body. In this development work bunches of sulphide ore have been encountered, being galena associated with sphalerite. The Mulcahy vein was intersected by crosscut tunnel at 410 ft. north of tunnel, with drift northwest on the vein 500 ft, and southeast 240 ft. Where crosscut tunnel cut the vein, the width of the vein is 30 ft. The high-grade streak mined on this vein has a width of 26 in. to 30 in., reported to average $15 per ton. Total amount of underground workings is about 10,000 ft.

Equipment: Consists of 2 compressors, one of of 360 cu. ft. capacity, driven by 75 h.p. motor, the other of 160 cu. ft. capacity. Electric power is secured from Southern Sierras Power Co. Water is secured from well on the property below mine, depth of well being 250 ft. The water is pumped with Triplex pump through 2½-in. pipeline to storage tank; lift 218 ft.

Employees: 25 men on development work.

Burton Bros., Inc., c/o H. Clifford Burton, Pres., and George McNamee, Secy., Tropico, Cal.

Property: Tropico Mines, comprising 11 patented claims, 220 acres, and two 5-acre mill sites, 5 miles northwest of Rosamond, Kern Co., Cal. The vein system consists of six parallel veins that follow fault fissures in rhyolite. These veins strike east and west, dip 60 deg. S. and have widths varying from 6 ft. to 20 ft.

Development: Consists of shafts sunk on the Home, Fairview and Lida veins. The principal development work is on the Home vein. The main shaft is sunk on an incline of 60 deg. to a depth of 700 ft. The Fairview shaft has a depth of 300 ft. and the Kid shaft has a depth of 250 ft. The total amount of development work on the property amounts to about 6,000 ft. of crosscuts and drifts.

Mill: (since State Mineralogist's Report XXXI, pp. 483-485), the mill capacity has been increased to 100 tons per day, with the installation of a Symons cone crusher. During 1938 the company milled 26,308 tons of ore; recovered 10,165 oz. in gold. The average grade of the ore milled was reported to be $12.50 per ton. During 1938, ninety-four individual shippers hauled ore to the mill for treatment. Besides custom ore received from the Mojave Dist., ore was shipped from mines in Inyo, Kern, San Bernardino and San Diego counties. The production from the company's mine is about 2,000 tons per month. They also handle 1,000 tons of custom ore per month.

California Comstock Gold Mines, Ltd., Fox Theatre Bldg., San Bernardino, Cal. (See Volume I). M. H. Collins, Pres.; E. S. Gable, Secy.

Property: Louisiana Mine, comprising 8 claims in the Signal Mining Dist., San Bernardino Co., Cal. Two parallel veins from 4 ft. to 12 ft. in width occur in granite; strike E.-W., dip 45 deg. N. The veins are cut by a series of diabase and andesitic porphyry dikes which strike NE. and SW. The ore carries values in gold and silver associated with galena, cerusite, chalcopyrite and vanadinite. The vanadium occurs as a coating along seams in the quartz vein in the form of cuprodescloizite.

Development: Consists of a two-compartment, vertical shaft 925 ft. deep, with levels at 212, 250, 300, 400, 500, 600, 700, 800 and 900 ft., with 6,000 ft. of drifts and crosscuts. At the time the property was visited, ore was mined from the 212- and 250-ft. levels. The West shaft, located 287 ft. south of Main shaft, is 130 ft. deep.

Equipment: Mine consists of 25-h.p. Ridgeway gas engine hoist and a portable compressor, with a capacity of 300 cu. ft. Mill equipment consists of jaw crusher, Hammer mill, double deck vibrating screens. Sizes produced were 25, 30, 40, 50, 60 and 70 mesh. Mill is driven by 40-h.p. diesel engine. Water was secured from North shaft.

Employees: 30. Idle.

Camco Mining Co., c/o R. M. Campbell, Pres. and Mgr., Twenty-Nine Palms, Cal.

Property: Leased from Carlyle Mining Corporation, the Carlyle Mine comprising 4 patented claims and 4 by location in the Dale Mining Dist., San Bernardino Co., Cal. The Carlyle Mining Corp. operated the property from June, 1936, to March, 1938, during which period it mined and milled 13,256 tons of ore, recovering $124,000. Camco Mining Co. started operations April 15, 1939. The vein occurs in a fault fissure, having a diorite footwall, with granodiorite hanging wall. The vein strikes N. 15 deg. E. and dips 75 deg. W.; width 6 ft. to 12 ft. Gold occurs in a fine state associated with silver chloride, lead carbonate and galena. Silver minerals in the ore are pyrargyrite, polybasite and stephanite. Lead minerals are galena, anglesite and cerrusite.

Development: Consists of lower tunnel driven south 1500 ft. in quartz-diorite. No ore developed and the tunnel is driven parallel to vein developed in upper workings. About 330 ft. in elevation above lower tunnel, the main working tunnel is driven south 1200 ft. on the vein. Five ore shoots were developed on this level. These ore shoots are 50 ft. to 150 ft. in length, with 200 ft. of backs. First ore shoot was intersected 600 ft. south of portal of tunnel. The ore shoot is 100 ft. in length, with average width of 6 ft.; stoped to surface. At 680 ft. south of portal, a winze is sunk on the vein to a depth of 330 ft. At 580 ft. south of portal, there is a raise put up on the vein to the surface, a distance of 200 ft.; at 480 ft., raise up 150 ft. to surface. At 680 ft. from portal of tunnel winze workings below tunnel level. There are levels at 30 ft. and 80 ft. On the 30-ft. level drift 200 ft. on vein; on 80-ft. level drift 350 ft. Ore shoot developed on these levels is 60 ft. in length, 6 ft. in width, with high-grade silver ore on footwall and gold ore on hanging wall. The gold ore is reported to average $12 per ton.

Mine equipment: Consists of Chicago Pneumatic Hot Head compressor with a capacity of 500 cu. ft., located in mill. Air line from mill to mine consists of 2-in. pipeline 3,000 ft. in length; blacksmith shop and air drills.

Mill: Mine run of ore from upper tunnel is trammed in one-ton cars to ore bin with a capacity of 70 tons. From this ore bin, the ore is transported by aerial tram 2,680 ft. in length, equipped with 2 buckets, each having a capacity of 1500 lb. The tram is driven by 30-h.p. motor. Ore is dumped into coarse-ore bin with a capacity of 60 tons. Ore from bin goes to No. 5 Kennedy gyratory crusher where crushed to 1-in. size. From gyratory crusher ore is conveyed by 14-in. belt conveyor to 80-ton fine-ore bin. Ore goes from fine-ore bin by 16-inch belt feeder to 5½ ft. by 6 ft. Traylor ball mill, in closed circuit with 5-ft. by 22-ft. Dorr duplex classifier, with Pan American jig between ball mill discharge and classifier to recover coarse gold. Ore is ground to minus 100 mesh; overflow from Dorr classified to 6-cell Kraut rougher cells; the concentrates from rougher cells to 2-cell Kraut cleaner cells; the tailings from 6-rougher cells to 2 Kraut scavenger cells; concentrates from cleaner cells to 3-ft. by 4-ft. Oliver filter. The concentrates recovered on scavenger cells are returned to rougher cells. Tailings from scavenger cells to Deister table cut a concentrate from table carrying iron and lead which carries $40 to $60 in gold and silver. This concentrate is shipped separately. Flotation concentrate from cleaner cells is reported to carry $800 to $1,000 per ton. Ratio of concentration is 200 to 1. Heads carry from $10 to $20 per ton in gold, with $3 to $6 per ton in silver. Tailings from mill flow by launder to 8-ft. by 20-ft. Dorr thickener. Power to drive mill consists of 225-h.p. Fairbanks-Morse 3-cyl. diesel, direct connected to 150 K.V.A. Gen. Elec. generator. Water supply is from well 135 ft. deep; 8-in. casing. Water is pumped by Ingersoll-Rand pump, driven by 30-h.p. motor. Three-stage plunger booster pump lifts water through 3-in. pipeline, two miles to storage tank above mill, with a capacity of 30,000 gals. The lift to storage tank is 900 ft.

Reported recovery made in treatment of the ore is 80% to 90% of the gold and 75% of silver. Analysis of concentrates shipped is as follows: Gold, 52.15 oz.; silver, 844.78 oz.; lead, 23.55%; copper, 1.12%; insol, 29.40%; iron, 15.80%; arsenic, 0.23%; antimony, 0.67%; bismuth, 0.03%; calcium oxide, 1.80%. Gross value of concentrates $2,411.33 per ton.

Property: Comanche Mine, comprising 36 patented and 20 unpatented claims in the Blind Spring Hill Mining Dist., about 25 miles north of Bishop, Mono Co., Cal. Property under lease to F. L. Main, of Los Angeles, Cal., with contract to furnish ore to Mineral Reduction Co., c/o C. W. Jones, Pres., 337 West Ave., 26, Los Angeles, Cal. On this property a series of roughly parallel veins occur in granodiorite. The strike of these veins varies from N. 10 deg. W. to N. 20 deg. W., dip 40 deg. to 45 deg. E. except the Comanche vein which dips 82 deg. E. They vary in width from 2 ft. to 7 ft. Vein filling is quartz, the valuable minerals consisting of an association of antimonial compound of copper, lead and silver. The ore-shoots are formed by a succession of lenses which vary in length, individually, from 20 ft. to 100 ft.
Development: The property has been developed by a series of tunnels and two shafts 750 ft. and 1400 ft. deep, respectively. The Ross tunnel was driven west 4320 ft., cutting the Kerrick vein at 4116 ft. Total workings aggregate several thousand feet. Production from the property has exceeded $2,000,000.
Equipment: C. W. Jones has constructed a flotation mill near the portal of the Ross tunnel which has a capacity of 100 tons per day. It is reported that they are now adding cyanide equipment.

D'Aix Syndicate, c/o F. C. D'Aix, Pres., Chicago, Ill. Trustees: F. C. and Carl D'Aix, and Chester A. Todd, Chicago, Ill.
Property: Leased Bagdad-Chase Mine (Pacific Mines) comprising 17 patented claims, totaling 340 acres, Steadman Mining district, 7 miles south of Ludlow, San Bernardino Co., Cal. Owner, John H. Hobbs, Glendora, Cal.
The ore is deposited in an igneous breccia on a contact of monzonite and rhyolite. The brecciated material which is the result of faulting, consists of both rhyolite and monzonite fragments cemented with highly siliceous material. The strike of the mineralized zone is east and west and dips 25 deg. to 30 deg. N. The average width is 8 ft. to 15 ft. The ore is principally oxides of copper, with some silicate and very finely divided gold. The gangue is very siliceous and is heavily stained with iron oxides.
Developments consist of vertical shaft 400 ft. deep and incline shaft 450 ft. deep sunk on an inclination of 30 deg., with several thousand feet of drifts and crosscuts.
The D'Aix Syndicate started operations on the property in the early part of 1938 and operated until March, 1939, during which period it shipped 850 tons of ore to Magma Copper Company's smelter at Superior, Ariz. Some shipments also went to American Smelting & Refining Company's smelter at Hayden, Ariz. Ore shipped is stated to have averaged $9.80 per ton in gold, with $2.85 in silver and 0.89% in copper.
Mine equipment consists of 2-cylinder, 125-h.p. Victor diesel engine; 10 ft. by 10 ft. Sullivan compressor; 25 h.p. single drum hoist. Idle.

Dellosso Gold Mining Co., c/o F. G. Dellosso, Pres., Huntington Park, Cal.

Property: Alvord Mine, comprising 6 patented claims, and one mill site in the Alvord Mountains, 6 miles northeast of Manix and 14 miles northeast of Yermo, San Bernardino Co., Cal.

The ore mined was treated in a 5-stamp mill at Camp Cady on the Mojave River. It is reported that they recovered $12.75 per ton by amalgamation with a loss of $1.25 per ton in the tailings. The total production during this period of operation was $50,000.

The property was operated from 1906 to 1910 by Alvord Gold Mining Co., of San Diego, Cal. This company installed a 6-Nisson stamp mill. From 1916 to 1920, the Tintic Bonanza Mining Co., of Salt Lake City, Utah, Gidion Snyder, president, operated the property. F. G. Dellosso purchased the property in 1925 and formed the Dellosso Mining Company and patented 6 claims in 1931. The claims are located along a broad belt of crystalline limestone. A dike of porphyritic rock cuts across this belt of limestone at an angle of about 90 deg. The principal mineralization occurs east of this dike. The rock is more or less schistose in character, through which at frequent intervals are intruded eruptive dikes. At the east end of the belt is an accumulation of tufa and basalt. The belt strikes E.-W., with a dip of 75 deg. S.

The mineralized portion of this lode extends from the porphyry dike east through three full claims and disappears finally beneath the eruptive rocks. The entire lode is gold-bearing, some of the hematite and jasper rock being rich. Gold also occurs in the calcite, though usually lower grade than where accompanied with iron. Iron sulphides also are found carrying gold. The ore mined was limonite and jasper, showing some copper stains.

Development on Royal claim consists of glory hole 150 ft. in length and 140 ft. wide. This orebody dips 70 deg. S. The glory hole is 200 ft. in elevation above lower tunnel and 100 ft. above upper tunnel. The upper tunnel is driven east 500 ft. on fissure in limestone. Orebody developed on this tunnel level was 100 ft. in length and 6 ft. to 12 ft. in width; stoped from tunnel level to 40 ft. of surface outcrop. The lower tunnel is driven east 550 ft. in the foot wall limestone. At 100 ft. east of the portal, a crosscut was driven south 100 ft. along contact of granite and limestone. At 150 ft. east of portal, intersected orebody exposed in upper tunnel.

Equipment consists of C. P. compressor driven by 15-h.p. Fairbanks-Morse gas engine. Mill equipment consists of 9-in. by 15-in. Blake type crusher; 6-Nisson stamps; amalgamation plates; and cyanide tanks.

Water is secured from well 500 ft. deep, with a capacity of 5000 gal. per 24 hr., 1½ miles southwest of mine. Two men are employed.

The bedrock is schist and the gravel overlying the bedrock is from 16 ft. to 50 ft. thick. It is reported that the drill holes indicate the gravel carries values in gold from 30 cents to $2 per cu. yd.

Development: Slope shaft sunk on an incline of 15 deg. to the southwest which cuts the bedrock at a depth of 200 ft. with 800 ft. of drifts and crosscuts on the 50 ft. level. There is also a vertical shaft sunk to bedrock, the depth of which is 50 ft. 14 men employed.

Gold Crown Mining Co., Ltd., Petroleum Securities Bldg., Los Angeles, Cal. Geo. Novell, Pres. and Mgr.; Edward Novell, Supt.
Property: Gold Crown Mine comprising 5 claims in the Nightingale Group and 9 patented claims in the Supply Group, Dale Mining district, San Bernardino Co., Cal.
The Nightingale-Supply vein occurs in andesitic porphyry, strike N.-S., dip 70 to 85 deg. E. and width 4 ft. to 12 ft. The Supply shaft was sunk on the Supply vein to a depth of 1250 ft., with levels at 100-ft. interval and over 5000 ft. of underground workings. Production from the Supply Mine is said to have been over $500,000. Present work is confined to the Nightingale Group. The Nightingale shaft is situated 3600 ft. north of the Supply shaft and is on the same vein. The Nightingale shaft has been sunk on an inclination of 85 deg. to a depth of 675 ft. The vein developed is 9 ft. to 12 ft. in width. The ore shoot developed is 250 ft. in length, with an average width of 9 ft. Ore mined is stated to average $12 per ton in gold. Levels are at 75-ft. intervals. On the 375-ft. level, 212 ft. south of Main shaft, a winze is sunk to the 750-ft. level, with levels at 450, 525, 600, 675, and 750 ft. On 525-ft. level drift south 625 ft.; on 600-ft. level drift south 600 ft.; on 675-ft. level drift south 600 ft. and north 220 ft. A winze is sunk to 825-ft. level; on 750-ft. level drift south 265 ft. Total underground workings are about 6000 ft. The main working shaft is a 2-compartment shaft with a 60-ft. steel headframe.

Ore is hoisted in one-ton skip by 25-h. p. electric hoist and dumped direct into steel ore bin, with a capacity of 125 tons. From ore bin, ore is fed by belt type of feeder to ½-in. grizzly; then oversize from grizzly to 9-in. by 15-in. Blake type of jaw crusher; ½-in. crusher product to 16-in. incline belt conveyor (120-ft. centers) to 300-ton circular steel fine ore bin. From fine-ore bin, ore goes to Hardinge Constant Weight Feeder to 6-ft. by 22-ft. Hardinge ball-mill driven by 75-h. p. motor. The mill is in closed circuit with Dorr duplex classifier. Ore is ground in cyanide solution so 95% will pass through 100-mesh screen; overflow from classifier to 5-tray Dorr thickener. From primary thickener, the thickened pulp goes to 2 Devereaux agitators. Gold solution overflows from top tray No. 1 and flows by launder to gold solution tank; the thickened pulp from Dorr thickener to No. 1 agitator, then into No. 2 agitator, where solution is further thickened. From No. 2 agitator, the solution is pumped to No. 2 tray in Dorr thickener. Here the pulp is further thickened and forced downward to No. 3 tray, then No. 4 and No. 5 trays and on out through waste pump to tailings. No. 2 tray overflow passes to work tank, then back to the classifier. The overflow from No. 4, 5 and 3 trays is pumped upward to be passed from No. 2 tray into work tank, then back to classifier. Solution from gold solution tank goes to clarifier where lead nitrate is added, then to deaerator to Merrill-Crowe precipitation process. The recovery is reported to be 95%, with loss in tailings from 80c to $1.00.

Power plant to operate mill and mine equipment consists of 300-h.p., 4-cylinder, Fairbanks-Morse diesel engine, direct connected with 170 K. V. A. generator. Seventy-five-h.p. motor drive 300-cu. ft. Ingersoll-Rand compressor. Water supply for mine and mill is secured from well 265 ft. deep, 10-in. casing. Water is pumped by Byron-Jackson submersible pump driven by 30-h.p. motor, through 3½-in. pipeline 2 miles in length, with a lift of 1400 ft. to storage tank at mine, with a capacity of 43,000 gal. The mill is also operated as a custom plant for ore from mines in the Dale District. Thirty-five men are employed.

Gold Mountain Mining & Development Co., Big Bear Lake, Cal. Fred C. Cline, Pres. and Mgr.
Property: Gold Mountain Mine comprising 16 claims, 8 of which are patented and 8 surveyed for patent, in the San Bernardino Range, San Bernardino Co., Cal., held under option. Owner, James Hulmes, South Pasadena, Cal.
The vein system consists of irregular bodies of massive quartz in quartzite on contact with schist; with schist footwall and quartzite hanging wall. The strike of the orebody is N. 60 deg.

W., dip 30 deg. to 60 deg. S. Average width of vein is 40 ft. The principal mineralization occurs along cross fractures in the quartzite that strike NE.-SW.

Development consists of glory hole 600 ft. in length by 40 ft. wide and 50 ft. deep. Main adit tunnel is 700 ft. in length, driven N. 60 deg. W. 85 ft. vertically below outcrop. The ore mined from the glory hole is said to have an average of $6 per ton.

The present operator has installed a mill with a capacity of 40 tons. Ore from glory-hole level is mined, loaded in cars to coarse-ore bin with a capacity of 200 tons; ore from bin to 9-in by 15-in. jaw crusher, then to 9-in. by 15-in. secondary jaw crusher to fine ore bin, capacity of 200 tons; from fine-ore bin by belt feeder to 4 ft. by 5 ft. Rod Mill in closed circuit with Dorr Classifier, ground to minus 40 mesh, to bowl type of amalgamator, overflow to Gibson amalgamator then to Plato table—concentrates carry $50 per ton in gold.

Water is secured from Baldwin Lake, pumped by Gould Triplex pump through 3-in. pipeline 6000 ft. in length to storage tank at mine; Gardner-Denver air compressor. Ten men are employed.

Property: Leased the Monarch Mine (Extension Ajax) comprising one claim (740 ft. wide by 1687 ft. in length), on the southeast slope of Soledad Mt., 4 miles south of Mojave, Kern Co. Owner, Wilcox Estate, Bakersfield, Cal. During 1937 this property was under lease to the Mojave Gold Shares, Inc., a Nevada corporation. The Ajax vein strikes N. 20 deg. W. and dips 60 deg. W. It is in dacite. Development consists of a cross-cut tunnel driven S. 74 deg. W., 587 ft.; 294 ft. west of portal, intersected the Ajax vein which at this point is 18 ft. wide; at 542 ft. cut the Karma vein which has a width of 45 ft. On the south end of the property, the Ajax and Karma veins are cut off by a fault which strikes east and west. About 400 ft. north of these workings considerable trench work and open-cuts have been made along the Ajax vein, exposing 10 to 18 ft. of quartz which is reported to average $5 per ton in gold and silver. About 100 ft. below outcrop, a cross-cut tunnel has been driven west 100 ft. intersecting the vein. Four men are employed on development work.

Golden Bear Mines, Ltd., 47 2nd St., San Francisco, Cal.

Property: Golden Bear Mine, Downieville, Sierra Co., Cal.

Product mined: Gold.

Golden Bee Mines, Ltd., c/o E. Auclair, Pres. and Mgr., Guy Pierson, Secy., both of San Bernardino, Cal.

Property: Golden Bee Mine, comprising 2 claims on the north slope of the Hexie Range, Pinon Mining district, Riverside Co., Cal.

The Golden Bee vein strikes N.-S. and dips 35 deg. E.; width 8 ft. to 30 ft. The country rock is gneissoid granite, with intrusions of diabase forming the footwall of the vein and andesite as hanging wall. About 100 ft. east of the Golden Bee vein is a rhyolite dike 20 to 50 ft. in width that strikes N.-S. and dips 50 deg. E. There is a series of parallel east-west veins that intersect the Golden Bee vein on the west.

The principal development work has been confined to the Golden Bee vein. Irregular shoots of high-grade ore are found in this large vein of quartz. These shoots trend to the northeast about 40 deg. Widths vary from 12 in. to 2 ft. The Golden Bee vein is a fault fissure with heavy clay gouge on both walls. Development consists of a tunnel driven south 100 ft. on footwall of vein with a number of cross cuts driven east. North of tunnel, at the same elevation, a shaft is sunk on an inclination of 85 deg. to 70-ft. level; then sunk on an inclination of 50 deg. to 180-ft. level. On 180-ft. level, drift S. 20 E. 20 ft. from shaft and then a crosscut is driven 80 ft. east to vein. The vein at this point has a width of 30 ft. Ore is stoped from 130-ft. level to the surface, only extracting high-grade lenses in the vein.

Ore shipments made to Burton Bros., Inc., Rosamond, Kern Co. and the Gold Crown Mining Company's mill at Dale, San Bernardino Co., are reported to have been from 1 oz. to 6 oz. in gold per ton. Total production to date $40,000.

Mine equipment consists of 12-h.p. gas-driven hoist; Ingersoll-Rand portable compressor; air drills and truck. Two men are employed.

Property: Prosperity Group of Mines, comprising 10 claims on the northeast slope of the Turtle Mountains, San Bernardino Co. (Held under option.) Owner, Charles H. Brown, Needles, Cal. Three parallel veins occur in granite, strike E.-W., dip 30 deg. S.; width 18 in. to 12 ft. The veins are about 30 ft. apart. Vein quartz shows free gold associated with pyrite and chalcopyrite. Development consists of incline shaft sunk on the vein to a depth of 100 ft., with 100 ft. of drifting on the 50-ft. level. About 3000 ft. west of this shaft, a shaft has been sunk on the vein to a depth of 150 ft. All present work is confined to East shaft.

Mine equipment consists of 50-h.p., 2-cylinder Fairbanks-Morse diesel engine, direct-connected with Westinghouse generator; portable compressor. Mill has a capacity of 25 tons; 8-in. by 15-in. Wheeling crusher to fine-ore bin, capacity 50 tons; then by belt feeder to 3-ft. by 4-ft. Gibson rod mill, equipped with eliptic roll. Ore is ground to minus 80-mesh. Pulp from mill goes to Gibson amalgamator from which it flows to Gibson concentrator. Fifteen men are employed.

Governor Mining Co., 725 S. Figueroa St., Los Angeles, Cal. Chas. H. McWilliams, Pres., J. F. Gage, Secy. and Mgr.

Property: Owns the Governor Mine (New York) comprising 4 claims, 3 miles north of Acton and 20 miles east of Saugus, Cedar Mining district, Los Angeles, Cal.

This property has been the largest gold producer in Los Angeles Co., having been worked intermittently since about 1880.

The vein is a quartz-filled fissure in quartz diorite. The strike is N. 20 deg. W. and it dips 65 to 75 deg. N.-E. Its width varies up to 24 ft., the average being about 7 ft. Gold occurs free and associated with pyrite. The ore-shoot as now opened from the 200 level to the 700 level, shows a length of about 400 ft. The mine is developed by main working tunnel 800 ft. in length from which a vertical shaft has been sunk 720 ft., with levels at 100, 200, 300, 400, 450, 500, 600 and 700 ft. horizons. Drifts have been driven on the various levels as follows:

Level	Feet	Feet
100	N. 210	S. 65
200	N. 212	S. 277
300	N. 196	S. 263
400	N. 130	S. 329
450	N. 81	S. 294
500	N. 115	S. 309
600	N. 100	S. 215
700	S. 38	

The vein crossed the shaft at about 540 ft. and on the 600 level, the crosscut west is 40 ft. to the vein, while on the 700, it is 86 ft. west to the vein. Stoping operations have been carried on from the 600 level up but above each level there still remains unbroken ore. Shrinkage method of stoping is used and it is reported that there are now 10,000 to 12,000 tons broken in the stopes. It is also reported by the operators that there are approximately 90,000 tons of ore available from the present workings.

At the mine, in addition to compressor, blacksmith shop, change house and office, there is a 9 in. by 12-in. jaw crusher, 15 in. by 26-in. rolls, belt conveyor to 400-ton bin. From this bin the ore is hauled by trucks 4 miles to the mill which is about one mile south of Acton.

The new mill, having a capacity of 120 tons per day, has been completed only about 3 months (August, 1939) and consists of the following: 200-ton bin, belt feeder to 5 ft. by 6 ft. ball mill, trap, to Dorr-type duplex drag-classifier in closed circuit, to 4 corduroy tables 30 in. by 18 ft. to 7 ft. diameter conditioner. From conditioner, feed is split to two sets of Denver Sub. A type flotation cells, each set consisting of two roughers and one cleaner cell. This mill is under the same roof as the old one which has a capacity of 30 tons per day. All machines are motor-driven. Ratio of concentration is 46 to 1. Seventy-two percent of the gold is recovered in the trap and on the corduroy. An extraction of approximately 94% is indicated. Since reopening the property about 6 years ago, 55,000 tons have been milled. Forty-five men are employed.

The Top Nest vein occurs in andesitic porphyry; strike N. 20° W., dip 80° E. Width varies from 2 ft. to 6 ft. The vein quartz is stained with copper oxides and shows considerable hematite and some free gold associated with chalcopyrite and bornite. Development consists of 4 tunnels at different elevations driven on the vein. These tunnels very in length from 200 to 600 ft. From lower tunnel, there is a jig-back aerial tram to bin with a capacity of 25 tons. Ore is loaded into trucks and hauled to Sunrise mill in Pinto Basin for treatment. Six men are employed.

Holmes & Nicholson Mining & Milling Co., Box 828, Yuma, Ariz. Kenneth Holmes, Pres.; T. J. Towne, Mine Supt.; Harvey Hardy, Mill Supt.

La Colorado Mine

Property: During the latter part of 1936, the company had a lease on the La Colorado Mine, comprising 12 claims on the north slope of the Cargo Muchacho range of mountains, Imperial Co., Cal. The mine is owned by J. H. Mueller of Calexico, Cal. Two parallel veins occur in quartzose gneissoid granite, varying in width from 6 ft. to 35 ft. Development consists of incline shaft 200 ft. in depth; tunnel 200 ft. in length, and a vertical shaft 70 ft. deep, width 200 ft. of drifts on 65 ft. level. Equipment consists of 6 h.p. gas engine hoist and 150 cu. ft. Ingersoll-Rand Compressor. The company extracted 500 tons of ore and averaged $9 per ton in gold.

Madre and Padre Mines

The property, owned by Holmes & Nicholson Mining & Milling Co., comprises two patented claims and 8 claims held by location on the west slope of the Cargo Muchacho mountains, 4 miles east of Ogilby, Imperial Co., Cal. Developed by three incline shafts known as Padre No. 1, Madre No. 1 and No. 2. Madre No. 2 shaft is sunk on the vein to a depth of 325 ft. and about 300 ft. north of this shaft, is Madre No. 1 shaft sunk on the vein to a depth of 250 ft. Padre No. 1 shaft is 500 ft. north of Madre No. 1 shaft. Equipment consists of 2 Ingersoll-Rand compressors, one 320 cu. ft., the other 220 cu. ft., and 2 gas driven hoists. Ore mined is hauled by trucks to the company's mill at Winterhaven, 12 miles. The cyanide plant has a capacity of 70 tons per 24 hours. Forty men are employed.

Ida-Leona Mining & Milling Co., c/o H. L. Nelson, Pres.-Mgr., Perris, Cal.
Property: Ida-Leona Mine (Gavalan), comprising 360 acres on the Rancho Sobrante de San Jacinto, in the Pinacate Mining Dist., 6 miles northwest of Perris, Riverside Co., Cal. There are two systems of veins occurring in granite. The most important veins are the Gavalan and Ida-Leona which are roughly parallel, about 400 ft. apart. The Gavalan vein strikes N. 65 deg. W., dips 30 deg. S. Width is 12 in. to 2 ft. It is developed by a shaft sunk on the vein to a depth of 485 ft. (workings caved). The Ida-Leona vein strikes N. 65 deg. W. and dips 60 to 65 deg. S., width 12 in. to 4 ft. and is 400 ft. south of the Gavalan vein. About 500 ft. east of Ida-Leona shaft is a vein which strikes N. 15 deg. W. and dips 40 deg. W. Width is 2 ft. This vein intersects both the Gavalan and Ida-Leona veins.
Development: Present development work is confined to the Ida-Leona vein. A two-compartment shaft is sunk on this vein to a depth of 350 ft., with drifts east and west of shaft on the following levels: 100, 150, 250 and 300 ft. On the 100-ft. level drift 200 ft. E. and 200 ft. W, On the 150-ft. level drift 115 ft. E. On the 250-ft. level drift 100 ft. E. and 100 ft. W. On the 300-ft. level drift 100 ft. E. Ore shoot developed is 75 ft. to 100 ft. in length, with an average width of 2 ft. Quartz shows free gold associated with pyrite and galena. Ore mined from stopes is reported to carry from $25 to $50 per ton in gold.
Equipment: Power plant consists of 150-h.p. diesel direct-connected with generator; 25-h.p. electric-driven hoist; 300 cu. ft. C.P. compressor. Mine run of ore is hoisted in one-ton skip to 135-ton coarse-ore bin. Ore is trammed from coarse-ore bin to small-ore pocket to 6 by 8-in. jaw crusher, by bucket elevator to fine-ore bin with a capacity of 35 tons; from fine-ore bin by belt feeder to No. 43 Marcy ball mill 3 by 4 ft. in closed circuit, with duplex Dorr classifier; ground to 40-mesh. Discharge end of ball mill is equipped with Hardinge amalgamator in which 80% of coarse gold is recovered; overflow from classifier to amalgamation plate 5 ft. long by 4 ft. wide; then pulp to Diester table. Mill has a capacity of 30 tons per 24 hours. Mill is driven by 75-h.p. Holt gas engine. Production to date is reported to be $50,000.

Little Bodie Mining Co., c/o George de Wolfe, 6th and F. Sts., Chula Vista, Cal.
Property: 5 claims 10 miles southeast of Bridgeport and 4 miles east of the highway, about 12 miles southwest of Bodie, Mono Co., Cal.

Here a quartz vein in diorite strikes N. 60 deg. E.; dip 60 deg. NW.; width 2 ft. to 4 ft. Values largely are contained in the iron sulphides, with a little very fine free gold.

The property is developed by inclined shaft 175 ft. deep. There are levels at 100 ft. and 150 ft.; on 100-ft. level, drift N.E. 60 ft.; on 150-ft. level, drift N.E. 135 ft. This drift will be driven an additional 125 ft. to intersection of a cross vein which strikes NW.-SE. Length of ore shoot not determined. Values said to average $12 per ton.

At the shaft 7 men were erecting a mill; 40-ton bin, jaw crusher, 4 ft. by 4 ft. ball mill, drag classifier; 3 Kraut flotation cells; capacity about 30 tons per day; gas engine power.

Property: Rosecrans Mine, Auburn, El Dorado Co., Cal.; Taylor Mine, Garden Valley, Cal.
Product mined: Gold.

Lode Star Mining Co., Mojave, Cal. John Rogers, V.-Pres.-Gen. Mgr.; William Benham, Supt.
Property: Lode Star Mine (Elephant-Eagle), comprising 220 acres, on the northwest slope of Soledad Mountains, 4 miles southwest of Mojave, Kern Co., Cal. Gold occurs free, associated with pyrite. Silver occurs as cerargyrite (horn silver). Ore mined said to carry 70% in gold and 30% in silver.
Development: Confined to Echo-Gray Eagle and Starlight veins.

Log Cabin Mines Co., c/o Frank Garbutt, Pres.-Mgr., 411 7th St., Los Angeles, Cal.
Property: Simpson Mine (Log Cabin and Sunrise Groups), under option from Mutual Gold Mines, Inc. comprising 17 claims on the east slope of the Sierra Nevada, 2½ miles west of Mono Lake, Mono Co., Cal.

On the Log Cabin Group, to which the present company has confined its operations, there are 5 parallel veins which strike north. The walls are slate and quartzite. The veins vary in width from 2 ft. to 6 ft. The vein filling is quartz and the values occur as free gold associated with hematite.

These claims have been developed by a 2-compartment shaft 300 ft. deep, with levels at 75, 125, 200 and 300 ft. A 1200-ft. adit. driven for drainage, connects with the 300-ft. level; in addition to which there are approximately 2000 ft. of drifts on the various levels.

There is a 10-stamp amalgamation mill on the property. They are installing a No. 65 Marcy ball mill equipped with Clark-Todd amalgamator; capacity of plant 100 tons. Thirty men are employed.

Los Amigos Gold Mining Company, Ltd., Yankee Hill, Cal.

Los Padre Mining Co., 540 Title Insurance Bldg., Los Angeles, Cal. M. C. Clemens, Pres.; C. B. Caldwell, Secy.
Property: Los Padre Mine, comprising 8 claims in Dry Lake Mining district, San Bernardino Co., Cal.

The vein strikes E.-W. and dips 80 deg. S.; width 2 ft. to 3 ft. It occurs in gneissoid granite. Development consists of crosscut tunnel driven north 700 ft. to Padre vein, with drift east on the vein 80 ft. and 300 ft. west. An incline shaft is sunk on the vein from the surface to a depth of 150 ft., intersected the west drift 50 ft. north of lower crosscut tunnel. There is an upper tunnel driven on the vein which intersects the shaft 50 ft. below collar of shaft and a drift on the vein 200 ft. northwest. Some high-grade gold ore was recovered from the upper workings, the gold in the quartz being in wire form. The west drift in lower tunnel level developed an ore shoot 30 ft. in length with an average width of 18 in. The company sunk a well about one-half mile west of the property, developing sufficient water for camp and milling purposes. A 20-ton amalgamation and concentration plant has been installed on the property. Idle.

Property: Black Eagle Mine, comprising 7 patented claims held by location, 40 miles northeast of Mecca, Riverside Co., Cal. The Black Eagle vein strikes N. 70 deg. W., dips 85 deg. N. The vein occurs along a contact of quartzite and diorite.
Development: A shaft has been sunk on the vein to a depth of 400 ft. An adit tunnel intersects the shaft 162 ft. west of the portal, at a depth of 80 ft. below the collar, with a total length driven on vein of 500 ft. west. The vein has been drifted on east and west on 100, 200 and 300-ft levels. The vein is from 4 ft. to 10 ft. in width. The vein quartz is mineralized with galena, malachite, azurite, cuprite, anglesite, cerussite and lead vanadate. The ore carries values in gold, silver, copper and lead.
Equipment: Equipment consists of 300-h.p. diesel engine, direct-connected to generator; electric hoist, compressor and 100-ton concentration plant equipped with ball mill, screens, classifiers, Wilfley tables and Denver Sub A flotation cells. The water supply is from a well in Pinto Basin, 5 miles from property. Concentrates are shipped to Midvale, Utah.

O'Brien Mines Co., Inc., Box 465, Ocean Beach, Cal. J. J. O'Brien, Pres.; A. T. Balmforth, Secy.; W. D. McMillen, Supt.
Property: American Girl Mine, comprising 24 claims, situated in the Cargo Muchacho Mining District, 5 miles northeast of Ogilby, Imperial Co., Cal. Three parallel veins occur in schist, strike E. and W., dip 35 deg. S. The veins have a thickness of 20 ft. to 50 ft. The ore in these veins is a soft. fine-grained schist, with an intermingling of quartz. The vein quartz is mineralized with pyrite and chalcopyrite. The pyrite carries the gold values. The principal development work is on what is known as the Brown Vein.
Development: The American Girl Shaft has been sunk on an inclination of 35 in the footwall of the Brown Vein to a depth of 730 ft. The main working shaft, known as Tybo Shaft, is located 750 ft. west of the American Girl Shaft and is sunk on the Brown Vein to a depth of 850 ft. on an inclination of 35 deg. The two shafts are connected on the 400, 500 and 600 ft. levels. The ore-body is mined by square-set system of stopes. Power Plant: 3 cylinder, 350 h.p. diesel engine, direct connected with 212 K. W. generator; 430 cu. ft. Sullivan compressor, driven by 125 h.p. caterpillar gas engine. Ore is hoisted in 2 ton skip by 50 h.p. electric hoist; dumped into coarse ore bin with a capacity of 150 tons. The ore from coarse-ore bins goes to flotation plant with a capacity of 165 tons per 24 hours. Flotation concentrates are shipped to Magma Copper Company's smelter at Superior, Ariz. During 1938, 60,000 tons of ore were mined and milled. Water for mining and milling is secured from the company's well. Eighty men were employed. Operations were suspended August, 1939.

Property: Operator Consolidated Mines, comprising 7 claims, 140 acres, patented, one half mile north of Johannesburg, Kern Co., Cal.

Five veins have been developed on the property; strike NW.-SE., with a dip of 20 deg. N.E.; widths 2 ft. to 12 ft. The formation is schist, although in places rhyolite and diabase dikes occur as walls of the veins. The ore is oxidized and free-milling. The Phoenix vein is developed by an incline shaft to a depth of 300 ft., with 6 levels and some 2000 ft. of drifts.

Present development work is on the Styx Claim and consists of cross-cut tunnel driven 400 ft. to vein, developing an ore shoot 100 ft. in length and 6 to 12 ft. wide. Finger winzes have been sunk on the vein at this point. Mine run of ore goes to 15-stamp mill, treatment being amalgamation and cyanide. Plant has a capacity of 25 tons per day. Water is secured from Little Butte Mine; electric power from Southern Sierra Power Corp. Sixteen men are employed.

Penn-California Mining Company of Delaware.
Incorporated in Delaware on September 15, 1921, and lost its charter on April 1, 1933. The last address of the company was 602 Frick Bldg., Pittsburgh, Pa., in care of C. D. Scully, attorney, and director of the company. The Hoge Development Company was incorporated in Delaware on June 23, 1928, as successor to Penn-California Mining Company. Under date of May 16, 1930, an Agreement of Merger was filed in Delaware between Hoge Development Company and Annex Mining Company, under the name of Hoge Development Company. This company lost it charter on March 30, 1940. The Great Northern Gold Mines, Inc., was incorporated in Delaware on January 25, 1933, to acquire the property of the Hoge Development Company for 1,600,000 shares of its stock. The property consists of 280 acres in Nevada Co., Cal. The Great Northern Gold Mines, Inc., lost its charter on April 1, 1940. Mr. Cornelius D. Scully, Frick Bldg., Pittsburgh, Pa., informed us on September 9. 1940, as follows: "I have your letter of September 7th with regard to bonds of the Penn-California Mining Company. The property which was security on these bonds was sold at foreclosure and paid in by the Bondholder's Committee some years ago. Efforts had been made by the Bondholder's Committee to contract all bondholders, and if your client failed to make such contact his rights have presumably lapsed. If you will be good enough to advise the name of your client, we will look at the records and see whether there is any record of his being a bondholder and will advise what, if anything, can be done in the premises."

Pinto Basin Mining Co., c/o C. Carlton, Pres.; Wm. Lesher, Secy.; R. D. Lamme, Supt., Indio, Cal.
Property: Holds under lease and option the Golden Rod Mine, comprising 2 claims and mill site, in the Dale Mining district, 40 miles north of Mecca, Riverside Co., Cal., from the O. K. Mining Co.

The vein occurs in granite, strikes N. S. and dips 80 W.; width 2 ft. to 4 ft. A shaft is sunk on the vein to a depth of 350 ft. Drifts have been driven north and south on the following levels: 40, 80, 130, 200, 250, and 350 ft. On the 200 ft. level, drift north 300 ft. and south 50 ft.; on 250 ft. level, drift north 65 ft.; south 65 ft. on 300 ft. level; north 75 ft. and south 100 ft. Ore shoot developed is 75 to 100 ft. in length; average width 4 ft. Ore mined from 300 and 350 ft. levels is being shipped to the Gold Crown Mining Company's mill for treatment. The ore is reported to carry from 2 oz. to 4 oz. in gold.

The mill on property has a capacity of 10 tons; 6 in. by 8 in. jaw crusher; 3 ft. by 9 ft. Straub ball mill, with classifier head; two 3 by 5 ft. amalgamation plates. Water is hauled from Lane well in Pinto Basin. Eight men are employed.

Pinto Basin Mining & Milling Co., 199 Fair Oaks Ave., Pasadena, Cal. J. L. Socke, Pres.; R. C. Bella, Secy.; A. J. Mayne, Supt.
Property: Leased from the Sunrise Mines, Inc., 416 Electric Bldg., San Diego, Cal., the Sunrise Mine, comprising three groups of claims known as the Sunrise Group of 15 claims, Cortez Group of 3 claims, and the Zulu Group of 11 claims. the latter being located in the Monte Negro district, 6 miles east of the Sunrise claims. The Sunrise claims are located on the southeast slope of the Dale Hills, all in Riverside Co., Cal.

A series of parallel quartz veins in granite; strike N. 20 deg. W., dip 70 deg. SW.; width 2 ft. to 4 ft. Sunrise shaft is sunk to a depth of 300 ft. on an inclination of 75 deg., with levels at 100, 200, and 300 ft.

The present company is remodeling the mill for the purpose of doing custom work. Mill: 8 in. by 10 in. Blake crusher elevated to fine-ore bin; belt type of feeder from bin to 10 ft. Lane mill, then to Wilfley concentrator; pulp from concentrator to sump; then pumped to two 12 ft. by 12 ft. Deveraux agitators; two 10 ft. by 12 ft. Dorr thickeners; 8 ft. by 10 ft. solution tank. The mill has a capacity of 25 tons. Four men are employed.

Piute Mining Co., 917 Ronan Bldg., Wilmington, Cal. W. H. White, Pres.; O. W. Crockett, Secy., Seattle, Wash.; William J. Quackenbush, Mgr., 917 Ronan Bldg., Wilmington, Cal.
Property: Leased the Sky Line Mine comprising 8 claims in the Pine Tree Canyon, 15 miles north of Mojave, 3 miles west of Owens Valley Highway, Kern Co., Cal.

The country rock is quartz monzonite. The principal vein strikes N. 85 deg. W., dips 70 deg. to 75 deg. NE.; width 2 ft to 8 ft. It is partially filled with quartz. Mineralization consists of sulphides and very little free gold. Principal development consists of two shafts. East shaft is 250 ft. deep, with levels at 75, 140 and 250 ft. On the 250 ft level, there is a drift west 200 ft. and east 210 ft. At about 100 ft. west of shaft on this level, a fault displaces the vein 60 ft. to the north. The west shaft is 1000 ft. west of east shaft and has been sunk on the vein to a depth of 200 ft., with levels at 100 and 200 ft. About 1200 ft. north of this vein there is a parallel vein whose outcrop is up to 30 ft. wide. This vein is developed by shaft 100 ft. in depth.

The mill which is about 1½ miles down the canyon from the mine consists of the following equipment: No. 2½ Wheeling jaw crusher. 5 ft. by 4 ft. Marcy ball mill, simplex Dorr type classifier, 6 ft. K & K flotation rougher cell and 6 ft. K & K cleaner cell, Wilfley table. Capacity of the mill is 40 tons per day, 20 tons per day being treated. Seven men are employed in mine and 5 men at the mill.

Pride of Mojave Mining Corporation, Van Nuys Bldg., Los Angeles, Cal. George H. Barnes, Pres.; Floyd Yancey. Sec.; John Dewar, V.-Pres.-Mgr.; John J. Murray, Supt.
Property: Leased the Pride of Mojave Mine comprising 65 acres in the Mojave Mining district; Desert Queen and Hobson claims consisting of 40 acres, Kern Co., Cal.

The property has been developed by three shafts; the Pride of Mojave shaft sunk to a depth of 265 ft., on an inclination of 65 deg.; the Desert Queen shaft 400 ft. on 70 deg. inclination and the Four Star shaft, sunk to a depth of 400 ft., vertical. Levels have been driven at the 70, 130 and 230 ft. horizons in the Pride of Mojave shaft, with a total of about 4000 ft. of workings. On the 300 ft level in the Four Star shaft, a crosscut has been driven west 365 ft. to the Desert Queen vein, with a drift south on the vein 220 ft. At the end of the crosscut there is a raise which connects with the fourth level of the Desert Queen. On the 400 ft. level there is a crosscut 150 ft. to the vein, with a drift south 50 ft. The vein is said to average 4 ft. in with, with a reported average value of $7.50 per ton.

At the Pride of Mojave shaft, the mill has been erected equipped as follows: 400-ton coarse-ore bin, 10 in. by 10 in. jaw crusher, 18 in. belt conveyor to Vezin samplers (½ to 1% sample) to 200-ton fine-ore bin, belt feeder to 6 ft. by 5 ft. ball mill, Dorr type of duplex classifier, 16 ft. Dorr thickener, 6 ft. by 6 ft. condition tank, to Denver Sub-A flotation rougher cells and one Sub-A cleaner cell and Plat-O table. Machines have individual electric motor drives, using a total of 380 h.p. About 25 men are employed.

Reward Mining Co., c/o Julian Itter, Pres.-Mgr.; Beverly Hills, Cal.; J. N. Thiele, Secy., Santa Paula, Cal.
Property: Reward Mine comprising 4 patented claims in the Goldstone Mining district, San Bernardino Co., Cal.

The Reward vein occurs in schist, strike N. 30 deg. W., dip 75 deg. W. Width varies from 2 ft. to 6 ft. A lime-silicate dike forms the footwall of the vein, with schist hanging wall. A tunnel has been driven N. 30 deg. W. 600 ft. At 50 ft. north of portal of the tunnel developed an ore shoot 150 ft. in length, with an average width of 4 ft. Two raises have been put up to the surface, a distance of 60 ft. Ore is stoped out. These raises are 125 ft. apart. At 350 ft. from portal of tunnel cut lime-silicate dike. The vein quartz shows free gold associated with pyrite, chalcopyrite and marcasite. Ore milled is stated to have an average value of $30 per ton in gold. At 570 ft. from the portal of tunnel on contact of lime-silicate dike, developed some small lenses of copper ore. The mineral was chalcopyrite associated with pyrite. Samples taken stated to carry from 4 per cent to 15 per cent copper, with $1.40 per ton in gold. At this point, a winze was sunk on an inclination of 20 deg. to a depth of 112 ft.

About 7 miles west of the mine, the company drilled a well 375 ft. deep, developing water and installed a 20-ton amalgamation mill. After short operation, the mill was sold to L. V. Storrs, of Hollywood, Cal. Idle.

Santa Fe Gold Mines, Inc., 55 Liberty St., New York City, and Pacific Southwest Bldg., Pasadena, Cal. Officers: Hewitt S. West, Pres.; W. Lunsford Long, Chairman of the Board; Harlan H. Bradt, Mgr. Eng.; J. E. Moore, Jr., Gen. Supt.; Algernon Del Mar, Consulting Eng.
Property: Santa Fe Mines, comprising 175 claims known as the Black Hawk Group of Mines, on the east slope of San Bernardino Mountains, 35 miles southeast of Victorsville, San Bernardino, Cal. The formations that occur in the vicinity of Black Hawk Canyon are gneissoid granite, overlain by white, gray or reddish metamorphic limestone and a series of interbedded sandstone. Along Black Hawk Canyon, the limestone is in the form of a breccia slightly silicified, with red iron (hematite) streaks running through the brecciated mass that gives it a pinkish or reddish color. The fragments are slightly cemented together, stained red, being principally calcite, with some dolomite and fine, irregular grains of quartz. The footwall of the ore zone is granite, with a hanging wall of massive limestone. The Black Hawk lode which follows along Black Hawk Canyon strikes N. 20 deg. E. and dips 5 deg. to 20 deg. SW. The Arlington-Santa Fe lode strikes N. 80 deg. E. and dips 5 deg. to 20 deg. S. The crushed zone is at least 100 ft. thick, with a gneissoid granite footwall and limestone hanging wall. The gold occurs in the soft material that forms the filling between the crushed fragments and not in the pieces of hard rock. The

richest ore is found in hematite streaks that occur at intervals throughout the crushed zone, and the whole is free-milling. At present ore is being mined from the Arlington-Santa Fe lode at an elevation of 6,200 feet along the lode. A workings: Consist of an open cut 200 ft. in length along the strike of the lode, with a height of 50 ft. above the floor of the cut. A ½-yd. P & H shovel loads ore into trucks for delivery to screening plant. B workings: Consist of crosscut tunnel driven south 400 ft.; connects with glory hole. Ore is hauled by train of 10 cars, with a capacity of 2 tons each, by storage-battery locomotive to receiving bins at screening plant. Farther west is crosscut tunnel No. 2 driven south 400 ft. connecting with a glory hole. C workings: Ore from this crosscut tunnel is delivered on train to receiving bin. About 500 feet east of Calle de Oro Mine workings, is an open cut about 100 ft. in length and 50 ft. in height. Ore from these workings is delivered by caterpillar tractor to ore bin from which it goes through 16-in. pipeline to main receiving bin.

Upper screening and crushing plant: (See flow sheet). Ore from different mine workings is dumped onto railroad-iron grizzly, spaced 8 in. apart to ore bin having a capacity of 125 tons. Ore from bin is fed by 3-ft. by 6-ft. apron feeder to 4 ft. in diameter by 16 ft. in length trommel made in sections as follows: One section of 3¼-in. size, one section of 1¾-in. size, 2 sections of 1-in. size openings. The plus 3¼-in. material goes from trommel to waste bin, then to 24-in. belt conveyor to waste dump. Minus 3¼-in. and plus 1¾-in. to 20-ton surge bin to a 10-in. by 20-in. Blake type of crusher, set to 1¾-in.; driven by 50-h.p. motor (not operating). The 1¾-in. to minus 1¾-in. to minus 1-in. size material from trommel goes to double-deck Kennedy-Van Sant vibrating screen. It is screened to minus ¼-in.; oversize from screens to bin, then to 24-in. belt conveyor to waste dump. Oversize waste material is reported to carry 7 cents per ton in gold. The ¼-in. size material goes to bin with a capacity of 100 tons. From bin it goes to 18-in. belt conveyor equipped with magnetic pulley; then to 100-ton fine-ore bin from which it flows by gravity through 10-in. pipe 350 ft. in length to storage bin with a capacity of 3,000 tons. From storage bins, it is hauled by trucks with a capacity of 11 tons each, a distance of 2.2 miles to lower receiving plant. Cost of hauling under contract is 18 cents per ton. Trucks dump ¼-in. ore into bin having a capacity of 300 tons. Ore from 300-ton bin fed by two 2-ft. by 4-ft. apron feeders to 24-in. belt conveyor, equipped with magnetic pulley to Kennedy-Van Sant vibrating screen which screens the ore to plus ¼-in. and minus ¼-in.; oversize to 50-ton surge bin, from which it is fed by gate feeders to 2 Kennedy-Van Sant gyratory crushers (each driven by 30-h.p. motors); crushed to minus ¼-in.; then to 18-in. belt conveyor, to 24-in. belt conveyor that carries the minus ¼-in. product to tower sampler; from tower sampler to bin with a capacity of 300 tons. From bin, ore is fed by Pug-mill tender feeder to Pug mill. A small amount of water is added to Pug-mill tender. From Pug-mill the ore goes to 18-in. belt conveyor, to two 18-in. cross belt conveyors over seven 12-ft. by 40-ft. steel and sand-leaching tanks. From the cross belt conveyors, over the tank to be loaded to Kennedy-Van Sant Distributor which loads tanks uniformly. Each tank has a capacity of 600 tons of ore. Cyanide solution is fed through bottom of tanks. Time of contact is 120 hours. One tank is emptied every 7 days. Gold solution goes from leaching tanks to two 12-ft. by 24-ft. gold solution tanks, then to 8-ft. by 10-ft. clarifier tank with filter leaves, then to Merrill-Crowe precipitation process. Barren solution is pumped to two 12-ft. by 24-ft. barren solution tanks pumped to 12-ft. by 24-ft. storage tank; sands from leaching tanks to 120-ft. sluice box equipped with riffles to 2-cell, 42-in. Pan-American jig; hutch product from jig to 2-cell, 18-in. cleanup jig; hutch product from cleanup jig to amalgamation barrel and tails from amalgamation barrel returned to leaching tank; tails from 2-cell, 42-in. jig and tails from 2-cell, 18-in. cleanup jig to Dorr drag classifier; sands from classifier to 18-in. belt conveyor to waste dump; slimes from classifier to two 27-ft. Dorr thickeners; overflow from thickeners to 55-ft. Dorr thickener and overflow from thickener pumped to water storage tank and underflow from thickeners to tailings pond.

Water for camp and milling operations is secured from Arrastra Creek through 5-in. pipeline, 4½ miles in length; flows by gravity to 11-ft. by 34-ft. storage tank, with a capacity of 35,000 gal. Electric power is secured from the Southern Sierras Power Co., over a power line 6 miles long from substation in Arctic Canyon. Fifteen men are employed in mill, 35 men at mine, camp 10 men, total employed being 60 men.

Seward-Bradley Mining Co., c/o P. B. Seward, Pres., Los Angeles, Cal. D. A. Bradley, Sec. & Mgr.
Property: Leased the Milwaukee Mine, comprising 610 acres situated on the west slope of Hamilton Mt., Kern Co., Cal., from the Milwaukee Mining Company, Milwaukee, Wis.

The vein occurs in dacite, strikes E.-W.; dip 60 deg. S.; width 4 ft. to 6 ft. Former workings of Milwaukee group were in the NW. ¼ of Sec. 16 and consisted of 3 shafts: 2 vertical shafts, one 85 ft. and the other 310 ft.; on the 200-ft. level, cross-cut north 250 ft. and 250 ft. of drifts; also an incline shaft 140 ft. deep. All workings are caved. West of these workings at a higher elevation, the present company has sunk an incline shaft 250 ft. in depth, with a cross-cut north on the 200-ft. level.

Equipment consists of Gardner-Denver compressor, driven by 20-h.p. gas engine; 10-h.p. gas engine hoist. Idle.

We received the following letter from the Water Project Authority of the State of California, signed by A. D. Edmonston, Acting Secretary, and dated Oct. 13, 1937. "The property of this company lies within the site of the Kennett reservoir of the Central Valley Project now being constructed by the United States Bureau of Reclamation. The property has not been purchased by the State of California or any other agency so far as we know. The Bureau of Reclamation now has men at work in the field appraising properties required for the reservoir site, but we have no information as to when offers will be made for their purchase."

Spangler Mercury Co., c/o J. M. Quigley, Johannesburg, Cal.
Property: Holds the Spangler Mine under lease and option, comprising 18 claims, 6 miles portheast of Searles, Kern Co., Cal. Owner of mine: Gold Point Mining & Milling Co., Bakersfield, Cal.

The property was located in 1896 and has been held by the Spangler brothers since that date. The country rock is a coarse-grained diorite in which occurs an east-west vein, intersecting a north-south quartz-filled fracture. The east-west vein, known as the Gold Point, dips 50 deg. S. The north-south vein dips 45 deg. W. The lenticular masses of quartz in the veins are from 12 in. to 3 ft. wide. Shipments aggregating 500 tons of ore have been made from the property, reported to have carried $40 per ton in gold.

Development: Principal development has been on the Gold Point vein. It consists of a shaft sunk on the vein to a depth of 175 ft., with drifts on the 75 and 150 ft. levels. Total development amounts to 2,000 ft. Mill consists of 40-ton ore bin, 8 in. by 10 in. jaw crusher, 4 ft. balanced rod mill, 4 ft. by 8 ft. amalgamation plates and concentrating table. Mill is driven by gasoline engines.

Super Products, Inc., c/o Mark F. Jones, Pres., C. C. Chapman Bldg., Los Angeles, Cal.
Property: Leased in October, 1939, the Red Cloud Mine, comprising 3 patented claims known as Great Western, White Wings and Red Head, totaling 60 acres, in the Chuckawalla Mountains, 9 miles south of Desert Center and 48 miles southeast of Indio, Riverside Co., Cal.

The property was operated by the Red Cloud Mining Co., J. M. Huston, secretary, from 1898 to 1900, during which time the White Wings shaft was sunk on the vein to a depth of 267 ft. and the Great Western shaft to a depth of 480 ft. On the Red Head Claim, a tunnel was driven on the vein a distance of 250 ft. Ore hauled to Corn Springs and milled is reported to have had an average value of $12 per ton in gold. The property was idle until November, 1931, when it was taken under lease and bond by Charles V. Craig and associates, of Los Angeles, who installed a small mill and mined ore from the Red Head tunnel. Ore mined is reported to average $20 per ton in gold. Concentrates shipped to U. S. Smelting Company's smelter at Midvale, Utah, had an average value of $100 per ton in gold. Operations were suspended in 1933.

In 1934, the S. & W. Mining Co., B. F. Schmidt, president and manager, secured an option on the property and operated until December 1, 1936. This company sank an incline shaft on the Red Head Claim to a depth of 200 ft. In this development work they encountered high-grade shoot on the footwall of the vein. It is stated the company had a production of $30,000 in bullion and concentrates shipped. The concentrates produced are stated to have carried from 20 oz. to 26 oz. in gold per ton. In January, 1937, the property was under lease to Cecil H. Smith, who operated the property until June, 1937. He shipped 300 tons of ore stated to have averaged 1.43 oz. per ton in gold. In January, 1938, the property was under option to Frank Ahlberg and associates, of Los Angeles, who operated until September, 1939, during which time. a 25-ton amalgamation and cyanide plant was installed on the property. They also sank the Red Head shaft to a depth of 300 ft. In October, 1939, the property was taken over under lease by Super Products, Inc., Mark F. Jones, president; C. C. Chapman Bldg., Los Angeles.

The Red Cloud vein occurs on contact of gneissoid granite and porphyry. The hanging wall is granite and porphyry and the footwall is gneissoid granite. The vein strikes N. 20 deg. W. and dips 60 deg. E.; width 6 ft. to 15 ft. It can be followed along its outcrop for a distance of 4,500 ft. The vein quartz is mineralized with free gold associated with pyrite.

Development: Consists of 3 shafts and a number of tunnels.

Great Western shaft is sunk on the vein to a depth of 480 ft., with levels at 100, 150, 210, 250, and 350 ft. White Wings shaft is sunk on the vein to a depth of 267 ft., with levels at 100, 180, and 220 ft. About 500 ft. north of the White Wings shaft is the Red Head shaft which has been sunk on an inclination of 60 deg. to a depth of 309 ft., with levels at 100, 200, 275, and 300 ft. All recent work has been confined to this shaft and the Red Head tunnel which is driven on the vein for a distance of 250 ft. In sinking this shaft to the 100-ft. level, a sulphide orebody was encountered on the hanging wall of vein, the vein-material being heavily mineralized with cube pyrite. This orebody is 12 ft. wide and reported to average $15 to $20 in gold per ton. From the 200-ft. level to the 300-ft. level on the footwall side of the vein, a high-grade lense of oxidized quartz was encountered which had an average of $50 per ton in gold. The vein quartz was from 2 ft. to 4 ft. in width and the shoot developed was about 30 ft. in length. This ore shoot was cut off by a fault striking east and west between the Red Head shaft and White Wings shaft. The orebody developed in this shaft occurs between gneissoid granite footwall and a porphyry intrusion on the hanging wall.

Telegraph Mines, Inc., Baker, Cal. Officers: J. T. Hutton, Pres.; Andrew Bauer, Sec., Long Beach, Cal.
Property: Telegraph Mines, comprising 5 claims in the Solo Mining district, San Bernardino Co., Cal. (Under lease to Solo Engineering Co.)

The property was located on November 19, 1930, by Ralph and A. A. Brown of Salida, Utah. Discovery of a high-grade streak of ore was made on Telegraph Extension Claim which caused a revival of mining activity in this old district. O. Perry Riker of Long Beach, operated the property under lease from December, 1932, to January, 1935. During this period he shipped 220 tons of ore to the mill at Yucca Grove, operated by the Consolidated Metal Mines, Ltd., of Salt Lake City, Utah. The ore treated was reported to have an average value of $16 per ton in gold; also shipped to smelter 909 tons; value $18,963. Solo Engineering Co. has a lease and option on the property from September, 1935, to date. Total production of the property to date has been $35,200.

Calcite-quartz vein occurs in granite, with a strike of N. 30 deg. E., and dip of 30 deg. to 50 deg. NW. Width of vein varies from 4 ft. to 8 ft. The vein occurs along aplite dike that has the same general strike and dip. This dike forms the footwall of the vein with a granite hanging wall. Since the Twenty-seventh Report of the State Mineralogist, p. 332, the following amount of development has been done on the property: On South Telegraph Claim, at an elevation of 3,750 ft., a shaft has been sunk on an inclination of 52 deg. to a depth of 125 ft.; on the 75-ft. level, drift north 250 ft. on vein, with drift south 115 ft. Ore shoot developed on this level is 250 ft. in length; average width 6 ft. It is reported to have an average value of $9 per ton in gold. On Telegraph Extension Claim, a shaft has been sunk on the vein to a depth of 100 ft. The dip of the vein is 35 deg. W.; width 6 ft. to 8 ft. Two hundred tons of ore mined and milled from Telegraph Extension shaft is reported to have had an average value of $16 per ton in gold. Present work is confined to shaft on South Telegraph Claim.

Mine equipment consists of C. P. compressor, capacity 110 cu. ft.; also Garden-Denver compressor, with a capacity of 118 cu. ft.; 12-h.p. Western gas engine hoist.

Mill equipment consists of 25-ton ore bin; 8-in. by 10-in. Blake crusher; 3-ft. by 6-ft. Hartman ball mill in closed circuit, with Simplex Dorr classifier, ground to minus 60-mesh, then to 8-ft. K & K flotation machine; tails to waste. Concentrates produced are reported to carry $300 to $400 per ton in gold.

Two systems of veins occur in a rhyolite dike in monzonite. The dike strikes NE. and SW. On the north side of the rhyolite dike, there is a series of northwest-southeast veins in monzonite. The east-west veins occur in rhyolite. Development consists of four shafts, two of which are 25 ft. deep. The other two have depths of 50 ft. There is a drift 60 ft. in length between the two 50-ft shafts. Ore mined and sorted from these workings is reported to carry $50 per ton. It is reported that $5,000 worth of ore has been shipped from the property. Five men are employed.

Alpine Gold, Ltd. (N.P.L.), 415 Baker St., Nelson, B. C. James B. Curtis, Pres.; Barbara O'Neil, Secy.

Capital: 500,000 shares; 50c par.

Property: This property lies between 6,500 and 7,000 feet elevation at the head of Sitkum Creek, about 9 miles from a point on the Nelson-Kaslo Highway, 8 miles northeast of Nelson.

Equipment: It is equipped with a Diesel-driven mining plant and 50-ton flotation plant. The concentrator is about 1 mile below the mine and is connected to it with a high-speed 2-bucket Riblet tram.

Development: 600 ft. of drifting and 700 ft. of crosscutting. The concentrator was put in operation on December 10.

Amparo Mining Co., Ltd., Royal Bank Bldg., Vancouver, B. C. Howard W. White, Pres.; J. B. Knaebel, Mgr. Dir.; W. S. Jordan, Secy.-Treas. Capital: 10,000 shares, $1 par; issued, 1,000 shares. The company is doing development work on the Midas group on Yanks Peak, long. 121 deg., lat., 52 deg. 51 min., about 12 miles north of Keithley Creek. Extensive crosscutting and drifting operations were carried out from the north side of Yanks Peak.. Bulk samples were taken and reduced in a sampling plant erected on the south side of the peak at the new camp site. Bunkhouses and a warehouse were also constructed preparatory to further underground development. Between 50 and 70 men were employed by the company on surface and underground development work until late in the year.

Arlington.
This property, situated on Springer Creek, about 7 miles from the main Slocan Hwy., was operated under lease by F. W. Jancowski and associates for a short time during the early part of the year. A total of 202 tons of ore, chiefly sorted from the old dumps, was shipped to Trail. This yielded 5,034 oz. of silver, 7,367 lb. of lead, and 4,438 lb. of zinc. The underground workings are in very bad condition and are, for the most part, inaccessible.

Arlington.
This property, situated on Keystone Mt., 3 miles north of Erie, is owned by Relief-Arlington Mines, Ltd., and is leased to Roger Oscarson, of Spokane. Thirteen men were employed under the supervision of A. J. Johnson. Hand-steel only was used and development included 141 feet of drifting, 77 ft. of crosscutting, 535 ft. of raising, and reconditioning of 530 ft. of drifts and 20 ft. of raises in the old workings. A total of 783 tons of ore shipped to Trail yielded 1,193 oz. of gold, 2,247 oz. of silver, and 41,548 lb. of lead.

Barnato.
This claim on Horseshoe Mt., 23 miles north of Westbridge, is owned by H. Redden, of Vancouver, and is operated under lease by F. O. Peterson and partners. A total of 75 tons of ore, mined by hand-steel from shallow pits and surface trenches, was shipped to Tacoma and yielded 82 oz. of gold and 8 oz. of silver.

Barnett Mining Co., Seattle, Wash. R. G. McLeod, in charge.
The company is operating the Barnett group on McGuire Creek, a tributary at the head of Lemon Creek. It is about 14 miles from a point on the Trans-Provincial Hwy., 5 miles east of Nelson. During 1939, a crew of 7 men was engaged in clearig out old workings and in surface-stripping on the Barnett vein.

Base Metals Mining Corporation, Ltd., 350 Bay St., Toronto, Ont. Mine office: Field, B. C. J. H. C. Waite, Pres.; G. C. Ames, Secy.-Treas.; John D. Galloway, Mine Mgr.
Capital: 3,000,000 shares, no par value; issued, 2,330,714. The company operates the Monarch Mine, on Mt. Stephen, 3 miles east of Field. The property is equipped with a 300-ton concentrator. Operations were resumed at this property late in December, 1939, after having been suspended entirely for nearly a year, following a period during which they had been limited to development work in the part of the mine known as the East Monarch. Some difficulties had to be surmounted before the plant could be brought back to full working order, but rapid progress was made and the mill was soon operated on a basis of 300 tons per day. A total of 90 men is employed, 44 of them underground.

Batchelor.
This property, situated on Memphis Creek, about 5 miles from Slocan City, was operated under lease by F. R. Jancowski and associates; 4 men being engaged in underground work with hand steel. About ¾ of a mile of go-devil trail from the mine to the main Slocan Hwy. was built by the operators. Not much development work was done, but 10 tons of ore, mined and shipped to Trail, yielded 5 oz. of gold and 436 oz. of silver.

Bayonne Consolidated Mines, Ltd., 308 Pacific Bldg., Vancouver, B. C. Mine office: Bayonne, B. C. W. C. Ditmars, Pres.; H. T. Wilson, Secy.-Treas; John Broatch, Mine Mgr.
Capital: 2,500,000 shares, no par value; issued, 2,500,000. The company owns and operates the Bayonne Mine on Summit Creek, 23 miles by road from Tye. The property is equipped with a mining plant and a 50-ton cyanide plant,

During 1939, a development campaign was undertaken in an attempt to locate new ore bodies in the same general areas from which the former production was made. During the early part of the summer, hand steel was used but, later, part of the power plant was put in operation and compressed air used for development. Development work included 335 ft. of crosscutting and 666 ft. of surface trenching. The mill and power plant have not been dismantled and could be put in operation at short notice should a supply of ore become available. Some clean-up material from the old workings was washed and concentrated by placer methods. A total of 114 tons yielded 516 oz. of gold and 1,514 oz. of silver.

Bear.
This property, adjoining the Fern Mine was operated by a local syndicate with P.H. Russel of Nelson as Secy. Three miles of new road was constructed from the Main Hall Creek Road to the mine. A maximum of 7 men, with 3 underground, were employed under the supervision of Lafe McLellan. Development work included 45 ft. of drifting, 15 ft. of crosscutting, and 30 ft. of surface trenching. In addition, a new low-level crosscut adit was advanced 45 ft., and 28 tons of ore was mined and shipped to Trail, yielding 13 oz. of gold and 21 oz. of silver.

Beaver Silver Mines, Ltd., Box 609, Kelowna, B. C. Mine office: Beaverdell, B. C. R. B. Staples, Pres.; J. C. Ralston, Secy.
Capital: 2,000,000 shares, 50c par; issued, 1,600,000. Controlling interest in the company is held by the Highland Bell, Ltd. The company owns the Beaver claim, adjoining the Highland Bell, on Wallace Mt.

The property was worked under lease, during the first half of the year, by H. S. Nordman and associates. Five men were employed, four working underground. Development work included 105 ft. of drifting and 45 ft. of raising. A total of 157 tons of ore, shipped to Trail, yielded 5 oz. of gold, 11,916 oz. of silver, and 8,673 lb. of lead. This work was discontinued during the summer and a lease taken on the dumps by C. Staples.

Beaverdell-Wellington Syndicate, Ltd., Greenwood, B. C. Mine office: Beaverdell, B. C. Jas. Kerr, Pres.; G. S. Walters, Secy.-Treas.; A. J. Morrison, Mgr.
Capital: 50,000 shares, $1 par; issued, 50,000 The company owns the Wellington, on Wallace Mt., near Beaverdell. A small amount of work was done on this property, as the main activities of the company were concentrated on the Bounty and Bounty Fraction. Development on the Wellington included 50 ft. of raising and 140 ft. of test holes. A total of 125 tons of ore, mined and shipped to Trail, yielded 4 oz. of gold, 18,656 oz. of silver, and 15,831 lb. of lead. Late in 1939, a lease was taken on the property by A. J. Morrison and associates.

The company also operates the Bounty and Bounty Fraction, on Wallace Mt., in conjunction with the Wellington. During the early part of the year 12 men, with 5 underground, were employed, but this was reduced to 5, with 2 underground, and the work was confined chiefly to development. This included 315 ft. of drifting, 30 ft. of sinking, 50 ft. of raising and, 140 ft. of test-hole drilling.

Bristol Mines, Ltd., 425 Howe St., Vancouver, B. C. W. Spence, Secy.; A. E. Stromberg, Man. Dir.
Capital: 50,000 shares, no par value. This company is developing a property on Tommy Creek, about 4 miles south of the highway, at a point 12 miles east of Minto. Development consisted of 250 ft. of drifting on an oxidized vein and 250 ft. of crosscutting in an adit started 185 ft. lower. A maximum of 12 men were employed on three shifts.

Britannia Mining and Smelting Co., Ltd., 730 Fifth Ave., New York City. Mine office: Britannia Beach, B. C. E. B. Schley, Pres.; C. P. Charleton, Secy.-Treas.; C. P. Browning, Gen. Mgr. Capital: 100,000 shares, $25 par; issued, 91,966; all owned by Howe Sound Co. The company operates the Britannia Mine at Britannia Beach, on Howe Sound. The property is fully equipped with mining and milling plant having a daily capacity of 6,500 to 7,000 tons.

Development work totalled 32,203 ft., or 6.1 miles, made up as follows: Drifting, 10,282 ft; crosscuts, 4,634 ft. raises and winzes, 12,604 ft.; powder blast workings, 4,460 ft.; No. 6 shaft raise, 73 ft.; and No. 2 Victoria shaft, 150 ft. A total of 12,665 ft. of diamond drilling was done.

A new raise system was driven between the 4,100 level and the 2,700 level to handle the ore to the new primary crusher installed above the 4,100 level, and control chutes built at the crusher on the 3,900 level, at the 3,800 level, the 3,500 level, and the 3,100 level. Most of the ore is now handled through this raise, and after passing through the crusher is loaded into 20-ton roller-bearing cars in the 4,100 tunnel and transported to the mill bunkers in 20-car trips by electric locomotives.

The total ore mined was 2,112,784 tons of ore, and the recovery of metals was augmented by the operation of the copper precipitation plant, which continued to treat the copper-bearing portion of the mine drainage water. Total metals produced were: 37,059,210 lb. of copper, 22,238 oz. of gold, 203,019 oz. of silver, and 105,418 dry tons of pyrite. About 1,250 men were employed.

Brooklyn.
This property at Phoenix is owned by Robert Forshaw and operated under lease by W. E. McArthur, of Greenwood, B. C. The mine was operated continuously throughout the year, 15 to 22 men being employed there at the mill in Greenwood. Approximately 18,000 tons of ore was mined and concentrated and the product shipped to the Tacoma smelter. Early in the year the mine was dewatered to the 250 level and the ore bodies were found to terminate on a bed of limestone. 200 ft. of raising was done from this level to the 150 and several raises run from the 150 to the 80. New equipment installed during the year included a Gardner-Denver compressor, steel-sharpener, and Ford V-8 gasoline-power unit to operate the hoist. A total of 2,473 tons of concentrate, which included a small tonnage taken from the Granby Mine, yielded 2,481 oz. of gold, 4,265 oz. of silver, and 292,901 lb. of copper.

Buena Vista Mining Co., Ltd., Trail, B. C. Mine office: Stewart, B. C. M. M. O'Brien, Pres.; E. G. Randall, Secy.-Treas.; D. S. Campbell, Mgr.; E. James, Mine Supt. Company owns the Big Missouri Mine in Salmon River Valley, long. 130 deg., lat. 56 deg. 06 min., about 18 miles from Stewart. Property is equipped with complete mining and underground milling plant of 750 tons capacity; also hydro-electric plant at Long Lake. Milling started in May, 1938, and production to end of 1939 was 356,708 tons.

During the year, 4,253 ft. of drifting and raising and 2,745 ft. of diamond drilling were done. The property was worked 334 days, operations being suspended, due to power shortage, for 6 weeks in the spring. The dam at Long Lake has been raised 5 ft., 3 in. to increase water storage to provide for continuous operation. Additions and improvements were made to the camp.

Canty Gold Mines (Hedley), Ltd., 1132 Marine Bldg., Vancouver, B. C. Mine office: Hedley, B. C. Wendell B. Farris, Pres.; V. J. Creeden, Secy.; W. S. Charlton, Treas.; R. H. Stewart, Man. Dir.; Charles Bishop, Mine Supt. Capital: 3,000,000 shares, $1 par; issued, 2,172,788. The property is about 2 miles east of the Nickel Plate Mine.

The mine is developed by a three-compartment vertical shaft sunk to a depth of 427 ft. Ore pockets have been cut at the 200- and 400-ft. levels and drifts run to the north of the shaft. A vertical raise driven from the 400 to the 200 level was continued some distance above the latter. In addition, a considerable amount of diamond drilling was done. Underground operations were suspended during the summer with a view towards installing a 50-ton mill. However, after cleaning a mill site this was deferred and there was no further work done in 1939. It is understood that an addition is being made to Hedley Mascot Gold Mines concentrator to handle about 50 tons of Canty ore daily. There were 56 men employed when operations were suspended.

Capella.
This property, situated on Mt. Carpenter, above New Denver, and owned by the Wells Estate, was leased by Chas. Stedile and partner, who shipped 14 tons of ore to Trail. This yielded 2,341 oz. of silver and 342 lb. of lead.

Cariboo Amelia.
This old mine, in Camp McKinney, was the largest producer in this camp in the early days. It was optioned by Pioneer Gold Mines of B. C., Limited. The extensive underground workings were dewatered for sampling and examination. A crew of 20 men with 16 underground was employed with E. H. Lovitt in charge.

Cariboo Gold Quartz Mining Co., Ltd., 675 Hastings St. W., Vancouver, B. C. Mine office: Wells, B. C. Dr. W. B. Burnett, Pres.; J. R. V. Dunlop, Secy.-Treas.; R. R. Rose, Man. Dir and Mine Mgr; R. E. Vear, Mine Supt. Capital: 2,000,000 shares, $1 par; issued, 1,333,309. The property is on Cow Mt., southeast from Jack of Clubs Lake, long. 121 deg., 35 min.; lat. 53 deg., 05 min., and is reached by 63 miles of road from the terminus of Pacific Great Eastern Railway at Quesnel. It is equipped with a complete mining plant and a 300-ton cyanide plant. Access to the mine is by three crosscut adits. Below the main haulage level (1,500) the mine is developed through three shafts.

During 1939, development work amounted to 9,418 ft. of drifting, 6,481 ft. of crosscutting, 1,667 ft. of raising, 238 ft. of shaft sinking, and 7,168 ft. of diamond drilling. The 1,500 main haulage level was advanced throughout the year towards the B. C. vein. The No. 1 shaft was sunk 215 ft. from the 1,800 level and two new levels were opened up. On the lower of these, the 2,000 level, a drive will be made in a northerly direction to the company's claims on Island Mt. A new hoist was installed at No. 3 shaft and work resumed on the 1,600 and 1,700 levels. In the Pinkerton zone, service raises were driven from the 1,500 level to the 1,200 level, and the 1,300 and 1,400 levels were opened up. Other development work was principally on the 1,300, 1,400, 1,800, and 1,900 levels of the Rainbow zone. In the power plant, a 4,500 cu. ft. per minute aftercooler was installed, and it has proved effective in taking moisture out of the air.

A bonus scheme was recently inaugurated whereby one-third of the exchange premiums received on gold is distributed pro rata amongst the employees. During 1939, 112,414 man-shifts were worked in the entire plant.

Cariboo Hudson Gold Mines, Ltd., Royal Bank Bldg., Vancouver, B. C. Dr. W. B. Burnett, Pres.; Frederick Field, Secy.-Treas.; I. S. Comfort, Gen. Supt. Capital: 3,000,000 shares, 50c par; issued, 2,145,338. The property is at the head of Cunningham Creek, long. 121 deg., 19 min.; lat. 52 deg., 53 min., about 20 miles by road southeast from Barkerville. It is equipped with mining plant and a 100-ton cyanide plant. During 1939, the development work consisted of 1,052 ft. of drifting, 400 ft. of raising, and 3,197 ft. of contracted diamond drilling.

The raise between the 600 and 300 levels was completed and the 400 was opened up from the raise from a distance of 150 ft. Considerable exploratory drifting was done on the 600 level. Stoping operations were carried out on the 200, 250, and 600 levels, but facilities for hoisting from the latter were not completed at the time of shutdown. Up until Aug. 8, 1939, when the mine and mill were closed, 13,492 tons of ore having a gold content of 4,013 oz. was milled. The equipment at the property is intact and a watchman is employed.

The mine was operated continuously until October, employing three to four men, and development work included 60 ft. of raising and 100 ft. of drifting. No ore was shipped.

Columario Consolidated Gold Mines, Ltd.
This company is in liquidation. The property on the east side of the Skeena River, 3 miles below Usk, was leased to W. W. Duncan and associates of Usk. Their object was to selectively mine and ship high-grade ore from certain sections of the old workings. They shipped 15.86 tons of selected ore and also 10 samples to the sampling plant.

The property was examined and sampled with the object of determining the possibility of selectively mining stripping ore. Details of the sampling may be obtained upon application to the Department of Mines, Victoria, B. C.

The company is working on the Olalla lease. This is a steam-shovel operation, the only surface operation on the creek. One cut has been worked up to the boundary lease-line and a second cut is now being advanced along the north bank of the creek. It was necessary to flume the creek and connect with Nelson and Johnson's flume to keep the creek water out of the shovel pit. Thirty-two men were employed. Some drilling was done on the Baldwin lease farther downstream.

Gold mines: Operations at the Big Missouri were very disappointing. A total of 212,112 tons of ore was milled, carrying only .068 oz. gold. Practically all the profit made was eaten up in maintenance expense in the 2 months the mill was idle on account of shortage of water.

A small profit was made on the Boulder Creek operation.

Operations at the Box resulted in an operating profit of slightly over $59,000. While this result is somewhat disappointing, it is encouraging to note that costs were cut from $1.81 per ton in 1939 to $1.558 per ton in 1940. The grade of the ore was very low at .0479 oz. per ton.

A small operation was successfully conducted at the Caribou property in Nova Scotia throughout the year. More ore was developed during the year than was mined.

Developments in the Yellowknife area have continued to be very satisfactory. Your reserves in the Con have been increased from 53,720 tons containing .86 oz. at the beginning of the year to 130,460 tons of probable ore containing .61 oz. and 175,000 tons of indicated ore containing .37 oz. Development work towards the end of the year was most encouraging. The power plant at Prosperous Lake was practically completed in December, and went on load early in January.

Operations at the Cordova were unable to break even; consequently, the property was shut down and the plant dismantled.

The New Golden Rose property was operated throughout the year at the rate of slightly over 100 tons per day, and allowed a profit of about $2.60 per ton. After depreciation, development and interest charges the operation showed a loss of $73,438.25.

The development work at the Ptarmigan, near the Con, has been satisfactory. The shaft is being deepened another 300 ft., and decision regarding construction of a mill will be held pending the results of this work.

An interest was secured in the Thompson-Lundmark property, approx. 25 miles from the Ptarmigan, your company receiving a proportion of stock for bringing the property into production. This is a small but promising property.

Work is being done on several properties across Canada under option agreements. None of these appears important to date.

Mercury: Work on the mercury property at Pinchi Lake was very encouraging. Exploration for further mercury deposits is being carried on throughout the district.

The total profits from the gold mines and the mercury property in which the company is interested amounted to $1,077,000 in 1940.

Consolidated Nicola Goldfields, Ltd., 506 Dunsmuir St., Vancouver, B. C. Mine office: Box 759, Kamloops. B. C. Mathew Sutton, Pres.; C. J. White, Secy.-Treas.; R. A. Petter, Mine Supt. Capital: 6,500,000 shares, $1 par. The company's main operations is at the Nicola Mine, long. 120 deg., 21 min; lat. 50 deg. 22 min, two miles west of the Kamloops-Nicola Hwy., about 30 miles north from Merritt.
During 1939, work was confined to development in the Nicola Mine on the Enterprise and King William veins at depths below the 320, or the main haulage level of the mine. Development below the 320 level is by an inclined shaft that follows the Enterprise vein to the 900-ft. level. The main developments during the year have been the extension of drifts on the south 320, 550, 675, 800, and 900 levels, a raise from the lower drifts to those above for ventilation, and extension of drifts on the north side of the shaft on 675, 800, and 900 levels, all on the Enterprise vein.

This company took an option on the Hunter groups in Hunter Basin, long. 127 deg., 10 min.; lat. 54 deg., 30 min., late in the year and contracted for 100 ft. of tunnelling. The property is reached by road from Telkwa for 8½ miles, thence sleigh-road for 4 miles, thence trail for 4½ miles to the camp at 4,900 ft. elevation.

Copper King Group.
This property, consisting of 9 Crown-granted

claims and fractions, owned by Baroness Sartorio, of Kamloops, and under option to James T. McKelvie and brothers, of Grand Forks, is 16 miles west of Kamloops and adjoins the highway on the north side of Cherry Creek. The property is equipped with a 35-ton mill and at mid-December was operating two weeks a month with a crew of 7 men. During 1939, a total of 4,140 tons of ore was milled and yielded 367 oz. of gold, 730 oz. of silver, and 108,140 lb. of copper. In addition, 36 tons of ore were shipped to Tacoma. A report on this property may be obtained from the Dept. of Mines, Victoria, B.C.; cost, 25 cents.

Cordillera Group.

This old property in the vicinity of Usk was formerly operated by the Kitselas Mountain Copper Company and the Usk Mining Company, Limited, but no work has been done on it for many years. During the year, James Darby, of Usk, carried out work with a view to mining shipping-grade ore, and sent 1 ton of ore to the sampling plant. The property was examined and it was found that the outlook for profitable mining, sorting, and cobbing of shipping-grade ore was not encouraging.

Coronado Group.

This property on Hudson Bay Mt., adjoining the Mamie, Duthie, and Victory groups, is owned by R. J. McDonnell Estate. It is 16 miles by road from Smithers. The property was leased to H. Orm and Fred Griffin, who shipped 46 tons of ore to the Trail smelter. Stripping and open-cutting was done in the southerly part of the property and two converging adits started. Test samples were sent to the sampling plant.

Corporate Gold Fields, Limited, 502-474 Howe St., Vancouver, B. C.

Incorporated: B. C. 1939.

Croker Lease.

Fred Ohman and partners, lay-men. The laymen are driving a drainage working from the upper end of the Poker lease through to the Croker lease workings, approximately 700 ft. distant. This drain is now up about 450 ft. In the meantime, the Brown workings have been permitted to fill with water until the working is completed. They will then be unwatered and the connection made. Five men are employed, working two shifts.

Crusader Mines, Ltd., 521 Metropolitan Bldg., Vancouver, B. C. Capital: 50,000 shares, no par value. This company optioned in 1938 the Gold Drop group from Joseph Morrin and Albert Casey, of Hyder, Alaska, and Stewart, B. C. The claims are located on the rugged south ridge of the Marmot River Valley, long. 130 deg., lat. 55 deg., 52 min., about 2 miles from its mouth, and extend from 500 to 5,000 ft. elevation. The property is reached by 2 miles of road, the Marmot crossed, and thence trail to a tent camp at 2,100 ft. elevation. During the winter of 1938-39, exploratory work was carried out for the company by Chartered Mining Explorers. The option was dropped in the spring and the owners resumed work. The company made a shipment of 2 tons and the owners one of 4.8 tons of selected ore to the sampling plant.

D. and N. Group (Last Chance).

This group of two adjoining claims is owned by K. Nysven, J. G. Donaldson, and J. Oakes, of Telkwa. It is at about 4,400 ft. elevation, on the northwestern slope of Grouse Mt., long. 126 deg., 43 min.; lat. 54 deg., 38 min., about 9 miles by road from Quick Station on the Canadian National Railways. It is reached by motor-road from Quick for 4½ miles to Wakefield's Ranch; thence 4½ miles by winter-road to the new camp at 4,515 ft. of elevation. A vein has been explored by a 51-ft. adit and seven open cuts. Further work was done at the southerly end of the previous workings.

Danzig Mines, Ltd., Seattle, Wash.

Duthie Mines, Ltd.

A. W. Herman, J. J. Kelly, and associates took an option on this property and commenced work in October. The property is at long. 127 deg., 25 min. and lat. 54 deg., 47 min., about 9 miles by road from Smithers. Two shipments were made to the sampling plant at Prince Rupert. One shipment of 2.68 tons contained 0.17 oz. gold per ton, 223.6 oz. silver per ton, 44% lead, 13.6% zinc, and 1% arsenic. The second lot of 5.7 tons contained 0.10 oz. gold per ton, 184.9 oz. silver per ton, 22% lead, 21% zinc, and 1.2% arsenic.

Easter Group.

This group on Truax Mountain is owned by T. Morrison and associates, of Bralorne. On it, 100 feet of adit was driven for the account of Bralorne Mines, Ltd.

Ehlinger Group.

This group of sixteen claims, 7 miles east of Wasa, on the Canadian Pacific Railway, is reached by a truck road. The claims lie between 3,800 and 6,000 ft. elevation. They are held by location by John J. Ehlinger, of Spokane, Wash.

Up to 1939 the following work had been done: On the Golden Fleece claim, two adits, 64 and 80 ft. On the Stanley claim, several small workings and open cuts. On the Tiger claim, an adit 206 ft. long, a short adit, and several open cuts. On the Wanda B. claim, a vertical shaft 76 feet deep and an adit 213 ft. long towards the bottom of the shaft. On the Larchwood claim, three adits totalling 370 ft. On the Emily claim, a drift 163 ft. long.

A report on this property may be obtained from the Department of Mines, Victoria, B. C., cost, 25 cents.

Elk Lease.

This is a bench lease on the north bank of Spruce Creek. J. Hoking, layman, is working alone, drifting up stream at the upper end of the lease. In the lower part Crowe and partner, laymen, are drifting up stream along old workings. These old workings are standing in remarkable shape considering that they have been idle for over twenty years. Very few timbers are down, and in some instances arched roadways without timber are standing just as they were when driven.

Fairview Amalgamated Gold Mines, Ltd., 812 Standard Bank Bldg., Vancouver, B. C.; mine office, Oliver, B. C. G. T. Vaux, Mgr. Dir.; H. D. Campbell, Secy.-Treas.; T. A. McKenzie, Mine Mgr. Capital: 91,235 preferred shares, $1 par; 8,450,700 common shares of no par value; issued, 35,100 preferred and 2,650,400 shares common. The property, longitude 119 deg. 36 min., lat. 49 deg. 11 min., is at Fairview, on a branch of the Kettle Valley Railway, about 3 miles south of Oliver. The company owns the Morning Star and Fairview Amalgamated mines, where a large amount of mining development has been done in the past. A 150 ton flotation plant is located near the Morning Star mine, and the Fairview mine is 1½ miles distant; the ore from the Fairview being carried by motor truck to the mill.

The Fairview mine has been developed by two adit drifts, known as the No. 5 and No. 6 drifts, 2,600 ft. and 1,000 ft. long, respectively, and 135 ft. vertical distance between them. A large amount of stoping has been done above the No. 5 drift and raises have been driven through from these drifts to the surface for ventilation. Milling was suspended in May and an active programme of development was carried on in the Fairview mine until the end of September, when operations were suspended. Power is supplied by the West Kootenay Power and Light Company, Ltd.

An average of ten men were employed at the mine.

Fern.
The new road to the Bear group passes this property and provides a means of trucking ore from it. The mine is owned by C. E. and L. R. Hawley, of Spokane, and operated under lease by H. Frocklage, J. E. Cummins, and J. E. Logan, of Nelson. Hand steel only was used. Stoping was confined to removing remnants of ore left in the stopes and pillars by former operators. Ore totalling 20 tons, mined and shipped to Trail, yielded 28 oz. of gold and 11 oz. of silver.

Fingland Mine Limited, 609 Baker St., Nelson, B. C.
Incorporated: B. C., 1939.

Friendship Lease.
Wright and Brown, laymen. This property is also idle owing to excess water. Considerable time and money was spent fluming the creek. but apparently the flume was not carried far enough up stream to be effective. Through this stretch, including the claims operated by Nelson and Johnson, there is less than 50 ft. of cover, mainly loose gravel and the creek water percolates freely through it. These are the only places in the district where breast boards are required in driving.

Glacier Gulch Group.
This property, consisting of thirteen claims, is owned by S. F. Campbell, Grover Loveless, and Wesley Banta, of Smithers. The property embraces claims on both the north and south sides of Glacier Gulch, on the eastern slopes of Hudson Bay Mountain, and is reached by motor-road from Smithers for 6 miles to the camp at 2,440 feet elevation. From this point a trail ascends the steep slope of the mountain to the main workings around 3,100 feet elevation. The owners worked the auriferous bismuth-telluride deposit on the south side of the gulch. Several short adits and extensive open-cutting has been done on this showing. Seven lots of ore and samples aggregating 31 tons were shipped to the sampling plant.

Gold Belt Mining Co., Ltd.
Company office, 616 Stock Exchange Building, Vancouver, B. C.; mine office, Sheep Creek, B. C. A. E. Jukes, President; Jas. Anderson, Secretary-Treasurer; H. E. Doelle, Mine Manager. Capital: 3,000,000 shares, 50 cents par; issued, 2,535,000. The property is on Sheep Creek, adjoining the Reno and about 14½ miles from Salmo. It is equipped with a mining plant and 150-ton cyanide plant. Development work included 4,704 feet of drifting, 1,051 feet of crosscutting, 1,501 feet of raising, and 345 feet of diamond-drilling. A total of 57,838 tons of ore was mined and milled and the bullion yielded 16,569 oz. of gold and 6,158 oz. of silver. One hundred and fifteen men were employed.

Gold Bug.
Situated 2 miles north of Greenwood. Owned by George Walters, of Greenwood, and operated under lease by R. Mitchell and S. Wiskwire. About 60 feet of underground development work was done, using hand-steel methods. Four tons

of ore, shipped to Trail, yielded 4 oz. of gold, 112 oz. of silver, and 186 lb. of lead.

Gold Crown.
This property, adjoining the Alpine, is owned by Mrs. Anna Belle Radcliffe, of Nelson, and was operated under lease by S. Reese, Malcolm Smith, and E. Sheldrith. Hand-steel only was used and most of the ore came from surface cuts and trenches. A total of 3 tons, shipped to Trail, yielded 2 oz. of gold and 2 oz. of silver.

Gold Cup Mining Co., Ltd., Rossland, B. C.
Property: Georgia Mine, Rossland, B. C.
Product mined: Gold, silver.

Gold Drip.
This property is owned by Mrs. M. D. McKinnon, of Beverley Hills, Cal. It was operated under lease by S. J. Hackney and partner. Some of the old workings have been reopened. A total of 6 tons of ore mined and shipped to Trail yielded 1 oz. of gold and 14 oz. of silver.

Gold Leaf Claim.
This claim is owned by James Flynn, of Anyox, and is about 2 miles south of Anyox. The owner did further exploratory work by stripping and open-cutting to the south-west of the beach showings.

Gold Standard (Fairview) Mining Co., Ltd., Penticton, B. C.
Property: Gold Standard Mine, Oro Fino Mountain, B. C.
Twin Lakes Mine, Osoyoos, B. C. Ore—Gold, silver.

Gold Strike Group.
This group of five claims is owned by G. Fiva, of Alice Arm. The property, discovered in 1938, is situated on the east side of Kinskuch Lake, longitude 129 deg., 20 min., latitude 55 deg., 40 min. It is reached by speeder on the Dolyl Varden railway for 12 miles; thence by trail up East Creek for 7 miles to Kinskuch Lake at 3,950 feet elevation; thence across the lake, about 1¾ miles wide, by a small rowboat to the tent-camp on the east side. G. Fiva further explored this discovery. It was examined and sampled, and the results may be obtained on application to the Department of Mines, Victoria, B. C.

Gold Valley Mines, Ltd.
Company office, 206 Royal Trust Building, Vancouver, B. C. J. E. Beck, President; Fred Norman, Secretary. Capital: 3,000,000 shares, 50 cents par. The property is on the west side of the Keremeos-Penticton Road at Olalla, longitude 119 deg., 53 min., latitude 49 deg., 16 min. The workings consist of three adit-drifts known as No. 1, No. 2, and No. 3 drifts. The work has been entirely exploratory and during 1939 consisted of extending the No. 1 or lower drift a distance of approximately 500 feet. The plant consists of a portable gas-driven compressor operating a drifter. Four men were employed at the property.

Golden Crown Group.
This is an old group of five mineral claims, owned by W. R. Adams, of Usk. It is located around 800 feet elevation on the west side of Kleanza Mountain, and is reached by motor-road for 3½ miles from Usk and thence by foot-trail for ½ mile. Old work consists of open-cuts, stripping, and four adits. The owner extended No. 4 adit drift on No. 2 vein.

Golden Eagle Group.
This group, owned by D. Heenan, of Topley, and the C. Matheson Estate, is about 7 miles northerly from Topley by road. D. Heenan continued selective mining from open-cuts on No. 1 and No. 2 veins, chiefly at the easterly open-cut on the latter. Four small shipments were made to the sampling plant.

Golden Ledge Syndicate.
Company office, 503 Rogers Building, Vancouver, B. C. J. S. Harrison, President. Capital: 5,000 shares, $50 par. The Golden Ledge property lies on both sides of Cadwallader Creek, several miles north of Bralorne. A crosscut adit, about 70 feet above the river on the east bank, was advanced 350 feet to intersect a mineralized quartz vein exposed in No. 3 adit, 135 feet above. Drifts were then driven along the vein, 20 feet to the south and 150 feet to the north. The crew consisted of six men, mining on day shift and mucking on night shift.

Granby.
This property is owned by W. E. McArthur, of Greenwood; payments on the option having been completed in October. A small tonnage was mined from the glory-hole of this property early in the year, about six men being employed. Toward the end of the year some 1,800 feet of the No. 3 level was reopened and reconditioned preparatory to stoping. A rather interesting problem in connection with the reopening of the old adit was the removal of about 900 feet of ice, which was done by cutting the ice in strips by laying steam-pipes on top of it and hauling the strips out in sections.

Granby Consolidated Mining, Smelting & Power Co., Ltd.
Company office, 675 Hastings St., West, Vancouver, B. C.; mine office, Copper Mountain, B. C. Julian B. Beaty, President; A. S. Baillie, General Manager; B. E. Perks, Secretary; A. W. Seaton, Treasurer; W. R. Lindsay, Mine Manager. Capital: 600,000 shares, $5 par; issued, 450,260. The company owns and operates the Copper Mountain mine, 12 miles south of Princeton, longitude 120 deg. 30 min., latitude 49 deg. 28 min. The property is equipped with complete mining, flotation, and power plants. The coarse crushing plant is at the portal of No. 6 main haulage-adit, elevation 3,200 ft. The fine grinding and flotation plant with a capacity of 4,000 tons per day is situated at Allenby, 8 miles distant. The ore is conveyed in standard-gauge railway cars from the coarse crushing plant to the concentrator. Machine shops and a new electric foundry are also at Allenby. The power plant is situated near Princeton, 3 miles from Allenby. It is a steam-electric generating plant with a total capacity of 7,500 k.w. The coal mine is at Bromley Vale. The power is distributed to the mine, concentrator and shops, and the coal mine. Improvements were made to the concentrator and camp at Allenby.

Exploration and development included 13,183 ft. of drifting and crosscutting, 12,980 ft. of raising, and 19,906 ft. of diamond-drilling. A total of 1,450,352 tons of ore was treated at the concentrator. Eight hundred and nineteen men were employed as follows: 428 at the mine, Copper Mountain; 170 at the concentrator and shops, Allenby; 36 at the power plant, Princeton; 110 at the coal mine, Bromley Vale; 75 in other departments.

Grandoro Mines, Ltd., Pacific Bldg., Vancouver, B. C.

Grange Consolidated Mines, Ltd., 1351 Broadway West, Vancouver, B. C.; mine office, Kelly Lake, B. C. W. L. Gilbert, President; John Bennett, Secretary-Treasurer. Capital: 3,000,000 shares, 50 cents par; issued, 2,600,000. The company owns the Grange mine, near Kelly Lake station on the P.G.E. Railway. Three men were employed on maintenance work and in advancing No. 3 adit level.

Greenbridge Gold Mines, Ltd., Lancaster Building, Calgary, Alberta; mine office, Greenwood, B. C. W. C. Armstrong, President; M. Featherley, Secretary; E. O. Parry, Treasurer; L. M. Mansfield, Mine Manager. Capital: 4,000,000 shares, no par value; issued, 1,864,969. The company operates the North Star, near Jewel Lake. Six men, with four underground, were employed until October. Development included 322 ft. of drifting, 70 ft. of crosscutting, 40 ft. of raising, and 40 ft. of sinking. A total of 141 tons of ore was mined from the shaft and shipped to Trail, yielding 68 oz. of gold and 344 oz. of silver.

Grotto.
This group of twelve claims is owned by J. Bell, A. M. Bethurem, G. Alger, and R. L. Brash, of Usk. It is located in the valley of Hardscrabble Creek, longitude 128 deg. 22 min., latitude 54 deg. 43 min., about 2 miles south-westward from Pitman, on the Canadian National Railways.

During the first half of the year, the owners carried out exploration and development on both the upper and lower showings and shipped 19.7 tons of selected ore to the sampling plant.

In the late summer the property was optioned to Canadian Explorations, Limited, of Royal Bank Building, Vancouver, B. C. This organization with a crew of two men carried out superficial exploration up to about the middle of December. This consisted of stripping and tracing of No. 6 and No. 7 veins, and drifting on No. 2 and No. 3 veins.

Harriett.

This property, owned by E. Ballanger, of Salmo, and operated under lease by S. Curwin and associates, is situated on Craigtown (East Fork of Erie) Creek, about 3 miles from the road to the Second Relief. Four men were employed underground, using hand-steel until late in the year, when a small gasoline-driven compressor was installed. In addition to about 40 ft. of sinking and considerable open cut work, a new low level adit is being driven to give about 90 ft. of added depth on the vein. About 1½ miles of truck road from the Second Relief road was also completed. A total of 35 tons of ore, mined and shipped to Trail, yielded 57 oz. of gold and 11 oz. of silver.

Havilah Gold Mines, Ltd., Bank of Toronto Bldg., Victoria, B. C.; mine office, Port Alberni, B. C. J. A. Burchett, Pres.; D. S. Tait, Secy.-Treas.; J. P. Murray, Mine Mgr. Capital: 2,000,000 shares, no par value; issued, 1,620,000. The Havilah Mine is at an elevation of 3,800 ft., at the head waters of McQuillan Creek, a tributary of China Creek, 14 miles south-west of Port Alberni. Prospecting and development work was begun in the early part of July, 1938, and continued steadily until August, 1939, when all operations were suspended. During this period, in addition to a diamond drilling programme, the principal work consisted of 1,822 ft. of drifting, 50 ft. of cross cutting, and 200 ft. of raising on the Gillespie vein, in the course of which 1,038 tons of ore was mined and hauled by truck a distance of 15 miles to Port Alberni and then shipped to Tacoma smelter for treatment. An average of eighteen men was employed.

Hedley Mascot Gold Mines, Ltd., 1132 Marine Bldg., Vancouver, B. C.; mine office, Hedley, B. C. Wendell B. Farris, Pres.; V. J. Creeden, Secy.; W. S. Charlton, Treas.; C. W. S. Tremaine, Gen. Supt. Capital: 3,000,000 shares, $1 par; issued, 2,264,130. The property is 1 mile north of Hedley, longitude 120 deg. 04 min., latitude 49 deg. 35 min. The concentrator and mine offices are on the east bank of Hedley (20-Mile) Creek and the mine, 2,795 ft. higher in elevation, is connected to the plant by a "quad" haul back aerial tramway, 5,600 ft. in length. The flotation plant operates at a capacity of 190 tons a day.

Recent development work comprises diamond drilling below the 4,800 or main haulage level, followed by driving an adit at 4,300 ft. elevation. This working was in 1,600 ft. at the end of the year. Eighty-seven men were employed, forty-two on the surface and forty-five underground.

Howard.

This property, on Active Creek, 7 miles from Ymir, owned by J. F. Duthie, of Seattle, was operated under lease by John Linstrom and C. Peterson. Ore was recovered from remnants left in the stopes, pillars, and from the dumps. Hand steel was used as the entire mining plant has been removed. A total of 196 tons of ore shipped to Trail yielded 102 oz. of gold, 1,774 oz. of silver, 75,036 lb. of lead, and 52,708 lb. of zinc.

Howard Fraction.

This property, situated at the head of Gold Creek, above the Kilo Mine, is owned and operated by F. T. Harbour, of Slocan City. About 3 miles of narrow tractor road, connecting this mine with the main Springer Creek Rd., was constructed. A maximum of six men were employed. A total of 81 tons of ore, shipped to Trail from the old dumps, yielded 7 oz. of gold and 1,000 oz. of silver. The underground workings, evidently extensive judging from the dumps, are caved and inaccessible, but the operator plans to reopen them.

Hunter Group.

This group, owned by J. M. Meldrum and J. G. Campbell, was optioned late in the year to P. W. Racey and Seattle interests an dexploration and development work commenced. The group is located on the north branch of Khutze River, longitude 128 deg. 18 min., latitude 53 deg. 10 min., about 12 miles from tide water.

I. X. L.

This property was operated first by the I.X.L. Leasers, with K. Jorgensen in charge, and later by K. Jorgensen and associates under a separate lease. No development was done by the I.X.L. Leasers, but Jorgensen and associates plan to reopen some of the old workings. A total of 119 tons of ore mined and shipped to Trail yielded 99 oz. of gold and 50 oz. of silver. In addition, a lease on the dumps was held by Alex. Malcolm and associates.

Kelowna Exploration Co., Ltd., Room 2402, 19 Rector St., New York, N. Y.; mine office, Hedley, B. C. W. Adams Kissam, Chairman; Sewell T. Tyng, Pres.; John W. Mercer, Treas.; O. P. Ebeling, Secy.; W. C. Douglas, Mine Mgr. This is a private company. The company operates the Nickel Plate Mine at Hedley, longitude 120 deg. 04 min., latitude 49 deg. 35 min. The concentrators, bunkers, machine shops, and general offices are at Hedley, at an elevation of 1,600 ft., and the portal of the mine is at an elevation of 5,600 ft., 4 miles from the mill. The mine is reached by a 10,000 ft. gravity plane which is operated in two sections. Steel skips having a capacity of 6 tons are used for the transportation system and are operated and controlled by electric motors at the central and top terminals. The portal of the mine is 1½ miles north of the top terminal of the tramway, and electric trolley motor haulage is used between the mine and the bunkers at the top of the tramway.

Access to the mine is by an incline shaft with levels at 100 ft. intervals. During 1939 development was in the lower, west section of the mine and chiefly Nos. 8 and 15 west drifts. The latter has been driven through to the surface and together with the No. 12 drift, driven into the Mascot Mine at a much lower elevation than the portal of the Nickel Plate Mine, cause a current of air to circulate through the mine. There are 112 men employed at the mine, fifty-seven in the mill, and a staff of sixteen.

Keystone.
This property on Keystone Mountain was operated under lease by W. S. Harris and associates for a short time during the summer. Work was confined to sorting and shipping from the old dumps, although it is understood that the winze underground was dewatered for sampling and examination. A total of 111 tons of ore, shipped to Trail, yielded 43 oz. of gold, 143 oz. of silver, 3,193 lb. of lead, and 2,623 lb. of zinc.

Kilo.
This property on Lemon Creek, about 9 miles from the Slocan Highway, was operated under lease for a short time by H. V. Dewis, of Silverton, B. C. Ore totalling 48 tons was mined and shipped to Trail, and yielded 31 oz. of gold and 37 oz. of silver.

King Solomon Group.
This property, about 1½ miles below the Alpine, is owned and operated by T. L. Paris and A. D. Papazian, of Nelson. This year a go-devil road was constructed from the main Alpine road to the mine, a distance of about three-quarters of a mile. A maximum of four men were employed and hand steel only was used. Ore totalling 19 tons was mined and shipped to Trail. This yielded 13 oz. of gold and 17 oz. of silver.

Kootenay Belle Gold Mines, Ltd., 475 Howe St., Vancouver, B. C.; mine office, Sheep Creek, B. C. Jonathan Rogers, Pres.; J. A. Clarke, Secy.-Treas.; Vere McDowall, Mine Mgr. Capital, 750,000 shares, 50 cents par; issued, 675,200. The property is on Sheep Creek, about 10 miles by road from Salmo. It is equipped with a mining plant and 120 ton cyanide plant.

The mine and mill operated continuously throughout the year, employing from 142 to 164 men, with from 112 to 127 underground. A vertical shaft was sunk from the 6 level (formerly called the No. 4 adit) and two levels opened up below this. At the end of the year a large proportion of the ore milled was being drawn from below the 6 level, mining above this being mainly in the nature of salvage. Considerable development work was also done on the Dixie vein, across Sheep Creek from the main workings. This vein was intersected after cross cutting some 1,400 ft. and is now being developed by raises and sub-level drifts.

Kootenay Mining and Leasing Syndicate.
The Berlin and Alice L., situated 8 miles east from Paulson, are operated under lease by the Kootenay Mining and Leasing Syndicate, of Trail, with Rudolph Nelson in charge. Eleven to fourteen men, with from seven to ten working underground, were employed on these properties for the greater part of the year. Very little development work was done. A total of 467 tons of ore mined by hand steel and shipped to Trail yielded 80 oz. of gold and 145 oz. of silver.

Kootenay Ore Hill Gold Mines, Ltd., 475 Howe St., Vancouver, B. C.
Property: 20 claims, Sheep Creek area, Nelson district, B. C. Mr. P. Somerville, Asst. Secy. of the company reported as follows on May 20, 1940: "In April, 1939, the company entered into an option agreement with Sheep Creek Gold Mines, Ltd., under the terms of which the Sheep Creek Company is carrying on work on the claims owned by the company. The total consideration mentioned in the agreement is $125,000. $15,000 of which was paid on the execution of the agreement and used to pay off outstanding debts of the company. Should the Sheep Creek Company carry out the terms of the agreement and continue with the option, all future payments received, less administration costs, will be disbursed to the shareholders in the form of liquidating dividends."

MacKay Gold Mines, Ltd., Room 102, Pacific Bldg., Vancouver, B. C. G. B. Duncan, Secy.; T. S. MacKay, Mgr. Capital: 10,000 shares, $1 par. This company, financed by Selukwe Gold Mining and Finance Company, Limited, acquired the MacKay Syndicate property situated near the headwaters of the Unuk River, longitude 130 deg. 30 min., latitude 56 deg. 37 min. The property consists of the Unuk Gold and Unuk Valley groups, on which considerable stripping and some diamond drilling was done by Premier Gold Mining Company, Limited, in 1937 and 1938.

Supplies for the winter were taken over the Unuk River trail and also by plane to the property. A drift has been started on the north end of the Unuk Gold group and another one at a different showing. Work has been done by hand as it was impossible to get a compressor in before winter. A camp has been built and nine men were employed.

Maple Leaf Gold Mining Co., Inc., 333½ Riverside Drive, Spokane, Wash.; mine office, Ymir, B. C. Ernest H. Carlson, President; Elizabeth L. Johnston, Secy-Treas.; J. D. Ferguson, Mine Mgr. Capital: 2,000,000 shares, 1 cent par; issued, 348,964, of which 10,221 are pooled. This company is operating the Ymir Commodore Mine on Wildhorse Creek. The mine was closed down from February to October. Three men, all working underground, did 250 ft. of drifting and 250 ft. of diamond drilling was done; no ore was shipped.

The company also has an option on the Porcupine group, owned by E. P. Haukedahl. Development included 160 ft. of drifting and 60 ft. of crosscutting, all by hand-steel; no ore was shipped. In addition, 1,300 ft. of tractor road was built.

Martel Gold Mines, Ltd., 789 Pender St., Vancouver, B. C. C. S. McKee, Pres.; G. S. Ruddell, Secy-Treas.; E. A. Jamieson, Managing Director. Capital: 3,000,000 shares, no par value. It is reported that the equipment at the Martel Mine was disposed of by sheriff's sale which took place early in October.

Maybe.
This claim on the North Fork of the Kettle River, about 24 miles north of Westbridge, is owned by L. Clery and S. Berglund. Early in the year it was optioned to the Bayonne Consolidated Mines, Limited, who, after carrying out a diamond drilling program under the direction of John Broatch, dropped the option.

Mayflower.
This property is operated under lease by the Mayflower Mining Syndicate (Lloyd R. Smith and associates, of Penticton), with Frank Brinson as mine foreman. A total of five men was employed, with three underground. A small mining plant was installed and low-level cross cut was commenced and driven to intersect the downward extension of the upper showings. Development included 210 ft. of cross cutting and 60 ft. of drifting.

McDames Lake Mining Co., Inc., 703 Royal Bank Bldg., Vancouver, B. C.; Henry C. Boulton, Seattle, Pres.; A. W. Boulton, Seattle, Secy-Treas. Capital: 2,500 preferred shares, $10 par; 100,000 common shares, 1 cent par; issued—625 preferred, 75,500 common. This company installed a 10-ton mill, comprising a small jaw-crusher and combination ball mill and amalgamator, on claims situated at an elevation of 4,650 ft., or 1,400 ft. above McDame Lake, on the slope of Erickson Creek, longitude 129 deg. 35 min., latitude 59 deg. 15 min. This equipment was flown from Carcross to McDame Lake and taken in from there by dog teams. A broken plate in the jaw-crusher at the start delayed operation for six weeks. When the property was examined the mill was on its third week of operation and 60 oz. of gold was reported to have been recovered from 50 tons of ore in two weeks. All ore was being taken from an open cut in No. 2 vein. The operation has been suspended and it is understood there is some trouble regarding title to the claims.

McKinney Mining Development Company Limited, 522-470 Granville St., Vancouver, B. C.
Incorporated: B. C., 1939.

Meridian Mining Co., Ltd., 416 Vancouver Block, Vancouver, B. C. James A. Lade, Pres.; H. C. B. Forsyth, Secy. Capital: 1,750,000 shares, 50 cents par; issued, 895,589. The company owns the Meridian Mine at Camborne. Cory Menhenick and partners leased the old tailings-dumps and mill at this property. Concentrating by placer-mining methods, they have shipped to Trail about 19 tons of material, which yielded 124 oz. of gold and 49 oz. of silver. Much of this material came from what was evidently ball mill cleanings, classifier bed, sacks, etc., but considerable was from the tailings-dump itself.

Meteor.
This property, situated at the head of Tobin Creek, a tributary of Springer Creek, was leased by G. Larsen and C. Lindstron, of Slocan City, who mined 33 tons of ore with hand-steel and shipped to Trail. This yielded 11 oz. of gold and 3,534 oz. of silver.

The company is developing a gold prospect, approximately 20 miles north of Nanaimo, within a quarter of a mile from the main Island Highway. The prospect shaft on this property was sunk a further 30 ft., making a total depth of 60 ft. Work was suspended in November.

Napco Gold Mines, Ltd., 800 Hall Bldg., Vancouver, B. C. Russell W. Kennedy, Secy. Capital: 1,500,000 shares, no par value. The holdings comprise twenty-one mineral claims on the west side of American Creek, about 27½ miles by motor road and packhorse trail from Stewart. During 1939, open cut exploration of the new showings in the northern part of the claims, particularly the "Bugnello" cut, was continued. Some work was also done in the "Johnny" cut, adjacent to the boundary of the Tooth group, on a probable continuation of the "McLeod" shear.

Nass River Mining Syndicate.
The Meziadin group of sixteen claims, being explored by this syndicate, is located at the head of Porter Creek, longitude 129 deg. 25 min., latitude 56 deg., about 10 miles southerly from Meziadin Lake. The property is about 14 miles by road and 47 miles by trail from Stewart. The property, staked in 1938 by Owen McFadden, covers ground explored and staked by a Mr. Porter and James Mowat many years ago (previous to 1913) as the Bullion claim, and later, about 1922, by J. Green and H. Ficklin, of Hyder, Alaska, as the Delnorte group. The syndicate has explored the ground by a series of fifteen open cuts and some small pop-holes. The property was examined and sampled and a preliminary plan showing the results may be obtained from the Department of Mines, Victoria, upon payment of 50 cents.

New True Fissure Mining and Milling Co., Ltd., 804 Guaranty Trust Bldg., Windsor, Ont.; mine office, Ferguson, B. C. David I. Hubar, Pres.; J. G. Brislin, Secy.; Dr. A. Oven, Treas.; G. O. Kelly, Supt. Capital: 3,500,000 shares, $1 par; issued, 1,976,000, of which 750,000 pooled. The company owns the True Fissure Mine, on Great Northern Mountain, about 3½ miles from Ferguson. The property is equipped with a 75-ton mill. A contract let in November, 1938, to the Interior Contracting Company, of Penticton, was completed in April, 1939. In all, 836 ft. of drifting, 516 ft. of cross cutting, and 76.5 ft. of drifting were done, chiefly in the Morgan and C. level adits. A total of twenty-three men, with eleven working underground, were engaged in this work. The property was closed down on completion of the contract.

Nicholson Creek Mining Corporation, 300 Insurance Bldg., Seattle, Washington, British Columbia office: 602 Hastings St., Vancouver, B. C. R. K. Young, Pres.; W. A. Schwalbe, Secy-Treas. Capital: 5,000,000 shares, 1 cent par. The corporation owns a number of claims on the south side of Nicholson Creek, between 1,500 and 220 ft. elevation, about 5 miles northward from Usk station on the Canadian National Railways.

During 1938 and 1939, some stripping and open cutting was done on a showing at 1,800 ft. elevation on the Mac-Shannon claim, about 9,000 ft. southeastward from the long adit. This showing has no relation to any of the showings in the locality of the long adit. In 1938 the following shipment was made from this showing to the Government sampling plant at Prince Rupert: Dry tons, 0.374; gold, 1.26 oz. per ton; silver, 44 oz. per ton; copper, 16.3 per cent.; sulphur, 8.6 per cent.; silica, 49.6 per cent.

The showing was sampled in 1939 as follows—

(1) Across 2.5 ft., width of mineralization, in shear at centre of cut at 1,830 ft. elevation: Gold, trace; silver, 1 oz. per ton; copper, 1.2 per cent.

(2) At locality of (1), two flat quartzose stringers each 3 inches wide: Gold, 0.12 oz. per ton; silver, 5 oz. per ton; copper, 3.4 per cent.; silica, 58.94 per cent.

(3) Selected cobbed grade from dump of 1.5 tons (could be cobbed to about 1 ton): Gold, 1.10 oz. per ton; silver, 47 oz. per ton; copper, 17.3 per cent.; silica, 43.74 per cent.

This company was operating the Aufeas Mine, on the lower slopes of Silver Peak, 3 miles from Hope. Stoping operations were being carried out from a single drift. There were two stopes. About fifteen men were employed.

No. 7.
This property is owned by the Consolidated Mining and Smelting Company of Canada, Limited, and is operated under lease by W. E. McArthur, of Greenwood. It was worked continuously throughout the year, two to three men being employed. Hand-steel was used originally, but recently a portable compressor has been installed. Development work included 60 ft. of drifting and 100 ft. of raising. Ore totaling 47 tons mined and shipped to Trail yielded 152 oz. of gold and 4,621 oz. of silver.

O. K.
This property is operated under lease by John Hendrickson and associates, of Rossland. Hand-steel only was used by the three men working underground. Late in 1939 the leasers opened up an area on the O. K., which was accessible only through the No. 3 level of the I. X. L. A total of 24 tons of ore mined and shipped to Trail yielded 47 oz. of gold and 32 oz. of silver.

Pioneer Gold Mines of B. C., Ltd., 470 Granville St., Vancouver, B. C.; mine office, Pioneer Mines P. O., B. C. Victor Spencer, Pres.; A. E. Bull, Secy.-Treas.; H. T. James, Managing Director; E. F. Emmons, General Supt. Capital: 2,500,000 shares, $1 par; issued, 1,751,750.

The company owns the Pioneer mine on Cadwallader Creek, a tributary of Bridge River, 52 miles by road from Bridge River station on the P. G. E. Railway. The mine is equipped with mining plant and 400-ton cyanide plant. The mine is developed by two shafts from the surface and one internal shaft, No. 4, from the 24th to the 29th level. The levels are at 125-ft. intervals.

On October 8th, 1939, this mine was closed by a strike and remained closed for the remainder of the year. Up to that date the development work carried out consisted of 4,279 ft. of drifting, 38 ft. of cross cutting, and 2,456 ft. of raising. No. 4 shaft was put into operation at the beginning of the year, and drifting on the 27, 28, and 29 levels, served by that shaft, was carried on. Raising from the 29 level was commenced just prior to the strike. Production amounted to 103,738 tons mined and 88,009 milled, yielding 48,118 oz. gold. During the strike a maintenance crew was employed at keeping the mine workings under repair.

Pioneer Group.
This group, owned by Mrs. J. L. Campbell, of Hyder, Alaska, is located on the west side of Tide Lake, longitude 130 deg. 4 min., latitude 56 deg. 15 min. It is reached by road to the Big Missouri Mine and thence by 13 miles of rough trail. An adit at 2,500 ft. elevation, started by Janowski brothers in 1933, was advanced and some drifting done on a shear from which two small shipments of selected ore was made to the sampling plant. The property was examined in August and the sampling results may be obtained on application to the Department of Mines, Victoria.

The property is located on Tulsequah River, longitude 133 deg. 36 min., latitude 58 deg. 44 min., about 6 miles by road from its junction with Taku River. It is reached by boat and aeroplane in summer and by aeroplane only in winter.

It is equipped with a complete mining plant and 150-ton flotation plant built in 1937. Development to date is on four levels. Development during the year consisted of 8,171 ft. of drifting and 2,446 ft. of raising. A diamond-drilling program to test the ground below the Polaris (present lowest level) was commenced and 18,891 ft. of drilling done. A raise was put up from C level to the Canyon veins which have not yet been developed. The mine was worked 364 days and 69,045 tons of ore produced; 126 men were employed.

As early as snow conditions permitted in the spring of 1939, a road was cleared up Grouse Creek and a tent camp established about 2 miles above the Cariboo Hudson road. Equipment was purchased, a compressor plant and blacksmith shop set up, and work was commenced. By September 9th, when operations ceased, a deep level adit crosscut had been driven for 1,056 ft.

Providence.
Operations at this property, about 1 mile north of Greenwood, by W. E. McArthur and associates, commenced in September and nine men were employed from then on to the end of the year. A cross cut from the third level some 35 ft. in length encountered a vein which has been drifted on for approximately 105 ft. In order to work this section of the mine economically, the old main shaft was reconditioned and a new head frame with ore and waste bins erected. Ore to the amount of 81 tons was mined and shipped to Trail, yielding 28 oz. of gold, 7,975 oz. of silver, and 2,716 lb. of lead.

Red Buck Mines, Ltd., 208 Yorkshire Bldg., 525 Seymour St., Vancouver, B. C. R. J. G. Richards, Pres.; Allan A. Drummond, Secy.-Treas. Capital: 2,500,000 shares, 50 cents par. The Red Buck Mine is 11 miles south of Princeton, on the west side of the Similkameen River, longitude 120 deg. 34 min., latitude 49 deg. 19 min., about 1½ miles north of the Copper Mountain main adit. The mine is reached by a winding trail down the side of the mountain from the Hope-Princeton Highway to the river bank, where the mine camp and surface plant are located.

During 1938 a 100 ton flotation mill was installed on the opposite side of the river from the mine and near the branch of the Kettle Valley Railway that runs to the coarse crushing plant of the Granby Consolidated Mining, Smelting, and Power Company, Limited, at Copper Mountain. The mine is connected to the concentrator by an aerial tramway. The concentrator went into operation during the latter part of 1938, and, after operating a short time, all work at the mill ceased during the early part of 1939.

Red Cliff Group.
This group was optioned by the R. W. Wood and W. R. Wilson estates to H. D. Haywood, of Vancouver. It is located on the west side of Bear River about 15 miles from Stewart. H. D. Haywood explored a small showing in Lydden Creek canyon, at 1,900 ft. elevation, on the Montrose claim. Some small shipments were made to the sampling plant. This showing was examined and sampled and the results may be obtained on application to the Department of Mines, Victoria, B. C.

Red Panther and Black Panther.
These claims. owned and operated by Walter Harris, of Port Alberni, are located at an elevation of 2,900 ft. on the head waters of the West Fork of the Nitinat River, and are reached by a good pack trail, 2 miles in length, connecting with the truck road at the Thistle Mine. A crew of

four men was engaged constructing the trail and prospecting during October, November, and part of December. Some drifting and crosscutting was done on both claims, but no shipments of ore were made. Two roomy log cabins provide suitable accommodation for the men engaged at this property.

It is operated under lease by W. M. and W. L. Schwartz and associates. Five men, all working underground, were employed, using hand steel. Practically no development work was done, but 463 tons of ore, mined and shipped to Trail, yielded 345 oz. of gold and 315 oz. of silver.

Relief-Arlington Mines, Ltd., 626 Pender St., West, Vancouver, B. C., mine office, Erie, B. C. Bert F. Smith, Pres. & Mgr. Dir.; D. G. Marshall, Secy.-Treas.; S. M. Manning, Gen. Supt. Capital: 3,000,000 shares, $1 par; issued, 3,000,000. The company is controlled by Premier Gold Mining Company, Limited, which holds 1,530,000 shares. The company owns and operates the Relief Mine on Erie Creek, 13 miles by road from Erie. The property is equipped with mining plant and 75 ton cyanide plant. The mine and mill operated continuously throughout the year, employing an average of 122 men. The ore is hand-sorted, about one-third being rejected, before being treated.

Development work in the mine included 1,726 ft. of drifting, 475 ft. of crosscutting, 1,326 ft. of raising, and 214 ft. of sinking. The main shaft was put down to the 11th level, 200 ft. below the 10th. Across Erie Creek, 1,015 ft. of drifting, 260 ft. of crosscutting, 66 ft. of sinking, and 257 ft. of surface trenching was done on the Inez vein, and 137 ft. of crosscutting and 137 ft. of raising on the Rand vein. A total of 51,700 tons of ore was mined and 31,498 tons milled. The bullion produced yielded 14,758 oz. of gold and 2,557 oz. of silver. In addition, refinery slag and amalgam yielded 139 oz. of gold and 1,126 oz. of silver.

Rembler Placers Limited, 2 Vernon News Bldg., Vernon, B. C.

Reno Gold Mines, Ltd., 525 Seymour St., Vancouver, B. C.; mine office, Salmo, B. C. K. G. Nairn, Pres.; W. A. Sutton, Secy.-Treas.; W. S. Ellis, Gen. Supt. Capital: 2,000,000 shares, $1 par; issued, 1,880,000. The company owns the Reno, Motherlode, and Nugget Mines and the Bluestone prospect, all lying between Sheep and Nugget Creeks, about 10 miles from Salmo.

Milling ceased about March 15th, when ore reserves in the Reno Mine were almost exhausted. Twenty-two feet of drifting, 14 ft. of crosscuts, and 1,002 ft. of diamond drilling was done in the Reno Mine. Development was continued in the old Motherlode Mine, the new 4,900 adit being extended 1,172 ft. to intersect the Motherlode vein, on which 1,893 ft. of drifting, 241 ft. of crosscutting, 254 ft. of raising, and 66 ft. of slashing was done. A crosscut from this level was driven 1,376 ft. toward the Nugget vein. The 4,900 level was connected to the mill with a 2,000 ft. 2 bucket Riblet tram. A new bunk house and dry were built and the concentrator thoroughly overhauled. Development was also done on the Bluestone, consisting of 1,150 ft. of drifting, 196 ft. of crosscutting, 13 ft. of raising, and 1,255 ft. of diamond drilling. A complete 40 man camp was built and the old Reno tram cut and a new terminal built. The number of men employed varied from 40 to 107. A total of 16,421 tons of ore was treated and yielded 7,206 oz. of gold and 2,650 oz. of silver.

The Nugget Mine was operated continuously throughout the year by two leasers with hand steel. A total of 1,245 tons of ore was mined and shipped direct to Trail. This yielded 1,075 oz. of gold and 796 oz. of silver.

Revenge.
This property, situated on Wallace Mountain, adjoining the Highland Bell, is under lease to R. C. McLanders, two men with hand steel being employed. A total of about 200 ft. of underground work and surface stripping was done in an attempt to locate a faulted segment of ore overlooked by the former operators.

Roadside.
This property, 8 miles from Westbridge, on the Beaverdell Rd., was operated by Arthur Miller and Ralph Gaustin, of Westbridge, who from shallow workings and open cuts shipped 30 tons of ore to Trail. This ore yielded 17 oz. of silver.

Rose Claims.
Nelson and Johnson, laymen. There are two shafts on this property. The upper shaft was sunk first to a depth of 47 ft. After considerable difficulty with water, a drain connection was made from down stream and the creek was also flumed by extending the flume of Wright and Brown, operating the Friendship lease immediately up stream. The fluming and the Friendship workings have taken most of the water so that they are now in good shape.

When Columbia Development Company, operating a steam shovel on the Olalla lease down stream, reached the Olalla and Rose lease line, Nelson and Johnson sank another shaft, 43 ft. deep, close to the boundary line and made connection through to their upper shaft. They are now working out the area around the lower shaft and down to the lease line. Eighteen men were employed.

Rosemont.
This property, situated about 9 miles from Beaverdell, is under option to the Highland Bell, Limited. Development work yielded 22 tons of ore containing 10 oz. of gold and 4 oz. of silver. Operations were temporarily suspended during the winter months.

Pearcey, Mine Supt. Capital: 3,000,000 shares, $1 par; issued, 2,500,000. The property consists of the former holdings of: Premier Gold Mining Company, Limited; B. C. Silver Mines, Limited; Selukwe Gold Mining and Finance Company; Sebakwe and District Mines, Limited; and British Canadian Silver Corporation, Limited. It is located in the Salmon River Valley, long. 130 deg., lat. 56 deg. 03 min., about 14 miles from Stewart.

The property is equipped with a complete mining and 500-ton flotation plant. It is developed on 6 levels. The mine was worked 311 days and 169,164 tons of ore produced. An average of 351 men were employed.

The mill operated 311 days with mill heads assaying: Gold, 0.25 oz. per ton; silver, 6.21 oz. per ton. From this, 14,538 dry tons of concentrates was produced and shipped, assaying: Gold, 2.78 oz. per ton; silver, 64.99 oz. per ton. No crude ore was shipped during the year. During the year, 20,649 ft. of drifting, raising and crosscutting and 38,088 ft. of diamond drilling was done.

The following table shows the production for 1939 and for the four years to the end of 1939: Tonnage milled, 169,164, 747,418; gold ounces produced, 40,417, 176,402; Silver ounces produced, 897,539, 3,606,507.

Silver Ridge Mines.
This property, on the Silver Ridge Road, about 3 miles from Sandon, is owned by J. H. Cory, of New Denver, and is operated under lease by F. Walters, Joe Francina and Emil Battelle. Hand steel only is used. Development included 324 ft. of drifting and crosscutting, 15 ft. of raising and 10 ft. of sinking. A total of 7 tons of ore, shipped to Trail, yielded 794 oz. of silver, 7,600 lb. of lead, and 361 lb. of zinc.

Silver Ridge Mining Co., Ltd., Sandon, B. C. R. A. Grimes, Pres.; D. D. Townsend, Secy.-Treas. Capital: 2,000,000 shares, 50c par; issued, 760,000, of which 260,000 pooled. The company owns and operates the Sunshine group, on Silver Ridge, about 4½ miles from Sandon; 15 men being employed, with an average of 7 underground. The main low-level crosscut was extended 1,820 ft. and 100 ft. of drifting done on veins intersected by it. In addition, some 3,000 ft. of surface-stripping by tractor and bulldozer was accomplished. A mile and a half of road was built to connect the lower camp to the main road to Sandon, to avoid areas frequently swept by snowslides.

Silverado Group.
This group is on the mountainside 2 miles southeast of Stewart. This property was formerly operated by Silverado Mines, Limited. With the exception of intermittent operations by leasers it has been inactive for a number of years. During the year, John Stewart and two miners explored the so-called "canyon" vein at 1,800 ft. elevation on the Rainier Fraction, with the object of mining ore for shipment. No ore was shipped.

Simpson Mines.
This property, 13 miles north of Grand Forks, was optioned by L. E. Hanley, of Wallace, Ida., and developed under the direction of L. A. Grant. Seven to 11 men, with 4 to 8 working underground, were employed for about 5 months. A complete small mining plant was installed. Development work included 286 ft. of drifting, 370 ft. of crosscutting, 10 ft. of sinking and 6 ft. of raising. The property was closed in Sept. A total of 364 tons of ore mined and shipped to Trail yielded 259 oz. of gold and 90 oz. of silver.

Slocan Idaho Mines Corporation, 204 Howard St., Spokane, Wash. John Stanford, Mgr. The company operates the Molly Hughes, on Slocan Lake, about 1 mile north of New Denver. An average of 18 men, with 11 working underground, were employed throughout the year. The main shaft from the No. 2 to the No. 4 level, originally sunk as a winze, was straightened and retimbered. On the completion of this it was continued down to the 5 level. A new single-drum electric hoist, equipped with all safety devices necessary to handle men, and a 10-h.p., electrically driven centrifugal pump were installed. Development work done during the year included 397 ft. of drifting, 145 ft. of crosscutting, 163 ft. of sinking, and 50 ft. of raising. In addition, 200 ft. of old drift was retimbered. A total of 191 tons of ore mined and shipped to Trail yielded 98 oz. of gold, 26,148 oz. of silver.

Slocan Monitor Mines, Ltd., Nelson, B. C.
Property: Monitor Mine, Three Forks, B. C
Product mined: Gold, silver, lead, zinc.

Slocan Silver Mines, Ltd., 504 Empire State Bldg., Spokane, Wash. Percy G. Morey, Secy. Capital: 500,000 shares $1 par. The company owns the McAllister, on London Ridge, near Three Forks. The property was operated under lease by Geo. Allen, who employed a crew of 4 men, with 3 working underground during the summer months. No development was done, but 148 tons of ore was mined and shipped to Trail. This yielded 3 oz. of gold and 25,328 oz. of silver.

Snowshoe Gold Mines, Ltd., 785 Dunsmuir St., Vancouver, B. C. Fred M. Wells, Pres. and Mgr.; E. T. Gook; Secy-Treas. Capital: 3,000,000 shares, 50c par; issued, 1,656,475. The property known as the Jane group, is at the head of Little Snowshoe Creek, long. 121 deg., 26 min.; lat. 52 deg., 52 min. It is reached by tractor road from Barkerville. Underground operations were carried on intermittently during 1939 and several hundred feet of drifting and crosscutting accomplished by hand-miners. A compressor was installed in August and one shift, drilling and blasting one round per day, was employed up to the end of the year. The low-level adit was advanced 650 ft. from the portal and considerable crosscutting was done from it. The total over-all footage to date is 1,200 ft. Eleven men were employed while the camp was in operation. A team of 6 huskies is kept at the camp for emergency use when the roads are blocked with snow.

Spokane Group.
This property, owned and operated by R. M. and K. K. Laib, of Bayonne, B. C., is on Wall Mt., 18 miles by road from Tye. Five men were employed for the greater part of the year with 3 working underground. Surface construction undertaken this year includes a 1,750 ft. 2-bucket jig-back tram from the lowest adit-portal and 1,500 ft. of new road to connect the lower tram terminal with the main Bayonne Road. A truck of 5 tons capacity was also purchased. Very little development work was done, but 16.8 tons of ore, shipped from the dumps and underground workings, yielded 96 oz. of gold, 2,467 oz. of silver, and 68,986 lb. of lead.

Spruce Creek Mining Co., Ltd., 615 Credit Foncier Bldg., 850 Hastings St. W., Vancouver, B.C. J. G. Wheeling, Mgr. Capital: 50,000 shares, $1 par. Workings from No. 1 shaft are being operated on a "lay" by John Clee and partners. Four men are working single shift, drifting upstream just clear of the old workings. Tailings from No. 2 and No. 4 shafts were resluiced during the summer. Workings from No. 4 shaft are operated by the company. This shaft is adjacent to shafts on the adjoining Clydesdale and Wolf leases, but they are not connected. There has been considerable difficulty with excess water in the 3 shafts. The No. 4 shaft of the Spruce Creek Mining Company was idle from June until November, and the Clydesdale and Wolf shafts were idle the rest of the year. It was a season of abnormal high water in the creek and the excess water underground is due to seepage, when the creek is high, through caving in of old workings. Workings from No. 4 shaft were being worked on November 21st with four places working double shift. 22 men were employed.

Spud Valley Gold Mines, Ltd., 703 Royal Trust Bldg., Vancouver, B. C. Mine office: Zeballos, B. C. P. F. Knight, Pres.; J. R. Pyper, Secy.-Treas.; W. Elliott, Mine Mgr. Capital: 2,500,000 shares, $1 par; issued, 2,100,000. The company operates the Spud Valley Mine, in Spud Valley, 7 miles from Zeballos, B. C. The claims extend across the ridge between Spud Creek and Gold Valley Creek. A great deal of development work has been carried out during the year. In all, 5 tunnels are operating, Nos. 2, 3, 4 and 5, and the Roper tunnel. Most of the work has been done on what is known as the Goldfield vein, with a certain amount of drifting on the Spud vein, which intersects the main vein on each of the levels. The Roper tunnel is on the same elevation as No. 4 tunnel and is being driven from the Gold Valley side of the property. Stoping is being carried out on all levels from the No. 4 level up. The mill is the amalgamation-flotation type and is handling from 60 to 70 tons per day. The total tonnage milled during the year amounted to 20,950 tons. 80 men are employed.

Stewart Canal Gold Mines, Ltd., 603 Central Bldg., Victoria, B. C. Capital: 3,000,000 shares, 50c par. This company owns the Gold Boulder claim on the north side of the Marmot River, long. 130 deg., lat. 50 deg., 52 min., about 2½ miles from its mouth. The showings, between 1,000 and 1,400 ft. elevation, are reached by road for 2 miles; thence by packhorse trail to 800 ft. elevation; and thence by foot-trail to the camp at 1,000 ft. elevation.

Development to date consists of one adit 176 ft. long, one started, and two open-cuts. Three shipments of 0.74, 2.78 and 7.26 tons of selected ore were made to the sampling plant.

Sturgis Creek Mines, Ltd., 303 Maclean Block, Calgary. W. S. Davidson, Secy.-Treas. Capital: 2,000,000 shares. The company owns the Revenue, at the head of Sturgis Creek, a tributary of Keen Creek. It was operated under lease for a short time by H. E. Singel and 2 men. A total of 55 tons of ore mined and shipped to Trail yielded 4,681 oz. of silver, 23,775 lb. of lead, and 13,282 lb. of zinc

Sullivan Gold Mines, Ltd., 510 Hastings St. W., Vancouver, B. C. Laura L. McGhee, Secy.; J. Jebne, Mgr. Capital: 500 shares, $100 par; 1,500 shares, no par value. The company, originating in San Francisco, has taken an option on 18 leases in the Blue Canyon section on Spruce Creek. Some Keystone drilling was done during the season.

Surf Inlet Consolidated Gold Mines, Ltd., 507 Stock Exchange Bldg., Vancouver, B. C. Mine office: Surf Inlet, B. C. Robt. L. Reed, Pres.; Lindsey Hooper, Treas.; J. C. Ralston, Secy.; Angus McLeod, Mgr. Capital: 3,000,000 shares, 50c par; issued, 2,672,855. The property comprises the old Surf and Pugsley mines at the head of Surf Inlet, long. 128 deg., 55 min.; lat. 53 deg. The property is equipped with mining plant and an old 300-ton milling plant reconditioned to operate at about 70 tons per day.

Development work consisted of 5,888 ft. of drifting and raising. The mine was operated 364 days and 27,264 tons of ore milled; 83 men were employed. Some new ore was developed in the Pugsley Mine on the 900 and 1,000 levels. The upper levels of the Surf Mine were explored, sampled, some ore mined, and preparations made to open up above the old stopes.

Taylor Windfall Gold Mining Co., Ltd., 208 Pacific Bldg., Vancouver, B. C. Mine office: Williams Lake, B. C. Ervin J. Taylor, Pres.; Wm. Warner, Secy-Treas.; S. H. Davies, Mine Mgr. Capital: 2,000,000 shares, $1 par. The company operates the Taylor Windfall Mine on the upper Taseko River. The mine operated from May 17th to August 15th. A maximum of about 20 men were employed. Development work was continued on the 200 and 300 levels. On the former, this work consisted of 150 ft. of drifting northeasterly along the zone and of 223 ft. of crosscutting both ways from the drifting. On the latter, it consisted of 270 ft. of drifting to the northeast and 260 ft. of crosscutting. A new powder magazine was erected and a Gardner-Denver H.K. hoist and fan for the 300 level were installed.

Three Hills Group.
Owned by P. Hunter and associates. The property is on Spanish Mt., long. 121 deg., 25 min., lat. 52 deg., 34 min., about 4 miles southeast of Likely. It is reported that an adit was started in 1939 to cut at depth a quartz vein much oxidized on the surface and apparently responsible for rough, coarse gold found in a small dry gulch below. This adit was stopped before the objective was reached.

Tiger.
This property, situated on Wallace Mt., is owned by the Wm. Law Estate and is operated under lease by J. L. Nordman and partner. Compressed air, piped from the Beaver Silver about 1,500 ft. away, is used for underground work. Development included 100 ft. of drifting, 120 ft. of crosscutting, 25 ft. of raising and 25 ft. of sinking. Fifty-three tons of ore shipped to Trail yielded 1 oz. of gold, 6,721 oz. of silver, 6,651 lb. of lead, and 12,171 lb. of zinc.

United Prospectors, Ltd., Bank of Toronto Bldg., Victoria, B. C. R. A. Pitre, Gen. Mgr. Capital: 100,000 shares, no par value. The company owns the Thistle Mine, at an elevation of 2,500 ft. on the headwaters of the North Fork of Franklin River, and reached by means of an old logging railway grade, a distance of 12 miles, between Underwood Cove, on the banks of the Alberni Canal, and the mine. Some surface work was done from Sept. to Nov., inclusive, in 1938; this was confined to cleaning over the old dumps, from which 80 tons of ore was sacked and shipped. Operations were resumed in April and continued right through to the end of the year, with a crew of 14 men employed. All work was of the open-cut and "glory-hole" method of mining, and 1,840 tons of ore was produced and hauled by trucks and shipped to the Tacoma smelter for treatment.

Property: During the year, examinations were made on various properties in the Zeballos Dist. of British Columbia. Negotiations were carried on more or less continuously for several months with Zeballos Gold Peak Mines Limited and to enable us to retain our option on this property, we took up a mortgage amounting to $11,500. The litigation, however, continued and due to the fact that no satisfactory arrangement could be made amongst the original vendors we have foreclosed on the mortgage and are getting our money back and therefore will have no further interest in this property.

Your company had in the field last year, 6 prospecting parties under a qualified geologist. A great deal of territory was covered but no finds of importance were made.

Your company's option on the Starratt-Olson property was taken over by Hasaga Gold Mines Limited for a consideration of 250,000 shares of Hasaga Gold Mines Limited stock.

Your company still retains 45% interest in valuable claims immediately east of Lamaque Gold Mines Limited in Quebec and also has kept in good standing the claims in the Coppermine River area.

Vancouver Island Gold Mines, Ltd., 602 Hastings St. W., Vancouver, B. C. Victor MacLean, Secy.-Treas.; A. Kurtzahls, Mgr. Capital: 4,500,000 shares, 50c par. The company's property is at an elevation of 2,700 ft. on Mineral Creek, a tributary of China Creek, and is reached by following the Alberni Pacific Lumber Company's old logging grade for a distance of 9 miles from Port Alberni and then by a caterpillar trail 2 miles in length to the mine. After having been closed down since Sept., 1936, work was resumed in the early part of July, 1939, and continued until Oct. 31, with a crew of 4 men engaged in cleaning up and repairing the lower and upper Mac adit and also doing some stoping in the 279 raise. Some open-cutting and drifting was done on the south Mac vein prior to the suspension of operations at the end of Oct. 48 tons of ore was shipped to the Tacoma smelter for treatment, yielding 34 oz. of gold. Following the stoppage of work by the company, G. Moffatt undertook to operate under a lease on a small scale for the balance of the year.

Velgo Mining, Inc., 8655 W. Marginal Way, Seattle, Wash. Mine office: Rossland, B. C. Arch Wilson, Secy.-Treas. and Mgr. Capital: 40,000 shares, $1 par; issued, 30,153. The company owns the Velvet Mine, on the Cascade Hwy., 13 miles west of Rossland, which was operated under lease by the Velvet Leasing Syndicate, consisting of Harold Elmes, Renaldo Bielli, and Ole Osing, of Rossland, with Ole Osing in charge of mining operations. The mine and mill were operated continuously for the greater part of the year, employing an average of 20 men, with from 8 to 10 working underground. Development work included 50 ft. of drifting, 50 ft. of crosscutting, 350 ft. of raising, and 250 ft. of diamond drilling. A total of 7,000 tons of ore was mined and milled and the product, a gold-copper concentrate, was shipped to Tacoma. This yielded 1,462 oz. of gold, 1,016 oz. of silver, and 192,768 lb. of copper. In addition two cars of crude ore were shipped to Tacoma.

Venango Gold Mines, Ltd., Nelson, B. C. D. H. Norcross, Pres. and Mine Mgr.; J. A. Cullinane, Secy.-Treas. The company owns and operates the Venango, on the west side of Eagle Creek, adjoining the Granite-Poorman. Five men were employed throughout the year, all working underground on occasions. The shaft was sunk 120 ft. and 400 ft. of stripping by ground-sluicing was done to trace the vein. A new adit 294 ft. below other workings was started. In all, 280 ft. of drifting and 225 ft. of crosscutting was done. A total of 512 tons of ore was mined and shipped to Trail. This yielded 240 oz. of gold and 346 oz. of silver.

Venus-Juno.
These properties on Morning Mt., just north of Toad Mt., are owned by R. Heddle, of Nelson. They were operated spasmodically during the year by several groups of leasers using hand steel. A total of 192 tons of ore, mined and shipped to Trail, yielded 221 oz. of gold and 408 oz. of silver.

Victor.
This property, situated about 3 miles from Sandon, is owned by Mrs. D. Petty, of Nelson, and is operated under lease by E. Doney and Son. Hand steel only is used. 65 tons of ore, shipped to Trail, yielded 20,428 oz. of silver, 78,745 lb. of lead, and 363 lb. of zinc.

Victor Group.
This group of 6 claims, covering ground formerly held by Columario Consolidated Gold Mines, Limited, was staked in 1937 by W. W. Duncan, of Usk, and S. C. Cooper, of Terrace. The claims

are between 200 and 4,200 ft. elevation on the westerly slope of Kleanza Mt. and are reached by motor road from Usk for 3.3 miles; thence go-devil trail for 1.75 miles to the Columario camp at 1,700 ft. elevation; thence a good packhorse trail for 2 miles to the main showings at 4,000 ft. elevation. The property was sampled to determine the possibility of sorting and cobbing a shipping-grade of ore. Four samples from No. 2 vein indicate the presence of such ore.

Victory Group.
This group of 6 claims, owned by Mrs. M. C. Simpson, of Smithers, adjoins the Coronado group on Hudson Bay Mt. Mrs. Simpson and 2 miners did further development work with the object of determining the possibility of selectivity mining and cobbing a shipping-grade ore. Several test and three tonnage samples were sent to the sampling plant.

Vidette Gold Mines, Ltd., 404 Pacific Bldg., Vancouver, B. C. Mine office: Savona, B. C. C. E. Smythe, Pres.; G. F. H. Long, Secy.-Treas.; R. Avison, Mine Mgr. Capital: 2,000,000 shares, no par value; issued, 1,104,568. The company operates the Vidette Mine, reached by 33 miles of road north from a point on the highway 5 miles west of Savona, B. C. This mine milled 6,522 tons of ore, producing 3,206 oz. of gold. The combined lateral and inclined development footage totaled 2,036 ft., and about 900 ft. of diamond drilling was done. From the 470 south drift a winze was sunk 150 ft. on the 70 vein, and the 570 level was opened up from this winze. Other development work was confined to the 3rd and 4th levels. Early in December a working was started from the south wall of 35 crosscut to pass under the lake towards the Dexheimer showings. It had been advanced 200 ft. by the end of the year. Approximately 60 men were employed.

Ymir Consolidated Gold Mines, Ltd., 704 Royal Trust Bldg., Vancouver, B. C. Mine office: Ymir, B. C. R. C. McCorkell, Pres.; T. G. Cowan, Secy.-Treas.; G. G. Sullivan, Mine Mgr. Capital: 1,500,000 preferred shares, no par value; 2,500,000 common shares, no par value. Issued, 2,159,453 common shares. This company owns and operates the Goodenough Mine on Elise Mt.

The mine was operated continuously throughout the year, but, owing to lack of ore, the mill was closed down on Aug. 13. The crew varied from a total of 33 men with 21 underground, while both mine and mill were running, to a development crew of 21 with 14 underground after the mill closed down. In addition 2 to 4 leasers were engaged in mining ore from the old upper workings. Toward the latter part of the summer a new low level was started. Development work included 2,646 ft. of drifting, 535 ft. of crosscutting, 459 ft. of raising, and 1,219 ft. of diamond drilling. A total of 8,345 tons of ore was milled during the year. The concentrates from this yielded 3,401 oz. of gold, 25,063 oz. of silver, and 505,967 lb. of lead. In addition, 754 tons of crude ore shipped to Trail yielded 501 oz. of gold, 3,383 oz. of silver, and 66,354 lb. of lead.

This company also owns the Ymir Mine, adjoining the Goodenough. The Ymir was operated continuously throughout the year by two leasers with hand steel. A total of 347 tons of ore was recovered from the dumps, surface cuts, and underground workings. This was shipped crude to Trail and contents are indicated in figures above.

Ymir Mill Leasing Syndicate, Nelson, B. C.
Property: Ymir (Old Mill Site) Mine, Ymir, B. C.
Product mined: Gold, silver, lead, zinc.

Ymir-Yankee Girl Gold Mines, Ltd., 525 Seymour St., Vancouver, B. C. Mine office: Ymir, B. C. E. P. Crawford, Pres.; R. B. Lamb, Man. Dir.; W. A. Sutton, Secy.-Treas.; L. G. Morrell, Mine Mgr. Capital: 3,000,000 shares, no par value; issued, 2,225,005. The company owns and operates the Yankee Girl Mine on Bear Creek, 3 miles from Ymir. The property is equipped with a 100- to 140-ton combination flotation-cyanide plant.

The mine and mill operated continuously throughout the year. A total of about 90 men were employed, with 60 working underground. In addition, an average of 19 leasers were engaged in recovering ore from pillars and remnants of stopes as well as dumps and spill from the tramway. All this ore was purchased by the company on a basis of its gold content and treated in the mill. Attempts to discover new ore bodies have, on the whole, been unsuccessful, and the present policy is to recover all the ore left chiefly in pillars, as cheaply as possible, before abandoning the mine. Development work included 653 ft. of drifting, 469 ft. of crosscutting, 2,193 ft. of raising, and 2,163 ft. of diamond drilling. A total of 47,317 tons of ore was broken, 6,855 tons of this being supplied by the leasers. A total of

47,219 tons of ore was treated in the mill, this being an increase of 10% over previous years. Total production for the year was 12,594 oz. of gold, 76,351 oz. of silver, 1,031,294 lb. of lead, and 677,469 lb. of zinc.

Argosy Gold Mines, Limited.
Argosy Gold Mines, Limited, was incorporated in May, 1935, to succeed Casey Summit Gold Mines, Limited, with an authorized capitalization of 3,000,000 shares of $1 par value. The officers and directors are: F. L. Trethewey, Pres.; J. B. Tyrrell, V-Pres.; Fraser D. Reid and E. C. Fox, Dir.

The property, consisting of 21 claims, 987 acres, at Casummit Lake, about 100 miles north of Sioux Lookout on the Canadian National Railway, in the Patricia portion of Kenora Dist., was shut down in Feb., 1938. The company was declared bankrupt, and E. G. Clarkson, 15 Wellington St. W., Toronto, was appointed trustee.

No development work was done during the short period of operation. Some 1,700 tons of ore were hoisted of which 1,650 tons were milled.

In August the shareholders approved an arrangement whereby the property would be sold to a new company. On Nov. 9, Jason Mines, Limited, 67 Yonge St., Toronto, Ont., was incorporated with an authorized capitalization of 3,000,000 shares of no par value. The shareholders of Argosy Gold Mines, Limited, received 1 share of Jason stock for 5 of Argosy.

The new company did 5,009 ft. of diamond drilling from surface in the No. 1 and No. 2 vein areas. At the end of the year the sinking of a 2-compartment inclined shaft on No. 1 vein was begun, and plans were made to dewater the workings from the shaft on No. 2 vein.

Augite Porcupine Mines, Limited.
Augite Porcupine Mines, Limited, was incorporated in July, 1936, with a capitalization of 2,000,000 shares of $1 par value. In 1938, the capitalization was increased to 3,000,000 shares of $1 par value. The number of shares issued at Dec. 31, 1938, was 2,001,006. The officers and directors are: J. A. Mitchell, Pres.; E. M. Tice, Secy-Treas.; D. H. Porter. C. L. Woody and H. G. Donley, Dir. The head office is at 357 Bay St., Toronto, Ont. The mine address is Timmins.

The property consists of 6 claims, 190 acres, in Deloro Twp., Porcupine area, Dist. of Cochrane.

Mining operations commenced in April, 1938, and continued for the rest of the year. Buildings were erected and a mining plant was installed, including a Canadian Ingersoll-Rand double-drum hoist, driven by a 100 h.p. motor, and a 1,080 cu. ft. Canadian Ingersoll-Rand compressor.

A 3-compartment shaft was sunk to a depth of 1,026 ft., and levels were established at 250, 500, 625, 750, 875, and 1,000 ft. Some 235 ft. of cross-cutting was done on the 875 ft. level and 345 ft. on the 1,000 ft. level.

Four diamond-drill holes, having a total length of 2,677 ft., were drilled from surface, and two holes, totalling 989 ft., were drilled from underground.

An average of 38 men was employed for 9 months under the direction of Stanley S. Saxton, mgr.

Auric, Ltd., 403 Bank of Hamilton Bldg., Toronto, Ont.

Aurocap Mining Syndicate, Ltd., Toronto, Ont.

Baghdad-Larder Mines, Limited.
Baghdad Gold Mines, Limited, was incorporated in April, 1937, with an authorized capitalization of 3,000,000 shares of $1 par value. In February, 1938, the company's name was changed to Baghdad-Larder Mines, Limited. T. M. Mungovan, Pres.; K. Moir; W. G. Chipp, Secy-Treas. The head office is at 710 Excelsior Life Building, Toronto. The mine address is Larder Lake.

The company acquired 17 claims in Katrine and Ossian Twps., Larder Lake area, district of Timiskaming. The property includes the old Walsh Katrine Mine.

The former operators sank a shaft 515 feet deep, with levels at 130, 250, 375, and 500 feet A considerable amount of drifting and crosscutting was done on the three lower levels.

The present company commenced operations in November, 1938. The headframe and other surface buildings were repaired, the shaft was retimbered for 30 feet from surface, and a new bearer set was installed. Operations were temporarily suspended at the end of the year.

S. A. Pain was in charge of the work, employing 8 men.

Bailey Cobalt Mines, Limited.
Incorporated in Ont. When the company went heavily into debt the properties were transferred to the Bailey Silver Mines, Limited, for 425,000 shares of their stock. The latter company went bankrupt in 1926. The property reverted to the bondholders who held $110,000 of the company's bonds. The shares of Bailey Cobalt are therefore worthless.

Bankfield Consolidated Mines, Limited.
Bankfield Consolidated Mines, Limited, which was incorporated on September 1, 1936, has an authorized capitalization of 3,000,000 shares of $1 par value, of which 2,564,904 have been issued. C. D. H. MacAlpine, Pres.; T. H. Stinson, V-Pres.; F. J. Bailes, Secy-Treas.; H. Hunter, Asst. Secy.; W. T. McEachern, D. M. Morin, J. H. C. Waite, and Jos. Errington, directors. The head office is at 100 Adelaide St. W., Toronto. The mine address is Bankfield.

The property consists of 16 patented and 3 unpatented claims, 872 acres, in Errington Twp., in the Magnet Lake section of the Little Long Lac area, district of Thunder Bay. It is reached by a 3-mile road from Kenwell on the Longlac-Port Arthur branch of the Canadian National

Railways, or by a 5-mile automobile road from Geraldton.

Development: The crosscut to the North zone was completed, and some 1,542 feet of drifting east and west of the crosscut has been done. Several shearings and veins have been located but no commercial ore shoots have been located in this work.

The winze has been completed to the eighth level (1,025 feet), and development is being carried out on the sixth, seventh, and eighth levels. Ore has been developed on each level and a substantial tonnage of medium-grade ore is indicated. This area is now being prepared for stoping

What appears to be the downward extension of the No. 1 ore body has been located by diamond-drilling below the fourth level, and this area will be developed during the coming year. This development is important, as it was originally thought that the No. 1 ore body bottomed either at or above the fourth level, whereas now it would appear that the drift cut a barren section of the deposit.

General: Additions to plants, buildings, and equipment during the year were as follows: A new pump-house and water system was put in operation and a 100,000 gallon tank installed; a waste bin was built into the headframe to allow for more efficient disposal of the waste rock; the heating plant was converted from wood to coal burning, and stokers were installed—this installation has resulted in a material saving in heating costs; a new blacksmith and mechanical shop was erected; three dwellings were erected for the married members of the staff.

J. W. MacKenzie is mine superintendent, and Harry Johnston is mill superintendent. An average of 123 men was employed, of whom 67 were in the mine and 11 in the mill.

Barber-Larder Gold Mines, Limited.

Barber-Larder Gold Mines, Limited, was incorporated in February, 1937, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 2,440,505 had been issued at December 31, 1938. R. S. Potter, Pres.; Dr. A. F. Demary and Donald Lough, V-Pres.; D. R. Michener, Secy-Treas.; J. Walter Young and S. J. Bird, directors. The head office is at 372 Bay St., Toronto. The mine address is Larder Lake.

The property consists of 11 claims, 520 acres, in McGarry Twp., Larder Lake area, district of Timiskaming.

A vertical, 3-compartment shaft was sunk to a depth of 404 feet, and levels were established at 125, 250, and 400 feet. A total of 1,274 feet of drifting and 1,803 feet of crosscutting was accomplished. Diamond-drilling amounted to 82 feet from surface and 1,160 feet from underground. Some 1,478 tons of ore were hoisted.

Buildings erected included a headframe, a hoist- and power-house, a boiler-house, a dry-house, a steel shop, and an assay office.

The following plant equipment was installed: A Babcock-Willcox and Goldie-McCulloch 1,080-cubic-foot compressor; Canadian Ingersoll-Rand double-drum hoist; 60 h.p. boiler; and standard assay plant.

A force of 33 men was employed under the direction of J. G. Tatham, manager.

Beanland Mining Company, Limited.

The Beanland Mining Company, Limited, was incorporated in July, 1937, with an authorized capitalization of 2,500,000 shares of $1 par value, of which 1,617,941 have been issued. A. J. Perron, Pres.; M. G. Hunt, Secy.-Treas.; Sydney Beanland, T. M. Mungovan, and Dr. W. H. Wilson, directors. The head office is at Kirkland Lake, and the mine address is Timagami.

The property consists of 4 claims, approximately 200 acres, in Strathy Twp., Timagami area, district of Nipissing, formerly operated by the Goodfish Mining Company, Limited.

During 1938 the 3-compartment shaft was deepened from 355 to 505 feet, and a new level was established at 475 feet. Some 86 feet of drifting and 90 feet of crosscutting were accomplished, and 500 feet of diamond-drilling was done from underground. Operations ceased on April 10.

D. M. Briden was manager, employing 21 men.

Beaverhouse Lake Gold Mines, Limited.

Beaverhouse Lake Gold Mines, Limited, was incorporated in June, 1935, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 1,770,005 have been issued.

P. M. Fleming, Pres.; James E. Grant, V-Pres.; C. F. Tuer, Secy.-Treas.; Napoleon Alarie, Dir. The head office is at Haileybury. The mine office is at Kirkland Lake.

The company acquired the property formerly operated by Argonaut Consolidated Gold Mines, Limited, consisting of 29 claims, 1,100 acres, in Gauthier and McVittie Twps., Larder Lake area, district of Timiskaming. In 1937 Bunker Hill Extension Mines, Limited, took an option on a large block of treasury shares and supplied funds for development work. Bunker Hill's option was in turn optioned to the Premier Gold Mining Company, Limited. Operations during 1937 and 1938 were carried on under the direction of Toburn Gold Mines, Limited.

Ten diamond-drill holes, having a total length of 2,880 feet, were drilled from underground.

Buildings erected during the year included a headframe, a hoistroom, a shaft-house, a boiler-house, a pump-house, a powder magazine, a store-house and sample shed, and a store-house for meat.

Operations ceased on December 31, following which the Premier Gold Mining Company, Limited dropped its option.

M. W. Hotchkin was manager, and S. L. Russel was superintendent, employing 19 men.

Berens River Mines, Limited.

Berens River Mines, Limited, was incorporated in July, 1936, with an authorized capitalization of 1,000,000 shares of $1 par value. In 1938 the capitalization was increased to 2,000,000 shares of $1 par value, of which 1,550,134 have been issued. The company is a subsidiary of the Newmount Mining Corporation.

H. De Witt Smith, Pres.; John Dryborough, V-Pres.; A. W. Burt, Secy.; Carroll Searls, Asst. Secy.; H. E. Dodge, Treas.; Gus Mrkvicka, Asst. Treas.; E. D. Birchard and Fred M. Connell, Dirs. The head office is at Empire, and the mine address is Favourable Lake.

The property consists of 39 claims, approximately 1,566 acres, situated some 3½ miles east of South Trout Lake, which is 8 miles east of Favourable Lake, in the Patricia portion of Kenora district. The mine is reached by airplane from Kenora, via Red Lake, or direct from Lac du Bonnet, in Manitoba. Freight is transported by airplane, and in winter by tractor, from Berens River, Man., a distance of 145 miles. A 3½-mile tractor road serves the mine from the dock on South Trout Lake.

Former operators had sunk a vertical, 2-compartment shaft, 85 ft. deep, and an inclined, 2-compartment shaft, 210 ft. deep. A considerable amount of drifting and crosscutting had been done on levels at 85, 135 and 185 ft.

In the summer of 1938, the present company dewatered the mine, took samples, and made a survey. The workings were then allowed to fill to the first level, which was kept pumped while plans for further development work were being made.

W. Hichins was manager, employing an average of 5 men.

Central Patricia Gold Mines, Limited.

Central Patricia Gold Mines, Limited, was incorporated in 1931 with an authorized capitalization of 2,500,000 shares of $1 par value, all of which have been issued. The officers and directore are: F. M. Connell, Pres.; W. H. Connell, V-Pres.; Alan Cockeram, Secy.-Treas.; C. R. Elliott, Asst. Secy-Treas; A. B. Mortimer, G. B. Webster and L. Cohen, Dir. The head office and the mine office are at Central Patricia, and the administrative office is at 85 Richmond St. W., Toronto.

The property consists of 134 claims, totaling 5,551 acres, including the Central Patricia Mine and the Springer, or No. 2 Operation, in the Pickle-Crow area, in the Patricia portion of Kenora Dist. The mine is reached by airplane from Sioux Lookout or Hudson, on the main western line of the Canadian National Railways, to Pickle Lake and thence 3 miles by road to the mine. Freight is transported by water from Hudson over Lac Seul, up the Root River, across a marine railway to Lake St. Joseph, and then to Doghole Bay.

In 1938, a new contract with the Hydro-Electric Power Commission of Ontario was entered into, superseding the contract of Dec. 15, 1935. The new contract provides for the supplying of a minimum of 1,500 h.p. at $55 per h.p. per year for a period of 10 years, with certain provisions regarding price reductions should a larger amount of power be required. The power will be delivered late in 1939 over a new transmission line now being built from the Uchi Mine to the Central Patricia Mine.

A Canadian Ingersoll-Rand, single-drum sinking shaft hoist was installed, and the 3-compartment shaft was sunk a further 75 ft. About 410 ft. of raising was done.

An average of 30 men was employed. R. E. Barrett is mgr. and R. S. Macdonald is resident supt.

Cline Lake Gold Mines, Limited.

Cline Lake Gold Mines, Limited, was incorporated in Aug., 1936, with an authorized capitalization of 2,000,000 shares of $1 par value, of which 1,605,005 have been issued. The officers and directors are: J. A. O'Brien, Pres.; J. G. Dickenson, V-Pres. and Gen. Mgr.; H. A. Green, Secy-Treas.; Harold Dyment and P. A. Dyment, Dir. The executive office is at 900 Victoria Bldg., Ottawa. The head office and mine office are at Lochalsh.

The property consists of 59 claims, 2,551 acres, in Twp. 48, Goudreau area, Dist of Algoma.

Underground operations were continued throughout 1938. Stoping was begun on all levels. During the year 51 diamond-drill holes, totaling 4,389 ft., were drilled from underground.

Underground operations have been appreciably delayed from time to time by the encountering of seams carrying water under pressure, and indications to date are that the ore-bearing ground at Cline Lake Gold Mines is host to an unusually large number of such seams. Experience to date, however, is that as the workings get deeper the head of water lying in these seams is greatly reduced, thus freeing the upper levels as the workings progress downwards. Except for lost time, these water inflows are being readily and effectively controlled.

During the year, 15 houses were completed for the accommodation of employees and their families. A school district has been organized and temporary school accommodation provided at the mine settlement.

A. H. Hinton was mine mgr. until Oct., and was succeeded by M. J. O'Shaughnessy. J. C. Shoemaker is mill supt. An average of 129 men was employed.

Faulkenham Lake Gold Mines, Limited.
Faulkenham Lake Gold Mines, Limited, was incorporated in July, 1936, with an authorized capitalization of 3,500,000 shares of $1 par value, of which 3,000,000 have been issued. The officers and directors are: Colin A. Campbell, Pres.; E. K. Twombly, V.-Pres.; W. M. Gordon, Secy.-Treas.; E. P. Davis, T. C. Crea, and E. J. Knorl, Dir. The head office is at 10 Adelaide St. East, Toronto, and the mine address is Red Lake.

The company holds 14 claims, 585 acres, in Ball Twp. and 18 claims, 726 acres, in Baird Twp., and has a working option on 16 adjoining claims, known as the Starratt-Olsen group, in Baird Twp., Red Lake area, Patricia portion of Kenora district.

To date only surface exploration and diamond drilling have been done on the claims in Ball Twp.. and no work was done in 1938.

On the Baird Twp. group a shaft has been sunk to a depth of 344 ft., with levels at 125, 225, and 325 ft. No underground work was done on these claims in 1938, operations being confined to 2,629 ft. of diamond-drilling from surface.

A considerable amount of surface exploration and diamond-drilling had been done on the Starratt-Olsen claims by the Val D'Or Mineral Holdings, Limited. Under the terms of the option secured in the spring of 1938 the Faulkenham Company agreed to sink a shaft and do some development work, following which a new company is to be formed by arrangement between the two companies. In August the mining plant was moved from the original Baird Twp. claims and installed at the Starratt-Olsen property. The sinking of a 3-compartment, vertical shaft to an objective depth of 325 ft. was begun. At the end of the year the shaft had reached 220 ft. and a level had been established at 175 ft. During the year a total of 1,194 ft. of diamond-drilling was done from surface and 150 ft. from underground. The mining plant includes a 500 cu. ft. Ingersoll-Rand compressor; an 8- by 6-in., single-drum Ingersoll-Rand hoist; a 120 h.p. locomotive type boiler; a 70 h.p. Scotch marine type boiler; and a 40 h.p. vertical boiler.

The following new buildings were erected: 38 ft. head frame, hoist-house, boiler-house, dry-house, office, blacksmith shop, powder magazine, cookery, and bunk-house.

An average of 5 men was employed on the original group of claims from January to August and an average of 31 men on the Starratt-Olsen property from August to December. A. H. Hornsberger is manager.

Faymar Porcupine Gold Mines, Limited.
Faymar Porcupine Gold Mines, Limited, was incorporated in July, 1935, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 2,400,000 have been issued. Funds for the operation of the property were supplied by a deal with Polaris Gold Mines (Canada), Limited. The officers and directors are: Mark Harris, Pres.; H. S. Maynard, Secy.; J. C. Moons, Treas.; P. W. Seiler and Jerome Harris, Dirs. The head office and mine office are at Timmins.

The company holds 5 claims, H. R. 1,166-1,170, containing 175 acres, in Deloro Twp., Porcupine area, district of Cochrane.

Following a campaign of diamond-drilling, a mining plant was installed, and the sinking of a 3-compartment, vertical shaft, near the western boundary of claim H. R. 1,169, was commenced in the spring of 1938. The shaft was sunk to a depth of 382 ft., with levels at 225 and 350 ft., on which a total of 1,068 ft. of drifting, 1,617 ft. of crosscutting, and 156 ft. of raising were accomplished. The diamond-drilling done during the year amounted to 4,394 ft.

The mining plant includes an 8- by 12-in., Jenckes reversible hoist, manufactured by the Canadian Ingersoll-Rand Company, Limited; 750 cu. ft. Sullivan compressor; 120 h.p. Canadian Fairbanks-Morse Diesel engine; Robb Engineering Works steam engine; 50 h.p. locomotive-type boiler; marine-type boiler; 3 air receivers, 110 pounds capacity; 110-volt General Electric generator.

The following buildings have been erected: shaft-house, power-house, assay office, blacksmith shop, powder magazine, cap-house, carbide-house; oil house. core shed, dry-house, storehouse and garage, staff-house, residence, bunk-house, cookery, and outside refrigerator building.

Federal Kirkland Mining Company, Limited.

The Federal Kirkland Mining Company, was incorporated in September, 1927, with an authorized capitalization of 4,000,000 shares of $1 par value, of which 3,540,508 have been issued. The officers and directors are: Jas. E. Day, Pres.; F. L. Heard, Secy.-Treas.; R. R. Brown. Jas. Savage, Gordon F. Summers, S. J. Bird, and J. M. Macintosh, Directors. J. H. Botsford is Mine Manager. The head office is at 85 Richmond St. West, Toronto. The mine address is Kirkland Lake.

The property consists of 10 claims in Teck Twp., Kirkland Lake area, district of Timiskaming.

The shaft on the property is 740 ft. deep, and drifting and crosscutting have been done on the 200, 550, and 700 ft. levels. No development was done in 1938, but 3 diamond-drill holes, having a total length of 3,112 ft., were drilled from the 700 ft. level.

In December an agreement was completed with Toburn Gold Mines, Limited, and Kirkland Combined Mines, Limited, for the purpose of carrying on further exploration. The Kirkland Combined claims adjoin the Federal Kirkland Mine to the east, and the agreement provides for the combining of the two properties to form one long belt running along the north side of the Sylvanite, Toburn, and Continental Kirkland properties. A cross cut will be run from the 1,100 ft. level of the Toburn Mine through the Federal Kirkland property. Toburn Gold Mines, Limited, will do the work and, if the results of the exploration are satisfactory, will supply the funds necessary to develop and equip the property for production. An average of 8 men was employed for the first five months of the year.

The company owns 88.000 shares of Delnite Mines, Limited, and 200,000 shares of Brock Gold Mines, Limited, whose property adjoins the Upper Canada Mine on the West.

Genesee Mining Company, Ltd.

Incorporated in Ontario in 1915 and was located at 442 Powers Bldg., Rochester, N. Y. The company had a six-year lease on U. S. Claim, north of the North claim of the Chambers-Ferland, and a bond on Nancy Helen group, all in the Cobalt area, Ontario. Work was suspended in 1921 for lack of funds. The charter of Chambers-Ferland was cancelled in 1930. The file of the Genesee Mining Company, Ltd., was transferred to the dormant section. We found that some ore was found in the Nancy Helen group in 1923 but was closed in 1926. The Secretary of this group is R. E. Perry, Box 469, Kirkland Lake, Ont. We found no value to the stock of this company and therefore believe that the shares are without value.

Harkness Hays Gold Mining Company, Limited.

Incorporated in Ontario with a capitalization of 1,200,000 shares of capital stock. The assets of this company were sold to the Harkness Hays Gold Mines Limited and the stock was exchangeable on a share for share basis. The assets of the latter company were purchased by Kay-Hays Mines Limited for 1,000,000 shares of their stock. The capitalization of Harkness Hays Gold Mines Limited was 1,200,000 shares. This stock was to have been held in escrow by a trust company until released by the Ontario Securities Commission. The Ontario Securities Commission, located at Toronto, Ont., informed us as follows on November 3, 1939: "In reply to your letter of the first of November please be advised that none of the escrowed stock of the Kay-Hays Mines, Limited, has been released to date, and cannot be released until the company is adequately financed. Our most recent information with regard to the company indicates that an option agreement covering treasury stock has been extended for one year from the first of January, 1939. We suggest that you communicate with the company's solicitor, Alexander R. Cochrane, Esq., K. C., 1706 Sterling Tower, Toronto, or with the company's head office which, according to our most recent records, is Room 405, 11 King St., W., Toronto." We found no market for the stock at any price, and because of the fact that the company is still in the prospective stage, we do not believe the stock could be sold except as a speculation. If the company is not adequately financed the shares will be worthless. Under the circumstances, we would hesitate to place a value in excess of 1c per share at this time, and this value is merely speculative on the chances that the company may obtain sufficient capital to start operations.

Development: In the two principal vein zones the total footage of development drifting accomplished during the year amounted to 9,893 ft., of which 4,671 ft., or 47.2 per cent, were driven in ore having an average grade of 0.79 oz. per ton over an average width, before slashing, of 53.5 in.

In the south or No. 1 vein zone 3,589 ft. of drifting exposed 1,325 ft. of ore, averaging 1.04 oz. per ton over a width of 56.4 in. In the north vein zone 6,304 ft. of drifting produced 3,346 ft. of ore, having an average grade of 0.68 oz. per ton across an exposed width of 52.4 in.

In addition to further opening of the main veins in the lower levels, considerable exploration was done on subsidiary and branching fractures in both zones on various levels below the 800-ft. horizon, which accounts for the lower percentage of ore developed for the drifting done as compared with preceding periods. Much work of a similar nature remains to be accomplished. In the lowest level, at the 4,450-ft. horizon, the total drift advance of 3,278 ft. exposed 2,364 ft. of ore, having an average grade of 0.78 oz. per ton across an exposed width of 53 in. In the next period, development of the main veins and subsidiary fractures will be continued to a depth of 4,450 ft., and during the latter part of the year a start will be made on two new levels below the 4,450-ft. horizon.

Less drifting was done during the year than in the preceding two years, which were abnormal because of the fact that it was considered desirable to quickly open up a number of new levels in order to establish a stepp-rill system of stoping. This method of mining, made necessary by changing ground conditions, distributes the working places over a greater vertical extent and requires that development be carried further ahead of stoping operations.

Lakeside-Kirkland Gold Mines, Limited.

Lakeside-Kirkland Gold Mines, Limited, was incorporated in April, 1934, with a capitalization of 3,000,000 shares of $1 par value, of which 2,080,839 have been issued. E. B. Knapp, Pres.-Mgr. Dir.; C. H. Musselman, V.-Pres.; G. E. Eastman, Secy.-Treas.; V. M. Spiller, Asst. Treas.; David Gross, A. C. Wintermeyer, D. M. Briden, and Paul Mills, Dirs. The head office is at 23 College St., Kitchener. The mine address is Kirkland Lake.

The property consists of 7 claims in Lebel Twp., Kirkland Lake area, district of Timiskaming.

There are two shafts on the property. No. 1 shaft, which was sunk in 1923 by Queen Lebel Gold Mines, Limited, is 321 ft. deep, with levels at 200 and 300 ft. Several hundred ft. of drifting and crosscutting were done on these levels. No. 2 shaft was deepened to 575 ft. during 1938, and levels were established at 300 and 550 ft., on which about 240 ft. of crosscutting was done. Diamond-drilling amounted to 936 ft. drilled from surface, and 866 ft. drilled from underground. Operations were suspended on May 16, and at the end of July the mine was allowed to fill with water.

An average of 27 men was employed from January 1 to the end of May, under the direction of E. B. Knapp.

Lebel Oro Mines, Limited, which was incorporated in April, 1920, has an authorized capitalization of 3,500,000 shares of $1 par value, of which 3,390,929 have been issued. The officers and directors are: L. K. Fletcher, Pres.; E. H. Watt, V.-Pres.; A. B. Mortimer, Secy.-Treas.; E. J. Dwyer and R. E. Hoddinott, Directors. The head office is at 320 Bay St., Toronto. The mine address is Box 156, Sudbury.

The property includes the Long Lake Mine, located in Twp. 69, District of Sudbury.

The 2-compartment, vertical No. 2 shaft is 207 ft. deep, with levels at 80, 180, 265, and 345 ft. The only development work done during the year 1938 was the driving of a crosscut 68 ft. long on the 80-ft. level, to connect with No. 2 shaft and provide a means of access to the open pit, from which practically all of the ore for the mill is being obtained. A total of 32,850 tons of ore was broken and hoisted through No. 2 shaft. The 34,472 tons hoisted included some of the ore that had been broken in the pit at the end of 1937.

The mill treated 34,627 tons, operating at an average rate of 94.8 tons per day.

In October a new showing was discovered about half a mile from the pit, and diamond-drilling was commenced. At the end of the year 2,939 ft. of drilling had been accomplished.

Three new residences, an addition to the boiler-house, and a core-house were built.

R. P. Teare was manager, employing an average of 52 men, of whom 20 were in the mine and 12 in the mill.

Macassa Mines, Limited.

Macassa Mines, Limited, was incorporated in April, 1926, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 2,678,060 have been issued. The officers and directors are: Robert A. Bryce, Pres.; Thomas Riggs, V.-Pres.;

L. Soliague, Secy.-Treas.; H. M. Porteous, J. D. Perrin, A. G. Slaght, C. R. Leonard, and J. W. Flanagan, Directors. The head office is at 85 Richmond St., West, Toronto. The mine address is Kirkland Lake.

The property consists of 10 claims in Teck Twp., Kirkland Lake area, District of Timiskaming.

During 1938 the sinking of a new vertical, 3-compartment shaft, known as No. 2, was begun. The objective depth of the shaft is approximately 4,000 ft., of which 513 ft. was accomplished by the end of the year. A temporary timber headframe, 45 ft. high, a permanent tile and steel hoist-house, and a dry-house were erected at the new shaft. The new equipment includes a Canadian Ingersoll-Rand PG-1 hoist and an 1,850 cu. ft. Ingersoll-Rand VHE-2 air compressor. No. 1 winze, which is collared at the 3,000-ft. level, was deepened from the 3,350-ft. level to about 3,800 ft. An addition to the mill was built to house a new unit, which increased the mill capacity by about 200 tons.

The following is an extract from the report of the president for the twelve months ending December 31, 1938:

During the year covered by this report, four quarterly dividends of 5 cents per share, together with a bonus of 5 cents in the last quarter, were paid. These disbursements amounted to $669,517.00. This brings the total amount disbursed by the company since dividends were inaugurated in November, 1934, to the sum of $2,134,954.40.

Of the 250 men employed during the year, 153 were underground and 19 in the mill. G. A. Howe is Manager.

Mace Gold Mines, Limited.

Mace Gold Mines, Limited, which was incorporated in March, 1937, has an authorized capitalization of 5,000,000 shares of $1 par value, of which 2,200,005 have been issued. The officers and directors are: Andre Dorfman, Pres.; Balmer Neilly, V.-Pres.; E. D. Fox, Secy.-Treas.; J. Ingram and G. C. Andrews, Directors. The head office is at 15 King St., West, Toronto. The mine office address is Schumacher.

The property held by the company is in Tisdale Twp., Porcupine area, District of Cochrane, and consists of the Vipond Mine, comprising 11 claims and formerly owned by Anglo-Huronian, Limited, and the former property of Inspiration Gold Mines, Limited, consisting of 3 claims.

The Vipond Mine continued to operate throughout 1938. The mine is 1,450 ft. deep, with levels at 100, 200, 300, 400, 500, 677, 733, 866, 1,000, 1,200, and 1,450 ft. Underground development work during 1938 consisted of 1,194 ft. of drifting, 1,172 ft. of crosscutting, 211 ft. of raising, and 69 ft. of box-hole cutting. Eighteen diamond-drill holes, having a total length of 7,143 ft., were drilled from surface, and 140 holes, totalling 32,226 ft., were drilled from underground.

Operations were carried on on nearly all levels during the year. At the end of the year most of the ore was coming from the Vipond shaft area. A total of 61,980 tons was hoisted, and the mill treated 62,070 tons. On June 1 the hours of daily mill operation were cut from 24 to 8. This resulted in a decrease in monthly tonnage from 7,500 to 3,500 tons. The average rate of operation for the whole year was 170 tons per day, and from June 1 to the end of the year about 150 tons per day.

W. R. Adams was manager, employing an average of 115 men.

MacFarlane Consolidated Mines, Limited.

MacFarlane Consolidated Mines, Limited, which was incorporated in November, 1938, to succeed MacFarlane Long Lac Gold Mines, Limited, has an authorized capitalization of 3,500,000 shares of $1 par value, of which 1,186,807 have been issued. One million shares were paid for the property and were distributed among the shareholders of MacFarlane Long Lac Gold Mines, Limited, on a basis of one share of the new stock for four of the old. The officers and directors are: F. J. McFarlane, Pres. & Mgr. Dir.; M. L. Petry, V.-Pres.; W. G. Chipp. Secy.-Treas.; and W. B. Cummings, Director. The head office is at 36 Toronto St., Toronto. The mine address is Longlac.

The property consists of 9 claims on the east shore of Long Lake, at a point about 12 miles south of Longlac station on the Longlac-Port Arthur branch of the Canadian National Railways, District of Thunder Bay. The claim numbers are T. B. 13,003-13,011.

The vertical, 2-compartment shaft at this property was sunk to a depth of 145 ft. in 1937. Underground operations continued until April, 1938, and 80 ft. of drifting was completed on the 135-ft. level. Surface exploration consisted of 30 ft. of trenching 13 ft. deep. Between June 1 and the end of August, 22 diamond-drill holes, totaling 3,495 ft., were drilled from surface.

A blacksmith shop and compressor-house were built during the year, but the latter was destroyed by a storm.

An average of 11 men was employed under the direction of W. Jewitt.

Mattawan River Mining & Milling Co., Ltd.
Incorporated in Ontario in 1916. The Dept. of Mines, Toronto, Ont., informed us that they have no information regarding this company, except that the company's file was transferred to the dormant section in Jan., 1930. The Dept. of Mines also stated that it is reasonable to presume that the shares are now of no value. We searched our mining records back to 1916 and found no record of this company's operations. Therefore, it is our opinion that the company did not get to the development stage and the shares are without value.

The property, formerly the Hayden Mine, is situated 3½ miles due south of Timmins and consists of 16 claims, which lie on both sides of the Deloro-Ogden Twp. line, Porcupine area, Dist. of Cochrane.

Underground operations, which had ceased in Nov., 1937, were resumed in Feb., 1938, and continued to the end of the year. In the late summer the sinking of a 2-compartment winze in the carbonate ore zone was begun from the 700-ft. level to an objective depth of 850 ft. At the end of the year 124 ft. of sinking had been accomplished.

Diamond drilling amounted to 10 holes, totaling 8,150 ft., drilled from surface, and 45 holes, totaling 4,548 ft. drilled from underground. Some 22,890 tons of ore and waste were hoisted, and 10,339 tons of ore were milled.

During the first 8 months of the year plans were being made to increase the capacity of the mill to 150 tons a day, and milling operations consisted mainly of testing a number of flow-sheets in order to establish the most suitable process. The enlarged mill commenced operation in Nov. and operated for the rest of the year.

The equipment added to the mill included the following: Traylor TY gyratory crusher, double-deck Niagara vibrating screen, 4 Dodge conveyors, Akins classifier, Denver jig, Denver simplex pump, 3 Denver agitators, 2 thickeners, Denver ball mill, Canadian Allis-Chalmers SRL sand pump, Merrill-Crowe clarifier and vacuum tank. Perrin precipitation press, Gardner Denver 250 cu. ft. compressor, Fairbanks-Morse centrifugal pump, Canadian Allis-Chalmers DOR-BM centrifugal pump, 2 Babcock-Wilcox and Goldie-McCulloch sand pumps, 3½ k.v.a. English Electric generator, and a Wabi Rockwell-type single-chamber bullion furnace.

The following new plant equipment was installed: Canadian Ingersoll-Rand double-drum hoist, Sullivan double-drum winze hoist, new heating plant, and pressure system for supplying water to residence buildings.

A crusher house, conveyor house, lime house, storehouse, and boilerhouse were built during the year. Three buildings formerly used as camps and cookery were remodelled for use as staff residences and an office.

R. V. Neily was manager during the early part of the year, and was succeeded by Charles Ordway. After Mr. Ordway's death, I. M. Marshall became manager. An average of 72 men was employed during the year.

North Whitney Mines, Limited.

North Whitney Mines, Limited, was incorporated in July, 1936, with an authorized capitalization of 3,500,000 shares of no par value, of which 1,823,590 have been issued. The officers and directors are: Wm. B. Gunton, Pres.; F. G. Gardiner, V-Pres.; Wm. E. Smith, Secy.-Treas.; Charles N. Gray, S. G. Underhill, H. F. Parkinson, and H. A. Willis, Dir. The head office is at 330 Bay St., Toronto. The mine address is Pamour.

The property consists of 7 claims, 285 acres, in con. VI, Whitney Twp., Porcupine area, Dist. of Cochrane. It was operated some years ago by Keora Mines, Limited, and South Keora Mines, Limited.

The former operators sank 3 shafts on the property: No. 1, inclined at 60 deg., is 55 ft. deep; No. 2 is 110 ft. deep; and No. 3 is 250 ft. deep. A level was established from the bottom of each shaft, and considerable lateral work was done.

Between Feb. 1 and June 1, 1938, the present operators dewatered No. 1 and No. 2 shafts and made a geophysical survey. Development work accomplished during this period amounted to about 40 ft. of drifting on the 55-ft. level, and 140 ft. of drifting and 80 ft. of crosscutting on the 110-ft. Some 7,174 ft. of diamond drilling was done from underground. Following the cessation of operations, the mining plant was removed from the property.

A small office building and a 20-ft. timber headframe at No. 2 shaft were erected. A. O. Hall was mgr., employing 9 men.

North Woods Mining Company of Porcupine.

Incorporated in Delaware in 1912 and lost its charter in 1924. The company held 127 claims, 1,080 acres, in Tinsdale and Whitney Twps., Ont. The Bureau of Mines at Toronto, Ont., has no record of this company. We cannot locate the record of how the company lost its properties, nor any company that acquired them. We found no value to the stock. We did find the widow of A. J. Dunkle, a former officer of the company, located at 119 74th St., Brooklyn, N. Y. Telephone, Shore Road 5-2374.

Incorporated in Ontario, Canada, and according to their last annual statement of affairs on file, which is May 1, 1938, the company's address is shown to be 25 King St. W., Toronto, Ont., and the barristers who made application for the charter are Messrs. Blake, Lash and Company of the same address. Pres., Richard Palmer, 152 W. 65th St., N. Y. C.; Treas., S. L. Palmer, 152 W. 65th St., N. Y. C.; Directors, Powell Crichton, 152 W. 65th St., N. Y. C.; S. G. Crowell, 25 King St. W., 10 Balmoral Ave., Toronto, Canada. We received the following letter from J. W. Lanceley, Secy. to Mr. Miller Lash: "The situation in connection with the Palmer-Paine Mines, Ltd., as I understand it, is that the company's mining lease has been kept alive but the development work has been in abeyance for many years, probably owing to the lack of interest in silver prospects on account of the low price of silver. There have been no transactions in the shares for years and they could not be said to have any market value." (9/12/1938.)

Pickle Crow Gold Mines, Limited.

Pickle Crow Gold Mines, Limited, was incorporated in January, 1934, with an authorized capitalization of 3,000,000 shares of $1 par value, all of which have been issued. The officers and directors are: J. E. Hammell, Pres.; Robert Fennell, V-Pres. and Secy.-Treas.; John Bland, Asst. Secy.-Treas.; Mrs. Eola Hammell and B. H. Budgeon, Dir. The head office is at 25 King St. W., Toronto, and the mine address is Pickle Crow.

The property consists of 59 claims, totaling 2,537 acres, in the Pickle-Crow area, in the Patricia portion of Kenora Dist. It may be reached by airplane from Hudson or Sioux Lookout on the main western line of the Canadian National Railways, to Pickle Lake, and from there over a 9-mile gravel road. Supplies are taken in by water from Hudson over Lac Seul, up the Root River, across a marine railway to Lake St. Joseph, and thence to Doghole Bay. A 30-mile truck road runs from Doghole Bay to the mine.

During 1938, the shaft was sunk a further 310 ft. to a total depth of 1,995 ft., and stations were cut at 1,800 and 1,950 ft.

During 1938, additions to the camp and plant buildings included a carpenter shop, chlorinating building, boiler room, two bunkhouses, and extensions to the dry house, shaft house, dining room, kitchen, and bakery. A Canadian Ingersoll-Rand centrifugal pump, capacity 125 gals. per minute, and a 125 h.p. Leonard boiler were added to the plant equipment.

During the year, the average number of men employed daily was 289, distributed as follows: mine, 201; mill, 20; surface and general, 68. A. G. Hattie is manager.

Pirate Gold Mines, Limited.

Pirate Gold Mines, Limited, was incorporated in April, 1938, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 500,000 shares have been issued. The officers and directors are: Frank Hall, Pres.; E. L. McKinnon, Secy.-Treas.; L. P. Wood, V-Pres.; G. M. Grant Smith and H. T. Hooper, Directors. The head office is at 347 Bay St., Toronto. The mine address is Shiningtree.

The company holds 10 claims, 600 acres, in Macmurchy Twp., West Shiningtree area, district of Sudbury, including the former Shiningtree and Kingston properties. It also has options to purchase several other claims.

There are shafts on both the Kingston and Shiningtree claims, sunk by previous operators to depths of 114 and 100 ft., respectively, with a small amount of drifting on the 100-ft. level on each property.

At the end of October, 1938, general repairs to the plant were begun. During the last week of December, 15 men were employed underground in the Kingston mine and had done 15 feet of drifting by the end of the month.

The work was done under the direction of Dan Dubriy, foreman.

Planet Gold Mines, Limited.

Planet Gold Mines, Limited, was incorporated in Jan., 1937, with an authorized capitalization of 2,000,000 shares of $1 par value, which was increased to 3,000,000 shares in May, 1937. The officers and directors are: H. J. Mollenberg, Pres.; R. E. Smith, V-Pres.; J. M. Baird, Secy.-Treas.; E. J. Hart and F. J. Smith, Dir. The head office is at 9 Adelaide St. E., Toronto. The mine address is Atikokan.

The company acquired the property of Rebair Gold Syndicate, consisting of 15 claims, situated 5 miles north of Atikokan, in Freeborn Twp., Dist. of Rainy River.

Considerable surface exploration work had been done by Rebair Gold Syndicate when the present owners acquired the property. During the spring and summer of 1938, some 500 ft. of surface-trenching was done, and 7 diamond-drill holes, totaling 790 ft., were drilled. A vertical, 2-compartment shaft was begun and had reached a depth of 42 ft. when operations were suspended.

Buildings erected during 1938 included a headframe 42 ft. high, a powder house, a small building for storing fuse and caps, and an addition to the blacksmith shop.

The plant used to sink the shaft consisted of a 250 cu. ft. Ingersoll-Rand portable gas compressor and a hand windlass.

L. W. Reed was mgr, employing 5 men.

Tashota Goldfields, Ltd.
Incorporated: 1932, Ont., to acquire Tashota Gold Mines, Ltd., for $15,000 cash and 900,000 Tashota Goldfields shares. Following this, Tashota Gold Mines, Ltd., changed its name to Kowkash Holdings, Ltd. The charter of Kowkash was surrendered in December 1936, and the Tashota Goldfields shares were distributed to Kowkash shareholders on the basis of 3 Tashota Goldfields shares for each 10 Kowkash held and a cash distribution of 1/10th cent per Kowkash share was made. Transfer Agent, Montreal Trust Co., Toronto, Can. We received the following letter from H. H. Vaughan, 1111 Beaver Hall Hill, Montreal, Can., dated Sept. 26, 1939. "I have your letter of September 22nd and regret to advise you that Tashota Goldfields Limited has been in the hands of a Liquidator in Bankruptcy for the last eighteen months. The Trustee is Mr. K. Lem. Carter, c/o McDonald, Currie & Co., 69 Yonge St., Toronto, Ont., Canada. There has been a proposition to resuscitate the business and I believe some others have also been discussed, but as yet the Trustee has been unable to obtain any satisfactory proposition, which is most unfortunate. I regret to say that there is no better news to

give you but if you require any further information would recommend your writing to Mr. Carter." The property of Tashota Goldfields, Ltd., consists of 10 patented and 7 unpatented claims, 642 acres, Thunder Bay district, Ont.

Theresa Gold Mines, Limited.

Theresa Gold Mines, Limited, was incorporated in April, 1938, with an authorized capitalization of 2,000,000 shares of $1 par value, of which 1,057,642 have been issued. A. Caouette, Pres.-Mgr.; A. Gagnon, V.-Pres.; Gaston Vincent, Secy.-Treas.; M. Halle, M. Caouette, Dirs. The head office address is Kapuskasing, and the mine address is Longlac.

The company acquired from A. Caouette a group of 15 claims, approximately 600 acres, formerly optioned by the N. A. Timmins Corporation. The property is situated on the west side of the Making Ground River, about 7½ miles south and slightly east of Longlac, and is contiguous to the south boundary line of the Martin Falls Indian Reserve. It is accessible by water, via the river, in the summer, and in winter may be reached by road through the reserve from the siding at mileage 96.7 on the Caramat subdivision of the Canadian National Railways.

A total of 7,868 ft. of diamond-drilling from surface has also been done on the property.

The present company began operations on April 1, 1938. The following new plant and camp buildings were erected: mill, bunk-house, cookery, 4 houses, dry-house, and an addition to the head-frame. A 6- by 10-in. reversible steam hoist, a Chicago Pneumatic 310-cu.-ft. compressor, and a small test mill consisting of a 12-ton Gibson ball mill and a 25-ton amalgamation unit were installed. The mill commenced operation on June 1 and continued until September 30, treating ore from the dump and from the first level, where 15 ft. of raising was done.

At the end of the year a new mining plant was installed, and preparations were made to sink a shaft on the east shore of the Making Ground River, about half a mile west of No. 2 shaft.

An average of 15 men are employed.

Tionaga Gold Mines, Limited, 704 Lonsdale Bldg., Duluth, Minn., Mr. W. F. Ferris, Treas., of the above address informed us on May 8, 1941, that the company permanently terminated its operations early in 1939, relinquished its mining claims except to temporarily protect surface rights on which some equipment was stored. The company has disposed of practically all of its assest of value.

Toburn Gold Mines, Limited.

Toburn Gold Mines, Limited, was incorporated in January, 1931, with a capitalization of 2,000,000 shares of no par value, of which 1,850,000 have been issued. The officers and directors are: H. A. Guess, Pres.; R. F. Goodwin, V.-Pres.; J. C. Emison, Treas.; G. A. Brockington, Secy.; A. W. Holmested and S. C. Guess, Directors. M. W. Hotchkin is manager. The head office is at 1809 Royal Bank Bldg., Toronto. The mine office is at Kirkland Lake.

The property, formerly called the Tough-Oakes Burnside, consists of 10 claims, 343 acres, in Teck and Lebel Twps., Kirkland Lake area, District of Timiskaming. An average of 198 men were employed during 1938.

The following is taken from the annual report of the president for the year ending December 31, 1938:

The report of your manager, Mr. M. W. Hotchkin, upon the development and operation of your company's property during the year ending December 31, 1938, follows:

"A total of 8,146 lin. ft., of underground development was done in 1938, compared with 10,048 ft. in 1937. This development consisted of 4,609 ft. of drifting, 435 ft. of sublevel drifting, 1,293 ft. of raising, 1,399 ft. of crosscutting, and 410 ft. of slashing. Of the total development 2,748 ft. were in ore, breaknig 8,853 tons, averaging 0.58 oz. gold per ton.

"Approximately 74% of the total development was confined to the 542-, 667-, 792-, and 1,090-ft. levels. During the year 1938, 50 diamond-drill holes were completed, aggregating 9,135 ft., compared with 54 holes, aggregating 7,857.5 ft. in 1937.

"The salient results of the 1938 development were: (1) locating and developing the downward extension of the 425-drift vein in the 608-drift at the 667-ft. level; (2) locating the downward continuation of the 419-drift vein on the 542-ft. level and development thereof by the 574 and 575-drifts; (3) locating and developing the upward continuation of the 696-697-drift vein, in the 569 drift, on the 542-ft. level, and the downward continuation, which was located at the 800-ft. level on a branch of the 820-drift vein.

"The centralization of work in other parts of the mine during 1938 made it inconvenient to completely explore by diamond-drilling the area mentioned in last year's report on the A-400-ft. level, along the 419-drift, east, in the vicinity of the high-grade surface showing. It is contemplated to complete this work during the coming year.

"Plans were formulated in the latter part of 1938 to rehabilitate the internal shaft from the 1,090-ft. level to the 1,850-ft. level, and to install adequate equipment for sinking and developing deeper horizons.

"Production figures for 1938, compared with those of the year 1937, are:

Year	Tons milled	Average ounces gold per ton	Ounces fine gold produced	Percentage mill recovery
1937...........	37,465	0.729	26,243	96.10
1938...........	52,434	.625	31,553	96.25

"The estimated ore reserves, broken and unbroken at December 31, 1938, were 149,050 tons, averaging 0.58 oz. gold per ton, compared with 151,850 tons, averaging 0.57 oz. gold per ton, at December 31, 1937. Due to some dilution in actual mining, this tonnage may be somewhat increased, with a corresponding decrease in grade. It is apparent, therefore, that 49,634 tons of new ore were found and opened up by the 1938 development."

Earnings for the year 1938, after deducting administration and taxes, but before deduction of $54,172.19 depreciation and depletion, were $483,845.35.

Continental Kirkland Mines, Limited.

During 1938 exploration and development work was continued upon the above property under the option arrangement whereby treasury shares at 20 cents per share were acquired for expenditures made, this option being held to the extent of one-third each by your company, Premier Gold Mining Company, Limited, and American Smelting and Refining Company, and toward the end of 1938 the option was extended for a further 2-year period, namely, until December 5, 1940.

A total of 2,418 ft. of underground development was done upon the strong quartz zone opened up in 1937 both upon the 800-ft. level in its northwestern area and also upon the 925-ft. sublevel opened up by winze therefrom. The results continued to be merely tantalizing in that while an abundance of good-looking quartz was opened up, it was entirely of non-commercial value, the assays being from 60 cents or so to about $2.50, other than for a few high assays occasionally encountered.

Also a total of 6,778 ft. of underground diamond-drilling was done. One of these holes was put down vertically from the 800-ft. level near the winze to see whether better values occurred in the quartz at a depth of 500 ft. below the level and 375 ft. below the winze level, but although a large amount of quartz was cut, the same low assays were obtained. Another hole has been started vertically to cut this zone at a depth of 1,700 ft., or 900 ft. below the 800-ft. level. It is contemplated having a geophysical survey made early in 1939 to more clearly define this quartz zone and possibly other zones upon the property that might be worth investigation by diamond-drilling.

It is also possible that at some later date, should operations in your company's property be carried on at a depth of 2,000 ft. or more with workings toward the east, that a drift therefrom into Continental Kirkland ground might be advisable for exploratory purposes in the hope of finding upon such deeper horizon commercial ore bodies.

As of December 31, 1938, your company's share of the expenditures upon the above property was $81,673.23, for which it received 408,333 shares of Continental Kirkland Mines, Limited.

Beaverhouse Lake Gold Mines, Limited (Former Argonaut Mine).

In February, 1938, your company took from Premier Gold Mining Company, Limited, an assignment of a 30% interest in the agreement that Premier entered into on January 1, 1938, with respect to the above company. Under this agreement Premier and your company acquired for expenditures upon the property, treasury shares of the above company at 20 cents per share and if they continued with the agreement to its completion, they would have thus acquired 1,500,000 shares, or one-half the then total issued shares.

Unwatering of the old mine was begun in the spring of 1938 and the 200-ft. and 350-ft. levels were opened up and sampled, and various drifting, crosscutting, and diamond-drilling done thereon under the direction of your company's manager. This work showed, as per your manager's summary, on the 200-ft. level an aggregate length of 260 ft. for four shoots of ore of approximately 4 ft. width and approximately 0.35 oz. gold per ton, and on the 350-ft. level an aggregate length of 438 ft. for six shoots of ore of approximately 4 ft. with and approximately 0.52 oz. gold per ton. But at the close of 1938 the management of your company and of Premier decided that the mine would at best be likely to support a production of too small a tonnage to be particularly attractive, and the agreement upon the property was relinquished, the actual relinquishment taking effect as of January 19, 1939. Your company and Premier retain the shares acquired for work done. Up until December 31, 1938, your company's share of the expenditures was $18,480.00, representing 92,400 shares.

Minesta Mines, Limited.

Under date of September 16, 1938, your company executed an agreement with Minesta Mines, Limited, whereunder it took over by working contract of fifty years duration the above property (31 claims in Godfrey Twp., District of Cochrane). Briefly the salient terms are that if and when the property is upon a producing and profitable basis, Toburn applies all the first profits to the reimbursement of all of its outlays with interest thereon at 6% per annum, and thereafter profits are divided: 85% to Toburn; 15% to Minesta.

The ground had been previously geophysically surveyed, outlining porphyry areas and sediments, and some diamond-drilling is now in progress upon the chance that in this structure, which is somewhat similar to that of the Porcupine camp to the northeast, an ore body may be found. Nothing has as yet been found by drilling above an assay, for a narrow streak or two, of 0.06 oz. gold per ton. Toburn can drop the agreement at any time.

Mineral Estates, Limited.

Under date of November 24, 1938, Toburn executed an agreement with the above company upon the above properties (41 claims in Bristol Twp., and 14 claims in Ogden Twp., District of Cochrane), similar in its terms to those of Minesta, given above, and is at present having a geophysical survey made thereon, to see whether favorable shear zones may be thus disclosed, which would justify investigation by diamond-drilling and otherwise.

Federal Kirkland Mining Company, Limited; Kirkland Combined Mines, Limited.

Under date of December 29, 1938, Toburn executed a tri-party agreement with the above companies, whereunder it took over under a fifty-year operating contract the thirteen claims and a fraction owned by the two above companies, which form a fringe along the northern boundary of the Sylvanite, Toburn, and Continental Kirkland properties at Kirkland Lake. The payment consideration for the fifty-year contract was $28,000.00 for Federal Kirkland's nine claims and a fraction, and $9,000.00 for Kirkland Combined's four claims.

Toburn then started a crosscut north from its 1,100-ft. level toward its north boundary and will continue it into the Federal Kirkland claims and if a north break is found, which seems a fair possibility, will drift thereon and otherwise develop it, and will spend in these and related matters a minimum of $7,500.00 over each three months' period. A geophysical survey is also started to trace the contacts of the porphyry and to disclose any breaks, shear zones, etc., as a guide in connection with the above-mentioned work.

If and when the properties are upon a producing and profitable basis, all profits are to be applied to the reimbursement of Toburn for all of its outlays and expenditures, except the $37,000.00 payment consideration, together with interest thereon at 5% per annum and after Toburn has been thus fully reimbursed, including that of working capital, profits shall be divided 70% to Toburn; 22½% to Federal Kirkland; 7½% to Kirkland Combined. Toburn can relinquish the agreement at any time.

Tombill Gold Mines, Limited.

Tombill Gold Mines, Limited, was incorporated in October, 1935, with an authorized capitalization of 1,000,000 shares of $1 par value, all of which have been issued. The officers and directors are: Percey E. Hopkins, Pres.; Fred Searls, Jr., 1st. V.-Pres.; Carroll Searls, 2nd V.-Pres.; A. W. Burt, Secy.; Henry E. Dodge, Treas.; Gus Mrkvicka, Asst. Secy. & Asst. Treas.; T. A. Johnson, W. R. G. Johnson, and C. H. Ellis, Directors. The head office is at Empire and the Toronto office is at 908 Royal Bank Bldg. The mine office is at Geraldton.

The property consists of 6 claims, 240 acres, located immediately west of the property of Bankfield Gold Mines, Limited, in Lindsley and Errington Twps., Little Long Lac area, District of Thunder Bay.

Mining continued throughout 1938. The 100 ton mill began operation on February 1. In August the mill capacity was increased to 150 tons by the addition of a cyanide unit. The following is the main equipment now used in the mill; a 7- by 4-ft. Hardinge ball mill in closed circuit with a unit Sub-A flotation cell; a 2-compartment Denver jig; a 48-in. Dorr duplex classifier; twelve Denver Sub-A flotation cells; two Sub-A cells used as cleaners; a 12- by 5-ft. Dorr thickener; a 4- by 4-ft. concentrate regrind ball mill in closed circuit with a 16-in. Akins classifier, with corduroy blanket tables between the ball mill and classifier. The overflow from the Akins classifier goes to a cyanide circuit consisting of two Pachuca tanks, a 6- by 16-ft. Dorr thickener, two 10- by 8-ft. Denver Wallis-type agitators; a 6- by 16-ft. Dorr thickener, and an Oliver drum filter from which the pulp is repulped and sent to the tailings. The tails from the main flotation plant flow over corduroy blankets in parallel with those following the regrind ball mill, and the concentrate from the blankets goes to the amalgam barrel.

Arthur Kendall is mine manager, and J. A. Pike is mine superintendent. An average of 65 men was employed during the year, of whom 30 were in the mine and 10 in the mill.

Trout Creek Gold Mining Company, Limited.

The Trout Creek Gold Mining Company, Limited, was incorporated in November, 1927, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 1,613,672 have been issued. The officers and directors are: Albert Cox, Pres.; C. M. A. Strathy, V.-Pres.; John Price, Secy.-Treas.; G. A. Robertson and Walter Carlson, Directors. The head office address is Bank of Commerce Bldg., St. Catharines. The mine address is c/o E. H. Orser, Suite 2, David Bldg., Kirkland Lake.

The property consists of 4 claims in Teck Twp., Kirkland Lake area, District of Timiskaming. Several years ago a vertical, 2-compartment shaft was sunk to a depth of 76 ft., where a level was established and some 90 ft. of drifting and 98 ft. of crosscutting were done.

In July, 1938, the workings were dewatered and examined, but no development work was done. One diamond-drill hole, 1,000 ft. in length, was drilled from surface. The new equipment which was purchased, consisting of an air receiver, two hoists, a cage, and various smaller items, was not put into service. Operations ceased in September.

E. H. Orser was manager, employing an average of 3 men during the period of operation.

Property: Tyrrell & Knight Twps., Gowganda, Ont., consisting of 9 claims, 356 acres.

Development: Shaft to 825 level.

Equipment: 225 ton mill, flot. and cyan.

Production: 1940 9½ months ending March 31st, 1940: $282,371.04.

Uchi Gold Mines, Limited.

Uchi Gold Mines, Limited, was incorporated in January, 1937, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 2,500,000 have been issued. The officers and directors are: J. E. Hammell, Pres.; Robt. Fennell, V.-Pres. & Secy.-Treas.; John Bland, Asst. Secy.; Mrs. Eola Hammell, B. H. Budgeon, and A. G. Hattie, Directors. The head office is at 25 King St., West, Toronto. The mine address is Uchi Lake.

The property, consisting of 29 claims, 1,200 acres, is located half way between Lost Bay of Confederation Lake and Uchi Lake in Earngey Twp., Patricia portion of the District of Kenora. It may be reached by airplane from Sioux Lookout or Hudson on the main western line of the Canadian National Railways. These claims were originally known as the MacAulay group.

New buildings constructed included the following: a temporary wooden headframe; an electrical shop; a switching station; a 120- by 26-ft. cookery, with a 40- by 48-ft. kitchen attached; three 2-story bunk-houses, 26 by 90 ft.; and a staff-house. A power line from the hydro plant at Ear Falls, 43 miles away, was built.

In July a new vertical, 4-compartment shaft was collared, 800 ft. south of the original shaft. Sinking under power began on October 18, and at the end of the year a depth of 226 ft. had been reached and a connection made with the old workings at 100 ft. The present objective depth of the shaft is 1,000 ft. Levels to connect with the older workings will also be cut at 300, 450, and 600 ft.

An average of 122 men was employed, 40 of whom were in the mine. R. H. Sturgess is manager.

Universal Exploration Co. (1937), Ltd., Toronto, Can.

Acquired assets of Universal Exploration Syndicate, Ltd., consisting of 134 acres in Gorham Twp., and 129,070 shares in Geraldton Long Lac Gold Mines, for 180,930 treasury shares. In 1938 acquired 9 claims in Thunder Bay district, Ont.

Upper Canada Mines, Limited.

Upper Canada Mines, Limited, was incorporated in 1936 with an authorized capitalization of 2,500,000 shares of $1 par value. In April, 1938, the capitalization was increased to 3,500,000 shares of $1 par value, of which 2,849,009 had been issued at December 31, 1938. The officers and directors are: R. R. Brown, Pres.; T. J. Day, V.-Pres.; Wm. Gagladery, Secy.-Treas.; H. S. Crabtree and H. E. Martin, Directors. The head office is at 80 Richmond St., West, Toronto. The mine office is at Kirkland Lake.

The property consists of 19 claims in Gauthier Twp., Kirkland Lake area, District of Timiskaming.

No. 1 shaft was slashed to make a third compartment from surface to the 500-ft. level. Underground development work consisted of 2,567 ft. of drifting, 638 ft. of crosscutting, and 275 ft. of raising. Forty-two diamond-drill holes, totaling 2,915 ft. in length, were drilled from underground. Some 6,424 tons of ore and 8,188 tons of waste were hoisted during the year.

A six-month lease of the 125 ton mill at the Morris Kirkland Mine was obtained, and the mill was operated from November 1 to December 31. A total of 6,270 tons of ore was treated. The ore is taken by truck from the Upper Canada Mine to the mill, a distance of 5 miles. Plans for the erection of a 125 ton mill on the company's own property were under way at the end of the year.

New buildings constructed during 1938 included switch-house, hoist- and compressor-house, combination office, storehouse, and dry-house, shaft-house, headframe, boiler-room, pump-house, core-house, and garage. The assay office was rebuilt.

A 1,500 cu. ft. Alley and MacLellan compressor, with a 300 h.p. motor, and a 36- by 42-in. Ingersoll-Rand hoist were added to the plant equipment The mining plant was completely electrified. Power is delivered to three 300 k.v.a., 25-cycle transformers.

An average of 66 men was employed during the year. C. W. Tully and J. A. W. Brown were successively in charge of operations.

Upper Seine Gold Mines, Limited.

Upper Seine Gold Mines, Limited, was incorporated in April, 1937, to succeed the Upper Seine Gold Syndicate. The authorized capitalization is 3,000,000 shares of $1 par value, of which 1,358,955 have been issued. The officers and directors are: Wm. L. Doyle, Pres. & Gen. Mgr.; W. L. Anderson, V.-Pres.; C. A. Mills, Secy.-Treas.; Dr. E. A. Dolson, Dir. The head office is at 156 Yonge St., Toronto. The mine address is Atikokan.

The property consists of 11 claims, 560 acres, located on Sawbill Lake in the Upper Seine area, District of Rainy River. It may be reached by water in the summer, and in the winter by a 27-mile road north of Atikokan on the Port Arthur-Fort Frances branch of the Canadian National Railways. It includes the old Sawbill Mine, which produced gold in the nineties. The underground work accomplished by the operators at that time includes a vertical shaft to a depth of 240 ft., with a total of 935 ft. of lateral work. About 200 ft. south of No. 1 shaft is a sceond vertical shaft, which is connected to the lateral workings from No. 1 shaft on the 50-ft. level. On the 240-ft. level, north of No. 1 shaft, a winze was sunk to a further depth of 50 ft. Stoping was carried on north and south of No. 1 shaft on the 50- and 100-ft. levels.

In 1936 and 1937 the present operators carried on surface exploration work and did some diamond-drilling from surface. In September, 1937, dewatering of the old workings was begun.

During the first six months of 1938 some 320 ft. of drifting was done on the third level, and 500 ft. of surface-trenching, 4 ft. deep, was accomplished. Mining operations were suspended in June.

The 50 ton amalgamation mill, formerly in use at the property of Hudson-Patricia Gold Mines, Limited, was purchased and was installed during the second half of the year. The equipment includes a Blake 15- by 9-in. jaw crusher, Allis-Chalmers 5- by 5-ft. ball mill, Denver 12- by 18-in. jig, and Dorr 3- by 18-ft. rake classifier, corduroy blankets, and amalgam plates.

Additional equipment bought during 1938 included a Ruston and Hornsby Diesel engine, and a 30 h.p. Allis-Chalmers caterpillar tractor.

The following buildings were erected: mill, blacksmith shop, magazine, cap-house, cook-house, ice-house, office, and an addition to the boiler-house.

W. N. McClintock was superintendent, employing an average of 13 men.

Virita Porcupine Gold Mines, Limited.

Virita Porcupine Gold Mines, Limited, was incorporated in July, 1936, with an authorized capitalization of 3,000,000 shares of $1 par value, of which 1,720,505 have been issued. The officers and directors are: G. E. Buchanan, Pres.; V. R. MacMillan, Secy.-Treas.; R. M. Elliot, Geo. A. MacMillan, and G. W. Lee, Directors. The head office is at 1705 Royal Bank Bldg., Tor. The mine address is South Porcupine.

The property consists of 11 claims, approximately 440 acres, in Whitney Twp., Porcupina area, District of Cochrane.

Operations were carried on during part of 1938. The company reports that a shaft was sunk to a depth of 55 ft., and that 60 ft. of drifting was done. Fifteen diamond-drill holes, totalling 307 ft. in length, are also reported to have been drilled from surface. Operations were suspended before the end of the year.

G. A. MacMillan was manager, employing an average of 5 men during the period of operation.

Voges, L. A.

Orelia Mines, Limited, was incorporated in October, 1936, with an authorized capitalization of 3,000,000 shares of $1 par value, to succeed Golden Star Consolidated, Limited, and Golden Star Mining Syndicate. Shareholders of the former received one new share for each old share and unitholders of the latter received thirteen new shares per unit. W. P. Ryan, president; R. H. Wilson, V.-Pres.; Samuel Ciglen, Secy.-Treas.; Wilfred Leeson, C. O'Loughlin, Dirs. The head office is at 427 Spadina Ave., Toronto. The mine address is Mine Centre.

The property consists of 8 claims, 397 acres, on the south shore of the northeast arm of Bad Vermilion Lake, about 2 miles south of Mine Centre on the Fort Frances branch of the Canadian National Railways. It includes the old Golden Star Mine and 5 adjoining claims purchased from Seine River Mines, Limited.

On the Golden Star claims there is a shaft 480 ft. deep, with considerable lateral development on six levels, accomplished by former operators prior to the year 1900. In 1934, the mine was dewatered and sampled and some ore from surface dumps was milled. No underground work has been done by the present owners. In 1937, the old buildings and the mill were repaired and some 200 tons of tailings were treated. No recovery was obtained, owing to the inadequacy of the mill.

On June 1, 1938, the property was leased to L. A. Voges, who made changes in the mill circuit and treated 250 tons of mill tailings between June 1 and July 22. A ton of concentrates shipped to Flin Flon yielded 2.95 oz. of gold and 1.17 oz. of silver. Later in the summer 280 tons of tailings and 80 tons of ore from an open cut near the old Golden Star shaft were treated. From this operation 3.357 oz. of gold and 2.34 oz. of silver were obtained.

Three men were employed between June 1 and September 30. The property was idle at the end of the year.

Property: Consists of the north half of lots Nos. 46 and 47, Range 9, the south ½ of Lots 38 to 43, incl., Range 10, and Lots 44 and 45, Range 10, all in the Twp. of Desmeloizes, Abitibi Co., Que., approx. 13 miles north of Dupuy, Que. In 1938, the company acquired 7 unpatented claims adjoining this property. The company has built its own standard gauge tramway from the mine to Dupuy, which is on the Canadian National Railway.
Employees: Average 250.
Development: Property has 2 shafts: No. 1 a 2-compartment to 300-ft. level, and No. 2 a 3-compartment to 950-ft. level. No. 3 shaft was completed to 2,000 ft. by connecting with the winze which ran from the 800-ft. to the 1,400-ft. levels and sinking an additional 600 ft. Four new levels are being opened up below 1,400-ft. level. Development work has encountered 5 principal ore bodies, all of which contain varying percentages of copper, zinc, gold and silver.
Equipment: The property is equipped with a complete mining plant and a mill of 500 tons daily capacity. Production was commenced on Sept. 18, 1937, with a mill capacity of 250 tons. This was increased to 500 tons by June 30, 1938. A zinc stacker was installed and a copper conc. loading shed built during 1938. Electric power is supplied by La Sarre Power Co., supplemented by Diesel engines.
